I. Any person having custody of a child may apply to the school board for relief if the person thinks the attendance of the child at the school to which such child has been assigned will result in a manifest educational hardship to the child. If the person having custody of the child is aggrieved by the decision of the school board, the person may appeal to the state board of education, and the state board of education, after investigating the case and giving notice to the school board, may order such child to attend another school in the same district, if such a school is available, or to attend school in another district. In case the child is assigned to attend school in another district, the district in which such child resides shall pay tuition computed as provided in RSA 193:4 to the district in which such child attends. The state board of education may also permit such child to withdraw from school attendance for such time as it may deem necessary or proper or may make such other orders with respect to the attendance of such child at school as in its judgment the circumstances require. Children with disabilities as defined in RSA 186–C:2 shall be accorded a due process review pursuant to rules adopted under RSA 186–C:16.

II. The state board of education shall adopt rules pursuant to RSA 541–A, relative to manifest educational hardship and related issues which affect a child's attendance at school. Each school district shall establish a policy, consistent with the state board's rules, which shall allow a school board, with the recommendation of the superintendent, to take appropriate action including, but not limited to, assignment to a public school in another district when manifest educational hardship is shown.

III. (a) Each school board shall establish a change of school assignment policy, based on the best interest of the pupil and requiring a vote of the school board to reassign a pupil from the public school to which he or she is currently assigned to another public school, or to approve a request from another superintendent to accept a transfer of a pupil from a school district that is not part of the school administrative unit, provided that the following conditions are met:

(1) The pupil's parent or legal guardian petitions the superintendent for a change of school assignment or consents to the superintendent's recommendation for such a change; and

(2) The superintendent determines that such a change would be in the pupil's best interest; and

(3) The school board of each school district involved in the reassignment of the pupil votes to approve the reassignment; and

(4) The total reassignments or transfers in any one school year shall not exceed one percent of the average daily membership in residence of a school district, or 5 percent of the average daily membership in residence of any single school, whichever is greater, unless the school board votes to exceed this limit.

(b) In accordance with the number of pupils authorized in this paragraph, a superintendent may recommend reassignment of a pupil:

(1) To another school within the same school district; or

(2) To another school district within the same school administrative unit; or

(3) To a school district in another school administrative unit, subject to the pupil meeting the admission requirements of such school, and subject to the agreement of the superintendent of the receiving school administrative unit and the approval of the school boards of each school district.

(c) A pupil reassigned under this paragraph shall be counted in the average daily membership in residence of the pupil's resident school district. The pupil's resident district shall forward any tuition payment due to the district to which the pupil was reassigned.

(d) The superintendents involved in the reassignment of a pupil shall jointly establish a tuition rate for each such pupil. Some or all of the tuition may be waived by the superintendent of the receiving district for the good cause shown or pursuant to school board policy of the receiving district. The cost of transportation shall be the responsibility of the parent or legal guardian.

(e) The superintendent of the pupil's resident school administrative unit shall notify the department of education within 30 days of any reassignment of pupils under this paragraph.

(f) Nothing in this paragraph shall alter or impair the right of a child with a disability, as defined in RSA 186–C:2, to be accorded a due process review pursuant to rules adopted under RSA 186–C:16.

(g) Notwithstanding RSA 21–N:11, III, for the purposes of this paragraph, the decision of the superintendent shall be final.

IV. (a) Any person having custody of a child may apply to enroll that child in a public school or public academy outside the school district in which the person and child reside. If the non-resident school district or public academy agrees to enroll the child it may charge tuition to the parent or may enter into an agreement for payment of tuition with the school district in which the child resides.

(b) When a child is enrolled pursuant to subparagraph (a), the district in which the child is enrolled shall immediately notify the district in which the child resides of the name, date of birth, address, and grade assignment of the child. This same notification shall be made at the beginning of each school year for which the child is enrolled.

(c) When a child is enrolled pursuant to subparagraph (a), the district in which the child resides shall retain all responsibility for the provision of special education and related services pursuant to RSA 186–C.

(d) The decision by a school district or a public academy to deny enrollment of a non-resident pupil shall not be based, in whole or in part, on whether such pupil is a child with a disability as defined in RSA 186–C:2, I, or a child that requires an accommodation under the Rehabilitation Act of 1973, as amended.

(e) The decision of a parent to enroll a child in a charter school shall not be subject to the provisions of this section.

(f) Disputes related to the provision of special education services under this paragraph shall be governed by RSA 186–C.

V. A placement made by a child's special education team pursuant to that child's individualized education program shall not be deemed a change of school assignment for purposes of this section.

VI. If there is no public school for the child's grade in the resident district, the school board may assign the child to another public school in another school district or to any nonsectarian private school that has been approved as a school tuition program by the school board. The school board may execute a contract with an approved nonsectarian private school to provide for the education of a child who resides in the school district, and may raise and appropriate money for the purposes of the contract, if the school district does not have a public school at the pupil's grade level and the school board decides it is in the best interest of the pupil.

VII. In this section, "approved as a school tuition program" means a school that has been approved and contracted by the school board to provide students with the opportunity to acquire an adequate education as defined in RSA 193–E:2. Upon approval by the school board, the school shall receive status as an approved school tuition program, shall be deemed in compliance with the provisions of RSA 193–E:3–b, I(a) and (b), and shall qualify as a school approved to provide the opportunity for an adequate education. The school shall be required to submit to the school board an annual student performance progress report in a format selected by the school board, which may include reporting of aggregate achievement data to protect student privacy, and that demonstrates that students are afforded educational opportunities that are substantially equal in quality to state performance standards for determining an adequate education. A private school that receives tuition program students shall:

(a) Comply with statutes and regulations relating to agency approvals such as health, fire safety, and sanitation;

(b) Be a nonsectarian school;

(c) Be incorporated under the laws of New Hampshire or the United States; and

(d) Administer an annual assessment in reading and language arts, mathematics, and science as defined in RSA 193–C:6 to tuition program students. The assessment may be any nationally recognized standardized assessment used to measure student academic achievement, shall be aligned to the school's academic standards, and shall satisfy the requirements of RSA 193–C:6 for school tuition program students. The school's annual assessment results for tuition program students shall be submitted to the commissioner and school board. If the school enrolls 10 or more publicly-funded tuition program students and if the school's group assessment percentile score for tuition program students is less than the 40th percentile, the commissioner may require a site visit to determine if the school provides the opportunity for an adequate education in accordance with RSA 193–E:3–b. After the third consecutive year of a tuition program school being unable to demonstrate that it provides an opportunity for an adequate education, the school may be subject to revocation of tuition program status.

193:3–a Classroom Placement of Twins or Other Multiples.

I. No school board shall adopt a policy of automatically separating or placing together twins or other multiples. In this section, "multiples" means triplets or more.

II. A parent or guardian of twins or other multiples in elementary school may, no later than 60 days before the first day of each school year or upon registration in the case of children enrolling in a new school, request that the twins or multiples be placed in the same classroom or in separate classrooms. This request shall be granted unless the principal, after meeting with the parents or guardians and after careful consideration of the reasons for their recommendation and of the best interests of their children and other children in the school affected by this decision, decides that a different placement is necessary.

III. This section is not intended to limit a parent's or guardian's right to appeal.

193:4 District Liability for Elementary or Junior High School Tuition. Any district shall pay for the tuition of any pupil who, as a resident of the district, has been assigned to attend a public elementary or junior high school or school of corresponding grade in another district or a nonsectarian private school approved as a school tuition program by the school board pursuant to RSA 193:3, VII, and any district not maintaining an elementary or junior high school or school of corresponding grade shall pay for the tuition of any pupil who, as a resident of the district, is determined to be entitled to have such tuition paid by the district where the pupil resides, and who attends an approved public elementary or junior high school or public school of corresponding grade in another district, or a nonsectarian private school approved as a school tuition program by the school board pursuant to RSA 193:3, VII. Except under contract, the liability of any school district under this section for the tuition of any pupil shall be the current expenses of operation of the receiving district for its elementary or junior high school or public school of corresponding grade, as estimated by the state board of education for the preceding school year. This current expense of operation shall include all costs except costs of transportation of pupils.

193:4–a Tuition Liability; Dual Enrollment. 193:5 Exemption From Attendance. Whenever it shall appear to the superintendent of schools that the welfare of any child will be best served by the withdrawal of such child from school, the superintendent or a majority of the members of the school board shall make recommendation to the commissioner of education, who shall, if the facts warrant it, make an order exempting such child from attendance for such period of time as seems best for the interest of such child.

193:12 Legal Residence Required.

I. Notwithstanding any other provision of law, no person shall attend school, or send a pupil to the school, in any district of which the pupil is not a legal resident, without the consent of the district or of the school board except as otherwise provided in this section or in RSA 193:28.

II. For purposes of this section, the legal residence of a pupil shall be as follows:

(a) In the case of a minor, legal residence is where his or her parents reside, except that:

(1) If the parents live apart and are not divorced, legal residence is the residence of the parent with whom the child resides.

(2)(A) In a divorce decree where parents are awarded joint decision making responsibility or joint legal custody, the legal residence of a minor child is the residence of the parent with whom the child resides. In a divorce decree, or parenting plan developed pursuant to RSA 461–A, a child's legal residence for school attendance purposes may be the school district in which either parent resides, provided the parents agree in writing to the district the child will attend and each parent furnishes a copy of the agreement to the school district in which the parent resides. The parents shall update their parenting plan to reflect this agreement. If a parent is awarded sole or primary residential responsibility or physical custody by a court of competent jurisdiction in this or any other state, legal residence of a minor child is the residence of the parent who has sole or primary residential responsibility or physical custody. If the parent with sole or primary physical custody lives outside the state of New Hampshire, the pupil does not have residence in New Hampshire. If the court order is for equal or approximately equal periods of residential responsibility, the child's legal residence for school attendance purposes shall be as stated in the order. If a child is in a court-ordered residential placement, foster home, or group home pursuant to RSA 169–B, RSA 169–C, RSA 169–D, RSA 170–C, or RSA 463, residence shall be determined in accordance with RSA 193:28.

(B) Nothing in this subparagraph shall require a school district to provide transportation for a child to another school in the school district in which the child resides, or beyond the designated attendance area for the school to which the child is assigned, or beyond the geographical limits of the school district in which the child resides.

(3) If the minor is in the custody of a legal guardian appointed by a New Hampshire court of competent jurisdiction or a court of competent jurisdiction in another state, territory, or country, legal residence is where the guardian resides. If the department of health and human services has been appointed legal guardian, the residence of the minor is where the child is placed by the department or the court. Legal guardianship shall not be appointed solely for the purpose of allowing a pupil to attend school in a district other than the district of residence of the minor's parent or parents. Whenever a petition for guardianship or legal custody is filed in a court of competent jurisdiction on behalf of a relative of a child, other than a parent, the child shall be permitted to attend school in the district in which the relative of the child resides pending a court determination relative to custody or guardianship.

(b) No minor placed in a home for children or health care facility, as defined in RSA 193:27, by another state which charges the state of New Hampshire, a political subdivision of the state of New Hampshire, or a New Hampshire school district, for the regular or special education costs for New Hampshire children placed in that state, shall be deemed a legal resident for purposes of school assignment, unless the sending state agrees to reimburse the receiving district, as defined in RSA 193:27, for regular education and special education costs.

(c)(1) If a parent with legal custody of a child moves from New Hampshire to another state while the child is in a court-ordered residential placement in this state or another state pursuant to RSA 169–B, RSA 169–C, RSA 169–D, RSA 170–C, or RSA 463, the departments of education and

health and human services shall make a written request of the receiving state to assume the programmatic and financial liability of the child's placement in this state or another state until physical custody of the child is returned to a parent or legal guardian. In this subparagraph, "receiving state" shall mean the state to which the child's parents move.

(2) If the receiving state refuses to accept financial liability, the departments of education and health and human services shall enter into an agreement to provide the child with general and special education and residential services until legal custody of the child is returned to a parent or legal guardian.

III. For the purposes of this title, "legal resident" of a school district means a natural person who is domiciled in the school district and who, if temporarily absent, demonstrates an intent to maintain a principal dwelling place in the school district indefinitely and to return there, coupled with an act or acts consistent with that intent. A married person may have a domicile independent of the domicile of his or her spouse. If a person removes to another town with the intention of remaining there indefinitely, that person shall be considered to have lost residence in the town in which the person originally resided even though the person intends to return at some future time. A person may have only one legal residence at a given time.

IV. The term "homeless children and youths" means individuals who lack a fixed, regular, and adequate nighttime residence, and shall include the following:

(a) Children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement.

(b) Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings.

(c) Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.

(d) Migratory children, as defined in 20 U.S.C. 6399 who qualify as homeless because such children are living in circumstances as described in subparagraphs (a)–(c).

V. Except as provided in subparagraph II(b), nothing in this section shall limit or abridge the right of any child placed and cared for in any home for children, as defined in RSA 193:27, or of any child placed in the home of a relative of that child by the department of health and human services, or placed in the home of a relative or friend by a court pursuant to RSA 169–B, RSA 169–C, RSA 169–D, RSA 170–C, or RSA 463, to attend the public schools of the school district in which the home for children or home of the relative or friend in which a child is placed by the department of health and human services or by a court of competent jurisdiction is located, as provided in RSA 193:28.

V–a. Whenever a parent or guardian voluntarily places a child with a relative at the recommendation or request of the department of health and human services, that child shall be permitted to attend the public schools of the school district in which that relative resides provided that:

(a) Upon request of the school district, the department of health and human services shall confirm that the department recommended or requested that the child be placed with the relative to promote the child's well being, and not for the purpose of allowing the child to attend school in the district where the relative resides; and

(b) Upon request of the school district, the relative shall take reasonable steps to secure a court award of guardianship over the child, the child being allowed to attend school in that district while the relative seeks guardianship.

V–b. Whenever a dispute arises among one or more school districts, the department of health and human services, or one or more of the previously mentioned parties, as to the residency of a child who is in the legal custody or guardianship of the department of health and human services, or who has been placed pursuant to a court order in a proceeding under RSA 169–B, RSA 169–C, RSA 169–D, or RSA 463, the department of health and human services shall request in writing that the superintendents involved resolve the dispute. If the residency dispute remains unresolved 10 days after such request, the department of health and human services shall request that the commissioner of the department of education determine the residence of the child. The child shall be permitted to attend school in the district in which the child has been placed by the court or the department of health and human services pending the resolution of the residency dispute. Lia-

bility as to the cost of school attendance provided under this paragraph shall be determined by the commissioner of education.

VI. (a) The commissioner of the department of education, or designee, shall decide residency issues for all pupils, excluding homeless children and youths, in accordance with this section. If more than one school district is involved in a residency dispute, or the parents who live apart cannot agree on the residence of a minor child, the respective superintendents shall jointly make such decision. In those instances when an agreement cannot be reached, the commissioner of the department of education, or designee, shall make a determination within 30 days of notice of the residency dispute and such determination shall be final. If the unresolved residency dispute has resulted in an interruption of educational or related services, or such an interruption is likely to occur if the determination cannot be made before the expiration of 30 days, the determination shall be made within 14 days. With the agreement of the school districts involved and of the minor child's parent or legal representative, the time for determination of the residency dispute may be extended. Residency disputes may be submitted to the commissioner for determination by a school district involved in a dispute. In cases where the failure to resolve a residency dispute has resulted in or is likely to result in the interruption of educational or related services, a minor child's parent or legal representative may submit a residency dispute for determination to the commissioner. In all cases, all parties with an interest in the dispute shall be notified of the pendency of the proceedings, shall have an opportunity to review all information provided to the commissioner, and shall have an opportunity to present facts and legal arguments to the commissioner. The commissioner's decision, including a written explanation for that decision, shall be provided to the parties of record and a copy of such explanation shall be kept on file by the department of education. No school district shall deny a pupil attendance or implementation of an existing individualized education program.

(b) A pupil shall remain in attendance in the pupil's school of origin during the pendency of a determination of residency. If a child does not have a school of origin within this state, the child shall be immediately admitted to the school in which enrollment is sought pending determination of the residency dispute, provided such school is in the school district in which the child temporarily resides. For the purpose of this paragraph, "school of origin" means the school the child attended when permanently housed or the school in which the child was last enrolled.

(c) Notwithstanding the provisions of RSA 21–N:11, III any person aggrieved by a determination of the commissioner may appeal such determination to a court of competent jurisdiction.

VII. Nothing in this section shall require a district to provide transportation for a student beyond the geographical limits of that district.

VIII. Each school district shall adopt an admission and attendance of non-resident students policy.

IX. The commissioner of education may enter into agreements with other states relative to liability for educational costs, including special education costs, of students placed in New Hampshire by those states, or of students placed outside the state of New Hampshire.

X. For the purpose of determining liability for a child placed and cared for in any home for children or health care facility, the provisions of RSA 193:29 shall apply.

193:13 Suspension and Expulsion of Pupils.

I. (a) The superintendent or chief administering officer, or a representative designated in writing by the superintendent, is authorized to suspend pupils from school for a period not to exceed 10 school days for gross misconduct or for neglect or refusal to conform to the reasonable rules of the school and shall make educational assignments available to the suspended pupil during the period of suspension.

(b) The school board or a representative designated in writing of the school board is authorized, following a hearing, to continue the suspension of a pupil for a period in excess of 10 school days. The school board's designee may be the superintendent or any other individual, but may not be the individual who suspended the pupil for the first 10 days under subparagraph (a). Any suspension shall be valid throughout the school districts of the state, subject to modification by the superintendent of the school district in which the pupil seeks to enroll.

(c) Any suspension in excess of 10 school days imposed under subparagraph (b) by any person other than the school board is appealable to the school board, provided that the superintendent re-

ceived such appeal in writing within 10 days after the issuance of the decision being appealed. The school board shall hold a hearing on the appeal, but shall have discretion to hear evidence or to rely upon the record of a hearing conducted under subparagraph (b). The suspension under subparagraph (b) shall be enforced while that appeal is pending, unless the school board stays the suspension while the appeal is pending.

II. Any pupil may be expelled from school by the local school board for gross misconduct, or for neglect or refusal to conform to the reasonable rules of the school, or for an act of theft, destruction, or violence as defined in RSA 193–D:1, or for possession of a pellet or BB gun, rifle, or paint ball gun, and the pupil shall not attend school until restored by the local board. Any expulsion shall be subject to review if requested prior to the start of each school year and further, any parent or guardian has the right to appeal any such expulsion by the local board to the state board of education. Any expulsion shall be valid throughout the school districts of the state.

III. Any pupil who brings or possesses a firearm as defined in section 921 of Title 18 of the United States Code in a safe school zone as defined in RSA 193–D:1 without written authorization from the superintendent or designee shall be expelled from school by the local school board for a period of not less than 12 months.

IV. The local school board shall adopt a policy which allows the superintendent or chief administering officer to modify the expulsion requirements set forth in paragraphs II and III on a case by case basis.

V. Any pupil expelled by a local school board under the provisions of the Gun-Free Schools Act of 1994 shall not be eligible to enroll in another school district in New Hampshire for the period of such expulsion. Nothing in this section shall be construed to prevent the local school district that expelled the student from providing educational services to such students in an alternative setting.

VI. A pupil expelled from school in another state under the provisions of the Gun-Free Schools Act of 1994 shall not be eligible to enroll in a school district in New Hampshire for the period of such expulsion.

VII. For purposes of paragraphs I, II, and III, school board may be either the school board or a subcommittee of the board duly authorized by the school board.

children; child care agency as defined by RSA 170–E:25, II and III; or any residential school approved under RSA 186:11, XXIX.

II. "Health care facility" means any hospital, nursing home, sheltered home, or other institution licensed under RSA 151.

For the purposes of this paragraph a parent shall not have legal custody if legal custody has been awarded to some other individual or agency, even if that parent retains residual parental rights. An award of legal custody by a court of competent jurisdiction, in this state or in any other state, shall determine legal custody under this paragraph.

I. The public schools of the school district that the child attended prior to placement, if continuing in the same school district is in the best interest of the child as determined by the court, if the home is within a reasonable distance of the school to be attended, and if suitable transportation can be arranged without imposing additional transportation costs on a school district or the department of health and human services; or

II. The public schools of the school district in which said home is located, unless such placement was solely for the purpose of enabling a child residing outside said district to attend such schools, provided that the school district for a child placed in a group home, as defined in RSA 170–E:25, II(b), within a cooperative school district, shall be the cooperative school district, not the pre-existing district within the cooperative.

(b) For a child attending a public school to which the receiving district as defined in RSA 193:27 shall pay tuition under an AREA or other contractual agreement, the sending district as defined in RSA 193:27 is liable for all costs which said receiving district must pay under that agreement.

(c) If a child is assigned to an out-of-district special education program, the sending district is liable for all costs under RSA 186–C.

II. Actual fiscal liability under paragraph I commences upon enactment of this statute. However, the determination of liability as applied in paragraph I refers to children placed in a home for children or health care facility prior to as well as subsequent to enactment.

III. If the receiving district receives any state or federal aid for educating a child in any home for children or health care facility, including but not limited to aid for foster children under RSA 198:23, that amount shall be deducted from the liability of the sending district for that child.

IV. The agency responsible for placing the child shall inform the sending and receiving districts of

where the child presently resides and where the child last resided before placement in a home for children, health care facility, or state institution or where the parent of the child resides if the child is in the legal custody of a parent who resides within the state.

V. The cooperative school district, not the preexisting district, shall be liable for the cost associated with the education of children placed in a group home, as defined in RSA 170–E:25, II(b), within such cooperative school district provided, however, that the provisions of RSA 193:29, I(a) shall apply to children receiving special education.

Parents as Teachers Program

193:34 Policy and Purposes.

I. This act recognizes the importance of the early childhood years upon children's brain development. Given appropriate stimulation, babies develop critical cognitive and social skills from birth to age 3. These early years provide a window of opportunity to enrich a child's cognitive and social development. The least intrusive and most successful way to impact early childhood experiences is to educate parents as to how they can best teach their children. Studies have shown that parents who are trained as to how to interact with their children can help their children enter school ready to learn and are more likely to stay involved with their child's educational process throughout the school years.

II. The Parents as Teachers Program was established in 1981 and has a presence in 49 states, including New Hampshire. The New Hampshire program is operated at 8 sites in New Hampshire by the Parent Information Center with funds from Goals 2000. The Parents as Teachers Program creates a

partnership between parents and early childhood development professionals. Early childhood development professionals conduct monthly home visits and group meetings to help parents understand what to expect from their children in each stage of development and to teach parents how to encourage learning, manage challenging behavior and strengthen parent-child relationships.

III. The purpose of this subdivision is to expand the Parents as Teachers Program in New Hampshire by developing 2 school district based programs, one of which shall be in a rural community and one in an urban community.

Source. 2000, 140:1, eff. May 15, 2000.

193:35 Parents as Teachers Program Established.

I. The department of education shall establish the school district based Parents as Teachers Program for a rural community in Sullivan county in cooperation with School Administrative Unit 6 and the Parent Information Center. Sullivan county will be the rural site for the program because of its unique demographic profile, including the high number of risk factors affecting its children, the demonstrated interest of its public officials in the program, and the capacity to link the program to existing programs within the county including Good Beginnings, the Parent Information Center, and department of education programs in Sullivan county. The department shall use the following criteria to measure the effectiveness of the program:

(a) Whether the pilot program was implemented according to the criteria established by the Parents as Teachers National Center.

(b) The number of families served, the number of contacts with each family, and family profile information for the families served, including the percentages of families served by town.

(c) The total cost and the cost per family for the program.

(d) The number of children identified with Parents as Teachers participants that were identified as having developmental delays who have received services during the pilot program to address these delays.

(e) The number of children identified with Parents as Teachers participants who were, during the pilot program, the subject of a founded report of abuse or neglect pursuant to RSA 169–C.

(f) The results of 3–year–old developmental screening for all children of appropriate age identified with Parents as Teachers participants.

(g) The level of parental participant knowledge and achievement including, but not limited to high school equivalency completion, employment, and volunteerism.

II. The department shall, consistent with available funding and the expressed commitment of an urban community, establish a school district based Parents as Teachers Program in an urban community on or before January 1, 2002.

III. The programs established by this subdivision shall serve parents of children aged birth through 3 years of age. The programs shall utilize at least ½ of the appropriated funds to serve areas with high concentrations of low income families in order to serve parents who are educationally or economically disadvantaged.

CHAPTER 193–C

STATEWIDE EDUCATION IMPROVEMENT AND ASSESSMENT PROGRAM

193–C:1 Statement of Purpose.

I. Improvement and accountability in education are of primary concern to all of the citizens of New Hampshire. A well-educated populace is essential for the maintenance of democracy, the continued growth of our economy, and the encouragement of personal enrichment and development.

II. A statewide education improvement and assessment program built upon the establishment of academic standards specifying what students should know and be able to do is an important element in educational improvement. Such a program also serves as an effective measure of accountability and student performance when the assessment exercises or tasks are valid and appropriate representations of the knowledge and skills that students are expected to achieve.

III. Widespread participation in the establishment of a statewide education improvement and assessment program is essential. Consultation with educators at all levels, business people, government officials, community representatives, and parents must occur in the development of academic standards. In turn, widespread dissemination of those standards, once established, must occur. Teachers, administrators, and school board members must be fully apprised of these state-developed standards. They must, in turn, communicate these expectations to students and parents, and find and implement methods to enable students to acquire and apply the requisite knowledge and skills.

IV. In addition, the assessment results must be reported to students, parents, teachers, administrators, school board members, and to all other citizens of New Hampshire in order that informed decisions can be made concerning curriculum, in-service education, instructional improvement, teacher training, resource allocation, and staffing.

V. [Repealed.]

VI. The purpose of the statewide education improvement and assessment program is not to establish a statewide curriculum. It is, rather, to establish what New Hampshire students should know and be able to do and to develop and implement effective methods for assessing that learning and its application so that local decisions about curriculum development and delivery can be made.

193–C:2 Definitions. In this chapter:

I. "Commissioner" means the commissioner of the department of education.

II. "Committee" means the legislative oversight committee established to review the statewide education improvement and assessment program.

III. "Department" means the department of education.

IV. "Program" means the New Hampshire statewide education improvement and assessment program.

Source. 1993, 290:2, eff. June 22, 1993.

193–C:3 Program Established; Goals. There is established within the department of education a statewide education improvement and assessment program. The commissioner shall develop and implement this program in conjunction with the state board of education and the legislative oversight committee. In carrying out this program, the commissioner shall consult widely with educators at all levels, business people, government officials, community representatives, and parents.

I. The aims of this program shall be to:

(a) Define what students should know and be able to do.

(b) Develop and implement methods for assessing that learning and its application.

(c) Report assessment results to all citizens of New Hampshire.

(d) Help to provide accountability at all levels.

(e) Use the results, at both the state and local levels, to improve instruction and advance student learning.

II. Since the program is not a minimum competency testing program, assessment instruments should be designed to reflect the range of learning exhibited by students. The assessment portion of the program shall consist of a variety of assessment tasks which can be objectively scored. The assessment instruments shall include, but not be limited to:

(a) Constructed response items which require students to produce answers to questions rather than to select from an array of possible answers.

(b) A writing sample.

(c) Other open-ended performance tasks.

III. The following criteria shall be used in the development of the program:

(a) Academic standards specifying what students should know and be able to do shall be clearly defined before assessment procedures and exercises are developed.

(b) The assessment exercises or tasks shall be valid and appropriate representations of the academic standards the students are expected to achieve.

(c) At each grade level assessed, the standards and expectations shall be the same for every New Hampshire student.

(d) Teachers shall be involved in designing and using the assessment system.

(e) Assessment frameworks and reports shall be understandable and widely disseminated to parents, teachers, administrators, other school personnel, school board members, teacher preparation programs, business people, government officials, and community members.

(f) The assessment system shall be subject to continuous review and improvement.

IV. The assessment system shall generate data which may be used:

(a) At the student level, by students, parents, and teachers, to determine what the student knows and is able to do in relationship to the state-established academic standards.

(b) At the classroom and school building levels, to monitor student progress and to enhance learning.

(c) At the district level, to measure school and district-wide progress toward meeting goals and outcomes, to revise curriculum, to design in-service education programs, and to improve instruction.

(d) At the state level, to measure what students know and are able to do in relation to the attainment of goals and outcomes from the assessment frameworks, and to report the results to the citizens of New Hampshire.

(e) At the state level, to target services to schools, improve existing programs, develop new initiatives, and revise standards for school improvement, teacher certification, etc.

(f) At the college level, to integrate into teacher preparation programs instruction in state-established standards, techniques for enhancing student learning in these areas, and the use of assessment results to improve instruction.

(g) At all levels, to correlate, to the extent possible, with national goals and international standards.

(h) At all levels, to provide a basis for accountability.

(i) At the end of grade 3, to determine if pupils are at grade level in reading and mathematics on a standardized test to be developed by the department or an authorized, locally-administered assessment developed in consultation with the department, as part of a statewide assessment program, and to provide differentiated aid to schools pursuant to RSA 198:40–a for pupils not proficient on the reading component of the statewide or locally-administered assessment.

(j) At the school, district, and state levels, to provide performance reports on specific subgroups of pupils as required by federal law.

193–C:4 Rulemaking. The state board of education shall adopt rules, pursuant to RSA 541–A, relative to the exemption of certain students from participation in the program. Nothing in this section shall be construed to limit the ability of the state board of education to adopt rules pursuant to the authority granted by the general court.

Source. 1993, 290:2, eff. June 22, 1993.

193–C:5 Areas of Assessment. The statewide academic areas to be assessed shall include reading

and language arts, mathematics, and science. History, geography, civics, and economics remain required critical areas of study. Therefore, assessment of these subjects remains within the purview of the local school board. The statewide assessment program shall only measure student understanding of key content-specific concepts, skills, and knowledge applied within or across academic content domains.

193–C:6 Assessment Required. A statewide assessment shall be administered in all school districts in the state once in an elementary school grade, once in a middle school grade, and one grade in high school. For those years in grades 3 through 8 in which the school district does not administer the statewide assessment, the school district, in consultation with the department and as part of the statewide education improvement and assessment program, shall develop and administer its own assessment or shall administer a standardized assessment that identifies a pupil's range of learning and yields objective data to use in improving instruction and learning. All public school students in the designated grades shall participate in the assessment, unless such student is exempted, or provided that the commissioner of the department of education may, through an agreement with another state when such state and New Hampshire are parties to an interstate agreement, allow pupils to participate in that state's assessment program as an alternative to the assessment required under this chapter. Home educated students may contact their local school districts if they wish to participate in the statewide assessment. Private schools may contact the department of education to participate in the statewide assessment. The department may use the College Board SAT or ACT college readiness assessment to satisfy the high school assessment requirements of this chapter. The statewide assessment results of a student or the student's school district shall not be included as part of the student's transcript unless the student, if 18 years of age or older, or the student's parent or legal guardian if the student is under 18 years of age, consents.

CHAPTER 193–E

ADEQUATE PUBLIC EDUCATION

193–E:1 Policy and Purpose.

I. It is the policy of the state of New Hampshire that public elementary and secondary education shall provide all students with the opportunity to acquire the knowledge and skills necessary to prepare them for successful participation in the social, economic, scientific, technological, and political systems of a free government, now and in the years to come; an education that is consistent with the minimum standards for public school approval, the state-established academic standards, and school district or school curriculum.

II. Respecting New Hampshire's long tradition of community involvement, it is the purpose of this chapter to ensure that appropriate means are established to provide an adequate education through an integrated system of shared responsibility between state and local government. In this system, the state establishes minimum standards for public school approval and academic standards for inclusion and delivery of educational services at the local level. School districts then have responsibility and flexibility in implementing diverse educational approaches to instruction and curriculum tailored to meet student needs.

193–E:2–a Substantive Educational Content of an Adequate Education.

I. Beginning in the school year 2008–2009, the specific criteria and substantive educational program that deliver the opportunity for an adequate education shall be defined and identified as the school approval standards in the following areas:

(a) English/language arts and reading.

(b) Mathematics.

(c) Science.

(d) Social studies.

(e) Arts education.

(f) World languages.

(g) Health education.

(h) Physical education.

(i) Technology education, and information and communication technologies.

II. The standards shall cover kindergarten through twelfth grade and shall clearly set forth the opportunities to acquire the communication, analytical and research skills and competencies, as well as the substantive knowledge expected to be possessed by students at the various grade levels, including the credit requirement necessary to earn a high school diploma.

III. Public schools and public academies shall adhere to the standards identified in paragraph I.

IV. (a) The minimum standards for public school approval for the areas identified in paragraph I shall constitute the opportunity for the delivery of an adequate education. The general court shall periodically, but not less frequently than every 10 years, review, revise, and update, as necessary, the minimum standards identified in paragraph I and shall ensure that the high quality of the minimum standards for public school approval in each area of education identified in paragraph I is maintained. Changes made by the board of education to the school approval standards through rulemaking after the effective date of this section shall not be included within the standards that constitute the opportunity for the delivery of an adequate education without prior adoption by the general court. The board of education shall provide written notice to the speaker of the house of representatives, the president of the senate, and the chairs of the house and senate education committees of any changes to the school approval standards adopted pursuant to RSA 541–A.

(b) Neither the department of education nor the state board of education shall by statute or rule require that the common core standards developed jointly by the National Governors Association and the Council of Chief State School Officers be implemented in any school or school district in this state. If the local school board elects not to implement the common core standards or the common core state standards adopted by the state board pursuant to RSA 541–A, the local school board shall determine, approve, and implement alternative academic standards.

(c) On or after the effective date of this subparagraph, the state board of education shall not amend any existing academic standards and shall not approve any new academic standards without prior review and recommendation of the legislative oversight committee established in RSA 193–C:7.

(d) In this paragraph, "academic standards" shall have the same meaning as in RSA 193–E:2–a, VI(b).

V. The general court requires the state board of education and the department of education to insti-

tute procedures for maintaining, updating, improving, and refining the minimum standards for public school approval for each area of education identified in paragraph I. Each school district shall be responsible for maintaining, updating, improving, and refining curriculum. The curriculum shall present educational goals, broad pedagogical approaches and strategies for assisting students in the development of the skills, competencies, and knowledge called for by the minimum standards for public school approval for each area of education identified in paragraph I. It is the responsibility of local teachers, administrators, and school boards to identify and implement approaches best suited for the students in their communities to acquire the skills and knowledge included in the curriculum, to determine the scope, organization, and sequence of course offerings, and to choose the methods of instruction, the activities, and the materials to be used.

VI. In this section:

(a) "Minimum standards for public school approval" mean the applicable criteria that public schools and public academies shall meet in order to be an approved school, as adopted by the state board of education through administrative rules.

(b) "Academic standards" mean what a student should know and be able to do at each grade level.

(c) "Curriculum" means the lessons and academic content taught in school or in a specific course or program.

193–E:2–b Cost of an Adequate Education.

I. The general court shall use the definition of the opportunity for an adequate education in RSA 193–E:2–a to determine the resources necessary to provide essential programs, considering educational needs. The general court shall make an initial determination of the necessary specific resource elements to be included in the opportunity for an adequate education.

II. The general court shall create a process for the periodic determination of the specific resource elements essential to providing the substantive educational content of an adequate education. This review should occur no less frequently than every 10 years.

(b) Identify performance criteria and measurements.

(c) Establish performance goals and the relative weights assigned to those goals.

(d) Establish the basis, taking into account the totality of the performance measurements, for determining whether the opportunity for an adequate education exists, which may include the assignment of a value for performance on each measurement.

(e) Ensure the integrity, accuracy, and validity of the performance methodology as a means of establishing that a school provided the opportunity for an adequate education as defined in RSA 193–E:2–a.

III. The task force shall develop a performance-based scoring system using only the best available data and indicators which are already provided to the department and/or performance measures that schools are already required to provide the department under other state or federal law. In establishing the performance-based system, the task force may consider one or more of the following data and indicators:

(a) Performance on state assessments administered pursuant to RSA 193–C and, upon the prior approval of the department, other assessments administered at local option that are consistent with the state's academic standards.

(b) Number and percentage of pupils participating in an advanced placement course.

(c) Number and percentage of graduating pupils going on to post-secondary education and military service.

(d) Attendance rates.

IV. No later than April 1, 2010, the task force shall submit an interim report of its findings and recommendations for future legislation for the performance-based accountability system to the chairpersons of the house and senate education committees, the speaker of the house of representatives, and the senate president. After the interim report is reviewed by the house and senate education committees, the department shall verify the integrity, accuracy, and validity of the performance-based accountability system utilizing actual school data as provided in RSA 193–E:3–d and shall submit a final report no later than November 1, 2010, including recommendations for future legislation and legislative adoption of the performance-based accountability system, to the chairpersons of the house and senate education committees, the speaker of the house of representatives, the senate president, the governor, the house clerk, and the senate clerk.

V. During the department's verification process, the task force may further evaluate and review whether there are any new or emerging performance measures, or modifications to the performance-based accountability system based upon the verification process that should be considered by the department for implementation beginning with the 2012–2013 school year. No later than November 1, 2011, the task force shall present any further recommendations for legislation regarding the performance-based school accountability system to the same individuals receiving the final report under paragraph IV.

VI. The department shall annually prepare a detailed report documenting the results of each school on the performance-based school accountability system to be developed pursuant to RSA 193–E:3–c, and identifying all schools that can demonstrate the opportunity for an adequate education through the performance-based methodology. 193–F:2 Purpose and Intent.

I. All pupils have the right to attend public schools, including chartered public schools, that are

safe, secure, and peaceful environments. One of the legislature's highest priorities is to protect our children from physical, emotional, and psychological violence by addressing the harm caused by bullying and cyberbullying in our public schools.

II. Bullying in schools has historically included actions shown to be motivated by a pupil's actual or perceived race, color, religion, national origin, ancestry or ethnicity, sexual orientation, socioeconomic status, age, physical, mental, emotional, or learning disability, gender, gender identity and expression, obesity, or other distinguishing personal characteristics, or based on association with any person identified in any of the above categories.

III. It is the intent of the legislature to protect our children from physical, emotional, and psychological violence by addressing bullying and cyberbullying of any kind in our public schools, for all of the historical reasons set forth in this section, and to prevent the creation of a hostile educational environment.

IV. The sole purpose of this chapter is to protect all children from bullying and cyberbullying, and no other legislative purpose is intended, nor should any other intent be construed from the enactment of this chapter.

194:27–a Tuition Liability for Nongraduating Pupils. A pupil who has attended a high school, or schools of corresponding grades, for such time as is usually required and who has not been graduated may be required to certify to the school board of the district liable for the pupil's tuition that he will make the effort required to profit from his attendance before he is entitled to any further tuition payments on his behalf. The school board of the district liable for tuition for any such pupil may refuse tuition for such pupil when it has been determined that such pupil is grossly neglecting his school work. A decision of the board to refuse tuition under such circumstances stands, subject only to review by the state board of education. The decision of the state board of education is binding and final on both the district and the pupil. Nothing in this section shall be construed to prevent a school board from making tuition payments beyond the time usually required for the completion of a high school program if in the board's judgment it is desirable to extend the educational opportunity for a pupil.

I. (a) There shall be no tuition charge for any pupil attending a charter conversion school located in that pupil's resident district. Funding limitations in this chapter shall not be applicable to charter conversion schools located in a pupil's resident district. For a chartered public school authorized by the school district, the pupil's resident district shall pay to such school an amount equal to not less than 80 percent of that district's average cost per pupil as determined by the department of education using the most recent available data as reported by the district to the department. For pupils resident in this state who attend full-time a chartered public school authorized by a school district other than the pupil's resident school district, the state shall pay tuition pursuant to RSA 198:40–a directly to the chartered public school for such pupil. Nothing in this subparagraph shall alter or modify the funding of the Virtual Learning Academy Charter School.

(b)(1)(A) Except as provided in subparagraph (2), for a chartered public school authorized by the state board of education pursuant to RSA 194–B:3–a, the state shall pay tuition pursuant to RSA 198:40–a, II(a)–(c) and (e) plus an additional grant of $3,286 to all chartered public schools for the fiscal year ending June 30, 2018, and $3,411 to all chartered public schools for the fiscal year ending June 30, 2019 and each fiscal year thereafter, except for the Virtual Learning Academy Charter School, directly to the chartered public school for each pupil who is a resident of this state in attendance at such chartered public school. Beginning July 1, 2017 and every biennium thereafter, the department of education shall adjust the per pupil amount of the additional grant based on the average change in the Consumer Price Index for All Urban Consumers, Northeast Region, using the "services less medical care services" special aggregate index, as published by the Bureau of Labor Statistics, United States Department of Labor. The state shall pay amounts required pursuant to RSA 198:40–a, II(d) directly to the resident district.

(B) For the Virtual Learning Academy Charter School authorized pursuant to RSA 194–B:3–a, the state shall pay tuition pursuant to RSA 198:40–a, II(a)–(c) and (e), plus an additional grant of $2,036 directly to the Virtual Learning Academy Charter School for each eligible full-time enrolled pupil in the chartered public school's ADMA. The state shall pay amounts required pursuant to RSA 198:40–a, II(d) directly to the resident district. The state shall also pay tuition pursuant to RSA 198:40–a, II(a) plus an additional grant of $2,036 directly to the Virtual Learning Academy Charter School for each full-time equivalent pupil. Beginning July 1, 2017 and every July 1 thereafter, the department of education shall adjust the per pupil amount of the additional grant based on the average change in the Consumer Price Index for All Urban Consumers, Northeast Region, using the "services less medical care services" special aggregate index, as published by the Bureau of Labor Statistics, United States Department of Labor. The average change shall be calculated using the 3 calendar years ending 18 months before the beginning of the fiscal year for which the calculation is to be performed.

(2) For an online chartered public school which receives its initial authorization to operate from the state board of education pursuant to RSA 194–B:3–a on or after July 1, 2013, the state shall pay tuition pursuant to RSA 198:40–a directly to the online chartered public school for each pupil who is a resident of this state in attendance at such chartered public school. In this subparagraph, "online chartered public school" means a chartered public school which provides the majority of its classes and instruction on the Internet.

(c) The commissioner of the department of education shall calculate and distribute chartered public school tuition payments as set forth herein. The first payment shall be 30 percent of the per pupil amount multiplied by the number of eligible pupils present on the first day of the current school year. Such payment shall be made no later than 15 days after the department of education receives the attendance report. The December 1 payment shall be 30 percent of the per pupil amount multiplied by the membership on November 1, and the

March 1 payment shall be 30 percent of the per pupil amount multiplied by the membership on February 1. To calculate the final payment, the commissioner of the department of education shall multiply the per pupil amount by the average daily membership in attendance for the full school year, and subtract the total amount of the first 3 payments made. The remaining balance shall be the final payment. Eligible chartered public schools shall report membership in accordance with RSA 189:1–d. In this subparagraph, "membership" shall be as defined in RSA 189:1–d, II. Tuition amounts shall be prorated on a per diem basis for pupils attending a school for less than a full school year.

(d) The source of funds for payments under this section shall be moneys from the education trust fund established in RSA 198:39. The governor is authorized to draw a warrant from the education trust fund to satisfy the state's obligation under this section. (i) If 3/5 of the votes cast on the question in the withdrawing district shall vote in the affirmative, the clerk of that district shall forthwith send to the state board a certified copy of the warrant, certificate of posting, evidence of publication, if required, and minutes of the meeting in the district. If the state board finds that 3/5 of the votes cast in that district meeting have voted in favor of withdrawing from the school administrative unit, it shall issue its certificate to that effect; and such certificate shall be conclusive evidence of the lawful organization and formation of the new, single district school administrative unit as of the date of its issuance.

I. At a meeting held before January 1, the school administrative unit board shall adopt a budget required for the expenses of the school administrative unit for the next fiscal year, which budget may include the salary and expenses of supervisors of health, physical education, music, art, and guidance, and any other employees, and shall include the expenses necessary for the operation of the school administrative unit. Prior to January 15 in each year, the board shall certify to the chairperson of the school board of each constituent school district the amount so apportioned. Each district within a school administrative unit shall raise at the next annual district meeting the sum of money apportioned to it by the school administrative unit board for the expenses of services which each district received in connection with the school administrative unit office. 194–C:9–a Alternative Budget Procedure; Method of Adoption.

I. (a) Each school district, within a school administrative unit that is composed of 2 or more school

districts, may vote to adopt the provisions of RSA 194–C:9–b to determine the means for adopting the school administrative unit budget by placing a question on the warrant of their next annual school district meeting. The question shall be voted on in accordance with the ballot and voting procedures in effect in that school district.

(b) The wording of the question shall be: "Shall the voters of the _____ school district within school administrative unit number _____ adopt the provisions of RSA 194–C:9–b to allow for insertion of the school administrative unit budget as a separate warrant article at annual school district meetings?"

(c) If a majority of the voters voting in the school districts within the school administrative unit approve the question, then RSA 194–C:9–b shall apply starting with the next annual school district meeting of the school districts within that school administrative unit, and shall continue until rescinded. Each school district moderator shall cause a vote by secret ballot to be taken, record the number of yeas and nays, and announce the result of the vote at the annual meeting. The ballots shall be delivered to the moderator of the school district with the latest chronological annual meeting. The moderator of the latest chronological annual meeting shall record the total number of yeas and nays, announce the results of the final vote on the method of adopting the school administrative unit budget, and deliver the ballots to the secretary of the school administrative unit. The secretary of the school administrative unit board shall certify the results to the department of revenue administration.

II. If, in any year, the question presented to the voters in subparagraph I(b) is not adopted, the question may be resubmitted as part of the warrant of the next annual school district meeting, provided each school district within the school administrative unit complies with the petition procedure set forth in RSA 197:6.

III. In order to rescind the adoption of RSA 194–C:9–b, each school district within the school administrative unit shall comply with the petition procedure set forth in RSA 197:6 and upon such compliance, a question shall be placed on the warrant of the next annual school district meeting. The wording of the question shall be: "Shall the voters of the _____ school district within school administrative unit number ___ rescind the adoption of RSA 194–C:9–b, relative to the alternative school administrative unit budget adoption procedure, and adopt the provisions of RSA 194–C:9 as the method for governing the adoption of the school administrative unit budget?" If a majority of the voters voting in the school districts within the school administrative unit approve the question, then the provisions of RSA 194–C:9 shall govern the procedure for adopting the school administrative unit budget in such school administrative unit. Each school district moderator shall cause a secret ballot vote to be taken, record the number of yeas and nays, and announce the result of the vote at the annual meeting. The ballots shall be delivered to the moderator of the school district with the latest chronological annual meeting. The moderator of the latest chronological annual meeting shall record the total number of yeas and nays, announce the results of the final vote on the question of adopting the school administrative unit budget adoption method, and deliver the ballots to the secretary of the school administrative unit. The secretary of the school administrative unit board shall certify the results to the department of revenue administration.

IV. After a vote to adopt or rescind the alternative school administrative unit budget procedure, the secretary of the school administrative unit shall place the ballots and all envelopes or wrapping which had previously contained them in a suitable container showing the contents and the date of the vote. The ballots shall be retained for 60 days from the date of the vote or any recount, unless further preservation is necessary or unless disposal is enjoined by the superior court.

V. Any registered voter who resides in a school district within the school administrative unit may, in writing, petition the secretary of the school administrative unit for a recount of the vote no later than the Friday following the latest chronological annual meeting of school districts in the school administrative unit. The secretary shall schedule a recount, to be conducted by the school administrative unit, not earlier than 5 days nor later than 10 days after the date the secretary receives the petition.

VI. For any town which has adopted a charter under RSA 49–D:3, the method of adoption shall be the manner of amending the charter as provided under RSA 49–B.

I. In a school administrative unit composed of 2 or more school districts which has adopted the provisions of RSA 194–C:9–a, the school administrative unit budget adopted according to RSA 194–C:9, I

shall be placed before the voters of each school district of that school administrative unit in a separate warrant article at the annual school district meeting. Notwithstanding RSA 32 and RSA 40:13, the budget adopted by the school administrative unit board shall not be amended or changed in any way prior to the vote. Each school district moderator shall cause a vote by paper ballot to be taken, record the number of yeas and nays, and announce the result of the vote at the annual meeting. The ballots shall be delivered to the moderator of the school district with the latest chronological annual meeting. The moderator of the latest chronological annual meeting shall record the total number of yeas and nays, announce the results of the final vote on the question of adopting the school administrative unit budget, and deliver the ballots to the secretary of the school administrative unit. The secretary of the school administrative unit board shall certify the results to the department of revenue administration. A majority of voters voting in favor shall result in adoption of the budget proposed by the school administrative unit board. If the article receives less than a majority vote, the budget amount accepted shall be that of the previous year adjusted for continuing contracts. Wording of the warrant article shall be as follows:

"Shall the voters of _____ (name of school district) _____ adopt a school administrative unit budget of $_____ for the forthcoming fiscal year in which $_____ is assigned to the school budget of this school district?

This year's adjusted budget of $_____, with $_____ assigned to the school budget of this school district, will be adopted if the article does not receive a majority vote of all the school district voters voting in this school administrative unit."

II. After a vote on the school administrative unit budget, the secretary of the school administrative unit shall place the ballots and all envelopes or wrapping which had previously contained them in a suitable container showing the contents and the date of the vote. The ballots shall be retained for 60 days from the date of the vote or any recount, unless further preservation is necessary or unless disposal is enjoined by the superior court.

III. Any registered voter who resides in a school district within the school administrative unit may, in writing, petition the secretary of the school administrative unit for a recount of the vote no later than the Friday following the latest chronological annual meeting of school districts in the school administrative unit. The secretary shall schedule a recount, to be conducted by the school administrative unit, not earlier than 5 days nor later than 10 days after the date the secretary receives the petition.

IV. This section shall not apply to a school administrative unit that includes a city.

194–C:10 Public Hearing. Before final adoption of the school administrative unit budget as provided in RSA 194–C:9, at least one public hearing shall be held within the school administrative unit, at a time and place specified by the school administrative unit board chairperson, upon a preliminary budget prepared by the school administrative unit board. Notice of such public hearing and a summary of the preliminary budget shall be submitted by the secretary of the board for publication in a newspaper of general circulation in the school administrative unit at least 7 days prior to the date of the hearing. 194–D:2 Establishment; Parental Choice; Admission.

I. Any school district legislative body may vote to designate one or more of its schools as an open enrollment school.

II. Open enrollment schools shall operate under the same laws, rules, and policies as any other public school, except as provided in this chapter.

III. No public school, except a chartered public school, shall be required to be an open enrollment school.

IV. A school district may predetermine the number of pupils residing outside an open enrollment school's district or attendance area it deems appropriate to accept.

V. Applications may be made on behalf of eligible pupils to more than one open enrollment school within the state.

VI. Every open enrollment school shall make available information about its curriculum and policies to all persons, and parents and pupils considering enrollment in that school.

VII. There shall be no application fee for pupil admission to any open enrollment school.

VIII. A pupil who meets the admission requirements of an open enrollment school, and who is a resident of the district where the school is located, shall be given absolute admission preference over a nonresident pupil. Once admitted and unless expelled, open enrollment school pupils need not reapply for admission for subsequent years.

IX. Attendance at an open enrollment school for the purposes of transportation shall not constitute assignment under the provisions of RSA 189:6 and RSA 189:8. Pupils who reside in the school district in which the open enrollment school is located shall be provided transportation to that school by the district on the same terms and conditions as provided for in RSA 189:6 and RSA 189:8 and that transportation is provided to pupils attending other public schools within that district. For the purposes of open enrollment, neither the sending nor the receiving school district shall be obligated to provide transportation services for pupils attending an open enrollment school outside the pupil's resident district.

X. Upon approval by each of the district's legislative bodies and after a public hearing, 2 or more school districts may consolidate otherwise eligible resident pupils into one applicant pool for the purposes of an admissions lottery for designated open enrollment schools.

194–D:3 Procedure for Adoption and Rescission; Limitations.

I. Any school district may adopt the provisions of RSA 194–D, to adopt an open enrollment school program, in the following manner:

(a) A question shall be placed on the warrant of a special or annual school district meeting which body shall have final authority to adopt the provisions of this chapter.

(b)(1) In districts without annual meetings, the legislative body of the school district shall consider and act upon the question in accordance with their current procedures. To the extent and if permitted by local ordinance, upon submission to the legislative body within 60 days of the legislative

body's vote of a petition signed by 100 or by 2 percent, whichever is less, of the registered voters, the legislative body shall place the question on the official ballot for any regular election otherwise in accordance with their current procedures for passage of referenda.

(2) The school district legislative body shall hold a public hearing on the question at least 15 days but not more than 30 days before the question is to be voted on. Notice of the hearing shall be posted in at least 2 public places in the municipality and published in a newspaper of general circulation at least 7 days before the hearing.

(3) In the event that the referendum is nonbinding, the question shall be returned for reconsideration to the legislative body which shall have final authority to adopt the provisions of this chapter.

(4) In the event that the referendum is binding, the public vote shall be the final and binding authority to adopt the provisions of this chapter.

(c)(1) In adopting the provisions of RSA 194–D, a school district shall impose limitations on the number of its resident pupils who may attend open enrollment schools located inside and outside the school district. These limitations shall be represented as any percentage between zero and 100 percent of the school district's current pupil enrollment.

(2) In school districts with annual meetings, where no limitation question receives a majority vote, the limitations applying to the district shall be zero. Where 2 or more conflicting adoption and/or limitation questions receive a majority vote, that combination of adoption and limitation provisions receiving a majority vote granting greatest latitude of parental choice shall apply.

(d) For all limitation questions, the school board shall propose a percentage limitation number. The number may also be proposed by petition. To change limitation percentages, a district need only act upon the relevant limitation questions. Where no limitations are to be changed, no limitation questions shall be presented to the voters.

(e) Adoption and limitation actions shall become effective on July 1 immediately following the action to adopt or limit.

II. (a) A school district which has adopted any provisions of RSA 194–D may rescind its action or modify the limitations imposed in the manner described in paragraph I.

(b) If a majority of those voting vote to rescind the provisions of RSA 194–D or to reduce the percentages of pupils eligible to attend open enrollment schools, then as of July 1 next:

(1) If the percentage of pupils eligible for tuition to attend open enrollment schools in other districts is reduced, a resident pupil enrolled at a school outside the district shall continue to be eligible for tuition for the period necessary to complete the highest grade level offered by the school.

(2) If the percentage of pupils eligible for tuition to attend open enrollment schools in the resident district is reduced, the resident district shall make alternate arrangements in accordance with RSA 189:1–a for the education of any affected pupil.

(c) If a host district rescinds its vote enabling the operation of an open enrollment school located in that district, the open enrollment school may retain its physical location and may continue to receive students and tuition from other districts if any sending district agrees to assume the responsibilities of the host district within 18 months of the effective date of the rescission. The parent of a pupil attending that school may apply to any other open enrollment school eligible to receive pupils under the provisions of this chapter. The pupil's sending district shall not be relieved of its obligation to educate that pupil in accordance with the district's policies.

III. This section shall apply to the establishment of each individual open enrollment school.

IV. Upon approval by each of the district's legislative bodies and after a public hearing, 2 or more school districts may consolidate otherwise eligible resident pupils into one applicant pool for the purposes of an admissions lottery for designated open enrollment schools.

194–D:4 Pupil Selection and Enrollment.

I. (a) Open enrollment schools may set maximum enrollment as they deem appropriate.

(b) Open enrollment schools may limit enrollment to specific grade or age levels, pupil needs, or areas of academic focus including, but not limited to, at-risk pupils, vocational education pupils, mathematics, science, the arts, history, or languages.

(c)(1) Open enrollment schools may select pupils on the basis of aptitude, academic achievement, or

need, provided that such selection is directly related to the academic goals of the school.

(2) If the number of otherwise eligible applicants to a particular open enrollment school exceeds that school's maximum published enrollment, that school shall use lottery selection as a basis for admission.

(3) If the number of otherwise eligible applicants to open enrollment schools located inside and outside the school district exceeds that district's published maximum percentage of pupils authorized to attend such schools, the district shall use lottery selection as a basis for pupil eligibility, and in accordance with RSA 194–D:2, VIII.

II. A pupil may withdraw from an open enrollment school at any time and enroll in a public school where the pupil resides, except that no pupil shall change schools more than once each school year. The school board of the pupil's resident district may waive this limitation after a hearing.

III. A pupil may be suspended or expelled from an open enrollment school based on criteria determined by the principal and teachers in the open enrollment school and in conformance with RSA 193:13. No open enrollment school shall be obligated to enroll an expelled pupil.

IV. For the purpose of this chapter, a pupil enrolled in an open enrollment school shall be considered reassigned to the school district in which the open enrollment school is located for purposes of school attendance.

V. The school board in the district in which the open enrollment school is located may establish policies to implement open enrollment schools as provided in this chapter.

194–D:5 Funding.

I. There shall be no tuition charge for any pupil attending an open enrollment school located in that pupil's resident district. For an open enrollment school authorized by the school district, the pupil's resident district shall pay to such school an amount equal to not less than 80 percent of that district's average cost per pupil as determined by the department of education using the most recent available data as reported by the district to the department.

II. In accordance with current department of education standards, the funding and educational decision-making process for children with disabilities attending a chartered public or open enrollment school shall be the responsibility of the school district and shall retain all current options available to the parent and to the school district.

IV. The commissioner of the department of education shall apply for all federal funding available to open enrollment schools under the No Child Left Behind Act, Title I of the Elementary and Secondary Education Act, or other federal source of funds. The commissioner shall expend any such funds received in a manner acceptable to the funding source.

V. A sending district may provide funds, services, equipment, materials, or personnel to an open enrollment school, in addition to the amounts specified in this section in accordance with the policies of the sending school district.

VI. An open enrollment school may accept pupils at tuition rates at less than the amounts established by this chapter.

VII. An open enrollment school may receive financial aid, private gifts, grants, or revenue as if it were a school district.

I. (a) It is the purpose of this chapter to increase educational opportunities within the state by encouraging the formation of cooperative school districts which will each:

(1) Be a natural social and economic region.

(2) Have an adequate minimum taxable valuation.

(3) Have a number of pupils sufficient to permit the efficient use of school facilities within the district and to provide improved instruction.

(b) The state board of education shall approve articles of agreement for a proposed cooperative school district, or agreements for the enlargement

of a cooperative school district, only after determining that the formation or enlargement of the district will be in accord with such standards and the purposes set forth herein.

195:3 Procedure.

[Repealed 1963, 258:14, eff. July 1, 1963.]

HISTORY

Former RSA 195:3, which was derived from 1947, 199:2; 1951, 213:1, par. 3; 1953, 225:2; 1955, 334:7; and 1961, 206:1, related to procedure in petitioning for organizational meeting. See now RSA 195:18.

195:4 Powers.

I. During the period from the date of the vote of the organization of any cooperative school district organized prior to July 1, 1963, to the date of operating responsibility such cooperative school district shall have all the authority and privileges of a regular school district for bonding purposes, for the construction of school facilities and for all other necessary functions to obtain proper facilities for the provision of a complete program of education. When necessary the school board of the cooperative school district is authorized to prepare a budget and call a special meeting of the voters of the district for the purpose of adopting the budget and to determine the financial appropriations. Such meeting shall have the same authority as an annual meeting for these purposes.

II. ELECTION OF OFFICERS. Every such school district may, as provided in RSA 195:19, adopt a bylaw to specify the number, composition, method of selection, and terms of office of its cooperative school board; provided that its cooperative school board shall consist of an odd number of members, not more than 15 for terms not exceeding 3 years.

III. CHECKLISTS. At the meetings held in the preexisting districts for the purpose of accepting the articles of agreement, or any existing arrangements, and at the organization meeting of the cooperative school district the checklist for each preexisting district shall be used. The school board of any preexisting district which does not have a checklist shall make, post, and correct a list of the voters in the district for use at such meetings as supervisors are required to do in regard to the list of voters in their towns. Thereafter the cooperative school board shall make, post, and correct a list of the voters of the cooperative school district acting as supervisors are required to do, except that such list shall indicate with respect to each voter the preexisting district in which the voter is domiciled. Any 2 members of the cooperative school board shall constitute a quorum at sessions for the correction of the checklist. Notwithstanding the foregoing provisions whenever each of the preexisting school districts is coextensive with the town in which it is located the cooperative school district may, at an annual cooperative school district meeting, under an article in the warrant for such meeting, vote that the supervisors of each town, acting as the supervisors of the cooperative school district, shall make, post and correct in each preexisting district a checklist of the voters in each preexisting district and shall certify the making, posting, and correction of the checklist acting as supervisors of the cooperative school district. At each annual meeting for the election of officers of the cooperative district the checklists prepared by the supervisors in each preexisting district in accordance with the provisions of this paragraph shall be used and the town supervisors from each preexisting district shall attend such annual meeting. The voters of the cooperative district shall be those whose names appear on the checklists as provided by this paragraph. The supervisors shall be paid such compensation as the district may provide.

IV. For purposes of state-wide supervision a cooperative school district shall be a school district.

V. The members of the cooperative school board shall serve with or without remuneration as the district shall determine, but they shall be paid their necessary expenses while upon official business.

195:4–a Acceptance by State Board of Education.

[Repealed 1996, 158:19, II, eff. July 1, 1996.]

HISTORY

Former RSA 195:4–a, which was derived from 1955, 334:4, related to acceptance by the state board of the establishment of new cooperative districts.

195:5 School Board; Powers and Duties. The cooperative school board elected at the organization meeting shall organize and take office at the close of such meeting and proceed to assume its responsibili-

ties and duties with respect to the administration and planning of the new cooperative school district; provided, however, that the cooperative board shall have no administrative authority as to the schools in the pre-existing districts until the date of operating responsibility. Thereafter all cooperative school district officers shall assume office at the close of the annual meeting. The cooperative school board shall have the same powers and duties as school boards in school districts as prescribed by RSA 189. Except as provided in this chapter, all the provisions of this chapter or of any other general law relating to or affecting school districts in the state shall apply to cooperative school districts organized as herein provided.

I. CLERK. The cooperative school board shall appoint annually and fix the salary of the district clerk who shall not be a member of the cooperative school board. The district clerk shall serve also as the clerk of the cooperative school board.

II. TREASURER. The treasurer of a cooperative school district shall be appointed by the cooperative school board for one or more terms not to exceed 5 years each, shall not be a member of the cooperative school board, and shall receive for services such sum as the cooperative school board may determine. The treasurer shall, before entering upon the duties of such office, give a bond to the cooperative school district with a surety company authorized to do business within the state in a form approved by the commissioner of revenue administration, and the premium shall be paid by the cooperative school district. The provisions of RSA 21–J:17, applicable to uniform accounting by school districts, shall apply to cooperative school districts.

195:6 Powers and Duties of Cooperative School Districts.

I. Each cooperative school district shall be a body corporate and politic with power to sue and be sued, to acquire, hold and dispose of real and personal property for the use of schools therein, and to make necessary contracts in relation thereto, and have and possess all the powers and be subject to all the liabilities conferred and imposed upon school districts under the provisions of RSA 194. Whenever a cooperative school district assumes all the functions of a pre-existing district, it shall also assume the outstanding indebtedness and obligations thereof as of the date of operating responsibility; and on such date of operating responsibility the pre-existing districts shall be deemed dissolved, and any and all assets, property and records thereof not previously disposed of shall vest in the cooperative school district, unless otherwise provided in the articles of agreement or existing arrangements.

II. Each cooperative school district shall have the power to borrow money and issue its notes or bonds in conformity with the provisions of RSA 33, provided, however, indebtedness of a cooperative district organized to provide both elementary and secondary schools may be incurred to an amount not to exceed 10 percent of its assessed valuation as last equalized by the commissioner of revenue administration.

III. Whenever only a part of the educational facilities of a local school district are incorporated into a cooperative school district, such local district shall continue in existence and function as previously. The cooperative school district shall assume only those outstanding debts and obligations of the local school district which pertain to the property acquired by the cooperative school district for use by the cooperative school district. In such case no cooperative school district shall for elementary school purposes incur debt to an amount exceeding 5 percent, and for secondary school purposes, if organized for grades 9 through 12, to an amount exceeding 5 percent, and for secondary school purposes if organized for grades 7 through 12, to an amount not exceeding 6 percent of the total assessed valuation of such district as last equalized by the commissioner of revenue administration. No cooperative school district described in this paragraph shall incur indebtedness if it subjects the taxable property of any school district forming a part thereof to debt, when added to the debt of such school district, of more than 10 percent of the total assessed value of such taxable property as last equalized by the commissioner of revenue administration.

195:7 Costs of Capital Outlay and Operation.

I. If a cooperative school district was organized prior to July 1, 1963, during the first 5 years after the formation of a cooperative school district each preexisting district shall pay its share of all capital outlay costs and operational costs in accordance with either one of the following formulas as determined by a majority vote of the cooperative district meeting:

(a) All such costs shall be apportioned on the basis of the ratio that the equalized valuation of each preexisting district bears to that of the cooperative district; or

(b) One-half of all such costs shall be apportioned on the basis of the ratio that the equalized valuation of each preexisting district bears to that of the cooperative district and ½ shall be apportioned on the average daily membership for the preceding year.

(c) Some other formula offered by the cooperative school board with the board's recommendation, adopted by the cooperative school district and approved by the state board of education.

II. Home education pupils who do not receive services from the cooperative school district, except an evaluation pursuant to RSA 193–A:6, II, shall not be included in the average daily membership relative to apportionment formulas.

195:8 Reconsideration Procedure. If a cooperative school district was organized prior to July 1, 1963, the basis for the apportionment of all such costs may be subject to review, pursuant to an article for that purpose duly inserted in the warrant for a district meeting to be held at any time after the expiration of the 5-year period measured from the date of the first annual meeting. If the apportionment formula for a cooperative school district has been duly changed, the basis for the apportionment of all such costs may be subject to review, pursuant to an article for that purpose duly inserted in the warrant for a district meeting to be held at any time after the expiration of the 5-year period measured from the date of the meeting at which the last change was made to the cost apportionment formula. In either case, the cooperative school district may then by majority vote elect to apportion all such costs by the adoption of one of the formulas set forth in RSA 195:7, I(a), (b), or (c). Such apportionment may be reviewed in the same manner at any time in order to permit the enlargement of the territory of a school district or an increase in the number of grades for which the district shall be responsible.

195:9 Taking Over Property.

I. Whenever a cooperative school district planning board is formed and it is proposed that a cooperative school district is to be established, the properties belonging to the districts that are to be used by the cooperative district shall be separately appraised by a committee to consist of 3 persons. The commissioner of education shall designate one person on the committee, and the commissioner of revenue administration shall designate 2 persons, one of whom shall be a member of or a qualified appraiser employed by the department of revenue administration. A member who is not in the employ of the state shall be paid $25 per day plus actual expenses in the performance of such member's duties. A member who is in the employ of the state shall not be paid extra compensation other than the state salary, but shall be reimbursed for actual expenses in the performance of such member's duties.

II. All expenses incurred in conducting an appraisal by the persons designated by the commissioner of revenue administration including the salaries and expenses of state employees, shall be paid in the first instance from the appropriation for the department of revenue administration. Likewise, the salary and expenses incurred by the person designated by the commissioner of education, including the salaries and expenses of state employees, shall be paid in the first instance from the appropriation for the department of education. The commissioner of revenue administration and the commissioner of education shall report the amount of money paid by them for the appraisal to the cooperative school district planning board. The planning board shall reimburse the department of revenue administration and the department of education for these expenses. If the planning board does not have sufficient funds to make reimbursement, it shall apportion the expenses among the several districts requesting the appraisal. The reimbursements shall be credited to the appropriations for the department of revenue administration and the department of education.

III. The decision of the committee with respect to the appraisal shall be final. Unless otherwise provided in the articles of agreement, at the next annual assessment a tax equivalent to the total appraised value of the property to be used by the cooperative district shall be levied upon the several districts comprising the cooperative school district in the proportion that the equalized valuation of each bears to the equalized valuation of the whole and there shall be remitted to the taxpayers of each pre-existing district the appraised value of its property. Whenever the cooperative school board decides the foregoing adjustment will work a hardship on any one or all of the pre-existing districts, it may, of its own motion, or upon petition of any of the residents of a pre-existing district provide that such adjustment be made over a period of not exceeding 20 years.

195:9–a Property Not Taken Over by District. Whenever a cooperative district is formed and assumes all of the functions of a preexisting school district but does not take over all of the property in a preexisting district, the school board of such preexisting district shall call a special school district meeting prior to the time of establishment of the cooperative district to see what action shall be taken relative to the remaining property. Where such special meeting neglects to dispose of remaining real property, the successor in interest to a preexisting school district that is coextensive with a city or town is the city or town.

195:10 Disposal of Property. Whenever any property of a cooperative school district is disposed of, the proceeds thereof shall be credited to each preexisting district in the same proportion as the costs of making capital improvements are credited.

195:11 Continuance of Trust Funds. All trust funds held or enjoyed by any pre-existing district shall be held and applied as the terms of the trust indicate. If such trust allows, the funds may be applied for the same uses and purposes of the cooperative district.

195:11–a Capital Reserves and Cash Balances. When all of the functions of a school district are to be assumed by a cooperative district the balance of any capital reserve fund established by a school district and any cash balance in the hands of the treasurer or money due the district at the time of establishment of the cooperative district less any outstanding bills or debts other than long term indebtedness which is to become the obligation of the cooperative district, shall be used as a credit against the cooperative district assessment to be raised by the pre-existing district for the first year of operation or may be spread over a period of not more than 5 years as the voters of the pre-existing school district shall determine at either any annual meeting or a special school district meeting called for that purpose prior to the establishment of the cooperative district.

195:12 Budget. At least 30 days prior to the annual meeting, the cooperative school board shall prepare a budget for the ensuing year, after holding at least one public hearing upon a preliminary budget at some convenient place in the district, of which at least 7 days' notice shall have been given, and said budget, subsequent to its final approval by such board, shall be posted in a public place in each preexisting district and given such other publication as the cooperative school board may determine. The provisions of RSA 32 shall apply to a cooperative school district.

195:12–a Budget Committee.

I. A cooperative school district at an annual meeting, under a proper article in the warrant, may vote to establish a budget committee pursuant to RSA 32:14 and may rescind such action in a like manner. The budget committee shall have the same number of members as the cooperative district school board plus one additional member from the school board as provided in this paragraph. The terms of office and manner of election of members shall be determined in the same manner as for the cooperative school board. Whenever it is voted to establish a budget committee, the moderator in the first instance shall appoint the members of the budget committee, except for the additional member appointed from the school board, within 15 days of the vote establishing the committee. The members appointed by the moderator shall serve until the next annual meeting when the meeting shall elect their successors. No member of the cooperative school board shall be appointed or elected to the budget committee except that the chairperson of the cooperative school board shall appoint a member of the board to serve on the budget committee with all the powers and duties of any other member of the committee. After appointment or election the budget committee shall promptly organize and choose a chairperson, vice-chairperson, and secretary. The secretary shall keep records of the proceedings of the budget committee, which shall be public records open to public inspection.

II. Such cooperative school budget committee shall have the powers and duties of the municipal budget committee under the provisions of RSA 32 insofar as the budget for the cooperative school district is concerned and insofar as RSA 32 is applicable to the cooperative school budget.

III. Such committee shall seasonably provide the cooperative school board with a sufficient number of copies of the budget prepared by it, and the same shall be posted with each copy of the warrant in the manner provided by RSA 195:13.

195:13 Meetings, Annual, Special. A meeting of every cooperative school district shall be held annually between the dates set forth in RSA 197:1 for the choice of district officers, raising and appropriating money for the support of its schools for the fiscal year beginning the next July, and for the transaction of other district business. Special meetings may be called by majority vote of the school board. A special meeting shall be held within 30 days following the receipt by the school board of a petition calling for such a meeting and setting forth the subject matter upon which action is desired signed by at least 5 percent of the voters who are duly registered on the checklists of the district on the date the petition is submitted. The provisions of RSA 197, excepting the provisions of RSA 197:2, shall apply to cooperative school district meetings, except that a copy of the warrant shall be posted in a public place in each preexisting district as well as at the place of meeting.

195:13–a Additional Polling Places.

[Repealed 1979, 321:2, I, eff. Aug. 21, 1979.]

History

Former RSA 195:13–a, which was derived from 1969, 319:1, related to establishment of additional polling places. See now RSA 671:29.

195:14 Certification of District Taxes.

I. Voted Appropriations.

(a) The cooperative school board shall annually within 20 days of the close of the meeting certify to the commissioner of revenue administration and the state department of education, upon blanks prescribed and provided by the commissioner of revenue administration for the purpose, a certificate of the several appropriations voted by the district and estimated revenues, so far as known, and such other information as the commissioner of revenue administration may require.

(b) The commissioner of revenue administration shall examine such certificates and delete any appropriations which appear not made in accordance with the law, and adjust any sum, in accordance with RSA 21–J:35, which may be used as a setoff against the amount appropriated when it appears to the commissioner of revenue administration such adjustment is in the best public interest.

(c) The commissioner of revenue administration shall certify to the state department of education the amount to be apportioned among the preexisting school districts. This amount shall be the balance before the adequate education grant revenues are applied.

(d) Unless the provisions of RSA 195:14–a are adopted, the state department of education shall determine each municipality's proportional share of the net appropriation after application of the grants as follows:

(1) First, the department shall determine each pre-existing district's proportional share of the amount to be apportioned based on the cooperative school district formula.

(2) Second, the department shall then deduct each pre-existing school district's adequate education grant.

(3) If the resulting amount is less than zero, the department shall reduce the adequate education grant under RSA 198:41 by the difference.

(4) The department shall notify the commissioner of the department of revenue administration of its determination.

(e) Upon certification by the commissioner of revenue administration, the selectmen of each town shall seasonably assess the taxes as provided by law.

(f) The selectmen shall pay over to the treasurer of the cooperative district such portions of the sums so raised as may reasonably be required according to a schedule of payments needed for the year as prepared by the treasurer and approved by the cooperative school board, but no such payment shall be greater in percentage to the total sum to be raised by one local district than that of any other local district comprising such cooperative school district.

II. Non-voted Appropriations.

(a) Whenever a cooperative school district assumes any obligations of a preexisting district the cooperative school board shall also certify to the commissioner of revenue administration and the state department of education the amount to be raised by taxation to pay such obligations as they become due, and the state department of education shall determine the proportional part thereof to be borne by each preexisting district and notify the commissioner of revenue administration.

(b) The commissioner of revenue administration shall then add the amount determined under subparagraph (a) to the other sums to be raised by said pre-existing districts and include the same in computing the rate percent of taxation for each

pre-existing district, unless the articles of agreement or existing arrangement provides otherwise.

(c) Whenever a cooperative school district has assumed the obligations of a preexisting district, the amount of each payment of principal and interest on all obligations which have been thus assumed shall be annually assessed and collected without any vote or other act of approval whatsoever.

III. (a) The adequate education grant used in subparagraph I(d) shall be based on the revised estimated revenues contained in the report required in RSA 198:4–d, II.

(b) If the commissioner finds that the actual adequacy grant used in the prior year was inaccurate or inappropriate, the commissioner shall perform a town-specific reconciliation adjustment for each town's estimates in question against the apportionment. The difference between the recomputed apportionment and the apportionment determined under subparagraph (a), and the difference between the actual adequate education grant provided under RSA 198:42 for the prior year and the grant amount estimated in the prior year under subparagraph (a), shall be the basis for the town-specific reconciliation adjustment.

195:14–a Alternative Method of Apportioning Operating Costs.

I. As an alternative to the apportionment of operating costs set forth in RSA 195:14, the cooperative school board may fix a specific percentage of the state adequate education grant amount received in a given year to be applied to the operating costs of the cooperative school district, before the apportionment of remaining cooperative school district operating costs. Such percentage shall not be less than zero percent and not more than 100 percent and shall be the same in each city or town in the cooperative school district.

II. The question on the adoption of an alternative method of apportioning operating costs shall be proposed as an article in the warrant of the next cooperative school district annual or special meeting pursuant to RSA 195:13. A majority of voters present and voting on the question in each city or town in the cooperative school district shall be required to approve the alternative method of apportioning operating costs. Upon approval, the clerk of the cooperative school district shall send to the state board of education a certified copy of the warrant.

III. The procedure for modification or rescission of an alternative method of apportioning operating costs shall be as set forth in the alternative method of apportioning operating costs and shall not be subject to the provisions of RSA 195:18, III(i). A majority of voters present and voting on the question in each city or town in the cooperative school district shall be required to approve the modification or rescission.

195:15 State Aid. The state aid to which a cooperative elementary and/or secondary district shall be entitled shall be the total of those shares of the aid to which the pupils attending the cooperative district would have entitled the pre-existing districts, had they remained in the pre-existing districts. For the purposes of crediting the cooperative district's adequate education cost to the pre-existing districts, each such pre-existing district shall have its adequate education cost under RSA 198:38, VII credited against its share of the cooperative school district budget. However, cooperative school districts formed by 2 or more pre-existing districts whose boundaries approximate those of a single township in which they are located shall be treated as a single school district for the purposes of this section.

195:15–a Building Aid. Except as hereinafter provided, for the purpose of receiving state building aid, or other similar aid toward school buildings, which may hereafter be provided, the amount of such aid for cooperative school districts shall apply only to those cooperative or union school districts which were formed from 2 or more districts from 2 or more towns. A cooperative school district formed as a result of a conversion from an authorized regional enrollment area plan shall not be eligible for school building aid for the purchase of property in a pre-existing district which had received building aid for the construction of said building or buildings, provided, however, that any aid for which the pre-existing district is currently eligible shall be continued and shall be paid to the cooperative school district. A cooperative school district formed from 2 or more school districts within one town shall be deemed to be a school district and not a cooperative school district insofar as receipt of state building or other similar aid toward school buildings is concerned. The limitations of this section relative to cooperative school districts formed from districts within one town shall apply only to those which are so organized after July

1, 1955. Such cooperative school district organized prior to July 1, 1955, shall be deemed a cooperative school district for the purpose of receiving such building aid.

195:16 Enlargement of Territory. A cooperative school district organized prior to July 1, 1963 may be enlarged in the following manner:

I. The school board of any school district situated in proximity to an existing cooperative school district may petition the cooperative school board to meet with it to study jointly the advisability and the terms of enlarging the cooperative school district to include such district. It shall thereupon be the duty of the cooperative school board to meet with the other school board as requested and engage in such joint study. After such joint study the 2 school boards may recommend that the cooperative school district be so enlarged, and if they so recommend, they shall submit proposed articles of agreement in writing signed by a majority of each board setting forth in detail:

(a) The date of operating responsibility, when the cooperative district shall assume control of operation of schools within the joining school district, upon which date the joining school district shall cease to exist;

(b) The number, composition, method of selection and terms of office of its cooperative school board, all in accordance with the provisions of RSA 195:19 through 23 inclusive, provided that its cooperative school board shall consist of an odd number of members not more than 15 for terms not exceeding 3 years;

(c) The specific school properties and other assets in the district to be acquired by the cooperative school district and the disposition of those not acquired including the records;

(d) The initial location of the school or schools which will serve the joining school district;

(e) The indebtedness of the joining school district which the cooperative school district is to assume;

(f) The method of apportioning the capital outlay costs and operational costs under RSA 195:7 or under the articles of agreement of the cooperative school district, which method may be different from the formula previously adopted by the cooperative school district notwithstanding the provisions of RSA 195:8 or its articles of agreement;

(g) The manner in which state aid referred to in RSA 195:15 or any other available state aid shall be allocated, unless otherwise expressly provided by law;

(h) Provisions similar to those outlined in RSA 195:18, IV, if desirable; and

(i) Any other matters, not incompatible with law, which the 2 school boards may consider appropriate to include in the agreement.

II. An executed copy of such proposed articles of agreement shall be submitted to the board; and if it finds that the proposed enlargement would be in accord with the standards set forth in RSA 195:2 and approves the agreement, it shall cause the agreement to be submitted to the cooperative school district and to the joining school district for acceptance by each.

III. The cooperative school board and the school board of the joining school district, upon receipt of written notice of such approval by the board, shall cause the agreement to be filed with their respective district clerks and submitted to the voters of their respective districts as soon as may reasonably be possible at duly called meetings, the voting to be by ballot with the use of the checklist, after reasonable opportunity for debate in open meeting. The article in the warrant and the question on the ballot shall be in substantially the following form:

> "Shall the proposed agreement on file with the district clerk, joining _____ school district to _____ cooperative school district be approved?"

Yes _____ No _____

If a majority of the voters present and voting at such meetings in each district shall vote in the affirmative, the clerk of each district shall forthwith send to the board a certified copy of the warrant, certificate of posting, evidence of publication, if required, and minutes of meeting. If the board finds that a majority of the voters present and voting in each district meeting have voted in favor of the enlargement, it shall issue its certificate to that effect, and such certificate shall be conclusive evidence of the lawful enlargement of the cooperative school district. Articles of agreement so adopted shall be deemed to amend the inconsistent provisions in any pre-existing articles of agreement of the cooperative school district.

III–a. Within 60 days after the board has issued its certificate of the lawful enlargement of the cooperative school district, the board shall fix a time and place for a special meeting of the qualified voters within the districts, and shall prepare the warrant for the meeting after consultation with school boards of the pre-existing school district and cooperative school

district. The warrant shall include articles for the selection of such school board members as may be necessary as a result of the enlargement and other items of business that require action under the terms of the articles of agreement. The warrant shall be under the hand of the commissioner, in the name of the board, and the commissioner shall cause attested copies of same to be posted at least 14 days before the meeting in 3 public places in each district and a copy of the same to be published at least one week before the date of the meeting in some newspaper generally circulated within the cooperative school district. The expense of posting and publishing the warrant shall be paid by the state. The agent or agents of the commissioner who post and cause publication of the warrant shall make a return thereof, which, with the warrant, shall be made a part of the district records. The meeting shall be called to order by the moderator of the cooperative school district. This meeting shall have the same power and authority as an annual meeting with reference to the raising or appropriating of money. At this meeting and at all future special and annual meetings, qualified voters of the joining district are eligible for participation in all matters of the cooperative school district.

IV. Except for operating responsibility with respect to the schools in the joining district, which authority shall commence on the date specified in the articles of agreement, the cooperative school district and its school board shall have full powers and duties in the enlarged district from the date of the certificate of enlargement.

V. The failure of the voters to approve the acquisition of a school district shall not prevent the commencement of enlargement proceedings under this section with respect to such district thereafter.

195:16–a Increase or Decrease in Grades. Any cooperative school district may amend its existing arrangement or articles of agreement to increase or decrease the grades for which the cooperative school district provides education. If the cooperative district was organized pursuant to RSA 195:18, it shall proceed by amendment of its articles of agreement. The cooperative school board shall cease responsibility for the excluded school grades as of the date specified in the amended articles of agreement or the existing arrangement.

195:16–b Power of Eminent Domain. Whenever a cooperative school district cannot acquire by purchase a good title to any real estate or interest therein needed by it for its purposes either because of the unwillingness of the owner to sell at a reasonable price, the owner's inability to convey a good title, or for other reason, the cooperative school district may apply by petition to the superior court for the county in which such real estate or interest therein is located to acquire such real estate or interest therein in the name of such district and to have assessed the damages occasioned by the taking. Thereafter the procedure shall follow that prescribed in RSA 498–A.

195:16–c Powers of Superior Court as to Pre-existing Districts. If there shall arise any occasion which shall require the doing of any act or thing by or in behalf of a pre-existing district which has ceased to exist by reason of its inclusion in a cooperative school district, the superior court shall have the power, upon application of 3 registered voters domiciled in the territory of the pre-existing school district, to appoint an agent who, subject to the approval of the superior court, shall have the power on behalf of and in the name of the pre-existing school district to do any act or thing that may be just under the circumstances.

Cooperative School Districts Hereafter Formed

195:18 Procedure for Formation of Cooperative School District. Cooperative school districts shall be organized solely in accordance with the following procedure:

I. (a) Any school district pursuant to an article in the warrant for any annual or special meeting may vote to create a cooperative school district planning committee consisting of 3 qualified voters of whom at least one shall be a member of the school board. The members of the committee shall be elected at the meeting at which the committee is created, unless the district determines that they shall be appointed by the moderator. The members of the committee shall serve without pay for a term ending (1) at the third annual meeting of the district following the creation of the committee, if the committee is created at an annual meeting, or (2) at the first annual meeting of the district next following the expiration of 3 years from the date of the creation of the committee, if the

committee is created at a special meeting, or (3) upon the final adjournment of the organization meeting of any cooperative school district of which the district becomes a part. If the term of the committee ends at an annual meeting of the district, the district may create a successor cooperative school district planning committee pursuant to the foregoing provisions. Vacancies on the committee shall be filled by the moderator for the balance of the unexpired term. The district may appropriate money to meet the expenses of the committee at the meeting at which it is created or at any subsequent district meeting notwithstanding the provisions of RSA 32 or RSA 197:3, and such expenses may include the cost of publication and distribution of reports. Cooperative school district planning committees from any 2 or more school districts may join together to form a cooperative school district planning board which shall organize by the election of a chairperson and a clerk-treasurer. The planning board may thereafter admit to membership planning committees from other school districts, but the members of a planning committee shall not be members of more than one planning board at any one time. A cooperative school district planning board shall act by a majority vote of its total membership.

(b) Any school district which votes at any annual or special district meeting to create a cooperative school district planning committee under RSA 195:18 shall elect the members of such committee as provided in RSA 195:18.

II. It shall be the duty of the cooperative school district planning board to study the advisability of establishing a cooperative school district in accordance with the standards set forth in RSA 195:2, its organization, operation and control, and the advisability of constructing, maintaining and operating a school or schools to serve the needs of such district; to estimate the construction and operating costs thereof; to investigate the methods of financing such school or schools, and any other matters pertaining to the organization and operation of a cooperative school district; and to submit a report or reports of its findings and recommendations to the several school districts.

III. A cooperative school district planning board may recommend that a cooperative school district composed of all the school districts represented by its membership or any specified combination of such school districts be established. The planning board shall prepare proposed articles of agreement for the proposed cooperative school district, which shall be signed by at least a majority of the membership of the planning board, which set forth the following:

(a) The school districts which shall be combined to form the proposed cooperative school district and the name of such cooperative school district.

(b) The number, composition, method of selection and terms of office of its cooperative school board, all in accordance with the provisions of RSA 195:19 through 23 inclusive, provided that the cooperative school board shall consist of an odd number of members not more than 15 for terms not exceeding 3 years.

(c) The grades for which the cooperative school district shall be responsible.

(d) The specific properties of pre-existing districts to be acquired by the cooperative school district and the general location of any proposed new schools to be initially established or constructed by the cooperative school district.

(e) The method of apportioning the operating expenses of the cooperative school district among the several preexisting districts and the time and manner of payment of such shares. Home education pupils who do not receive services from the cooperative school district, except an evaluation pursuant to RSA 193–A:6, II shall not be included in the average daily membership relative to apportionment formulas.

(f) The indebtedness of any preexisting district which the cooperative school district is to assume.

(g) The method of apportioning the capital expenses of the cooperative school district among the several preexisting districts, which need not be the same as the method for apportioning operating expenses, and the time and manner of payment of such shares. Capital expenses shall include the costs of acquiring land and buildings for school purposes, including property owned by a preexisting district; the construction, furnishing and equipping of school buildings and facilities; and the payment of the principal and interest of any indebtedness which is incurred to pay for the same or which is assumed by the cooperative school district. Home education pupils who do not receive services from the cooperative school district, except an evaluation pursuant to RSA 193–A:6, II, shall not be included in the average daily membership relative to apportionment formulas.

(h) The manner in which the state aid referred to in RSA 195:15, or any other available state aid, shall be allocated, unless it is otherwise expressly provided by the law making such aid available.

(i) The method by which the articles of agreement may be amended with the approval of the board; except that no amendment may permit secession of territory. The provisions adopted under either subparagraph (e) or (g) above may be subject to review pursuant to an article for that purpose duly inserted in the warrant for a district meeting which may be held at any time after the expiration of the 5–year period measured from the date of the first annual meeting. If the apportionment formula for a cooperative school district has been duly changed, the basis for the apportionment of all such costs may be subject to review pursuant to an article for that purpose duly inserted in the warrant for a district meeting which may be held at any time after the expiration of the 5–year period measured from the date of the meeting at which the last change was made to the cost apportionment. However, such provisions may be amended at any time in order to permit the enlargement of a cooperative school district or an increase in the number of grades for which the cooperative school district shall be responsible.

(j) The date of operating responsibility of the proposed cooperative school district, and a proposed program for the assumption of operating responsibility for education by the proposed cooperative school district and any school construction; which the cooperative school district shall have the power to vary by vote as circumstances may require.

(k) Any other matters, not incompatible with law, which the cooperative school district planning board may consider appropriate to include in the articles of agreement.

IV. Notwithstanding the provisions of RSA 195:9, the articles of agreement, or any amendment thereto, may provide for the donation, the sale or the transfer under a lease-purchase agreement of any school property owned by a pre-existing district to the cooperative school district, except that no lease-purchase agreement shall extend for a period of more than 20 years. The adoption of the articles of agreement or any such amendment shall be sufficient authorization for the appropriate school boards to carry out the transaction. Obligations incurred by the cooperative school district in connection with any lease-purchase agreement hereunder shall not be deemed indebtedness of the cooperative school district for the purposes of ascertaining its borrowing capacity.

V. Before final approval of a proposed articles of agreement by the planning board, it shall hold at least one public hearing thereon within the proposed cooperative school district and shall give such notice thereof as it may determine to be reasonable. An executed copy of the proposed articles of agreement shall be submitted by the planning board to the board, and, when the board finds that the same are in accord with the standards set forth in RSA 195:2, it shall approve the same and cause them to be submitted to the school boards of the several pre-existing districts for acceptance by the districts as provided in paragraph VI. Upon such submission, the board shall cause the approved articles of agreement to be published once in some newspaper generally circulated within the proposed cooperative school district at the expense of the state. The planning board may amend a proposed articles of agreement to conform to recommendations of the board after holding a further public hearing thereon with notice as above provided.

VI. Upon the receipt of written notice of the board's approval of the articles of agreement, the school board of each preexisting district which is to be included in the cooperative school district shall cause the articles of agreement to be filed with the clerk of such preexisting district and submitted to the voters of the district as soon as may reasonably be possible at an annual meeting or at a special meeting called for the purpose, the voting to be by ballot with the use of the checklist, after reasonable opportunity for debate in open meeting. The duty to call such meeting for such purpose may be enforced by the superior court in an equity proceeding commenced by any voter or taxpayer of such school district. The article in the warrant for each district meeting and the question on the ballot to be used at the meeting shall be in substantially the following form:

> "Shall the school district accept the provisions of RSA 195 (as amended) providing for the establishment of a cooperative school district, together with the school districts of _____ and _____ etc., in accordance with the provisions of the proposed articles of agreement filed with the school district clerk?"

Yes _____ No _____

If a majority of the voters present and voting in each district shall vote in the affirmative, the clerk of each preexisting district shall forthwith send to the board a certified copy of the warrant, certificate of posting, evidence of publication if required, and minutes of the meeting in such district. If the board finds that a majority of the voters present and voting in each preexisting district meeting have voted in favor of the

establishment of the cooperative school district, it shall issue its certificate to that effect. Such certificate shall be conclusive evidence of the lawful organization and formation of the cooperative school district as of the date of its issuance.

VII. If any pre-existing district fails to vote in the affirmative on the proposed articles of agreement within 90 days after its school board receives notice of approval thereof by the board, such district shall be deemed to have rejected the same. If the proposed articles of agreement fail of adoption as herein required, they may be resubmitted to all or a different combination of the several pre-existing districts either in their original form or as amended by the cooperative school district planning board, with the approval of the board, such articles if amended to be published once by the board as provided in the case of initial articles of agreement in paragraph V, and shall in such case be again acted upon by each district, as provided herein; but, prior to the approval thereof by the board for resubmission, the planning board shall hold one further hearing thereon as provided in paragraph V in the case of initial articles of agreement.

VIII. The board shall fix a time and place for a special meeting of the qualified voters within the cooperative school district for the purpose of organization and shall prepare the warrant for the meeting after consultation with the cooperative school district planning board. The warrant shall include articles for the selection of a school board and other necessary officers, the appropriation of money for the operation of the district, and any other items of business that require action at the organization meeting. The warrant shall be under the hand of the commissioner, in the name of the board, and the commissioner shall cause attested copies of same to be posted at least 14 days before the meeting in 3 public places in each pre-existing district and a copy of the same to be published at least one week before the date of the meeting in some newspaper generally circulated within the cooperative school district. The expense of posting and publishing the warrant shall be paid by the state. The agent or agents of the commissioner who post and cause publication of the warrant shall make a return thereof, which, with the warrant, shall be made a part of the district records. The organization meeting shall have the same power and authority as an annual meeting with reference to the raising or appropriating of money.

IX. The organization meeting of a cooperative school district shall be called to order by the chairperson of the cooperative school district planning board, or by the clerk-treasurer thereof, who shall serve as temporary chairperson for the first order of business which shall be the election of a moderator and of a temporary clerk, by ballot, who shall be qualified voters of the district. From and after the issuance of the certificate of formation by the board to the date of operating responsibility of the cooperative school district, such district shall have all the authority and powers of a regular school district for the purposes of incurring indebtedness, for the construction of school facilities and for such other functions as are necessary to obtain proper facilities for a complete program of education. When necessary in such interim, the school board of the cooperative school district is authorized to prepare a budget and call a special meeting of the voters of the district, which meeting shall have the same authority as an annual meeting, for the purpose of adopting the budget, making necessary appropriations, and borrowing money. Whenever the organization meeting is held on or before April 20 in any calendar year, no annual meeting need be held in such calendar year. Sums of money raised and appropriated at the organization meeting or any interim meeting prior to the first annual meeting shall be forthwith certified to the commissioner of revenue administration and the state department of education upon blanks prescribed and provided by the commissioner of revenue administration for the purpose, together with a certificate of estimated revenues, so far as known, and such other information as the commissioner of revenue administration may require. The commissioner of revenue administration shall examine such certificates and delete any appropriations which appear not made in accordance with the law, and adjust any sum which may be used as a setoff against the amount appropriated when it appears to the commissioner such adjustment is in the best public interest. The commissioner of revenue administration shall certify to the state department of education the total amount of taxes to be raised for said cooperative school district and the state department of education shall determine the proportional share of said taxes to be borne by each preexisting school district and notify the commissioner of revenue administration of its determination. Upon certification by the commissioner of revenue administration the selectmen of each town shall seasonably assess the taxes as provided by law. The selectmen shall pay over to the treasurer of the cooperative district such portion of the sums so raised as may reasonably be required according to a schedule of payments needed for the year as prepared by the treasurer and approved by the cooperative school board, but no such payment shall be greater in

percentage to the total sum to be raised by one local district than that of any other local district comprising such cooperative school district.

X. The provisions of RSA 195:7 and 8 shall not apply to cooperative school districts organized under this section, but all other sections of this chapter shall apply to such districts, except as otherwise expressly provided in this section or in any articles of agreement adopted pursuant hereto.

XI. Notwithstanding the provisions of paragraphs I-X or any other law to the contrary, no single school district that includes a city shall be prohibited from participating in a school district planning committee.

Apportionment of Cooperative School Boards

195:19 Statement of Policy. It is the purpose of this subdivision to provide a means for cooperative school districts now existing or hereafter formed to meet the constitutional mandate of one-man one-vote as annunciated by the United States supreme court. It is the intention of the legislature to provide flexibility to the cooperative school district in meeting the requirements of the one-man one-vote doctrine within the limitations of this chapter.

195:19–a Composition of Cooperative School Boards. The number, composition, method of selection, and terms of members of cooperative school boards shall be as provided in the bylaws or articles of agreement of the cooperative school district, as the case may be; provided, however, that such bylaws and articles of agreement shall be limited to the alternatives contained herein where applicable; and provided further that no cooperative school district in existence on August 22, 1971 shall be required to conform hereto unless it is so voted pursuant to RSA 671:9.

I. All members of the cooperative school board shall be elected at large; or

II. The cooperative school district shall be divided into single board member districts according to population with as nearly equal population in each district as possible; or

III. The cooperative school district shall be divided into multiboard member districts or a combination of single member or multimember districts so that proportional representation will be most nearly achieved; or

IV. The members of the cooperative school board shall each be domiciled in and represent a pre-existing district with each pre-existing district having at least one such resident representative but all members of the cooperative school board shall be elected at large; or

V. Such other method of selection of cooperative school board members compatible with proportional representation, one-man one-vote principle as may be approved by the state board of education.

VI. The terms of the members of the cooperative school board shall be as provided in the bylaws or articles of agreement provided that in no case shall such terms exceed 3 years.

VII. Whenever the bylaws or articles of agreement provide for the election of cooperative school board members pursuant to this chapter, said election shall be with the use of the non-partisan ballot system under RSA 669.

195:19–b Reapportionment. Any cooperative school district organized under any of the provisions of RSA 195 or pursuant to any special act may at any regular or special meeting vote to change the number, composition, method of selection, and terms of office of members on the board of the district, provided that in no event shall the board exceed 15 members nor terms exceed 3 years; and may change the apportionment of the board in relation to the pre-existing school districts.

195:19–c Special Provisions for Cooperative School Districts.

I. At the organizational meeting of the cooperative school district, the checklists for each pre-existing district shall be used. The school board of any pre-existing district which does not have a checklist shall make a list of the legal voters in the district for use at such meeting as supervisors are required to do in towns as provided in RSA 654:25-654:31. Thereafter, the cooperative school board shall make, correct and post a list of the legal voters of the cooperative school district acting as supervisors are required to do; except that such list shall indicate with respect to each voter the pre-existing district in which he is domiciled. Notwithstanding the foregoing provisions, whenever each of the pre-existing school districts is coextensive with the town in which it is located, the cooperative school district may, at an annual cooperative school district meeting, under an article in the warrant for such meeting, vote that the supervisors

of each town, acting as the supervisors of the cooperative school district, shall make, correct and post in each pre-existing district a checklist of the voters in each pre-existing district and shall certify to the same acting as supervisors of the cooperative school district and shall attend the cooperative school district meeting. At each cooperative school district election, the checklists prepared by the supervisors in each pre-existing district in accordance with this section shall be used.

II. An updated checklist shall be used at all cooperative school district elections and meetings for the same purposes as checklists are used by towns as provided in RSA 669:5.

III. Notwithstanding any other provision of law, any registered voter on a town or city checklist, who has his domicile within a cooperative school district, shall be eligible to vote at any cooperative school district election or meeting in the district where he has his domicile. The supervisors of the checklists for the various cities and towns within a cooperative school district shall make an appropriate notation on their respective checklists with respect to which school district a registered voter is entitled to vote in.

IV. Notwithstanding any other provision of law, any cooperative school district, which uses the checklists of the cities and towns within the district for an election or meeting pursuant to paragraph III, shall not be required to maintain a separate school district checklist or conduct sessions of the supervisors of the checklist.

Withdrawal From Cooperative School District

195:24 Withdrawal Vote.

[Repealed 1996, 158:19, eff. July 1, 1996.]

History

Former RSA 195:24, which was derived from 1977, 439:1, relating to the withdrawal vote of a pre-existing school district.

195:25 Procedure for Withdrawal. After the tenth anniversary of the date of operating responsibility, the school board of a cooperative school district may undertake a study of the feasibility and suitability of the withdrawal of one or more member districts from the cooperative district. A similar study shall be undertaken if, after the tenth anniversary of the date of operating responsibility, a pre-existing district shall, by a majority vote on a warrant article at a regular or special town meeting, direct the school board to conduct such a study. The study shall be conducted by a committee composed of at least one member of the school board from each of the pre-existing districts, one member of the board of selectmen from each town, and such other members as may be appointed by the committee. Within 180 days after the date of its formation, the committee shall report its findings to the state board of education. The committee shall submit to the state board of education either a report that withdrawal is not feasible or suitable, or a report that includes a withdrawal plan prepared in accordance with RSA 195:26. If the committee determines that withdrawal is not feasible or suitable, the town which voted to undertake the study may submit a minority report at the same time as the committee report is filed with the state board of education. If the committee report does not include a withdrawal plan, the minority report may include a withdrawal plan prepared in accordance RSA 195:26. If the state board approves a withdrawal plan, whether submitted by the committee or by minority report, the plan shall be submitted to the

voters of the cooperative school district in accordance with RSA 195:29.

195:26 Withdrawal Plan. A plan for the withdrawal of a member district or districts of a cooperative school district shall include the following:

I. The name of the withdrawing district or districts and the grades.

II. The number, composition, method of selection, and terms of office of the school board of the withdrawing district or districts and of the cooperative school board.

III. The method of apportioning the operating and capital expenses among the members of the cooperative school district if a change is to be proposed in conjunction with the withdrawal procedure.

IV. The proposed date of operating responsibility, at which time the withdrawing district shall be responsible for the education of its pupils and after which the cooperative district will no longer have such financial and educational responsibility.

V. The liability of the withdrawing district for its share of any outstanding indebtedness of the cooperative school district as detailed in RSA 195:27.

VI. A plan for the education of all students in the withdrawing school district and for the continuation of the school system of the cooperative district. This shall detail the proposed assignment of students in grades operated by the cooperative and withdrawing district or districts including, if any, tuition arrangements or contracts.

VII. Any other matters, not incompatible with law, which the planning committee may consider appropriate to include in the withdrawal plan.

195:27 Liability of Withdrawing District. Each withdrawing district shall remain liable for its share of the indebtedness of the capital costs of the cooperative school district which is outstanding when the withdrawal vote takes effect, and the withdrawing district shall pay to the cooperative school district annually (a) that percentage of the payments of principal and interest of such debt thereafter due which is the same as the percentage for which the withdrawing district was responsible in the school year immediately preceding the effective date of the withdrawal vote, and (b) all amounts of state aid for the purchase or construction of school buildings and any other state aids which are lost by the cooperative school district after the withdrawal of a district as a result of such withdrawal, as determined by the state board of education, except that the withdrawing district shall not be liable for any indebtedness or loss of state aid or other aid contracted after the district has duly notified the remaining districts in the cooperative that a withdrawal study is being requested. Payments in discharge of such liability shall be made in accordance with a schedule agreed upon by the school board of the cooperative school district and the withdrawing school district or, in the event they fail to agree, as fixed by the state board of education. Such payments shall be deemed to be trust funds and shall be applied by the cooperative school district solely in payment of its indebtedness which was incurred to finance cooperative school facilities and which was outstanding on the effective date of the withdrawal vote. A school district which withdraws from the cooperative school district shall forfeit its equity in any cooperative district schools.

Source. 1977, 439:1, eff. Sept. 3, 1977.

195:28 Disposition of Property. If a pre-existing school district withdraws from the cooperative school district, the cooperative school district shall transfer and convey title to any school building and land located in the withdrawing district to the withdrawing district upon payment by the withdrawing district of the costs of capital improvements and additions to said school building incurred by the cooperative school district, less the share which the withdrawing school district has already paid toward such costs and the share which the withdrawing school district is required to contribute toward such costs as provided in RSA 195:27. The amount of said capital improvements and additions and the time of transfer of title shall be determined by the agreement for withdrawal between the cooperative school district and the withdrawing school district. The withdrawing school district forfeits its equity in all other cooperative school district facilities.

195:29 Vote on Withdrawal. If the state board approves the plan for withdrawal, the board shall cause the withdrawal plan to be published once in some newspaper generally circulated within the cooperative school district. Upon receipt of a written notice of the board's approval of the withdrawal agreement, the school board of the cooperative district shall cause the withdrawal plan to be filed with the clerk of the cooperative school district and submitted to the voters of the district as soon as may reasonably be possible at an annual or special meeting called for the purpose, the voting to be by ballot with the use of the checklist, after reasonable oppor-

tunity for debate in open meeting. The article in the warrant for the district meeting and the question on the ballot to be used at the meeting shall be in substantially the following form:

> "Shall the school district accept the provisions of RSA 195 (as amended) providing for the withdrawal of the pre-existing district of _____ from the _____ cooperative school district in accordance with the provisions of the proposed withdrawal plan filed with the school district clerk?"

Yes _____ No _____

If a majority of the voters present and voting shall vote in the affirmative, the clerk of the cooperative school district shall forthwith send to the state board of education a certified copy of the warrant, certificate of posting, evidence of publication, and minutes of the meeting. If the board finds that a majority of the voters present and voting have voted in favor of the withdrawal plan, it shall issue its certificate to that effect and such certificate shall be conclusive evidence of the withdrawal of the pre-existing district and the continuation of the cooperative school district as of the date of its issuance, or the dissolution of a 2-district cooperative if the cooperative was formed by 2 pre-existing districts, provided, however, that a withdrawal plan shall be prepared for a 2-district cooperative and it shall provide for the disposition of property held within the cooperative and a statement of assumption of liabilities. If a majority of voters present and voting reject the plan, the withdrawing district shall have the right to appeal such vote to the state board of education. The state board shall upon receipt of such appeal investigate and report back to the district on its findings and recommendations; and this report may require that there will be another special meeting for a vote of reconsideration.

195:30 Time of Withdrawal. The vote to withdraw from a cooperative school district shall take effect on July 1 of the calendar year one year subsequent to the date on which the withdrawal vote is passed. A preexisting school district which withdraws from a cooperative school district shall remain a part of the school administrative unit of which it was a member prior to withdrawal unless the withdrawing district complies with the school administrative unit withdrawal process set forth in RSA 194–C:2. After passage of the withdrawal vote and the issuance by the state board of education of its certificate of withdrawal, a special meeting of the voters in the withdrawing district shall be held at a time set by the state board of education. The warrant for this special meeting, approved by the state board of education and signed by the commissioner, shall provide for the election of officers in the withdrawing school district. The commissioner of education shall have authority to appoint officers pro tem as may be necessary and prepare the warrant for the special meeting held to elect officers. This meeting shall have the same power and authority as an annual meeting with reference to the raising or appropriating of money. The district officers elected at said meeting shall take office immediately and shall carry out the duties of their office and may take any action otherwise permitted by law which is necessary in order to carry out the provisions of the withdrawal.

195:31 Modification. In the event that the cooperative district adopts the provisions of RSA 194–B, the percentage of pupils authorized by a vote of the cooperative school district shall be permitted to attend a chartered public school which may be established in the district and approved by the voters in accordance with RSA 194–B:3.

CHAPTER 195–A

AUTHORIZED REGIONAL ENROLLMENT AREA (AREA) SCHOOLS

195–A:1 Definitions. The terms used in this chapter shall be construed as follows, unless a different meaning is clearly apparent from the language or context:

I. "School district" shall mean a town school district, a special school district, a cooperative school district, an incorporated school district operating within a city, and a city operating a dependent school department.

II. "Elementary school" shall mean a program comprising all grades from the kindergarten or grade one through grade 6, or kindergarten or grade one through grade 8.

III. "Secondary school" shall mean a program comprising all grades from grade 7 through grade 12, or grade 9 through grade 12 and may include a junior high school program comprising grades 7 and 8 or 7, 8 and 9 as well as a high school program.

IV. "Area school" shall mean an authorized regional enrollment area school, which may be elementary or secondary, and which when approved as hereinafter provided, shall be the assigned school for all the resident elementary or secondary pupils of the school districts or portions thereof within the region which it is established to serve.

V. "Sending district" shall mean any school district or portion thereof which sends its resident pupils to an area school located in a receiving district, paying tuition therefor to the receiving district.

VI. "Receiving district" shall mean a school district in which an area school is located.

VII. "School board" shall mean the school board, board of education or school committee of each school district.

VIII. [Repealed.]

IX. "Tuition" shall mean the sum of money which each sending district is obligated to pay to the receiving district to defray the cost of education of each of its resident pupils, for a school year, at the area school in the receiving district to which such pupils are assigned and it may be subdivided into elementary school tuition, junior high school tuition, high school tuition, or any other reasonable combination of grades, and shall be fixed as provided in RSA 195–A:3. Tuition may include an annual rental charge per pupil. The obligation of a sending district to pay tuition to a receiving school shall not be deemed indebtedness of such district for the purpose of determining its borrowing capacity under RSA 33.

X. "Annual rental charge per pupil" shall mean that additional payment included in tuition as defined in paragraph IX which represents a fair charge for building occupancy. It may also include a fair charge for any debt service and reduction of principal, which may become due between date of bond issue and date of building occupancy.

XI. "Date of operating responsibility" shall mean the date on which the area school shall officially open and shall relieve the schools of the sending districts, serving the corresponding grades, of their obligation to operate.

XII. "Meeting of a receiving district" may include any regular or special session of its legislative body in the case of a city with a dependent school department, or of its school board in the case of any separately incorporated school district within a city in which district meetings have been abolished.

195–A:2 Policy and Standards.

I. It is the purpose of this chapter to increase educational opportunities within the state by encouraging the establishment of area schools in the receiving districts which will serve the receiving district and the sending districts throughout a natural social and economic region which has an adequate minimum taxable valuation and a number of pupils sufficient to permit efficient use of such area school facilities and to provide improved instruction. The state board may formulate and adopt additional standards consistent with this purpose and these standards; and the state board shall approve plans for the establishment of area schools only after determining that such establishment will be in accord with such standards and purposes set forth herein.

II. GEOGRAPHICAL PLAN. The state board is authorized and directed to prepare and publish a plan subdividing the territory of the state into suggested regions for area schools indicating the suggested receiving district or districts for the schools of each region, which shall be compatible with the plan for suggested cooperative school districts, and which plan shall meet the standards formulated under paragraph I. This plan shall be reasonably compatible with the

areas of the several school administrative units. From time to time thereafter the state board may modify such plan.

III. Advisory Powers of State Board. The state board may prepare recommended forms of written plans for area schools and for enlargement of the areas served thereby and may furnish its advisory services to area school planning boards or school boards who have such matters under consideration.

195–A:3 Procedure.

I. Any town, city or special school district pursuant to an article in the warrant for any annual or special meeting may vote to create an area school planning committee consisting of 3 qualified voters of whom at least one shall be a member of the school board. The members of the committee shall be elected at the meeting at which the committee is created, unless the district determines that they shall be appointed by the moderator. The members of the committee shall serve without pay for a term ending (a) at the third annual meeting of the district following the creation of the committee, if the committee is created at an annual meeting, or (b) at the first annual meeting of the district next following the expiration of 3 years from the date of the creation of the committee, if the committee is created at a special meeting, or (c) upon issuance by the state board of its certificate that a plan for an area school has been adopted in which the district is a participant. If the term of the committee ends at an annual meeting of the district, the district may create a successor area school planning committee pursuant to the foregoing provisions. Vacancies on the committee shall be filled by the moderator for the balance of the unexpired term. The district may appropriate money to meet the expenses of the committee at the meeting at which it is created or at any subsequent district meeting, notwithstanding the provisions of RSA 32 or RSA 197:3; and such expenses may include the cost of publication and distribution of reports. Area school planning committees from any 2 or more school districts may join together to form an area school planning board, which shall organize by the election of a chairman and a clerk-treasurer. The planning board may thereafter admit to membership planning committees from other school districts, but the members of a planning committee shall not be members of more than one planning board at any one time; provided, however, that a planning board so created may also study the advisability of forming a cooperative school district, if eligible therefor. An area school planning board shall act by a majority vote of its total membership.

II. In cities which operate a dependent school department, the power to create and appoint such an area school planning committee of 3, whose members shall serve for a term of 3 years from date of appointment, is vested in the school board; but the expenses of such planning committee, as defined in paragraph I, shall be raised and appropriated by the legislative body of such city upon certification by the school board. Vacancies on the committee shall be filled by the school board for the balance of the unexpired term, and the school board may create and appoint a successor area school planning committee pursuant to the foregoing provisions.

III. In cities in which there is a separately incorporated school district but where district meetings have been abolished, the power to create and appoint such an area school planning committee of 3, whose members shall serve for a term of 3 years from date of appointment, is vested in the school board who shall also have the power to raise and appropriate money for the expenses of such committee as defined in paragraph I. Vacancies on the committee shall be filled by the school board for the balance of the unexpired term, and the school board may create and appoint a successor area school planning committee pursuant to the foregoing provisions.

IV. It shall be the duty of the area school planning board to study the advisability of adopting an area school plan within the region in accordance with the standards set forth in RSA 195–A:2 and the advisability of establishing or constructing, maintaining and operating an area school or schools to serve the needs of such region; to estimate the construction and operating costs thereof; to estimate the tuition costs; to investigate the methods of financing such area school or schools, and any other matters pertaining to the organization and operation of an area school; and to submit a report or reports of its findings and recommendations to the several school districts.

V. An area school planning board may recommend that there be established an authorized regional enrollment area plan for elementary or secondary schools, or both, or any other reasonable combination of grades, composed of all the school districts represented by its membership or any specified combination thereof. At the time such recommendation is made, the planning board shall prepare a written plan for the proposed regional enrollment area, which

shall be signed by at least a majority of the membership of such board, which shall set forth the following:

(a) The name or names of each area school or schools proposed, and the receiving district in which such schools shall be located;

(b) The sending districts or portions thereof which, together with the receiving district, shall form the region which each area school or schools shall serve;

(c) The grades for which each area school or schools shall be responsible (which may include a combination of elementary and secondary grades or any other reasonable classification);

(d) The formula for calculation of tuition;

(e) The manner in which any form of state aid shall be credited, unless otherwise expressly provided by law;

(f) The existing school buildings in the several school districts which shall be discontinued;

(g) The existing school buildings in the receiving district which shall be designated as an area school or schools including any existing buildings to be initially enlarged;

(h) The proposed new area school building or buildings to be initially constructed in the receiving district and the initial location of same;

(i) The estimated initial enrollment in each area school from each of the sending districts and from the receiving district;

(j) The proposed date or dates of operating responsibility of each planned area school, which date may be subsequently postponed by the state board upon petition of a receiving or sending district, in the event of unforeseen circumstances or for good cause shown;

(k) The scheduled date or dates during each year upon which tuition payments shall be made by the sending districts to the receiving districts and whether the tuition shall be payable in installments, or in a lump sum;

(*l*) Procedure for improvement or changes in curriculum and other school programs and services;

(m) The method, time, and manner in which the plan may be amended, subject to state board approval, where not incompatible with law;

(n) The term of the agreement, which shall be for a minimum of 10 years unless otherwise provided by mutual agreement of the school districts consistent with the provisions of RSA 195–A:3, XI;

(*o*) The manner in which the interests of the school boards of the sending districts will be addressed;

(p) Whether the districts within the area plan shall adopt the provisions of RSA 194–B, and how the adoption of such provisions will affect the districts within the area plan;

(q) Any other matters, not incompatible with law, which the area school planning board may consider appropriate to include in such written plan.

VI. Before finally agreeing upon a proposed regional plan, the area school planning board shall hold at least one public hearing thereon in each district within the proposed region and shall give such notice thereof as it shall determine to be reasonable. An executed copy of the proposed plan shall be submitted by such planning board to the state board, and when the state board finds that such plan is in accord with the provisions of RSA 195–A:2 and of paragraph V of this section and is otherwise lawful and feasible, it shall approve the same and cause it to be submitted to the school boards of the several school districts included in the plan for acceptance by these school districts as provided in paragraph VII. The planning board may amend a proposed regional plan to conform to recommendations of the state board without holding further public hearings thereon.

VII. Upon receipt of written notice of the state board's approval of such plan, the school board of each town or special school district and of each incorporated school district within a city, which is included in the plan, shall cause such plan to be filed with the district clerk and to be submitted to the voters of the district as soon as may reasonably be possible at an annual or special meeting called for the purpose, the voting to be by ballot with the use of the checklist, after reasonable opportunity for debate in open meeting. The duty to call such meeting for such purpose may be enforced by the superior court in an equity proceeding commenced by any voter or taxpayer of such school district. The article in the warrant for such district meeting and the question on the ballot to be used at the meeting, shall be in substantially the following form:

> "Shall the school district accept the provisions of RSA 195–A (as amended) providing for the establishment of an area school or schools located in _____ to serve the following grades _____ from the school districts of _____ and

_____ and _____, etc. in accordance with the provisions of the plan on file with the district clerk?"

Yes ☐ No ☐

VIII. In the case of cities with dependent school departments, the school board shall submit such plan, as approved by the state board, to the city clerk who shall communicate it to the legislative body of such city, and it shall be the duty of such legislative body, as soon as may be reasonably possible, to act upon the question set forth in paragraph VII with such nominal modification in the question as may be necessary, voting by roll call. In the case of any separately incorporated school district within a city in which district meetings have been abolished, the school board shall have power to adopt such plan for the district, voting by roll call on the question set forth in paragraph VII.

IX. If a majority of the voters present and voting in such school district meeting, including the legislative body of a city with a dependent school department and the school board of a city school district which has abolished district meetings, shall vote in the affirmative, the clerk of each school district shall forthwith send to the state board a certified copy of the warrant, certificate of posting, evidence of publication, if required, and minutes of the meeting or resolution adopted, as may be applicable to his district. If the state board finds that the plan has been thus adopted by each of the school districts named in the plan, it shall issue its certificate to that effect, which shall be conclusive evidence of the lawful adoption of the plan.

X. If any school district fails to vote in the affirmative on the proposed plan within 90 days after its school board receives notice of approval thereof by the state board, such district shall be deemed to have rejected the same. If the proposed plan fails of adoption by one or more of such school districts as herein required, it may be resubmitted to all or a different combination of such school districts either in its original form or as amended by the area school planning board, with the approval of the state board, and shall in such case be again acted upon by each school district as provided herein, but no further public hearing need be held by the planning board prior to such resubmission.

XI. An area plan adopted by the voters of the sending and receiving districts shall be valid for a minimum of 10 years unless otherwise provided by mutual agreement of the school districts. The area plan may be renegotiated at the request of a sending or receiving district or extended for additional 10-year periods upon a mutual vote of each sending and receiving school district legislative body 2 years prior to the expiration of the area plan.

195–A:4 Application of School Laws. An area school shall be maintained and operated by the receiving district and its school board in accordance with all the general school laws applicable to schools of the grades which it includes, except only as otherwise provided in this chapter. The receiving district shall be obligated to provide for the elementary or secondary school education, or both, of all the resident pupils of the sending districts as well as its own, in accordance with the approved regional plan as adopted under RSA 195–A:3. The sending districts shall be obligated to assign and send their resident pupils to the area school, or schools, in the receiving district as provided in such plan and to raise and appropriate annually the tuition of each such pupil to be paid to the receiving district. The liability to pay tuition may be enforced by the receiving district in an action of debt against a delinquent sending district to be commenced in the superior court for the county in which either district is located. Transportation of resident pupils of the sending districts to the area school shall be governed by the general school laws applicable thereto and shall be the responsibility of each sending district. An area school shall be deemed the assigned school for all resident pupils in the region which it is established to serve, for purposes of the school attendance laws, except as provided in RSA 193:3.

Source. 1963, 277:1, eff. July 1, 1964.

195–A:4–a Exception. Notwithstanding any other provision of law or any agreement between a receiving district and a sending district, the school board of a receiving district and the school board of a sending district may mutually agree upon a showing of hardship by pupils from a sending district to exempt such pupils from any agreement requiring them to attend the receiving district's schools. A pupil exempted from such agreement would make suitable arrangements to attend school outside the receiving district. The sending district shall be liable for tuition payments to the district of actual attendance. Any exception so granted shall be for the period of one school year and shall be renewed only upon mutual agreement between the school boards concerned. In the case of the withdrawal of accredi-

tation by the accrediting agency of the school attended in the receiving district, and by application of the person having custody of the pupil, the board of the sending district may agree to exempt pupils from a sending district from any agreement requiring them to attend the receiving district's schools. If the sending district grants the exemption, this exemption provision shall remain in effect until the accreditation of the receiving school is reinstated. A pupil exempted under this section may complete the academic year in the school to which the pupil is assigned. The provisions of this section shall apply only to area agreements negotiated on or after the effective date of this act unless the agreement indicates otherwise.

195–A:5 Joint School Board Meetings. The state board shall cause to be held, at reasonable intervals, at the request of a school board or school boards of the receiving or sending district, or on its own motion, a joint board meeting of the school boards of all school districts in the authorized regional enrollment area for the purpose of consulting and advising about any and all matters of joint interest. Each school board shall be entitled to 3 representatives at such meetings, which shall be presided over by an agent of the state board designated by the commissioner of education. Such meetings shall be advisory, consultative, and informational in nature and shall not infringe upon the legal authority and responsibility of the school board of the receiving district over the schools within such district.

Source. 1963, 277:1, eff. July 1, 1964.

195–A:6 Area School Property. The legal title to, and administration of, an area school building, land and equipment, shall be vested in the receiving district, but it shall hold such property in trust for the benefit of all the school districts in the authorized regional enrollment area, as their respective equitable interests therein may appear.

Source. 1963, 277:1, eff. July 1, 1964.

195–A:7 Construction of Area Schools. The construction of an area school including the purchase of school buildings, the construction of additions or alterations to existing buildings, the required new construction of such facilities during the life of the plan, the equipment thereof, and necessary land acquisition therefor, shall be the responsibility of the receiving district but it must, at all times, provide facilities of sufficient capacity to meet the estimated educational needs of the receiving and sending districts together. A receiving district may borrow money for such purposes as provided in RSA 33 as amended. However, in calculating whether it is within its debt limit, there shall be charged thereto an amount no greater than its proportionate share of any such required capital outlay, which shall be the proportion which its then estimated enrollment in the area school to be purchased, constructed or enlarged, bears to the then estimated total enrollment therein as determined by order of the state board. Also in determining the debt limit of the receiving district this same proportion of its estimated enrollment in the area school shall apply to any indebtedness outstanding of the receiving district that existed at the time of the date of operating responsibility of the authorized regional enrollment area, when such indebtedness was incurred for facilities which are included in the area school plan. The total amount of such bond or serial note issue shall be general obligations of the receiving district, fully secured by its powers of taxation. Upon application of the school board of the receiving district, that amount of such bond or serial note issue, which is in excess of the proportionate share of the receiving district as determined by the state board, shall be eligible for state guarantee, either on a declining balance basis or as a separate issue fully guaranteed, as the governor and council may decide, in accordance with RSA 195–C. The school board of the receiving district, without vote of the district, shall apply all tuition payments received from sending districts in each year first to the payment of the currently scheduled, or any past due, annual installments of principal or interest on that amount of such bond or serial note issue which is guaranteed by the state; and only after adequate provision has been made therefor may any portion of such revenue be used for other purposes.

195–A:9 Discontinuance of Schools Replaced by an Area School. Upon the date of operating responsibility of an area school, the school buildings of the various sending districts and receiving district which formerly served the same grades as the area school and have been rendered surplus thereby under the approved plan, shall automatically be deemed closed and discontinued notwithstanding the provisions of RSA 194:35 or any other applicable statute, unless the school district in which any such building is

located shall have expressly voted to devote the same to some different educational use.

History

Former RSA 195–A:10, which was derived from 1963, 277:1 and 1965, 112:7, related to area school aid. See now RSA 198:19.

195–A:11 Special Aid to Small Area High Schools. In certain areas of the state where due to sparsity of population and distance between centers of population, an area high school cannot be established to serve as many school districts or pupils as would otherwise be standard, the receiving districts in any such small authorized regional enrollment areas as may be approved and established hereunder for a high school, in addition to the aid granted in RSA 198:19, shall be paid annually by the state board, from a fund appropriated by the general court, special supplemental aid in such proportionate amounts from the fund thus made available as may be determined by the state board, in accordance with the relative need of such smaller area high schools, for the purpose of faculty improvement. Such special aid shall be fairly and equitably apportioned by the state board as of June 30 in each year and paid to the eligible receiving districts in the succeeding fiscal year based upon conditions prevailing in the preceding fiscal year. Such special aid shall be deducted from current expenses of operation before tuition is calculated.

195–A:12 Enlargement of Authorized Regional Enrollment Area.

I. The school board of a school district located in proximity to an authorized regional enrollment area, which did not join the plan when it was initially established, may petition the school board of the receiving district of such area to join the area plan. Thereupon it shall be the duty of the 2 school boards to engage in a joint study of the advisability thereof. The 2 school boards acting jointly shall have all the powers of an area school planning board as provided in RSA 195–A:3 and may prepare and sign a written plan which shall contain such of the provisions required by RSA 195–A:3, V, as may be applicable.

II. An executed copy of the proposed plan shall be submitted by the joint board to the state board and thereafter the procedure shall be that prescribed in paragraphs VI, VII, VIII, IX and X of RSA 195–A:3; provided, however, that such plan shall be submitted only to the voters of the receiving district and proposed new sending district and that prior public hearing thereon may be waived by the joint board.

195–A:13 Addition of New Grades to Area Plan. Whenever several school districts have adopted and established an authorized regional enrollment area plan as provided in this chapter but have not applied such plan to all grades of elementary and secondary schools in the area, they may subsequently extend such plan to all or part of the omitted grades by establishing a new area school planning board as provided in RSA 195–A:3 and by proceeding as provided in said section to prepare a supplemental authorized regional enrollment area plan for such additional grades.

195–A:14 Review of Area Plan and Withdrawal of Districts.

I. After the third anniversary of the date of operating responsibility, if requested by either a sending or receiving district governing body, an area school plan review board shall be established. The review board shall consist of 3 members from the school board of each school district which belongs to the area plan, and such members shall be selected by and from their respective school boards. The review board may also include 3 members from the school board of each of any one or more school districts located in proximity to the authorized regional enrollment area. The review board shall organize by the election of a chairman and a clerk, and may adopt rules for the calling and conduct of its meetings. It shall be the duty of the review board to consider the effectiveness of the area school plan as a method for providing improved educational services. If the review board by a majority vote of all its members determines that the area school plan should be modified, it shall submit an amended area school plan to the state board for its approval. An amended area school plan may provide for the addition of one or more new sending districts, the withdrawal of one or more sending districts, the withdrawal of the receiving district, the substitution of a different district as the receiving district, a change in the grades covered by the area plan, or any combination of the foregoing, or for the dissolution of the area; and it shall provide for the equitable adjustment of the rights and responsibilities of each member of the plan, whether present or prospective, with respect to area school facilities. If such provisions include payments from one school

district to another, they may be made over a period of not more than 10 years, but the obligation to make such payments shall not be deemed indebtedness of the obligor school district for the purpose of determining its borrowing capacity under RSA 33. In addition to the foregoing powers, an area school plan review board may act as a cooperative school district planning board pursuant to RSA 195–A:15; and instead of submitting an amended area school plan, the review board may prepare and recommend the adoption of articles of agreement for a cooperative school district.

II. In considering whether to approve an amended area school plan, the state board shall apply the standards set forth in RSA 195–A:2 and shall also consider the capacity of each school district which would be affected by the adoption of the amended area school plan to successfully discharge the educational and financial responsibilities which would result from such adoption. If the state board finds that the adoption of the amended area school plan would be in the best interests of the state and of the school districts affected thereby, it shall so notify the school board of each such school district. Thereafter, each school district, its school board, voters or legislative body, and other appropriate officers, shall deal with the amended area school plan in accordance with the procedures set forth in RSA 195–A:3 as though such amended plan were an original plan being submitted under RSA 195–A:3, except that the form of the question used in each school district shall be prepared by the state board and included in its notice to each district; and the forms of question used in the several districts may be different as circumstances require. If the amended area school plan is adopted, the state board shall issue its certificate to that effect, which shall be conclusive evidence of the lawful adoption of the amended area school plan. If the amended plan is not adopted, no further action with respect to the amended area school plan shall be taken until another area school plan review board has been established pursuant to paragraph I of this section.

III. After the third anniversary of the date of operating responsibility a sending or receiving school district, at an annual or special school district meeting, may vote to undertake a study of the feasibility and suitability of a withdrawal from the area. The study shall be conducted by a committee composed of 2 school board members from each district of the area, the superintendent of schools as a non-voting member, and 2 members of the town or city governing body from the school district requesting the study. Within 180 days after the date of its formation, the committee shall submit to the state board of education either a report that withdrawal is not feasible or suitable or a report that includes a withdrawal plan prepared in accordance with paragraph IV. If the committee determines that withdrawal is not feasible or suitable, the district which voted to undertake the study may submit a minority report at the same time as the committee report is filed with the state board of education. If the committee report does not include a withdrawal plan, the minority report may include a withdrawal plan prepared in accordance with paragraph IV.

IV. A plan for the withdrawal of a district or districts from an area shall include the following:

(a) The name or names of the withdrawing district or districts and the grades.

(b) The proposed date of withdrawal from the area, at which time the withdrawing district shall be responsible for the education of its pupils and after which the area shall no longer have such educational responsibility.

(c) The liability of the withdrawing district for its share of any outstanding indebtedness of the area in accordance with paragraph V or, if the area was formed by 2 districts, provision for the disposition of property and a statement of assumption of liabilities upon dissolution of the area.

(d) A detailed analysis of the financial and educational consequences of the proposed withdrawal.

(e) The manner in which the withdrawing district or districts shall provide for the education of all pupils in the withdrawing district or districts and a plan for the education of the pupils in the remaining sending and/or receiving districts. This shall include the proposed assignment of pupils and any necessary tuition arrangements or contracts.

(f) Modifications to the area agreement necessitated by the withdrawal plan.

(g) Any other matters which the committee, consistent with the law, may consider appropriate to include in the withdrawal plan.

V. Each withdrawing sending district shall remain liable to the area, or to the receiving district in the case of a dissolution of the area, for a rental charge, as determined by the area agreement, for the length of any outstanding bond issue, and for the reduction of school building aid based on the decrease of the annual grant for the payment of debt service for school construction. Payments in discharge of such liability shall be made in accordance with a schedule which may provide for annual payments for

the length of the existing bond issue or any other schedule agreed upon by the school boards of the area, or, in the event they fail to agree, as determined by the state board of education. Such payments shall be deemed to be trust funds and shall be applied by the area solely in payment of its indebtedness which was incurred to finance area school facilities and which was outstanding on the effective date of the withdrawal vote.

VI. A receiving district, 4 months prior to a vote on a bond issue for construction of new facilities or additions to an area school, shall notify a sending district of a pending vote on a bond issue. Upon receipt of such notice, a sending district may initiate a withdrawal study in accordance with paragraph III. If the sending district has initiated a withdrawal study prior to the vote in the receiving district, the sending district shall not be further obligated to any bonded indebtedness as a result of such bond issue vote if the voters in the sending district approve, by a majority vote, the withdrawal plan.

VII. The committee established pursuant to paragraph III shall submit a copy of all reports, including any minority reports, to the state board of education. If a report includes a plan for withdrawal, the state board of education shall review the proposed plan to determine whether or not the proposed plan meets the requirements of paragraph IV. If, in the opinion of the state board, the requirements have been properly addressed, the state board shall recommend for or against its adoption based on its assessment of the plan's feasibility. If, in the opinion of the state board, the requirements have not been properly addressed, the deficiencies shall be noted and the plan shall be promptly returned for revision. When the plan is resubmitted, the state board shall promptly review the revised plan, return the plan, and make a recommendation for or against its adoption based on its assessment of the plan's feasibility. The state board's recommendation shall be reported to the legislative body of the area districts. The state board shall forward the plan for withdrawal to the school board of the withdrawing school district. The school board shall publish the withdrawal plan once in a newspaper generally circulated within the area districts. The school board shall file the plan for withdrawal with the clerk of the withdrawing district and shall insert the plan in the warrant for the next annual meeting. The article in the warrant for the district meeting and the question on the ballot to be used at the meeting shall be in substantially the following form:

"Shall the school district accept the provisions of RSA 195–A:14, as amended, providing for the withdrawal of the sending (or receiving) district of _____ from the _____ area in accordance with the provisions of the proposed withdrawal plan filed with the school district clerk?"

Yes _____ No _____

If a majority of the voters present and voting shall vote in the affirmative, the clerk of the school district shall forthwith send to the state board of education a certified copy of the warrant, certificate of posting, evidence of publication, and minutes of the meeting. If the board finds that a majority of the voters present and voting have voted in favor of the withdrawal plan, it shall be conclusive evidence of the withdrawal of the district and the continuation of the area or the dissolution of a 2-district area.

VIII. The vote to withdraw from an area shall take effect on July 1 of the calendar year which shall be at least 2 years after the date on which the withdrawal vote is adopted. The plan may provide for an earlier date.

195–A:15 Conversion of Area School Plan to Cooperative School District.

I. The school districts comprising an authorized regional enrollment area plan may convert the plan to a cooperative school district as provided in RSA 195:18 upon the expiration of 5 years after date of operating responsibility, and thereafter. Provided, however, that, if such area plan then includes a city school district or the dependent school department of a city, such conversion may only be accomplished by special act of the legislature upon petition of the cooperative school district planning board. In proceedings for conversion, the school boards of the several school districts in the area plan, acting jointly, shall constitute the cooperative school district planning board. The articles of agreement for such conversion shall provide for assumption by the cooperative school district of all outstanding debt of each receiving district incurred for its area schools, and shall provide for termination of tuition payments on date of operating responsibility of the new cooperative district.

195–A:16 Modification. Parties to any authorized regional area agreement may, either at the time of the original agreement, or at any subsequent modification of the agreement, specify that the agreement shall cover less than 100 percent of the student population of the sending district. In the event that a chartered public school is approved within a sending or receiving district, after final approval by the state board, an area review board shall be convened pursuant to RSA 195–A:14 solely for the purpose of considering an amendment to the area agreement relative to the adoption of the chartered public school provisions under RSA 194–B. Any such amendment shall be consistent with the provisions of RSA 195–A:3, V(p). An area plan amended under this section shall be submitted to the state board for approval no later than December 1 of the year of amendment.

CHAPTER 195–B

STATE GUARANTEE

[Repealed 1967, 154:6, eff. July 24, 1967.]

History

Former RSA ch. 195–B, comprising RSA 195–B:1 to 195–B:5, which was derived from 1963, 277:1; 1965, 112:11; and 311:4, 5, related to the New Hampshire School Building Authority. See now RSA 195–C.

CHAPTER 195–C

SCHOOL BUILDING AUTHORITY— STATE GUARANTEE

195–C:1 School Building Authority.

I. There shall be a school building authority, referred to in this chapter as the authority, consisting of the state treasurer, the commissioner of education, the state fire marshal or designee, and 3 other members appointed by the governor, one of whom shall have expertise in education, one of whom shall have expertise in finance, and one of whom shall have expertise in building construction or engineering, with the advice and consent of the council, for terms of 3 years and until their successors are appointed and qualify. The governor shall designate one of said members as chairman. In case of vacancy among the appointive members of the authority, the governor, with the advice and consent of the council, shall fill the same for the unexpired term. The appointive members of the authority shall receive as compensation for their services, while actually engaged in the business of the authority, the sum of $8 per day plus their necessary subsistence expenses. The appointive members of the authority shall be paid mileage at the state employees rate, plus necessary travel expenses, only when performing activities at the request of the state board of education.

II. It shall be the duty of the authority to consider and investigate all applications of school districts for awards of state guarantees with respect to borrowings authorized by such districts for school projects of not less than $100,000 involving the construction, enlargement or alteration of school buildings, and to make a written report on each application to the governor and council. If the authority finds that a school project will be of public use and benefit and that the amount of the authorized borrowing appears to be within the financial means and available resources of the school district making the application, the authority may include in its report a recommendation that a state guarantee be awarded on a split issue basis with respect to a specific amount of the bonds or notes of the district or that a state guarantee be awarded on a declining balance basis with respect to a specific percentage of each of such bonds or notes. In determining what amount or percentage to recommend under the provisions of this chapter, the authority shall consider the need for the project in comparison with the need for other projects throughout the state and the capacity of the state to guarantee indebtedness within the limits contained in this chapter.

III. The authority may make reasonable procedural rules and regulations and prescribe forms to be used in its proceedings. The authority may also establish from time to time schedules of service charges to be paid by districts which issue bonds or notes guaranteed by the state pursuant to this chapter, but no charge shall exceed 1/10 of one percent of the principal amount of the bonds or notes which are issued and with respect to which the state guarantee is applicable. The charge to a district shall not be payable until after the bonds or notes on which the charge is based have been issued, and such charge may be paid from the proceeds of the bonds or notes including premiums, but exclusive of accrued interest. Service charges shall be paid to the state treasurer and shall be credited to the account of the authority. Such account shall not lapse and shall be available to the authority as a continuing fund subject to expendi-

ture for the use of the authority pursuant to votes thereof.

IV. (a) The authority shall advise the state board of education by investigating matters concerning school facilities referred to them by the state board of education. Such matters shall include, but shall not be limited to, standards for school building construction pursuant to RSA 21–N:9, II(c), safety standards related to school buildings, financing of school construction projects, award of high performance school construction grants under RSA 198:15–b, I–b, and any other specific concerns about particular school buildings that have been brought to the attention of the state board of education.

(b) The authority shall seek the assistance and expertise of state and local agencies and private entities as may be necessary.

195–C:2 State Guarantee. Upon the receipt of a report from the authority containing a recommendation that bonds or notes of a school district should be guaranteed by the state, the governor with the advice and consent of the council may award an unconditional state guarantee with respect to such bonds or notes in accordance with the authority's recommendation or in some lesser amount or percentage, or on the alternative basis of guarantee, as the best interests of the state may require. The full faith and credit of the state are and shall be pledged for any such guarantees, and the total outstanding amount of the principal of and interest on such bonds and notes which has been guaranteed by the state under this section shall at no time exceed $95,000,000. The governor, with the advice and consent of the council, is authorized to draw a warrant for such a sum out of any money in the treasury not otherwise appropriated, for the purpose of honoring any guarantee awarded under this section. In the event that any state funds shall be so used, the state may recover the amount thereof as provided in RSA 530.

195–C:3 Definition and Limit of Split Issue Guarantee. An award of a state guarantee on a split-issue basis under RSA 195–C:2 shall specify the face amount of the bonds or notes which shall comprise the guarantee portion of the total authorized borrowing, and such guarantee shall be applicable with respect to that amount of the bonds or notes and interest on such bonds or notes. The guaranteed portion of the total authorized borrowing shall not exceed 75 percent thereof. Bonds or notes bearing a state guarantee awarded on a split-issue basis shall be offered and sold at public sale, after such advertisement as the school board deems appropriate, as a separate and distinct issue from any issue of bonds or notes which are not guaranteed by the state. All state guaranteed bonds or notes issued to finance a particular project shall be made payable no later than the payment date of the last maturing unguaranteed bond or note which is issued to finance the same project. The bonds or notes comprising the guaranteed portion of an authorized borrowing and the bonds or notes comprising the unguaranteed portion of an authorized borrowing may be issued from time to time, provided that the guaranteed portion which shall have been issued at any time shall not exceed 3 times the unguaranteed portion which shall then have been issued. The state's guarantee shall be evidenced on each guaranteed bond or note by an endorsement signed by the state treasurer in substantially the following form:

The State of New Hampshire hereby unconditionally guarantees the payment of the whole of the principal and interest of the within (bond) (note) and for the performance of such guarantee the full faith and credit of the State are pledged.

195–C:4 Definition and Limit of Declining Balance Guarantee. An award of a state guarantee on a declining balance basis under RSA 195–C:2 shall specify the percentage of the guarantee, and such guarantee shall be applicable in such percentage with respect to any amount of a bond, note or coupon comprising the authorized borrowing which the issuing district is unable to pay or refuses to pay upon the presentation of such bond, note or coupon. Such percentage shall not be more than 75 percent. The bonds or notes comprising an authorized borrowing guaranteed on a declining balance basis may be issued from time to time and may be sold at public or private sale. 195–D:4 New Hampshire Health and Education Facilities Authority Constituted Public Body Corporate and Agency of the State.

I. The New Hampshire Health and Education Facilities Authority is created as a corporation and is constituted and established as a public body corporate and agency of the state for the exercising of the powers conferred on the corporation by this chapter.

II. All of the powers of the corporation are vested in a board of directors of 7 members who shall be appointed by the governor and council. The terms of 2 of the members shall expire on June 30, 1970; the terms of 2 members shall expire on June 30, 1971; and the terms of 3 members shall expire respectively on June 30, 1972, June 30, 1973 and June 30, 1974. Successors to those members of the board of directors whose terms expire each year shall be appointed by the governor and council prior to June 1 in each year, for terms of 5 years each. If a vacancy occurs in the membership of the board of directors, the governor and council shall appoint a successor for the unexpired term. Any member of the board of directors shall be eligible for re-appointment.

III. Each member of the board of directors, before entering upon his duties, shall take an oath to administer the duties of his office faithfully and impartially, and such oath shall be filed in the office of the secretary of state.

IV. The board of directors shall elect one of its members as chairperson, another as vice chairperson, and shall also elect a secretary, who need not be a member of the board. Four members of the board of directors constitute a quorum, and the vote of a majority of the members constituting a quorum present and voting is necessary for any action taken by the corporation. A vacancy in the membership of the board of directors of the corporation does not impair the right of a quorum to exercise all the powers and perform the duties of the corporation. Notwithstanding RSA 91–A or any other law to the contrary, members of the board shall be permitted to participate in meetings by telephone, provided that any board member so participating shall be able to be heard and to hear every other board member participating in the meeting, and unless the board is meeting in nonpublic session pursuant to RSA 91–A:3, shall be able to hear and be heard by all members of the public attending the meeting, and that the meeting is held at a physical location available to the public and identified in the notice of the meeting, and that at least 2 members of the authority are physically present at the meeting. Voting members of the

board participating by telephone shall be treated as present at the meeting for all purposes, including the establishment of quorum.

V. Any action taken by the corporation under the provisions of this chapter may be authorized by resolution at any regular or special meeting, and each such resolution shall take effect immediately and need not be published or posted. However, any action taken that directly affects any institution by name is not effective as to that institution until notice of the action has been delivered to the institution, by mail or otherwise.

VI. The members of the board of directors and the officers of the corporation shall not receive any compensation for the performance of their duties under this chapter, but each such member or officer shall be paid his necessary expenses incurred while in the performance of such duties. These expenses, as well as any expenses incurred by the corporation as a result of indemnifying or holding harmless its directors, officers, and employees, are part of the expenses authorized by RSA 195–D:5, to be a charge as an administration cost.

To acquire any federally guaranteed security with respect to the financing of a project or the refinancing of existing indebtedness and to pledge or otherwise use such federally guaranteed security in such manner as the corporation deems necessary or appropriate to secure or otherwise provide a source

of repayment on any of its bonds or notes or to enter into any appropriate agreement with a participating institution whereby the corporation may make a loan to such participating institution for the purpose of acquiring and entering into commitments to acquire any federally guaranteed security with respect to financing of a project or the refinancing of existing indebtedness; provided, however, that the corporation, prior to making any such acquisition, commitment or loan with respect to financing a project, shall first determine, and thereafter shall enter into an agreement with any such participating institution to require, that the proceeds derived from the acquisition of any such federally guaranteed security will be used for the purpose of providing for a project;

XIV. To charge to and equitably apportion between participating institutions its administrative costs and expenses incurred in the exercise of the powers and duties conferred by this chapter;

XIX. To protect, indemnify, and hold harmless its members of the board of directors, officers and employees from any costs, damages, awards, judgments, or settlements arising from any claim, civil action, lawsuit, or other proceeding against them.

195–D:7 Title to Projects. When the principal of and interest on revenue bonds of the corporation issued to finance the construction and acquisition of a particular project or projects at a participating institution, including any revenue refunding bonds issued to refund and refinance such revenue bonds, have been fully paid and retired or when adequate provision has been made to fully pay and retire the same, and all other conditions of the resolution or trust agreement authorizing and securing the same have been satisfied and the lien of such resolution or trust agreement has been released in accordance with the provisions thereof, the corporation shall promptly do such things and execute such deeds and conveyances as are necessary and required to convey title to such project or projects to such participating institution,

free and clear of all liens and encumbrances, all to the extent that title to such project or projects is not, at the time, then vested in such participating institution.

195–D:8 Notes of the Corporation. The corporation has the power and is hereby authorized from time to time to issue its negotiable notes for any corporate purpose, including the payment of all or any part of the cost of any project or the refinancing of existing indebtedness, and renew from time to time any notes by the issuance of new notes, whether the notes to be renewed have or have not matured. The corporation may issue notes partly to renew notes or to discharge other obligations then outstanding and partly for any other purpose. The notes may be authorized, sold, executed and delivered in the same manner as bonds. Any resolution or resolutions authorizing notes of the corporation or any issue thereof may contain any provisions which the corporation is authorized to include in any resolution or resolutions authorizing revenue bonds of the corporation or any issue thereof, and the corporation may include in any notes any terms, covenants or conditions which it is authorized to include in any bonds. All such notes shall be payable solely from the revenues of the corporation, subject only to any contractual rights of the holders of any of its notes or other obligations then outstanding.

195–D:9 Bonds of the Corporation.

I. The corporation is authorized to issue its negotiable revenue bonds from time to time for any corporate purposes, including the financing of all or part of the costs of any projects or the refinancing of existing indebtedness.

II. In anticipation of the sale of such revenue bonds the corporation may issue negotiable bond anticipation notes and may renew the same from time to time, but the maximum maturity of any such note, including renewals thereof, shall not exceed 5 years from the date of issue of the original note. Such notes shall be paid from any revenues of the corporation available therefor and not otherwise pledged, or from the proceeds of sale of the revenue bonds of the corporation in anticipation of which they were issued. The notes shall be issued in the same manner as the revenue bonds. Such notes and the resolution or resolutions authorizing the same may contain any provisions, conditions, or limitations which a bond resolution of the corporation may contain.

III. The revenue bonds and notes of every issue shall be payable solely out of revenue of the corporation, subject only to any agreements with the holders of particular revenue bonds or notes pledging any particular revenues. Notwithstanding that revenue bonds and notes may be payable from a special fund, if they are otherwise of such form and character as to be negotiable instruments under the terms of the uniform commercial code of the state the revenue bonds and notes shall be and are hereby made negotiable instruments within the meaning of and for all purposes of the uniform commercial code, subject only to the provisions of the revenue bonds and notes for registration.

IV. The revenue bonds may be issued as serial bonds or as term bonds, or the corporation, in its discretion, may issue bonds of both types. The revenue bonds shall be authorized by resolution of the corporation and shall bear such date or dates, mature at such time or times, not exceeding 40 years from their respective dates, bear interest at such rate or rates, shall be payable at such time or times, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places, and be subject to such terms of redemption, as such resolution or resolutions provide. In the event that term bonds are issued, the resolution authorizing the same may make such provisions for the establishment and management of adequate sinking funds for the payment thereof, as the corporation judges necessary. The revenue bonds or notes may be sold at public or private sale for such price or prices as the corporation determines. Pending preparation of the definitive bonds, the corporation may issue interim receipts or certificates which shall be exchanged for such definitive bonds.

V. Any resolution or resolutions authorizing any revenue bonds or any issue of revenue bonds may contain provisions, which shall be a part of the contract with the holders of the revenue bonds to be authorized, as to:

(a) Pledging all or any part of the revenues of a project or any revenue producing contract or contracts made by the corporation with any individual, partnership, corporation, or association or other body, public or private, to secure the payment of the revenue bonds or of any particular issue of revenue bonds, subject to such agreements with bondholders as then exist;

(b) The rentals, fees, and other charges to be charged, and the amounts to be raised in each year

thereby, and the use and disposition of the revenues;

(c) The setting aside of reserves or sinking funds, and the regulation and disposition thereof;

(d) Limitations on the right of the corporation or its agent to restrict and regulate the use of the project;

(e) Limitations on the purpose to which the proceeds of sale of any issue of revenue bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the revenue bonds or any issue of the revenue bonds;

(f) Limitations on the issuance of additional bonds; the terms upon which additional bonds may be issued and secured; the refunding of outstanding bonds;

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(h) Limitations on the amount of moneys derived from the project to be expended for operating, administrative or other expenses of the corporation;

(i) Defining the acts or omissions to act which shall constitute a default in the duties of the corporation to holders of its obligations and providing the rights and remedies of such holders in the event of a default;

(j) The mortgaging of a project and the site thereof for the purpose of securing the bondholders;

(k) Such other additional covenants, agreements, and provisions as are judged desirable or necessary by the corporation for the security of the holders of such bonds.

VI. Neither the members of the corporation nor any person executing the revenue bonds or notes shall be liable personally on the revenue bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

VII. The corporation has the power, out of any funds available therefor, to purchase its bonds or notes. The corporation may hold, pledge, cancel, or resell such bonds, subject to and in accordance with agreements with bondholders.

195–D:10 Trust Agreement. In the discretion of the corporation, any revenue bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the corporation and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement or the resolution providing for the issuance of such revenue bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged and may convey or mortgage the project or any portion thereof. Such trust agreement or resolution providing for the issuance of such revenue bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as are reasonable and proper and not in violation of law, including particularly such provisions as have been specifically authorized in this chapter to be included in any resolution or resolutions of the corporation authorizing revenue bonds thereof. It is lawful for any bank or trust company incorporated under the laws of the state which may act as depositary of the proceeds of bonds or of revenues or other moneys to furnish such indemnifying bonds or to pledge such securities as may be required by the corporation. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the corporation judges reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of a project.

195–D:11 Credit of State Not Pledged. Revenue bonds issued under the provisions of this chapter do not and shall not be construed to constitute a debt or liability of the state or of any municipality or political subdivision thereof or a pledge of the faith and credit of the state or of any such municipality or political subdivision. These revenue bonds are payable solely from the revenue funds provided by this chapter for their payment. All such revenue bonds shall contain on the face thereof a statement to the effect that neither the state nor the corporation are obligated to pay the same or the interest thereon except from revenues of the project or projects for which they are issued and that neither the faith and credit nor the taxing power of the state or of any municipality or political subdivision thereof is pledged to the payment

of the principal of or the interest on such bonds. The issuance of revenue bonds under the provisions of this chapter shall not directly or indirectly or contingently obligate the state or any municipality or political subdivision thereof to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment.

195–D:12 Revenues. The corporation is authorized to fix, revise, charge, and collect rates, rents, fees and charges for the use of and for the services furnished or to be furnished by each project and to contract with any person, partnership, association or corporation, or other body, public or private, in respect thereof. Such rates, rents, fees and charges shall be fixed and adjusted in respect of the aggregate of rates, rents, fees and charges from such project so as to provide funds sufficient with other revenues, if any, (a) to pay the cost of maintaining, repairing, and operating the project and each and every portion thereof, to the extent that the corporation has not otherwise adequately provided for the payment thereof, (b) to pay the principal of and the interest on outstanding revenue bonds of the corporation issued in respect of such project as the same become due and payable, and (c) to create and maintain reserves required or provided for in any resolution authorizing, or trust agreement securing, such revenue bonds of the corporation. Such rates, rents, fees, and charges shall not be subject to supervision or regulation by any department, commission, board, body, bureau or agency of the state other than the corporation. A sufficient amount of the revenues derived in respect of a project, except such part of such revenues as may be necessary to pay the cost of maintenance, repair, and operation and to provide reserves and for renewals, replacements, extensions, enlargements, and improvements as may be provided for in the resolution authorizing the issuance of any revenue bonds of the corporation or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or trust agreement in a sinking or other similar fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such revenue bonds as the same become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the rates, rents, fees and charges, and other revenues or other moneys so pledged and thereafter received by the corporation are immediately subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge is valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the corporation, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the corporation. The use and disposition of moneys to the credit of such sinking or other similar fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as otherwise provided in such resolution or such trust agreement, such sinking or other similar fund shall be a fund for all such revenue bonds issued to finance projects at a particular participating institution without distinction or priority of one over another. However, the corporation in any such resolution or trust agreement may provide that such sinking or other similar fund shall be the fund for a particular project at a participating institution and for the revenue bonds issued to finance a particular project and may, additionally, permit and provide for the issuance of revenue bonds having a subordinate lien in respect of the security herein authorized to other revenue bonds of the corporation and, in such case, the corporation may create separate sinking or other similar funds in respect of such subordinate lien bonds.

195–D:13 Trust Funds. All moneys received pursuant to the authority of this chapter whether as proceeds from the sale of bonds or as revenues, are trust funds to be held and applied solely as provided in this chapter. Any officer with whom, or any bank or trust company with which, such moneys are deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes of this chapter, subject to such regulations as this chapter and the resolution authorizing the bonds of any issue or the trust agreement securing such bonds provide.

195–D:14 Remedies. Any holder of revenue bonds issued under the provisions of this chapter or of any of the coupons appertaining thereto, and the trustee or trustees under any trust agreement, except to the extent the rights herein given may be restricted by any such resolution authorizing the issuance of, or any such trust agreement securing, such bonds, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any and all rights under the laws of the state or granted under this chapter or under such resolution or trust agreement, and may enforce and compel

the performance of all duties required by this chapter or by such resolution or trust agreement to be performed by the corporation or by any officer, employee, or agent thereof, including the fixing, charging, and collecting of the rates, rents, fees and charges authorized in this chapter and required by the provisions of such resolution or trust agreement to be fixed, established, and collected.

195–D:15 Exemption From Taxation; Payments in Lieu of Taxes. The exercise of the powers granted by this chapter will be in all respects for the benefit of the people of the state, for the increase of their commerce, welfare and prosperity, and for the improvement of their health and living conditions, and will constitute the performance of an essential governmental function, and neither the corporation nor its agent shall or may be required to pay any taxes or assessment upon or in respect of a project or any property acquired or used by the corporation or its agent or under the jurisdiction, control, possession or supervision of the same or upon the activities of the corporation or its agent in the operation or maintenance of the project under the provisions of this chapter, or upon income or other revenues received therefrom, and any bonds, notes and other obligations issued under the provisions of this chapter, their transfer and the income therefrom, including any profit made on the sale thereof, as well as the income and property of the corporation, are at all times exempt from taxation of every kind by the state and by the municipalities and all other political subdivisions of the state; provided that the participating institution shall be required to make annual payments in lieu of taxes on;

I. Any project or any portion thereof owned by such participating institution or by the corporation pursuant to the provisions of this chapter if said project or any portion thereof would not be exempt from taxation pursuant to RSA 72:23 as amended and as in effect on the date that the findings of the designee of the governor and council are made for the particular project pursuant to RSA 195–D:21; or

II. Any portion or all of a project which provides permanent housing for married students, staff, or employees of a participating educational institution or permanent housing for staff, employees or relatives of patients of a participating health care institution. The amount of the annual payment in lieu of taxes shall be equal to that sum which would otherwise have been payable for real estate taxes on such project or part thereof pursuant to RSA 74 and RSA 75. All such payments in lieu of taxes shall be made to the city or town in which such project or portion thereof is located on December 1 of each year. The corporation shall not be liable to make any such payments in lieu of taxes, except to the extent that moneys have been deposited with it for the specific purpose of making such payments in lieu of taxes. The liability for such payments in lieu of taxes shall constitute a general obligation of the participating institution. Upon any failure of such participating institution to make such payments in lieu of taxes as herein provided, no liens of any nature shall attach against any project, or any portion thereof, or against the assets or revenues of such participating institution, pledged to secure bonds or other obligations of the corporation for the period during which bonds or other obligations issued to finance the project are outstanding; provided, however, the city or town shall have a lien to secure the making of such payments in lieu of taxes which lien shall attach against all real estate of the participating institution not pledged, mortgaged or otherwise encumbered to secure bonds or other obligations of the corporation and which lien shall further attach against all real estate comprising the project but only on the date the bonds or other obligations issued to finance such project or part thereof have been fully retired. The corporation shall within 5 days of such date notify such city or town of the date on which the bonds or other obligations issued to finance the project or part thereof have been fully retired. The city or town may enforce the foregoing liens by a collector's sale of property subject to such liens in the manner provided in RSA 80. Notwithstanding the foregoing provisions, the governing body of such city or town, as defined in RSA 203:3, III, may agree with such participating institution to waive its rights to such payments in lieu of taxes, or any portion thereof, over the period during which bonds or other obligations issued to finance the project are outstanding or for some lesser period of time.

195–D:16 Revenue Refunding Bonds.

I. The corporation is authorized to provide for the issuance of its revenue bonds for the purpose of refunding any revenue bonds of the corporation then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase or maturity of such revenue bonds, and, if judged advisable by the corporation, for the additional purpose of paying all or any part of the cost of constructing and acquiring additions, improve-

ments, extensions, or enlargements of a project or any portion thereof.

II. The proceeds of any such revenue bonds issued for the purpose of refunding outstanding revenue bonds may, in the discretion of the corporation, be applied to the purchase or retirement at maturity or redemption of such outstanding revenue bonds either on their earliest or any subsequent redemption date, and may, pending such application, be placed in escrow to be applied to such purchase or retirement at maturity or redemption on such date as may be determined by the corporation.

III. Any such escrowed proceeds, pending such use, may be invested and reinvested in obligations of or guaranteed by the United States of America, or in obligations of agencies of the United States of America, or in certificates of deposit or time deposits secured by obligations of or guaranteed by the United States of America, maturing at such time or times that are appropriate to assure the prompt payment, as to principal, interest, and redemption premium, if any, of the outstanding revenue bonds to be so refunded. The interest, income, and profits, if any, earned or realized on any such investment may also be applied to the payment of the outstanding revenue bonds to be so refunded. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, income and profits, if any, earned or realized on the investments thereof may be returned to the corporation for use by it in any lawful manner.

IV. CHAPTER 195–E

LOAN CORPORATIONS

195–E:1 Declaration of Policy. It is declared to be the policy of this state that for the benefit of the people of the state, the increase of their commerce, welfare, and prosperity and the improvement of their health and living conditions, it is essential that students attending higher educational institutions be given the fullest opportunity to learn and develop their intellectual and mental capacities. It is recognized that the financial costs to obtain an education beyond the high school level are often burdensome or prohibitive, and it is essential that qualified students or their parents be provided with low cost financial assistance in order that the students may attend such schools and to reduce the total amount of loan payments following graduation. In order to achieve this policy, it is essential that state residents be provided with an appropriate source of financing their postsecondary educations and that educational institutions wherever situated be provided with appropriate additional means to assist qualified students or their parents financially so that the students might achieve the required levels of learning and development of their intellectual and mental capacities. In order to assure the continued viability of existing loan programs whereby educational loans are made available to qualified students or their parents, it is necessary and desirable to provide an efficient, stable secondary

market to which such loans may be sold, transferred, or pledged in exchange for funds with which the original lender will be enabled to continue or increase participation in such loan programs. Therefore, the general court has conferred certain powers on educational institutions, on loan corporations, on the New Hampshire higher education assistance foundation, and on the New Hampshire health and education facilities authority to assure the successful origination, distribution and collection of loans so as to accomplish the purposes of this chapter, all to the public benefit and good. It is further declared that the exercise by the educational institutions, the loan corporations, the New Hampshire higher education assistance foundation and the New Hampshire health and education facilities authority of the powers conferred under this chapter will constitute the performance of an essential governmental function.

IV. Bonds and notes of the bank issued under the provisions of this chapter shall not be in any way a debt or liability of the state and shall not create or constitute any indebtedness, liability or obligation of the state or be or constitute a pledge of the faith and credit of the state but all such bonds and notes, unless funded or refunded by bonds or notes of the bank, shall be payable solely from revenues or funds pledged or available for their payment as authorized herein. Each bond and note shall contain on its face a statement to the effect that the bank is obligated to pay the principal thereof and the interest thereon only from revenues or funds of the bank and that the state is not obligated to pay such principal or interest and that neither the faith and credit nor the taxing power of the state is pledged to the payment of the principal of or the interest on such bonds or notes.

V. All expenses incurred in carrying out the provisions of this chapter shall be payable solely from revenues or funds provided or to be provided under the provisions of this chapter and nothing in this chapter shall be construed to authorize the bank to incur any indebtedness or liability payable by the state.

VI. The bank may contract with holders of its bonds and notes in the manner provided in RSA 35–A:9.

VII. In the event of default by the bank on any bonds or notes issued under this chapter, a trustee shall be appointed pursuant to RSA 35–A:15, but shall act only with respect to such bonds or notes issued hereunder.

VIII. The provisions of RSA 35–A:4; RSA 35–A:6, I through X, inclusive; XI, but with respect to educational institutions rather than governmental units, and XV; RSA 35–A:7, II through IV, inclusive; RSA 35–A:8, I and III through VIII, inclusive; RSA 35–A:9, but with respect to educational institution bonds rather than municipal bonds; RSA 35–A:10; RSA 35–A:15, but with respect to educational institution bonds rather than municipal bonds; RSA 35–A:16; RSA 35–A:17; RSA 35–A:23; RSA 35–A:24, but with respect to educational institutions and educational institution bonds rather than governmental units and municipal bonds; RSA 35–A:25; RSA 35–A:26; RSA 35–A:36; and RSA 35–A:37 shall apply as they may be applicable to the financing of educational institution projects or improvements in accordance with this chapter.

IX. Notwithstanding any other provision of this chapter, the bank shall not lend money to an educational institution for any educational institution project or improvement as authorized by this chapter unless, prior to the issuance of any bonds hereunder, the bank has found that:

(a) The construction and acquisition of such project or improvement will enable or assist an educational institution to provide education within the state; and

(b) Such project or improvement will be leased to, or owned by, a financially responsible educational institution within the state; and

(c) Adequate provision has been, or will be, made for the payment of the cost of the construction and acquisition of such project or improvement and that under no circumstances will the state be obligated directly or indirectly, for the payment of the principal of, or interest on, any obligations issued to finance such construction and acquisition; and

(d) Adequate provision has been, or will be, made in any lease or mortgage of the project for the payment of all costs of operation, maintenance and upkeep of such project by the lessee, sublessee, mortgagor or occupant so that under no circumstances will the state be obligated, directly or indirectly, for the payment of such costs; and

(e) Adequate provision has been made to obligate the educational institution to hold and use the project for educational purposes so long as the principal of and interest on bonds issued by the bank to finance the cost of such project or improvement, including any refunding bonds issued to refund and refinance such bonds, have not been fully paid and retired and all other conditions of the resolution or trust agreement, if any, authorizing and securing the same have not been satisfied and the lien of such resolution or trust agreement has not been released in accordance with the provisions thereof;

(f) The lending of money by the bank to the educational institution is within the authority conferred by this chapter upon the bank; and

(g) The construction and acquisition of such project or improvement serves a need presently not fulfilled in providing education within the state and is of public use and benefit.

195–F:5 General Power. In addition to those powers enumerated in RSA 35–A:6, the bank shall have the authority to purchase or hold educational institution bonds at such prices and in such manner as the bank shall deem advisable and to sell educational institution bonds acquired or held by it at such prices without relation to cost and in such manner as the bank shall deem advisable. The bank may require the educational institution to secure the bonds as to payment of both principal and interest by a pledge of, lien upon or bond interest in, its revenues or properties, including a mortgage thereof, as the bank determines necessary to secure the payment of such bonds purchased and the interest thereon as the same become due. The bank may assign any such pledge, lien or bond interest to or for the benefit of the holders of its bonds. The bank may fix and prescribe any form of application or procedure to be required of an educational institution for the purpose of any loan or the purchase of its educational institution bonds, and to fix the terms and conditions of any such loan or purchase and to enter into agreements with educational institutions with respect to any such

loan or purchase. The bank shall have the powers prescribed in RSA 35–A:8 with respect to bonds issued under this chapter, provided, however, that such bonds shall not be general obligations of the bank, but shall be special obligations of the bank payable only from the revenues pledged to their payment. Any pledge of revenues or moneys under this chapter shall have the same effect as a pledge under RSA 35–A:10.

195–F:6 Reserve Funds.

I. The bank may create and establish one or more educational institution reserve funds, hereafter referred to as "reserve funds", and shall pay into each such reserve fund any proceeds of sale of notes or bonds to the extent provided in the resolution or resolutions of the bank authorizing the issuance thereof and any other moneys which may be or become available to the bank for the purpose of such fund from any other source or sources. All moneys held in any reserve fund are hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds with respect to which such reserve fund may be established, as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. The use and disposition of moneys to the credit of such reserve fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such reserve fund shall be a fund for all such bonds issued pursuant to a particular resolution to provide financing for educational institutions without distinction or priority of any bond over another.

II. Moneys in any reserve fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of such fund to less than the reserve fund requirement, if any, established for such fund, as provided in paragraph IV, except for the purpose of making, with respect to bonds secured in whole or in part by such fund, payment when due, of principal, interest, redemption premiums and the sinking fund payments, if any, with respect to such bonds for the payment of which other moneys of the bank are not available. Any income or interest earned by any reserve fund resulting from the investment thereof or any other moneys therein may be transferred by the bank to other funds or accounts of the bank to the extent it does not reduce the amount of that reserve fund below the reserve fund requirements for such fund.

III. The bank shall not at any time issue bonds, secured in whole or in part by a reserve fund, if upon the issuance of such bonds, the amount in such reserve fund will be less than the reserve fund requirement for such fund, unless the bank at the time of issuance of such bonds shall deposit in such fund from the proceeds of the bonds issued, or from other sources, an amount which, together with the amount then in such fund, will not be less than the reserve fund requirement for such fund. The bank may at any time issue its bonds or notes for the purpose of providing any amount necessary to increase the amount in the reserve fund to the required debt service reserve, or to meet such higher or additional reserve as may be fixed by the bank with respect to such fund. In computing the amount of the required debt service reserve, investments, held as a part thereof shall be valued in the manner provided in the bond resolution.

IV. As used herein "reserve fund requirement" means, as of any date of computation, the amount or amounts, if any, required to be on deposit in the reserve fund as provided by resolution of the bank authorizing such bonds. The required reserve fund requirement shall be as of any date of computation, an aggregate amount of not more than 150 percent of the largest amount of money, required by the terms of all contracts between the bank and its bondholders to be raised in the then current or any succeeding calendar year for the payment of interest on and maturing principal of that portion of outstanding bonds the proceeds of which were applied solely to the purchase of educational institution bonds and sinking fund payments required by the terms of any such contracts to sinking funds established for the payment or redemption of such bonds, all calculated on the assumption that bonds shall cease to be outstanding after the date of such computation by reason of the payment of such bonds at their respective maturities and the payments of such required moneys to sinking funds and the application thereof in accordance with the terms of all such contracts to the retirement of bonds.

V. Moneys at any time in the reserve fund may be invested in the same manner as permitted for investment of funds belonging to the state or held in the treasury.

II. No amount shall be paid or expended out of the educational institution general fund or from any account therein (which account the bank may establish therein for the purpose of payment of its operating expenses) for operating expenses of the bank relative to the purchase, holding and sale of educational institution bonds in any year in excess of the amount provided for the operating expenses of the educational institution division of the bank by the annual budget then in effect with respect to such year or any amendment thereof in effect at the time of such payment or expenditure for operating expenses relative to this chapter.

CHAPTER 195–G

COLLEGE SAVINGS BOND PROGRAM

195–G:1 Declaration of Policy. It is declared to be the policy of this state that for the benefit of the people of the state, the increase of their commerce, welfare, and prosperity and the improvement of their health and living conditions, it is essential that students attending higher educational institutions be given the fullest opportunity to learn and develop their intellectual and mental capacities. It is recognized that the financial costs to obtain an education beyond the high school level are often burdensome or prohibitive, and it is essential that qualified students or their parents be provided with methods to finance postsecondary education. It is essential that state residents be provided with an appropriate method of financing their postsecondary educations so that they might achieve the required levels of learning and development of their intellectual and mental capacities. Therefore, the general court has conferred certain powers on the state treasurer to accomplish the purposes of this chapter, all to the public benefit and good. It is further declared that the exercise by the state treasurer of the powers conferred under this chapter shall constitute the performance of an essential governmental function.

197:3 Raising Money at Special Meeting.

I. (a) No school district at any special meeting shall raise or appropriate money nor reduce or rescind any appropriation made at a previous meeting, unless the vote thereon is by ballot, nor unless the ballots cast at such meeting shall be equal in number to at least ½ of the number of voters of such district entitled to vote at the regular meeting next preceding such special meeting; and, if a checklist was used at the last preceding regular meeting, the same shall be used to ascertain the number of legal voters in said district; and such checklist, corrected according to law, may be used at such special meeting upon request of 10 legal voters of the district. In case an emergency arises requiring an immediate expenditure of money, the school board may petition the superior court for permission to hold a special district meeting, which, if granted, shall give said district meeting the same authority as an annual district meeting.

(b) "Emergency" for the purposes of this section shall mean a sudden or unexpected situation or occurrence, or combination of occurrences, of a serious and urgent nature, that demands prompt or immediate action, including an immediate expenditure of money. This definition, however, does not establish a requirement that an emergency involves a crisis in every set of circumstances.

(c) To verify that an emergency exists, a petitioner shall present, and the court shall consider, a number of factors including:

(1) The severity of the harm to be avoided.

(2) The urgency of the petitioner's need.

(3) Whether the claimed emergency was foreseeable or avoidable.

(4) Whether the appropriation could have been made at the annual meeting.

(5) Whether there are alternative remedies not requiring an appropriation.

II. Ten days prior to petitioning the superior court, the school board shall notify, by certified mail, the commissioner of the department of revenue administration that an emergency exists by providing the commissioner with a copy of the explanation of the emergency, the warrant article or articles and the petition to be submitted to the superior court. The petition to the superior court shall include a certification that the commissioner of the department of revenue administration has been notified pursuant to this paragraph.

III. In the event that the legislative body at an annual meeting amends or rejects the cost items or fact finder's reports as submitted pursuant to RSA 273–A, notwithstanding paragraphs I and II, the school board may call one special meeting for the sole purpose of addressing all negotiated cost items without petitioning the superior court for authorization. Such special meeting may be authorized only by a contingent warrant article inserted on the warrant or official ballot either by petition or by the governing body. The wording of the question shall be as follows: "Shall (the local political subdivision), if article _____ is defeated, authorize the governing body to call one special meeting, at its option, to address article _____ cost items only?" The refusal of the legislative body to authorize a special meeting as provided in this paragraph shall not affect any other provision of law. Any special meeting held under this paragraph shall be combined with the revised operating budget meeting under RSA 40:13, XI, if any, and shall not be counted toward the number of special meetings which may be held in a given calendar or fiscal year.

IV. When the school board votes to petition the superior court for permission to hold a special school district meeting, the school board shall post notice of such vote within 24 hours after taking the vote and a minimum of 10 days prior to filing the petition with the court. The school board shall post notice of the court date for an evidentiary hearing on the petition within 24 hours after receiving notice of the court date from the court. Such notices shall be posted at the office of the school board and at 2 or more other conspicuous places in the school district, and in the next available edition of one or more local newspapers with a wide circulation in the school district. If the district is a multi-town school district, the notices shall be posted at the office of the school board and at 2 or more other conspicuous places in each town of the multi-town school district, and in the next available edition of one or more newspapers with a wide circulation in all towns of the multi-town school district.

V. Notwithstanding any other provision of law, no special meeting to raise and appropriate money, or to reduce or rescind any appropriation made at a previous meeting, may be held unless the vote is taken on or before December 31 of any budget cycle. However, the district may bring such items as could not be addressed prior to December 31 before the voters at the next annual school district meeting. Such supplemental appropriations, together with appropriations raised under RSA 197:1, shall be assessed against property as of April 1.

197:3–a Special Meeting for Change in Education Funding. In response to statutory changes resulting in reductions or increases in distribution of state revenues for education pursuant to RSA 198:41 to school districts which would take effect after the adoption of a new school district budget and would apply in the fiscal year covered by the new budget, the governing body of a school district may, after consultation with the budget committee, call a special meeting of the legislative body to consider a reduction, rescission, or increase of appropriations made at an annual meeting, subject to the following:

I. The governing body of a school district that has adopted the official ballot referendum form of meeting under RSA 40:13 may elect to hold and conduct the meeting in accordance with the provisions of this section in a single session for deliberating and voting, and without regard to the provisions of RSA 40:13.

II. A special meeting under this section shall not be petitioned under RSA 197:2, and no petitioned warrant articles shall be inserted in the warrant.

197:23–a Treasurer's Duties.

I. The treasurer shall have custody of all moneys belonging to the district and shall pay out the same only upon orders of the school board or upon orders of the 2 or more members of the school board empowered by the school board as a whole to authorize payments. The treasurer shall deposit the moneys in participation units in the public deposit investment pool established pursuant to RSA 383:22, or in federally insured banks chartered under the laws of New Hampshire or the federal government with a branch within the state, except that funds may be deposited in banks outside the state if such banks pledge and deliver to a third party custodial bank or the regional federal reserve bank collateral security for such deposits of the following types:

(a) United States government obligations,

(b) United States government agency obligations; or

(c) Obligations of the state of New Hampshire in value at least equal to the amount of the deposit in each case.

II. The amount of collected funds on deposit in any one bank shall not at any time exceed the sum of its paid-up capital and surplus.

III. The treasurer shall keep in suitable books provided for the purpose a fair and correct account of all sums received into and paid from the district treasury, and of all notes given by the district, with the particulars thereof. At the close of each fiscal year, the treasurer shall make a report to the district,

giving a particular account of all of the treasurer's financial transactions during the year. The treasurer shall furnish to the school board statements from the books, and submit the books and vouchers to them and to the auditors for examination, whenever so requested.

IV. Whenever the treasurer has in custody an excess of funds which are not immediately needed for the purpose of expenditure, the treasurer shall, with the approval of the school board, invest the same in participation units in the public deposit investment pool established pursuant to RSA 383:22, or in deposits, including money market accounts, or certificates of deposit, or repurchase agreements, and all other types of interest bearing accounts, of federally insured banks incorporated under the laws of the state of New Hampshire or the federal government with a branch within the state and in obligations fully guaranteed as to principal and interest by the United States government. The obligations may be held directly or in the form of securities of or other interests in any open-end or closed-end management-type investment company or investment trust registered under 15 U.S.C. section 80a–1 et seq., if the portfolio of the investment company or investment trust is limited to such obligations and repurchase agreements fully collateralized by such obligations. Any person who directly or indirectly receives any such funds for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the district. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 383–B:3–301(e) shall be eligible to be pledged as collateral. At least yearly, the school board shall review and adopt an investment policy for the investment of public funds in conformance with the provisions of applicable statutes.

V. As an alternative to the option of collateralization for excess funds provided in paragraph IV, the treasurer may also invest public funds in interest-bearing deposits which meet all of the following conditions:

(a) The funds are initially invested through a federally insured bank chartered under the laws of New Hampshire or the federal government with a branch within the state selected by the treasurer.

(b) The selected bank arranges for the redeposit of funds which exceed the federal deposit insurance limitation of the selected bank in deposits in one or more federally insured financial institutions located in the United States, for the account of the treasurer.

(c) The full amount of principal and any accrued interest of each such deposit is covered by federal deposit insurance.

(d) The selected bank acts as custodian with respect to each such deposit for the account of the treasurer.

(e) On the same date that the funds are redeposited by the selected bank, the selected bank receives an amount of deposits from customers of other federally insured financial institutions equal to or greater than the amount of the funds initially invested through the selected bank by the treasurer.

197:24 Acting Treasurer. If any person holding the office of treasurer shall, by reason of illness, accident, absence from the state, or other cause, become temporarily incapacitated and unable to perform the duties of such office, the school board may, unless the district has a deputy treasurer appointed in accordance with RSA 197:24–a who is not similarly unavailable to perform the requisite duties, declare a temporary vacancy and appoint an acting district treasurer to perform the duties of the office for a limited period of time and fix the appointee's compensation and the amount of bond. 198:15–b Amount of Grant.

I. (a)(1) For construction authorized by a school district on or before July 1, 2013, the amount of the annual grant to any school district duly organized, any city maintaining a school department within its corporate organization, any cooperative school district as defined in RSA 195:1, any receiving district operating an area school as defined in RSA 195–A:1, or any receiving district providing an education to pupils from one or more sending districts under a contract entered into pursuant to RSA 194:21–a or RSA 194:22, shall be a sum equal to 30 percent of the amount of the annual payment of principal on all outstanding borrowings of the school district, city, cooperative school district, joint maintenance agreement, or receiving district, heretofore or hereafter incurred, for the cost of construction or purchase of school buildings and school administrative unit facilities, or for the cost of acquiring, developing, or renovating any municipally-owned land, buildings, or facilities to be used for school district purposes, to the extent approved by the department of education, provided that any school district may receive an annual grant in the amount of 40 percent for the construction of an educational administration building for a school administrative unit, and provided that the amount of the annual grant in the case of a cooperative school district, a joint maintenance agreement, a receiving district operating an area school, or any receiving district providing an education to pupils from one or more sending districts under a contract entered into pursuant to RSA 194:21–a or RSA 194:22, shall be 40 percent plus 5 percent for each pre-existing district in excess of 2 and each sending district in excess of one, and provided further that no cooperative school district, joint maintenance agreement, or receiving district operating an area school, shall receive an annual grant in excess of 55 percent.

(2)(A) For construction authorized by a school district after July 1, 2013, school building aid grants for new construction shall not exceed the state appropriation for school building aid for the fiscal year, less any debt service payments due and owing in the fiscal year for construction or renovation projects approved in a prior fiscal year, less the amount owed for construction or renovation projects approved prior to July 1, 2013 in accordance with subparagraph (a)(1), unless otherwise provided by an act of the general court. School building aid grants approved pursuant to RSA 198:15–u through RSA 198:15–w, shall be disbursed to school districts pursuant to this subparagraph and no state bonds shall be authorized or issued for the purpose of funding school building aid grants. The amount of the grant to any school district duly organized, any city maintaining a school department within its corporate organization, any cooperative school

district as defined in RSA 195:1, any receiving district operating an area school as defined in RSA 195–A:1, or any receiving district providing an education to pupils from one or more sending districts under a contract entered into pursuant to RSA 194:21–a or RSA 194:22, shall be calculated based on the criteria set forth in RSA 198:15–v.

(B) The state board of education shall approve the disbursement of 80 percent of the eligible grant amount upon approval of the application for school building aid grants by the state board of education, and shall disburse the balance of the grant amount upon completion of the construction and verification of the final cost of construction by the department of education.

(C) The amount of the grant to any chartered public school established in accordance with RSA 194–B:3–a shall be 30 percent of the eligible cost of construction.

(D) Any state aid for leased space pursuant to RSA 198:15–hh shall require a separate appropriation, and shall not be included in the state appropriation for school building aid.

(E) Funds received from charitable trusts, bequests, gifts, insurance policies, federal grants, or grants from other state programs shall be subtracted from total project costs when computing grants under this paragraph.

(b) For any municipally-owned land, buildings, or facilities for which a school building aid grant is granted under this subdivision, the following shall apply:

(2) A school district, a city maintaining a school department within its corporate organization, a cooperative school district as defined in RSA 195:1, a receiving district operating an area school as defined in RSA 195–A:1, or a receiving district providing an education to pupils from one or more sending districts under a contract entered into pursuant to RSA 194:21–a or RSA 194:22, shall submit, when applying for aid under this chapter, the least costly building plan based on a 20-year life cycle cost analysis that meets minimum state building standards in this chapter along with any alternative plans that may be proposed.

(3) In the absence of a bond or note or upon the expiration of any bond or note issued to provide funds for land, buildings, or facilities, the principal parties shall enter into an agreement on how such land, buildings, or facilities are to be used.

I–a. (a) In addition to the requirements of paragraph I, each school district, prior to receipt of any grant moneys, shall submit for review and approval a written maintenance plan describing in detail how the school district intends to maintain the new facilities to be constructed with state aid grant moneys. The required maintenance plan shall include, but not be limited to, the following information:

(d) The process for reporting, recording, verifying, and prioritizing building problems and fire safety issues.

(e) The process for assigning corrective work.

(f) The process for determining that corrective work has solved the problem.

(g) The process for tracking and analyzing recurring problems.

(h) The process for scheduling and completing preventive maintenance services and inspections on installed equipment and major building systems including, but not limited to heating, ventilation, air

(k) A statement of assurance, signed by the chair of the school board, which indicates that the district intends to maintain and service all installed equipment according to the manufacturer's instructions.

(*l*) A 20-year maintenance plan that identifies and defines the program and activities necessary to achieve the design life expectancy of the building. Such program shall include activities having to do with scheduled repairs, upkeep, minor alterations, and enhancements of the building. The maintenance plan shall also consider preventive maintenance supporting building systems and components.

II. For the purposes of this subdivision, "construction" shall include any one or more of the following for the construction of instructional facilities only:

(a) The acquisition and development of a site.

(b) Planning, construction, or both, of a new building.

(c) Planning, construction, or both, of additions to existing buildings.

(d) Architectural and engineering fees.

(e) Purchase of equipment and any other costs necessary for the completion of a building as approved by the department of education.

(f) Substantial renovations approved by the commissioner of education.

(g) Purchase or lease-purchase of mechanical, structural, or electrical equipment, including the cost of installation of such equipment, which is designed to improve energy efficiency or indoor air quality in school buildings. All grant amounts awarded under this subparagraph shall be returned to the state if such equipment is removed from the school building by the vendor due to the school district's failure to comply with the terms of the lease-purchase agreement. Lease-purchase agreements shall be subject to the requirements of RSA 33:7–e.

III. Purchase of school buildings shall include the acquisition and improvement of land in connection therewith and the remodeling, altering, repairing, equipping and furnishing of such buildings as approved by the department of education.

IV. In this paragraph, "new construction" means additional square footage but shall not mean the renovation of school buildings. The provisions of this paragraph shall apply to any school building aid grants made pursuant to RSA 198:15–a through RSA 198:15–w.

(a) The department of education shall issue annually maximum eligible cost standards for the construction of new school buildings, less site acquisition costs, qualifying for a school building aid grant. These standards shall take into account the type, size, and location of the school and shall be based on an appropriate construction cost index developed or adopted by the department which shall reflect cost differences in the several regions of the state. Maximum cost standards shall be computed and published annually and expressed as a maximum cost per square foot.

(b) Maximum size standards for new construction shall be as follows:

(1) Maximum gross square footage per pupil:

(3) In addition to the provisions of subparagraphs (1) and (2), the department of education shall require architectural designs for new space in order to make efficient use of space. Space determined by the department to be excessive or unnecessary to fulfill educational needs shall not be eligible for state building aid grants.

(c) For the purpose of calculating the total school building aid grants made under RSA 198:15–a through RSA 198:15–w, the final approved cost for school construction or school project shall not exceed the cost that would result if the project conformed to the maximum cost and size standards. The provisions of this section shall not preclude an eligible applicant from exceeding the maximum standards provided, however, the cost of

the portion of the facilities which exceed the maximum standards shall not be eligible for school building aid grants. The maximum cost and size standards in effect at the time general contract work begins shall be used for the purposes of determining school building aid grants.

(d) The commissioner of the department of education shall have the authority to waive eligible cost and size standards for new construction for good reason shown.

V. For the purpose of receiving grants under this section, acquisition of additional land as part of any school renovation project shall not be required unless such additional land is necessary to ensure the safe flow of traffic for school buses or other vehicles entering or exiting school grounds, or the safe boarding or discharge of children using school buses or other vehicles.

Applications for school building aid grants shall be submitted before September 1 of each year in order to be eligible for school building aid grants in the fiscal year following the year of submittal.

II. (a) The commissioner shall accept school building aid grant applications based upon completeness and submit a preliminary school building aid grant list to the school building authority established pursuant to RSA 195–C. By January 15 of the fiscal year prior to the biennium in which school building aid grants are to be disbursed, the school building authority shall develop a rank ordered list of all school building construction and renovation proposals submitted by school districts and shall categorize each proposal based on school building and site criteria in descending order. The school building authority shall recommend prioritized proposals to be funded in descending rank order to the state board of education for approval. School districts which have projects approved for funding shall be notified by the department of education of the projected amount to be funded within 10 days of approval. The project rating system and criteria used to rate project applications which shall include an administrative review process for appeal of a school district's project point rating, shall be developed by the department of education and approved by the state board of education. The department of education, after review by the house finance committee, the house special committee on education funding reform, and any senate committee designated by the senate president, shall propose interim rules pursuant to RSA 541–A no later than November 1, 2012, and final rules pursuant to RSA 541–A no later than April 30, 2013, relative to the criteria set forth in this paragraph and the procedures necessary to implement this paragraph.

(b) The commissioner of the department of education shall accept school building construction proposals based upon completeness. The department of education shall consider and score each proposal based on the following criteria:

(1) Unsafe conditions.

(2) Facilities not in compliance with the Americans With Disabilities Act, or obsolete, inefficient, or unsuitable facilities or mechanical and building systems.

(3) Overcrowding and associated influences to instructional areas and programming.

(4) Enrollment projections and population shifts.

(7) School security design and integration of security systems.

(8) A school district which initiated and completed a locally funded school renovation project to remedy a safety condition identified by the state fire marshal on or before June 30, 2017 shall be eligible to include any corrected safety condition in a subsequent application for school building aid submitted by the school district after June 30, 2017. This subparagraph shall not apply to a school district or a school that received state emergency funding or other state aid to remedy the safety condition on or before June 30, 2017.

(9) The project contributes to operational cost efficiencies, consolidation, or reduced property taxes.

(10) Any other criteria that the state board of education may determine are necessary.

(c) The school building authority shall recommend those proposals to be funded in descending rank order to the state board of education for approval. The state board of education shall publish the list by January 15 of each year. Those proposals not approved shall be considered for approval in the next biennial budget. Project proposals shall be funded to the extent of available appropriations in the fiscal year.

(d) A school district, a city maintaining a school department within its corporate organization, a cooperative school district as defined in RSA 195:1, a receiving district operating an area school as defined in RSA 195–A:1, or a receiving district providing an education to pupils from one or more sending districts under a contract entered into pursuant to RSA 194:21–a or RSA 194:22, with projects for which there is insufficient state grant funding may resubmit those projects to the department pursuant to the provisions of this section.

If the amount appropriated is insufficient the appropriation shall be prorated proportionally among the districts entitled to a grant. If the amount appropriated exceeds the amount necessary to fully fund grants to a school district for eligible construction projects funded before July 1, 2012, the remaining amount of the appropriation shall be awarded to a school district for an eligible new proposal in the ranked order developed pursuant to RSA 198:15–c, II(a) and II(b). Such a district shall receive a grant equal to 100 percent of the eligible amount of the request until the amount appropriated has been exhausted. A partial grant may be awarded to the extent that funds are available. Former RSA 198:15–f, which was derived from 1955, 335:10; 1957, 301:4; and 1961, 265:1, related to additional grants to school districts other than cooperative districts.

198:15–g Federal School Building Aid. The department of education is hereby designated as the agency of the state of New Hampshire for the receipt and distribution of federal funds in aid of school building construction and is hereby given such authority in connection therewith as it may be required to possess by any federal act relating thereto in order to receive and distribute such funds, and it is hereby

authorized to cooperate with the federal government or any agency thereof in the development of plans for the distribution of federal funds in aid of the construction of school buildings and to receive and expend in accordance with such plans all funds made available to it or the state of New Hampshire by the federal government or any of its agencies; provided, however, to the extent permitted by any federal act relating thereto, the department of education, in formulating plans for the distribution of federal funds, may give consideration to the effort made by any local school district in providing school buildings, its financial ability to pay for school buildings, the encouragement of cooperative school districts and the amounts received or to be received by school districts as state aid to school buildings under the provisions of this chapter as now or hereafter amended.

198:15–h Use of Existing Buildings. The building aid provided in RSA 198:15–b for a receiving district operating an area school as defined in RSA 195–A:1, or some proportionate part of that building aid, may be made available to assist in defraying the cost of construction of a new school building or an addition to existing buildings of the receiving district which is not to be used as an area school, but which is to be constructed so that the receiving district may make available as an area school building the full or partial capacity of an existing school building. The department of education may extend the building aid in the circumstances set forth in this section when it finds that (a) such arrangement will result in savings in overall building cost to the state, and that (b) the existing building thus made available by the receiving district as an area school is satisfactory for the purpose. In all other respects the provisions of RSA 198:15–b apply to the alternate building aid, as if the new building were an area school for the number of sending districts in the area plan.

VIII. Kindergarten facilities constructed under this subdivision shall be the property of the school district or the city maintaining a school department.

IX. A district shall not be deemed ineligible from receiving the full amount of a construction or transition grant for which it is otherwise eligible as a result of the district already expending funds for construction or transition costs related to providing a kindergarten program beginning in the 2008–2009 or 2009–2010 school years.

I. The amount of the annual grant to any school district duly organized, any city maintaining a school department within its corporate organization, any cooperative school district as defined in RSA 195:1, or any receiving district operating an area school as defined in RSA 195–A:1, shall be determined as follows:

Assign each municipality a rank beginning with the municipality having the lowest equalized valuation per pupil ranked as number one, and continuing therefrom.

(b) Determine each municipality's median family income, and assign each municipality a rank beginning with the municipality having the lowest median family income ranked as number one and continuing therefrom.

(c) Add the rankings assigned in subparagraphs I(a) and I(b) and divide the sum by 2 to yield the building aid factor.

II. (a) The amount of the annual grant in this subdivision shall be a sum equal to a percentage of the amount of the annual payment of principal on all outstanding borrowings of the school district, city, cooperative school district, joint maintenance agreement, or receiving district, for all approved costs of construction or purchase of school buildings and school administrative unit facilities, for grants approved on or before July 1, 2013 according to the following table:

115 or greater	30 percent	40 percent

(b) For projects approved after July 1, 2013, the amount of the grant to any school district, city, cooperative school district, joint maintenance agreement, or receiving district shall be a sum equal to the percentage of all approved costs for construction or purchase of school buildings according to the following table:

70–89	45 percent
90–114	40 percent
115 or greater	30 percent

A cooperative school district, receiving district operating an area school, or joint maintenance agreement grant amount shall be determined by calculating the percentage of the average daily membership in residence represented by each municipality which has entered into the agreement and multiplying this percentage by each municipality's percentage of annual building aid eligibility under paragraph II of this section. This product shall be multiplied by the projected cost of the building project. The sum of the resulting products shall be the annual building aid grant for the cooperative school district, area school, or joint maintenance agreement.

198:20–b Appropriation for Unanticipated Funds Made Available During Year.

I. Notwithstanding any other provision of law to the contrary, any school district at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the school board to apply for, accept and expend, without further action by the school district, unanticipated money from a state, federal or other governmental unit or a private source which becomes available during the fiscal year. The following shall apply:

(a) Such warrant article to be voted on shall read: "Shall the school district accept the provisions of RSA 198:20–b providing that any school district at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the school board to apply for, accept and expend, without further action by the school district, unanticipated money from a state, federal or other governmental unit or a private source which becomes available during the fiscal year?"

(b) If a majority of voters voting on the question vote in the affirmative, the proposed warrant article shall be in effect in accordance with the terms of the article until such time as the school district votes to rescind its vote.

II. Such money shall be used only for legal purposes for which a school district may appropriate money. No funds disbursed from the education trust fund pursuant to RSA 198:42 shall, under any circumstances, emergency or otherwise, be deemed to be unanticipated money under the provisions of this section.

III. (a) For unanticipated funds in the amount of $5,000 or more, the school board shall hold a prior public hearing on the action to be taken. Notice of the time, place, and subject of such hearing shall be published in a newspaper of general circulation in the relevant municipality at least 7 days before the meeting is held.

(b) A school board may establish the amount of unanticipated funds required for notice under this subparagraph, provided such amount is less than $5,000. For unanticipated funds in an amount less than $5,000, the school board shall post notice of the funds in the agenda and shall include notice in the minutes of the school board meeting in which such funds are discussed. The acceptance of unanticipated funds under this subparagraph shall be made in public session of any regular school board meeting.

IV. Action to be taken under this section shall:

(a) Not require the expenditure of other school district funds except those funds lawfully appropriated for the same purpose; and

(b) Be exempt from all provisions of RSA 32 relative to limitation and expenditure of school district moneys.

198:20–c Trust Funds Created for Specific Purposes; Expenditures; Administration.

I. The school district may at any annual or special meeting appropriate such sums of money as it deems necessary to create expendable trust funds for specific purposes for the maintenance and operation of schools and for any other public purpose that is not foreign to the school district's institution or incompatible with the objects of their organization. The school board may be named agents to expend such trust funds. Expenditure from such trust funds shall be made only for the purpose for which the trust fund was established.

II. School district trust funds created pursuant to this section shall be held in custody by the trustee named pursuant to RSA 31:22 of trust funds of the town wherein the school district lies, or in the case of school districts embracing 2 or more towns, by the trustees of trust funds of that town which the voters of the school district may elect at the annual school district meeting. In order to expend such funds, the school board shall hold a public hearing prior to the expenditure to be made. Notice of the time, place, and subject of such hearing shall be published in a newspaper of general circulation in the relevant municipality at least 7 days before the meeting is held.

III. A trust fund created under the provisions of this section that is established for the purpose of maintaining health insurance funds for the benefit of employees and retired employees of any school district, including an OPEB trust established pursuant to paragraph VII, shall be exempt from the provisions of paragraph II, and when so established, the school district may name its own trustees who may expend any funds in the trust for the payment of health claims or health insurance premiums for the benefit of any employees or retired employees of the school district. An annual accounting and report of the activities of the trust shall be presented to the school board of the district and published in the annual report.

IV. Trust funds created pursuant to this section shall be revocable by majority vote of the legal voters present and voting at any annual meeting, unless the vote creating the trust expressly provides that the trust shall be irrevocable, and upon revocation the trustees of trust funds holding the account for said trust shall pay all the moneys in such funds to the school treasurer.

V. Notwithstanding any other provision of law, any trust fund created under this section shall be subject to the same provisions concerning custody, investment, expenditure, change of purpose and audit as are reserve funds established under RSA 35:1 or 35:1–c. The legal validity of such a fund properly established shall not be affected by its designation as a "trust," "reserve," "capital reserve," or any other designation. A trust fund established for maintaining health insurance funds as set forth in paragraph III shall be exempt from the provisions of RSA 35:8.

VI. The district may authorize the acceptance of privately-donated gifts, legacies and devises to be utilized for the same purpose as a trust fund created under this section; provided, however, that such gifts, legacies or devises shall be invested and accounted for separately from, and not commingled with, amounts appropriated under paragraph I, and shall be subject to the custody and investment provisions applicable to trust funds accepted under RSA 31:31.

VII. (a) A school district that created, on or before January 1, 2012, an actuarial liability to pay other post-employment benefits (OPEB) to employees or officers after their termination of service may establish an irrevocable trust to pay those benefits. In this paragraph, the term "other post-employment benefits" means employee benefits other than pensions that are received after employment ends, and may include such medical, disability, or other health benefits, as are covered by Statement No. 45 of the Governmental Accounting Standards Board (GASB). The term "trust" means a trust qualified under GASB Statement No. 43.

(b) Deposits to any fund under such a trust and any earnings on those deposits shall be irrevocable and shall be held in trust for the exclusive benefit of retirees and their beneficiaries in accordance with the terms of the plans or programs providing other post-employment benefits, except that funds governed by the trust may be withdrawn for other purposes only when an employer's liability owed to former officers or employees for other post-employment benefits has been satisfied or otherwise eliminated pursuant to subparagraph (d)(2). The assets of any trust created pursuant to this paragraph or in which a school district participates pursuant to this paragraph shall be exempt from taxation and execution, attachment, garnishment, or any other process. No public officer, employee, or agency shall divert, use, or authorize the use of such funds for any purpose other than as provided

in law for other post-employment benefits covered by the trust and administrative expenses.

(c) The trustees of any trust created pursuant to this paragraph shall have the full power to invest, reinvest, and manage the assets of the trust. The trustees shall invest the assets of the trust with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. The trustees shall also diversify such investments so as to minimize the risk of large losses unless under the circumstances it is clearly prudent not to do so. The trustees may engage a trust administrator, investment consultants, or other qualified professionals to assist with management and investment of the funds of the trust and may pay for these services out of the funds of the trust.

(d) The school district may withdraw money from the funds of a trust created pursuant to this paragraph only:

(1) As needed to pay other post-employment benefits owed to former officers and employees; or

(2) When all other post-employment benefits liability owed to former officers or employees of the employing entity has been satisfied or otherwise defeased.

198:20–d Reimbursement Anticipation Notes. Notwithstanding any other provision of law to the contrary, a school district or a city with a dependent school district may incur debt in anticipation of reimbursement under RSA 186–C:18 and under RSA 198:42. The governing body, after notice and public hearing, may elect to borrow such funds and to recognize the proceeds of the borrowing as revenue for property tax rate setting purposes by providing written notification to the commissioner of the department of revenue administration stating the specific amount of borrowing to be recognized as revenue. Any borrowing under this section shall be exempt from the provisions of RSA 33, relative to debt limits.

(a) Not more than 70 percent of such cost of any such service.

198:41 Determination of Education Grants.

I. Except for municipalities where all school districts therein provide education to all of their pupils by paying tuition to other institutions, the department of education shall determine the total education grant for the municipality as follows:

(a) Add the per pupil cost of providing the opportunity for an adequate education for which each

pupil is eligible pursuant to RSA 198:40–a, I–III, and from such amount;

(b) Subtract the amount of the education tax warrant to be issued by the commissioner of revenue administration for such municipality reported pursuant to RSA 76:8 for the next tax year.

II. For municipalities where all school districts therein provide education to all of their pupils by paying tuition to other institutions, the department of education shall determine the total education grant for each municipality as the lesser of the 2 following calculations:

(a) The amount calculated in accordance with paragraph I of this section; or

(b) The total amount paid for items of current education expense as determined by the department of education minus the amount of the education tax warrant to be issued by the commissioner of revenue administration for such municipality reported pursuant to RSA 76:8 for the next tax year.

III. (a) For the biennium ending June 30, 2013, the department of education shall not distribute a total education grant on behalf of all pupils who reside in a municipality that exceeds that municipality's total education grant in the second year of the previous biennium.

(b) [Repealed.]

IV. (a) For fiscal year 2012, the department of education shall identify all municipalities in which the fiscal year 2012 total education grant will be less than the fiscal year 2011 total education grant. The department shall distribute a stabilization grant to each of those municipalities equal to 100 percent of the decrease.

(b) For fiscal year 2013, the department of education shall identify all municipalities in which the fiscal year 2013 total education grant, including any stabilization grant distributed pursuant to subparagraph (a), will be less than the fiscal year 2011 total education grant. The department shall distribute funds to each of those municipalities equal to 100 percent of the decrease.

(c) For fiscal year 2014 through fiscal year 2016, the department of education shall distribute a total education grant to each municipality in an amount equal to the total education grant for the fiscal year in which the grant is calculated plus the amount of the fiscal year 2012 stabilization grant, if any, distributed to the municipality.

(d) For fiscal year 2017 and each fiscal year thereafter, the department of education shall distribute a total education grant to each municipality in an amount equal to the total education grant for the fiscal year in which the grant is calculated plus a percentage of the municipality's fiscal year 2012 stabilization grant, if any, distributed to the municipality; the percentage shall be 96 percent for fiscal year 2017, and shall be reduced by 4 percent of the amount of the 2012 education grant for each fiscal year thereafter. No stabilization grant shall be distributed to any municipality for any fiscal year in which the municipality's education property tax revenue collected pursuant to RSA 76 exceeds the total cost of an adequate education or to any municipality for any fiscal year in which the municipality's ADMA is zero.

V. The department shall use the best available data and methods to estimate ADMA and education grants by November 15 of the year preceding the school year for which aid is determined.

VI. The department shall produce a revised estimate of grants using actual determination year data for the purpose of settling municipal tax rates. A municipality's grant estimate shall not be less than 95 percent of the estimate reported pursuant to paragraph V. The commissioner of the department of education shall provide the estimate for the current fiscal year to the commissioner of the department of revenue administration no later than October 1 of each year.

VII. When final determination year data is available, but not later than April 1, the department shall make a final determination of grant amounts. A municipality's grant estimate shall not be less than 95 percent of the estimate reported pursuant to paragraph V. The department shall adjust the April grant disbursement required pursuant to RSA 198:42 so that the total amount disbursed for the fiscal year shall match the final grant determination.

VIII. Reports of grant determinations for municipalities required pursuant to paragraphs V–VII shall be available to the public by the date specified in paragraphs V–VII, and the department shall make available a report for multi-town school districts. The department of education shall provide the department of revenue administration the information needed to set tax rates.

I. Whenever the commissioner refuses to grant a claimant tax relief, or after an audit, assesses an amount against the claimant for property tax relief granted including interest and applicable penalties for an erroneously paid claim, the claimant may appeal in writing within 30 days of notice of such refusal or assessment to the board of tax and land appeals.

II. The board of tax and land appeals may reverse or affirm, in whole or in part, or modify the decision appealed from when there is an error of law or when the board finds the commissioner's action to be arbitrary or unreasonable.

Location and Building

The district may decide upon the location of its schoolhouses by vote or by a committee appointed for the purpose, provided, however, that all plans, specifications, and the selection of site for any new school buildings for any school district within the state shall be approved by the school board of the district in which it is proposed to construct such a building. The provisions of this section shall apply to all new construction and substantial renovation of public school buildings, including those constructed by grant or loans of funds from state, the federal government, or other sources. The district shall investigate feasible options in the course of deciding to renovate or replace an existing school building. The district shall also review the municipality's zoning regulations and master plan in order to maximize best planning practices. For the purposes of this chapter, in addition to their usual meanings, the words "schoolhouse" and "school building" also mean educational administration building, including school administrative unit facilities.

200–A:1 New England Higher Education Compact. The governor on behalf of the State of New Hampshire is hereby authorized to execute a compact, in substantially the following form, with any one or more of the states of Connecticut, Maine, Massachusetts, Rhode Island and Providence Plantations and Vermont, and the legislature hereby signifies in advance its approval and ratification of such compact.

NEW ENGLAND HIGHER EDUCATION COMPACT

Article I

The purpose of the New England higher education compact shall be to provide greater educational opportunities and services through the establishment and maintenance of a coordinated educational program for the persons residing in the several states of New England parties to this compact with the aim of furthering higher education in the fields of medicine, dentistry, veterinary medicine, public health and in professional technical, scientific, literary and other fields.

Article II

There is hereby created and established a New England Board of Higher Education hereinafter known as the board which shall be an agency of each state party to the compact. The board shall be a body corporate and politic, having the powers, duties and jurisdiction herein enumerated and such other and additional powers as shall be conferred upon it by the concurrent act or acts of the compacting states. The board shall consist of 8 resident members from each compacting state, chosen in the manner and for the terms provided by law of the several states parties to this compact.

Article III

This compact shall become operative immediately as to those states executing it whenever any 2 or more of the states of Maine, Vermont, New Hampshire, Massachusetts, Rhode Island and Connecticut have executed it in the form which is in accordance with the laws of the respective compacting states.

Article IV

The board shall annually elect from its members a chairman and vice-chairman and shall appoint and at its pleasure remove or discharge said officers. It may appoint and employ an executive secretary and may employ such stenographic, clerical, technical or legal personnel as shall be necessary, and at its pleasure remove or discharge such personnel. It shall adopt a seal and suitable bylaws and shall promulgate any and all rules and regulations which may be necessary for the conduct of its business. It may maintain an office or offices within the territory of the compacting states and may meet at any time or place. Meetings shall be held at least twice each year. A majority of the members shall constitute a quorum for the transaction of business, but no action of the board imposing any obligation on any compacting state shall be binding unless a majority of the members from such compacting state shall have voted in favor thereof. Where meetings are planned to discuss matters relevant to problems of education affecting only certain of the compacting states, the board may vote to authorize special meetings of the board members of such states. The board shall keep accurate accounts of all receipts and disbursements and shall make an annual report to the governor and

the legislature of each compacting state setting forth in detail the operations and transactions conducted by it pursuant to this compact, and shall make recommendations for any legislative action deemed by it advisable, including amendments to the statutes of the compacting states which may be necessary to carry out the intent and purpose of this compact. The board shall not pledge the credit of any compacting state without the consent of the legislature thereof given pursuant to the constitutional processes of said state. The board may meet any of its obligations in whole or in part with funds available to it under article VII of this compact, provided that the board takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the board makes use of funds available to it under article VII hereof, the board shall not incur any obligations for salaries, office, administrative, traveling or other expenses prior to the allotment of funds by the compacting states adequate to meet the same. Each compacting state reserves the right to provide hereafter by law for the examination and audit of the accounts of the board. The board shall appoint a treasurer who may be a member of the board, and disbursements by the board shall be valid only when authorized by the board and when vouchers therefor have been signed by the executive secretary and countersigned by the treasurer. The executive secretary shall be custodian of the records of the board with authority to attest to and certify such records or copies thereof.

Article V

The board shall have the power to: (1) Collect, correlate, and evaluate data in the fields of its interest under this compact; to publish reports, bulletins, and other documents making available the results of its research; and, in its discretion to charge fees for said reports, bulletins, and documents; (2) Enter into such contractual agreements or arrangements with any of the compacting states or agencies thereof and with educational institutions and agencies as may be required in the judgment of the board to provide adequate services and facilities in educational fields covered by this compact; provided that it shall be the policy of the board in negotiation of its agreements to serve increased numbers of students from the compacting states through arrangements with then existing institutions, whenever in the judgment of the board adequate service can be so secured in the New England region. Each of the compacting states shall contribute funds to carry out the contracts of the board on the basis of the number of students from such state for whom the board may contract. Contributions shall be at the rate determined by the board in each educational field. Except in those instances where the board by specific action allocates funds available to it under article VII hereof, it shall be the policy of the board to enter into such contracts only upon appropriation of funds by the compacting states. Any contract entered into shall be in accordance with rules and regulations promulgated by the board and in accordance with the laws of the compacting states.

Article VI

Each state agrees that, when authorized by the legislature pursuant to its constitutional processes, it will from time to time make available to the board such funds as may be required for the expenses of the board as authorized under the terms of this compact. The contribution of each state for this purpose shall be in the proportion that its population bears to the total combined population of the states who are parties hereto as shown from time to time by the most recent official published report of the bureau of the census of the United States of America; unless the board shall adopt another basis in making its recommendation for appropriation to the compacting states.

Article VII

The board for the purposes of this compact is hereby empowered to receive grants, devises, gifts and bequests which the board may agree to accept and administer. The board shall administer property held in accordance with special trusts, grants and bequests and shall also administer grants and devises of land and gifts or bequests of personal property made to the board for special uses and shall execute said trusts, investing the proceeds thereof in notes or bonds secured by sufficient mortgages or other securities.

Article VIII

The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any compacting state or of the United States the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby; provided, that if this compact is held to be contrary to the constitution of any compacting state the compact shall remain in full force and effect as to all other compacting states.

Article IX

This compact shall continue in force and remain binding upon a compacting state until the legislature or the governor of such state, as the laws of such state shall provide, takes action to withdraw therefrom. Such action shall not be effective until 2 years after notice thereof has been sent by the governor of the state desiring to withdraw to the governors of all other states then parties to the compact. Such withdrawal shall not relieve the withdrawing state from its obligations accruing hereunder prior to the effective date of withdrawal. Any state so withdrawing, unless reinstated, shall cease to have any claim to or ownership of any of the property held by or vested in the board or to any of the funds of the board held under the terms of the compact. Thereafter, the withdrawing state may be reinstated by application after appropriate legislation is enacted by such state, upon approval by a majority vote of the board.

Article X

If any compacting state shall at any time default in the performance of any of its obligations assumed or imposed in accordance with the provisions of this compact, all rights and privileges and benefits conferred by this compact or agreements hereunder shall be suspended from the effective date of such default as fixed by the board. Unless such default shall be remedied within a period of 2 years following the effective date of such default, this compact may be terminated with respect to such defaulting state by affirmative vote of ¾ of the other member states. Any such defaulting state may be reinstated by: (a) performing all acts and obligations upon which it has heretofore defaulted, and (b) application to and approval by a majority vote of the board.

In forming and appointing members to an interstate school district planning board, the commissioners shall consider and take into account recommendations and nominations made by school boards of member districts. No member of a planning committee shall be disqualified because he is at the same time a member of another planning board or committee created under the provisions of this

compact or under any other provisions of law. Any existing informal interstate school planning committee may be reconstituted as a formal planning committee in accordance with the provisions hereof, and its previous deliberations adopted and ratified by the reorganized formal planning committee. Vacancies on a planning committee shall be filled by the commissioners acting jointly.

B. Operating Procedures of Planning Committee. Subsequent meetings may be called by either officer of the committee. The members of the committee shall serve without pay. The member districts shall appropriate money on an equal basis at each annual meeting to meet the expenses of the committee, including the cost of publication and distribution of reports and advertising. From time to time the commissioners may add additional members and additional member districts to the committee, and may remove members and member districts from the committee. An interstate school district planning committee shall act by majority vote of its membership present and voting.

C. Duties of Interstate School District Planning Committee. It shall be the duty of an interstate school district planning committee, in consultation with the commissioners and the state departments of education: to study the advisability of establishing an interstate school district in accordance with the standards set forth in paragraph A of article I of this compact, its organization, operation and control, and the advisability of constructing, maintaining and operating a school or schools to serve the needs of such interstate district; to estimate the construction and operating costs thereof; to investigate the methods of financing such school or schools, and any other matters pertaining to the organization and operation of an interstate school district; and to submit a report or reports of its findings and recommendations to the several member districts.

D. Recommendations and Preparation of Articles of Agreement. An interstate school district planning committee may recommend that an interstate school district composed of all the member districts represented by its membership, or any specified combination of such member districts, be established. If the planning committee does recommend the establishment of an interstate school district, it shall include in its report such recommendation, and shall also prepare and include in its report proposed articles of agreement for the proposed interstate school district, which shall be signed by at least a majority of the membership of the planning committee, which set forth the following:

a. The name of the interstate school district.

b. The member districts which shall be combined to form the proposed interstate school district.

c. The number, composition, method of selection and terms of office of the interstate school board, provided that:

(1) The interstate school board shall consist of an odd number of members, not less than 5 nor more than 15;

(2) The terms of office shall not exceed 3 years;

(3) Each member district shall be entitled to elect at least one member of the interstate school board. Each member district shall either vote separately at the interstate school district meeting by the use of a distinctive ballot, or shall choose its member or members at any other election at which school officials may be chosen;

(4) The method of election shall provide for the filing of candidacies in advance of election and for the use of a printed non-partisan ballot;

(5) Subject to the foregoing, provision may be made for the election of one or more members at large.

d. The grades for which the interstate school district shall be responsible.

e. The specific properties of member districts to be acquired initially by the interstate school district and the general location of any proposed new schools to be initially established or constructed by the interstate school district.

f. The method of apportioning the operating expenses of the interstate school district among the several member districts, and the time and manner of payments of such shares.

g. The indebtedness of any member district which the interstate district is to assume.

h. The method of apportioning the capital expenses of the interstate school district among the several member districts, which need not be the same as the method of apportioning operating expenses, and the time and manner of payment of such shares. Capital expenses shall include the cost of acquiring land and buildings for school purposes; the construction, furnishing and equipping of school buildings and facilities; and the

payment of the principal and interest of any indebtedness which is incurred to pay for the same.

i. The manner in which state aid, available under the laws of either New Hampshire or Vermont, shall be allocated, unless otherwise expressly provided in this compact or by the laws making such aid available.

j. The method by which the articles of agreement may be amended, which amendments may include the annexation of territory, or an increase or decrease in the number of grades for which the interstate district shall be responsible, provided that no amendment shall be effective until approved by both state boards in the same manner as required for approval of the original articles of agreement.

k. The date of operating responsibility of the proposed interstate school district and a proposed program for the assumption of operating responsibility for education by the proposed interstate school district, and any school construction; which the interstate school district shall have the power to vary by vote as circumstances may require.

l. Any other matters, not incompatible with law, which the interstate school district planning committee may consider appropriate to include in the articles of agreement, including, without limitation:

(1) The method of allocating the cost of transportation between the interstate district and member districts;

(2) The nomination of individual school directors to serve until the first annual meeting of the interstate school district.

E. HEARINGS. If the planning committee recommends the formation of an interstate school district, it shall hold at least one public hearing on its report and the proposed articles of agreement within the proposed interstate school district in New Hampshire, and at least one public hearing thereon within the proposed interstate school district in Vermont. The planning committee shall give such notice thereof as it may determine to be reasonable, provided that such notice shall include at least one publication in a newspaper of general circulation within the proposed interstate school district not less than 15 days (not counting the date of publication and not counting the date of the hearing) before the date of the first hearing. Such hearings may be adjourned from time to time and from place to place. The planning committee may revise the proposed articles of agreement after the date of the hearings. It shall not be required to hold further hearings on the revised articles of agreement but may hold one or more further hearings after notice similar to that required for the first hearings if the planning committee in its sole discretion determines that the revisions are so substantial in nature as to require further presentation to the public before submission to the state boards of education.

F. APPROVAL BY STATE BOARDS. After the hearings a copy of the proposed articles of agreement, as revised, signed by a majority of the planning committee, shall be submitted by it to each state board. The state boards may (a) if they find that the articles of agreement are in accord with the standards set forth in this compact and in accordance with sound educational policy, approve the same as submitted, or (b) refer them back to the planning committee for further study. The planning committee may make additional revisions to the proposed articles of agreement to conform to the recommendations of the state boards. Further hearings on the proposed articles of agreement shall not be required unless ordered by the state boards in their discretion. In exercising such discretion, the state boards shall take into account whether or not the additional revisions are so substantial in nature as to require further presentation to the public. If both state boards find that the articles of agreement as further revised are in accord with the standards set forth in this compact and in accordance with sound educational policy, they shall approve the same. After approval by both state boards, each state board shall cause the articles of agreement to be submitted to the school boards of the several member districts in each state for acceptance by the member districts as provided in paragraph G of this article. At the same time, each state board shall designate the form of warrant, date, time, place, and period of voting for the special meeting of the member district to be held in accordance with paragraph G of this article.

G. ADOPTION BY MEMBER DISTRICTS. Upon receipt of written notice from the state board in its state of the approval of the articles of agreement by both state boards, the school board of each member district shall cause the articles of agreement to be filed with the member district clerk. Within 10 days after receipt of such notice, the school board shall issue its warrant for a special meeting of the member district, the warrant to be in the form, and the meeting to be held at the time and place and in the manner prescribed by the state board. No approval of the superior court shall be required for such special school district meeting in New Hampshire. Voting shall be with the use of the checklist by a ballot substantially in the following form:

"Shall the school district accept the provisions of the New Hampshire-Vermont Interstate School Compact providing for the establishment of an interstate school district, together with the school districts of _____ and _____ etc., in accordance with the provisions of the proposed articles of agreement filed with the school district (town, city or incorporated school district) clerk?"

Yes ( ) No ( )

If the articles of agreement included the nomination of individual school directors, those nominated from each member district shall be included in the ballot and voted upon, such election to become effective upon the formation of an interstate school district.

If a majority of the voters present and voting in a member district vote in the affirmative, the clerk for such member district shall forthwith send to the state board in its state a certified copy of the warrant, certificate of posting, and minutes of the meeting of the district. If the state boards of both states find that a majority of the voters present and voting in each member district have voted in favor of the establishment of the interstate school district, they shall issue a joint certificate to that effect; and such certificate shall be conclusive evidence of the lawful organization and formation of the interstate school district as of its date of issuance.

H. RESUBMISSION. If the proposed articles of agreement are adopted by one or more of the member districts but rejected by one or more of the member districts, the state boards may resubmit them, in the same form as previously submitted, to the rejecting member districts, in which case the school boards thereof shall resubmit them to the voters in accordance with paragraph G of this article. An affirmative vote in accordance therewith shall have the same effect as though the articles of agreement had been adopted in the first instance. In the alternative, the state boards may either (a) discharge the planning committee, or (b) refer the articles of agreement back for further consideration to the same or a reconstituted planning committee, which shall have all of the powers and duties of the planning committee as originally constituted.

h. To make contracts with and accept grants and aid from the United States, the state of New Hampshire, the state of Vermont, any agency or municipality thereof, and private corporations and individuals for the construction, maintenance, reconstruction, operation and financing of its schools; and to do any and all things necessary in order to avail itself of such aid and cooperation;

i. To employ such assistants, agents, servants, and independent contractors as it shall deem necessary or desirable for its purposes; and

ARTICLE IV

District Meetings

A. GENERAL. Votes of the district shall be taken at a duly warned meeting held at any place in the district, at which all of the eligible legal voters of the member districts shall be entitled to vote, except as otherwise provided with respect to the election of directors.

B. ELIGIBILITY OF VOTERS. Any resident who would be eligible to vote at a meeting of a member district being held at the same time, shall be eligible to vote at a meeting of the interstate district. The board of civil authority in each Vermont member district and the supervisors of the checklist of each New Hampshire district shall respectively prepare a checklist of eligible voters for each meeting of the interstate district in the same manner, and they shall have all the same powers and duties with respect to

eligibility of voters in their districts as for a meeting of a member district.

C. WARNING OF MEETINGS. A meeting shall be warned by a warrant addressed to the residents of the interstate school district qualified to vote in district affairs, stating the time and place of the meeting and the subject matter of the business to be acted upon. The warrant shall be signed by the clerk and by a majority of the directors. Upon written application of 10 or more voters in the district, presented to the directors or to one of them, at least 25 days before the day prescribed for an annual meeting, the directors shall insert in their warrants for such meeting any subject matter specified in such application.

D. POSTING AND PUBLICATION OF WARRANT. The directors shall cause an attested copy of the warrant to be posted at the place of meeting, and a like copy at a public place in each member district at least 20 days (not counting the date of posting and the date of meeting) before the date of the meeting. In addition, the directors shall cause the warrant to be advertised in a newspaper of general circulation on at least one occasion, such publication to occur at least 10 days (not counting the date of publication and not counting the date of the meeting) before the date of the meeting. Although no further notice shall be required, the directors may give such further notice of the meeting as they in their discretion deem appropriate under the circumstances.

E. RETURN OF WARRANT. The warrant with a certificate thereon, verified by oath, stating the time and place when and where copies of the warrant were posted and published, shall be given to the clerk of the interstate school district at or before the time of the meeting, and shall be recorded by him in the records of the interstate school district.

F. ORGANIZATION MEETING. The commissioners, acting jointly, shall fix a time and place for a special meeting of the qualified voters within the interstate school district for the purpose of organization, and shall prepare and issue the warrant for the meeting after consultation with the interstate school district planning board and the members-elect, if any, of the interstate school board of directors. Such meeting shall be held within 60 days after the date of issuance of the certificate of formation, unless the time is further extended by the joint action of the state boards. At the organization meeting the commissioner of education of the state where the meeting is held, or his designate, shall preside in the first instance, and the following business shall be transacted:

a. A temporary moderator and a temporary clerk shall be elected from among the qualified voters who shall serve until a moderator and clerk respectively have been elected and qualified.

b. A moderator, a clerk, a treasurer, and 3 auditors shall be elected to serve until the next annual meeting and thereafter until their successors are elected and qualified. Unless previously elected, a board of school directors shall be elected to serve until their successors are elected and qualified.

c. The date for the annual meeting shall be established.

d. Provision shall be made for the payment of any organizational or other expense incurred on behalf of the district before the organization meeting, including the cost of architects, surveyors, contractors, attorneys, and educational or other consultants or experts.

e. Any other business, the subject matter of which has been included in the warrant, and which the voters would have had power to transact at an annual meeting.

G. ANNUAL MEETINGS. An annual meeting of the district shall be held between January 15 and June 1 of each year at such time as the interstate district may by vote determine. Once determined, the date of the annual meeting shall remain fixed until changed by vote of the interstate district at a subsequent annual or special meeting. At each annual meeting the following business shall be transacted:

a. Necessary officers shall be elected.

b. Money shall be appropriated for the support of the interstate district schools for the fiscal year beginning the following July 1.

c. Such other business as may properly come before the meeting.

H. SPECIAL MEETINGS. A special meeting of the district shall be held whenever, in the opinion of the directors, there is occasion therefor, or whenever written application shall have been made by 5 percent or more of the voters (based on the checklists as prepared for the last preceding meeting) setting forth the subject matter upon which such action is desired. A special meeting may appropriate money without compliance with RSA 33:8 or RSA 197:3 which would otherwise require the approval of the New Hampshire superior court.

I. CERTIFICATION OF RECORDS. The clerk of an interstate school district shall have the power to certify the record of the votes adopted at an interstate school district meeting to the respective com-

missioners and state boards and (where required) for filing with a secretary of state.

J. METHOD OF VOTING AT SCHOOL DISTRICT MEETINGS. Voting at meetings of interstate school districts shall take place as follows:

a. SCHOOL DIRECTORS. A separate ballot shall be prepared for each member district, listing the candidates for interstate school director to represent such member district; and any candidates for interstate school director at large; and the voters of each member district shall register on a separate ballot their choice for the office of school director or directors. In the alternative, the articles of agreement may provide for the election of school directors by one or more of the member districts at an election otherwise held for the choice of school or other municipal officers.

b. OTHER VOTES. Except as otherwise provided in the articles of agreement or this compact, with respect to all other votes (1) the voters of the interstate school district shall vote as one body irrespective of the member districts in which they are resident, and (2) a simple majority of those present and voting at any duly warned meeting shall carry the vote. Voting for officers to be elected at any meeting, other than school directors, shall be by ballot or voice, as the interstate district may determine, either in its articles of agreement or by a vote of the meeting.

ARTICLE V
Officers

A. OFFICERS: GENERAL. The officers of an interstate school district shall be a board of school directors, a chairman of the board, a vice-chairman of the board, a secretary of the board, a moderator, a clerk, a treasurer and 3 auditors. Except as otherwise specifically provided, they shall be eligible to take office immediately following their election; they shall serve until the next annual meeting of the interstate district and until their successors are elected and qualified. Each shall take oath for the faithful performance of his duties before the moderator, or a notary public or a justice of the peace of the state in which the oath is administered. Their compensation shall be fixed by vote of the district. No person shall be eligible to any district office unless he is a voter in the district. A custodian, schoolteacher, principal, superintendent or other employee of an interstate district acting as such shall not be eligible to hold office as a school director.

B. BOARD OF DIRECTORS.

a. HOW CHOSEN. Each member district shall be represented by at least one resident on the board of school directors of an interstate school district. A member district shall be entitled to such further representation on the interstate board of school directors as provided in the articles of agreement as amended from time to time. The articles of agreement as amended from time to time may provide for school directors at large, as above set forth. No person shall be disqualified to serve as a member of an interstate board because he is at the same time a member of the school board of a member district.

b. TERM. Interstate school directors shall be elected for terms in accordance with the articles of agreement.

c. DUTIES OF BOARD OF DIRECTORS. The board of school directors of an interstate school district shall have and exercise all of the powers of the district not reserved herein to the voters of the district.

d. ORGANIZATION. The clerk of the district shall warn a meeting of the board of school directors to be held within 10 days following the date of the annual meeting, for the purpose of organizing the board, including the election of its officers.

C. CHAIRMAN OF THE BOARD. The chairman of the board of interstate school directors shall be elected by the interstate board from among its members at its first meeting following the annual meeting. The chairman shall preside at the meetings of the board and shall perform such other duties as the board may assign to him.

D. VICE-CHAIRMAN OF THE BOARD OF DIRECTORS. The vice-chairman of the interstate board shall be elected in the same manner as the chairman. He shall represent a member district in a state other than that represented by the chairman. He shall preside in the absence of the chairman and shall perform such other duties as may be assigned to him by the interstate board.

E. SECRETARY OF THE BOARD. The secretary of the interstate board shall be elected in the same manner as the chairman. Instead of electing one of its members, the interstate board may appoint the interstate district clerk to serve as secretary of the board in addition to his other duties. The secretary of the interstate board (or the interstate district clerk, if so appointed) shall keep the minutes of its meetings, shall certify its records, and perform such other duties as may be assigned to him by the board.

F. MODERATOR. The moderator shall preside at the district meetings, regulate the business thereof, decide questions of order, and make a public declaration of every vote passed. He may prescribe rules of procedure; but such rules may be altered by the district. He may administer oaths to district officers in either state.

G. CLERK. The clerk shall keep a true record of all proceedings at each district meeting, shall certify its records, shall make an attested copy of any records of the district for any person upon request and tender of reasonable fees therefor, if so appointed, shall serve as secretary of the board of school directors, and shall perform such other duties as may be required by custom or law.

H. TREASURER. The treasurer shall have custody of all of the monies belonging to the district and shall pay out the same only upon the order of the interstate board. He shall keep a fair and accurate account of all sums received into and paid from the interstate district treasury, and at the close of each fiscal year he shall make a report to the interstate district, giving a particular account of all receipts and payments during the year. He shall furnish to the interstate directors, statements from his books and submit his books and vouchers to them and to the district auditors for examination whenever so requested. He shall make all returns called for by laws relating to school districts. Before entering on his duties, the treasurer shall give a bond with sufficient sureties and in such sum as the directors may require. The treasurer's term of office is from July 1 to the following June 30.

I. AUDITORS. At the organization meeting of the district, 3 auditors shall be chosen, one to serve for a term of one year, one to serve for a term of 2 years, and one to serve for a term of 3 years. After the expiration of each original term, the successor shall be chosen for a 3-year term. At least one auditor shall be a resident of New Hampshire, and one auditor shall be a resident of Vermont. An interstate district may vote to employ a certified public accountant to assist the auditors in the performance of their duties. The auditors shall carefully examine the accounts of the treasurer and the directors at the close of each fiscal year, and at such other times whenever necessary, and report to the district whether the same are correctly cast and properly vouched.

J. SUPERINTENDENT. The superintendent of schools shall be selected by a majority vote of the board of school directors of the interstate district with the approval of both commissioners.

K. VACANCIES. Any vacancy among the elected officers of the district shall be filled by the interstate board until the next annual meeting of the district or other election, when a successor shall be elected to serve out the remainder of the unexpired term, if any. Until all vacancies on the interstate board are filled, the remaining members shall have full power to act.

ARTICLE VI

Appropriation and Apportionment of Funds

A. BUDGET. Before each annual meeting, the interstate board shall prepare a report of expenditures for the preceding fiscal year, an estimate of expenditures for the current fiscal year, and a budget for the succeeding fiscal year.

B. APPROPRIATION. The interstate board of directors shall present the budget report at the annual meeting. The interstate district shall appropriate a sum of money for the support of its schools and for the discharge of its obligations for the ensuing fiscal year.

C. APPORTIONMENT OF APPROPRIATION. Subject to the provisions of article VII hereof, the interstate board shall first apply against such appropriation any income to which the interstate district is entitled, and shall then apportion the balance among the member districts in accordance with one of the following formulas as determined by the articles of agreement as amended from time to time:

a. All of such balance to be apportioned on the basis of the ratio that the fair market value of the taxable property in each member district bears to that of the entire interstate district; or

b. All of such balance to be apportioned on the basis that the average daily resident membership for the preceding fiscal year of each member district bears to that of the average daily resident membership of the entire interstate school district; or

c. A formula based on any combination of the foregoing factors. The term "fair market value of taxable property" shall mean the last locally assessed valuation of a member district in New Hampshire, as last equalized by the New Hampshire commissioner of revenue administration.

The term "fair market value of taxable property" shall mean the equalized grand list of a Vermont member district, as determined by the Vermont department of taxes.

Such assessed valuation and grand list may be further adjusted (by elimination of certain types of

taxable property from one or the other or otherwise) in accordance with the articles of agreement, in order that the fair market value of taxable property in each state shall be comparable.

"Average daily resident membership" of the interstate district in the first instance shall be the sum of the average daily resident membership of the member districts in the grades involved for the preceding fiscal year where no students were enrolled in the interstate district schools for such preceding fiscal year.

D. Share of New Hampshire Member District. The interstate board shall certify the share of a New Hampshire member district of the total appropriation to the school board of each member district which shall add such sum to the amount appropriated by the member district itself for the ensuing year and raise such sum in the same manner as though the appropriation had been voted at a school district meeting of the member district. The interstate district shall not set up its own capital reserve funds; but a New Hampshire member district may set up a capital reserve fund in accordance with RSA 35, to be turned over to the interstate district in payment of the New Hampshire member district's share of any anticipated obligations.

E. Share of Vermont Member District. The interstate board shall certify the share of a Vermont member district of the total appropriation to the school board of each member district which shall add such sum to the amount appropriated by the member district itself for the ensuing year and raise such sum in the same manner as though the appropriation had been voted at a school district meeting of the member district.

Article VII

Borrowing

A. Interstate District Indebtedness. Indebtedness of an interstate district shall be a general obligation of the district and shall also be a joint and several general obligation of each member district, except that such obligations of the district and its member district shall not be deemed indebtedness of any member district for the purposes of determining its borrowing capacity under New Hampshire or Vermont law. A member district which withdraws from an interstate district shall remain liable for indebtedness of the interstate district which is outstanding at the time of withdrawal and shall be responsible for paying its share of such indebtedness to the same extent as though it had not withdrawn.

B. Temporary Borrowing. The interstate board may authorize the borrowing of money by the interstate district (1) in anticipation of payments of operating and capital expenses by the member districts to the interstate district and (2) in anticipation of the issue of bonds or notes of the interstate district which have been authorized for the purpose of financing capital projects. Such temporary borrowing shall be evidenced by interest-bearing or discounted notes of the interstate district. The amount of notes issued in any fiscal year in anticipation of expense payments shall not exceed the amount of such payments received by the interstate district in the preceding fiscal year. Notes issued under this paragraph shall be payable within one year in the case of notes under clause (1) and 3 years in the case of notes under clause (2) from their respective dates, but the principal of and interest on notes issued for a shorter period may be renewed or paid from time to time by the issue of other notes, provided that the period from the date of an original note to the maturity of any note issued to renew or pay the same debt shall not exceed the maximum period permitted for the original loan.

C. Borrowing for Capital Projects. An interstate district may incur debt and issue its bonds or notes to finance capital projects. Such projects may consist of the acquisition or improvement of land and buildings for school purposes, the construction, reconstruction, alteration, or enlargement of school buildings and related school facilities, the acquisition of equipment of a lasting character and the payment of judgments. No interstate district may authorize indebtedness in excess of 10 percent of the total fair market value of taxable property in its member districts as defined in article VI of this compact. The primary obligation of the interstate district to pay indebtedness of member districts shall not be considered indebtedness of the interstate district for the purpose of determining its borrowing capacity under this paragraph. Bonds or notes issued under this paragraph shall mature in equal or diminishing installments of principal payable at least annually commencing no later than 2 years and ending not later than 30 years after their dates.

D. Authorization Proceedings. An interstate district shall authorize the incurring of debts to finance capital projects by a majority vote of the district passed at an annual or special district meeting. Such vote shall be taken by secret ballot after full opportunity for debate, and any such vote shall be subject to reconsideration and further action by the district at the same meeting or at an adjourned

session thereof. As an alternative, an interstate district may provide in its articles of agreement that such a vote be conducted by Australian or official balloting under procedures set forth in the articles of agreement, and that such vote be subject to any method of reconsideration, if any, which the interstate district sets forth in the articles of agreement.

E. Sale of Bonds and Notes. Bonds and notes which have been authorized under this article may be issued from time to time and shall be sold at not less than par and accrued interest at public or private sale by the chairman of the school board and by the treasurer. Interstate district bonds and notes shall be signed by the said officers, except that either one of the 2 required signatures may be a facsimile. Subject to this compact and the authorizing vote, they shall be in such form, bear such rates of interest and mature at such times as the said officers may determine. Bonds shall, but notes need not, bear the seal of the interstate district, or a facsimile of such seal. Any bonds or notes of the interstate district which are properly executed by the said officers shall be valid and binding according to their terms notwithstanding that before the delivery thereof such officers may have ceased to be officers of the interstate district.

F. Proceeds of Bonds. Any accrued interest received upon delivery of bonds or notes of an interstate district shall be applied to the payment of the first interest which becomes due thereon. The other proceeds of the sale of such bonds or notes, other than temporary notes, including any premiums, may be temporarily invested by the interstate district pending their expenditure; and such proceeds, including any income derived from the temporary investment of such proceeds, shall be used to pay the costs of issuing and marketing the bonds or notes and to meet the operating expenses or capital expenses in accordance with the purposes for which the bonds or notes were issued or, by proceedings taken in the manner required for the authorization of such debt, for other purposes for which such debt could be incurred. No purchaser of any bonds or notes of an interstate district shall be responsible in any way to see to the application of the proceeds thereof.

G. State Aid Programs. As used in this paragraph the term "initial aid" shall include New Hampshire and Vermont financial assistance with respect to a capital project, or the means of financing a capital project, which is available in connection with construction costs of a capital project or which is available at the time indebtedness is incurred to finance the project. Without limiting the generality of the foregoing definition, initial aid shall specifically include a New Hampshire state guarantee under RSA 195–C with respect to bonds or notes and Vermont construction aid under chapter 123 of 16 V.S.A. As used in this paragraph the term "long-term aid" shall include New Hampshire and Vermont financial assistance which is payable periodically in relation to capital costs incurred by an interstate district. Without limiting the generality of the foregoing definition, long-term aid shall specifically include New Hampshire school building aid under RSA 198 and Vermont school building aid under chapter 123 of Title 16 V.S.A. For the purpose of applying for, receiving and expending initial aid and long-term aid an interstate district shall be deemed a native school district by each state, subject to the following provisions. When an interstate district has appropriated money for a capital project, the amount appropriated shall be divided into a New Hampshire share and a Vermont share in accordance with the capital expense apportionment formula in the articles of agreement as though the total amount appropriated for the project was a capital expense requiring apportionment in the year the appropriation is made. New Hampshire initial aid shall be available with respect to the amount of the New Hampshire share as though it were authorized indebtedness of a New Hampshire cooperative school district. In the case of a state guarantee of interstate district bonds or notes under RSA 195–C, the interstate district shall be eligible to apply for and receive an unconditional state guarantee with respect to an amount of its bonds or notes which does not exceed 50 percent of the amount of the New Hampshire share as determined above. Vermont initial aid shall be available with respect to the amount of the Vermont share as though it were funds voted by a Vermont school district. Payments of Vermont initial aid shall be made to the interstate district, and the amount of any borrowing authorized to meet the appropriation for the capital project shall be reduced accordingly. New Hampshire and Vermont long-term aid shall be payable to the interstate district. The amounts of long-term aid in each year shall be based on the New Hampshire and Vermont shares of the amount of indebtedness of the interstate district which is payable in that year and which has been apportioned in accordance with the capital expense apportionment formula in the articles of agreement. The New Hampshire aid shall be payable at the rate of 45 percent, if there are 3 or less New Hampshire members in the interstate district, and otherwise it shall be payable as though the New Hampshire members were a New Hampshire cooperative school district.

New Hampshire and Vermont long-term aid shall be deducted from the total capital expenses for the fiscal year in which the long-term aid is payable, and the balance of such expenses shall be apportioned among the member districts. Notwithstanding the foregoing provisions, New Hampshire and Vermont may at any time change their state school aid programs that are in existence when this compact takes effect and may establish new programs, and any legislation for these purposes may specify how such programs shall be applied with respect to interstate districts. Notwithstanding the foregoing, the respective amounts of New Hampshire and Vermont initial and long-term aid, with respect to a capital project of the Dresden School District for which indebtedness is authorized by a vote of the district after July 1, 1977, shall be initially determined for each year for each member district by the manner provided in this paragraph and the aid shall be paid to the Dresden School District; however, the amount of aid for those capital projects received by the Dresden School District on account of each member district shall be used by the District to reduce the sums which would otherwise be required to be raised by taxation within that member district.

H. Tax Exemption. Bonds and notes of an interstate school district shall be exempt from local property taxes in both states, and the interest or discount thereon and any profit derived from the disposition thereof shall be exempt from personal income taxes in both states.

I. Notwithstanding paragraph G of this article, initial and long-term aid may be allocated among the members of an interstate district other than the Dresden School District in the manner which is provided in the articles of agreement of that district, or if not therein provided, in the manner specified in paragraph G for all interstate districts other than the Dresden School District.

Article VIII

Taking Over of Existing Property

A. Power to Acquire Property of Member District. The articles of agreement, or an amendment thereof, may provide for the acquisition by an interstate district from a member district of all or a part of its existing plant and equipment.

B. Valuation. The articles of agreement, or the amendment, shall provide for the determination of the value of the property to be acquired in one or more of the following ways:

a. A valuation set forth in the articles of agreement or the amendment.

b. By appraisal, in which case, one appraiser shall be appointed by each commissioner, and a third appraiser appointed by the first 2 appraisers.

C. Reimbursement to Member District. The articles of agreement shall specify the method by which the member district shall be reimbursed by the interstate district for the property taken over, in one or more of the following ways:

a. By one lump sum, appropriated, allocated, and raised by the interstate district in the same manner as an appropriation for operating expenses.

b. In installments over a period of not more than 20 years, each of which is appropriated, allocated, and raised by the interstate district in the same manner as an appropriation for operating expenses.

c. By an agreement to assume or reimburse the member district for all principal and interest on any outstanding indebtedness originally incurred by the member district to finance the acquisition and improvement of the property, each such installment to be appropriated, allocated, and raised by the interstate district in the same manner as an appropriation for operating expenses.

The member district transferring the property shall have the same obligation to pay to the interstate district its share of the cost of such acquisition, but may offset its right to reimbursement.

Article IX

Amendments to Articles of Agreement

A. Amendments to the articles of agreement shall be adopted in the manner provided in the articles of agreement, and if no such provision is made in the articles of agreement then amendments shall be adopted by the affirmative vote of ⅔ of those present and voting at an interstate district meeting, except that:

a. If the amendment proposes the addition of a new member district, the amendment shall be adopted in the same manner provided for the adoption of the original articles of agreement, provided that the planning committee shall consist of all of the members of the interstate district board of directors and all of the members of the school board of the proposed new member district or districts, and provided that the amendment shall be submitted to the voters of the interstate district, the affirmative vote of ⅔ of those present and voting at an interstate district meeting being re-

quired for approval of the amendment. The articles of agreement together with the proposed amendment shall then be submitted to the voters of the proposed new member district or districts, and an affirmative vote of a simple majority of those present and voting at each district meeting shall be required for approval of the amendment.

b. No amendment to the articles of agreement may impair the rights of bond or note holders or the power of the interstate district to procure the means for their payment.

c. Amendments to the articles of agreement of the Dresden School District shall be adopted in the following manner: (1) an amendment shall be initially approved upon the affirmative vote of a simple majority of those voters of the Dresden School District who are present and voting at a meeting called for such purpose, (2) the amendment initially approved by the voters of the Dresden School District shall become final and effective upon the expiration of 30 days after the date of that vote, unless a petition is duly filed within that 30-day period and the amendment is subsequently not approved by the voters of a member district in accordance with the procedure specified in clause (3), (3) if a petition, valid under applicable state law, is filed before the expiration of that 30-day period with the clerk of any school district which is a member of the Dresden School District, which petition requires the calling of a special meeting at that member district for the purpose of considering the approval of the amendment initially adopted by the voters of the Dresden School District, then the board of school directors of that member district shall thereupon call a special meeting of that district for that purpose, (4) if the amendment as initially approved by the voters of the Dresden School District is approved by more than 40 percent of the voters present and voting at the meeting of each member district in which a petition was filed under this section, then the amendment as initially adopted shall become final and effective upon the vote of that member district last to vote. If the amendment as initially approved by the voters of the Dresden School District is not so approved by more than 40 percent of the voters present and voting at the meeting of any one member district, then the amendment shall be null and void and of no effect.

Article X
Applicability of New Hampshire Laws

A. General School Laws. With respect to the operation and maintenance of any school of the district located in New Hampshire, the provisions of New Hampshire law shall apply except as otherwise provided in this compact and except that the powers and duties of the school board shall be exercised and discharged by the interstate board and the powers and duties of the school administrative unit superintendent shall be exercised and discharged by the interstate district superintendent.

B. New Hampshire State Aid. A New Hampshire school district shall be entitled to receive an amount of state aid for operating expenditures as though its share of the interstate district's expenses were the expenses of the New Hampshire member district, and as though the New Hampshire member district pupils attending the interstate school were attending a New Hampshire cooperative school district's school. The state aid shall be paid to the New Hampshire member school district to reduce the sums which would otherwise be required to be raised by taxation within the member district.

C. Continued Existence of New Hampshire Member School District. A New Hampshire member school district shall continue in existence, and shall have all of the powers and be subject to all of the obligations imposed by law and not herein delegated to the interstate district. If the interstate district incorporates only a part of the schools in the member school district, then the school board of the member school district shall continue in existence and it shall have all of the powers and be subject to all of the obligations imposed by law on it and not herein delegated to the district. However, if all of the schools in the member school district are incorporated into the interstate school district, then the member or members of the interstate board representing the member district shall have all of the powers and be subject to all of the obligations imposed by law on the members of a school board for the member district and not herein delegated to the interstate district. The New Hampshire member school district shall remain liable on its existing indebtedness; and the interstate school district shall not become liable therefor, unless the indebtedness is specifically assumed in accordance with the articles of agreement. Any trust funds or capital reserve funds and any property not taken over by the interstate district shall be retained by the New Hampshire member district and held or disposed of according to law. If all of the schools in a member district are incorporated into an interstate district, then no annual meeting of the member district shall be required unless the members of the interstate board from the member

district shall determine that there is occasion for such an annual meeting.

D. Suit and Service of Process in New Hampshire. The courts of New Hampshire shall have the same jurisdiction over the district as though a New Hampshire member district were a party instead of the interstate district. The service necessary to institute suit in New Hampshire shall be made on the district by leaving a copy of the writ or other proceedings in hand or at the last and usual place of abode of one of the directors who resides in New Hampshire, and by mailing a like copy to the clerk and to one other director by certified mail with return receipt requested.

E. Employment. Each employee of an interstate district assigned to a school located in New Hampshire shall be considered an employee of a New Hampshire school district for the purpose of the New Hampshire teachers retirement system, the New Hampshire state employees retirement system, the New Hampshire workers' compensation law and any other law relating to the regulation of employment or the provision of benefits for employees of New Hampshire school districts except as follows:

1. A teacher in a New Hampshire member district may elect to remain a member of the New Hampshire teachers retirement system, even though assigned to teach in an interstate school in Vermont.

2. Employees of interstate districts designated as professional or instructional staff members, as defined in article I hereof, may elect to participate in the teachers retirement system of either the state of New Hampshire or the state of Vermont but in no case will they participate in both retirement systems simultaneously.

3. It shall be the duty of the superintendent in an interstate district to: (a) advise teachers and other professional staff employees contracted for the district about the terms of the contract and the policies and procedures of the retirement systems; (b) see that each teacher or professional staff employee selects the retirement system of his choice at the time his contract is signed; (c) provide the commissioners of education in New Hampshire and in Vermont with the names and other pertinent information regarding each staff member under his jurisdiction so that each may be enrolled in the retirement system of his preference.

Article XI
Applicability of Vermont Laws

A. General School Laws. With respect to the operation and maintenance of any school of the district located in Vermont, the provisions of Vermont law shall apply except as otherwise provided in this compact and except that the powers and duties of the school board shall be exercised and discharged by the interstate board and the powers and duties of the union superintendent shall be exercised and discharged by the interstate district superintendent.

B. Vermont State Aid. A Vermont school district shall be entitled to receive such amount of state aid for operating expenditures as though its share of the interstate district's expenses were the expenses of the Vermont member district, and as though the Vermont member district pupils attending the interstate schools were attending a Vermont union school district's schools. Such state aid shall be paid to the Vermont member school district to reduce the sums which would otherwise be required to be raised by taxation within the member district.

C. Continued Existence of Vermont Member School District. A Vermont member school district shall continue in existence, and shall have all of the powers and be subject to all of the obligations imposed by law and not herein delegated to the interstate district. If the interstate district incorporates only a part of the schools in the member school district, then the school board of the member school district shall continue in existence and it shall have all of the powers and be subject to all of the obligations imposed by law on it and not herein delegated to the district. However, if all of the schools in the member school are incorporated into the interstate school district, then the member or members of the interstate board representing the member district shall have all of the powers and be subject to all of the obligations imposed by law on the members of a school board for the member district and not herein delegated to the interstate district. The Vermont member school district shall remain liable on its existing indebtedness; and the interstate school district shall not become liable therefor. Any trust funds and any property not taken over shall be retained by the Vermont member school district and held or disposed of according to law.

D. Suit and Service of Process in Vermont. The courts of Vermont shall have the same jurisdiction over the districts as though a Vermont member district were a party instead of the interstate district. The service necessary to institute suit in Vermont

shall be made on the district by leaving a copy of the writ or other proceedings in hand or at the last and usual place of abode of one of the directors who resides in Vermont, and by mailing a like copy to the clerk and to one other director by certified mail with return receipt requested.

E. EMPLOYMENT. Each employee of an interstate district assigned to a school located in Vermont shall be considered an employee of a Vermont school district for the purpose of the state teachers' retirement system of Vermont, the state employees' retirement system, the Vermont workers' compensation law, and any other law relating to the regulation of employment or the provision of benefits for employees of Vermont school districts except as follows:

2. Employees of interstate districts designated as professional or instructional staff members, as defined in article I hereof, may elect to participate in the teachers' retirement system of either the state of Vermont or the state of New Hampshire but in no case will they participate in both retirement systems simultaneously.

3. It shall be the duty of the superintendent in an interstate district to: a) advise teachers and other professional staff employees contracted for the district about the terms of the contract and the policies and procedures of the retirement system; b) see that each teacher or professional staff employee selects the retirement system of his choice at the time his contract is signed; c) provide the commissioners of education in New Hampshire and in Vermont with the names and other pertinent information regarding each staff member under his jurisdiction so that each may be enrolled in the retirement system of his preference.

e. The corporate existence of the Dresden School District shall not be terminated by such adoption of articles of amendment, but shall be deemed to be so amended that it shall thereafter be governed by the terms of this compact.

Subject to the foregoing, any reference herein to other statutes of either state shall refer to such statute as it may be amended or revised from time to time.

CHAPTER 200–E

INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

200–E:1 Agreement. The Interstate Agreement on Qualification of Educational Personnel is hereby enacted into law and entered into with all jurisdiction legally joining therein, in the form substantially as follows:

Article I

Purpose, Findings, and Policy

1. The States party to this Agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the

purpose of this Agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the States party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party States find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from State to State in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other States. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their States of origin, can increase the available educational resources. Participation in this Compact can increase the availability of educational manpower.

Article II
Definitions

As used in this Agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to State law as a condition of employment in educational programs.

2. "Designated State official" means the education official of a State selected by that State to negotiate and enter into, on behalf of his State, contracts pursuant to this Agreement.

3. "Accept", or any variant thereof, means to recognize and give effect to one or more determinations of another State relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving State.

4. "State" means a State, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating State" means a State (and the subdivisions thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

6. "Receiving State" means a State (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III
Interstate Educational Personnel Contracts

1. The designated State official of a party State may make one or more contracts on behalf of his State with one or more other party States providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the States whose designated state officials enter into it, and the subdivisions of those States, with the same force and effect as if incorporated in this Agreement. A designated state official may enter into a contract pursuant to this Article only with States in which he finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in his own State.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating State in qualifying educational personnel for acceptance by a receiving State.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this Agreement shall be for a term longer than 5 years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this Agreement shall require acceptance by a receiving State of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground

which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving State.

6. A contract committee composed of the designated state officials of the contracting States or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting States.

Article IV
Approved and Accepted Programs

1. Nothing in this Agreement shall be construed to repeal or otherwise modify any law or regulation of a party State relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that State.

2. To the extent that contracts made pursuant to this Agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V
Interstate Cooperation

The party States agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this Agreement.

2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI
Agreement Evaluation

The designated state officials of any party States may meet from time to time as a group to evaluate progress under the Agreement, and to formulate recommendations for changes.

Article VII
Other Arrangements

Nothing in this Agreement shall be construed to prevent or inhibit other arrangements or practices of any party State or States to facilitate the interchange of educational personnel.

Article VIII
Effect and Withdrawal

1. This Agreement shall become effective when enacted into law by 2 States. Thereafter it shall become effective as to any State upon its enactment of this Agreement.

2. Any party State may withdraw from this Agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States.

3. No withdrawal shall relieve the withdrawing State of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX
Construction and Severability

This Agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Agreement shall be severable and if any phrase, clause, sentence, or provision of this Agreement is declared to be contrary to the constitution of any State or of the United States, or the application thereof to any Government, agency, person, or circumstance is held invalid, the validity of the remainder of this Agreement and the applicability thereof to any Government, agency, person, or circumstance shall not be affected thereby. If this Agreement shall be held contrary to the constitution of any State participating therein, the Agreement shall remain in full force and effect as to the State affected as to all severable matters.

Procedure for Formation of an Interstate School District

A. CREATION OF PLANNING COMMITTEE. The New Hampshire and Maine commissioners of education shall have the power, acting jointly, to constitute and discharge one or more interstate school district planning committees. Each such planning committee shall consist of at least 2 voters from each of a group of 2 or more neighboring member districts. One of the representatives from each member district shall be a member of its school board, whose term on the planning committee shall be concurrent with his term as a school board member. The term of each member of a planning committee who is not also a school board member shall expire on June 30 of the third year following his appointment. The existence of any planning committee may be terminated either by vote

of a majority of its members or by joint action of the commissioners. In forming and appointing members to an interstate school district planning board, the commissioners shall consider and take into account recommendations and nominations made by school boards of member districts. No member of a planning committee shall be disqualified because he is at the same time a member of another planning board or committee created under this compact or under any other provisions of law. Any existing informal interstate school planning committee may be reconstituted as a formal planning committee in accordance with the provisions hereof, and its previous deliberations adopted and ratified by the reorganized formal planning committee. Vacancies on a planning committee shall be filled by the commissioners acting jointly.

B. Operating Procedures of Planning Committee. Each interstate school district planning committee shall meet in the first instance at the call of any member, and shall organize by the election of a chairman and clerk-treasurer, each of whom shall be a resident of a different state. Subsequent meetings may be called by either officer of the committee. The members of the committee shall serve without pay. The member districts shall appropriate money on an equal basis at each annual meeting to meet the expenses of the committee, including the cost of publication and distribution of reports and advertising. From time to time the commissioners may add additional members and additional member districts to the committee, and may remove members and member districts from the committee. An interstate school district planning committee shall act by majority vote of its membership present and voting.

C. Duties of Interstate School District Planning Committee. It shall be the duty of an interstate school district planning committee, in consultation with the commissioners and the state departments of education: to study the advisability of establishing an interstate school district in accordance with the standards set forth in paragraph A, its organization, operation and control, and the advisability of constructing, maintaining and operating a school or schools to serve the needs of such interstate district; to estimate the construction and operating costs thereof; to investigate the methods of financing such school or schools, and any other matters pertaining to the organization and operation of an interstate school district; and to submit a report or reports of its findings and recommendations to the several member districts.

D. Recommendations and Preparation of Articles of Agreement. An interstate school district planning committee may recommend that an interstate school district composed of all the member districts represented by its membership, or any specified combination of such member districts, be established. If the planning committee does recommend the establishment of an interstate school district, it shall include in its report such recommendation, and shall prepare and include in its report proposed articles of agreement for the proposed interstate school district, which shall be signed by at least a majority of the membership of the planning committee, which set forth the following:

a. The name of the interstate school district.

b. The member districts which shall be combined to form the proposed interstate school district.

c. The number, composition, method of selection and terms of office of the interstate school board, provided that:

(1) The interstate school board shall consist of an odd number of members, not less than 5 nor more than 15;

(2) The terms of office shall not exceed 3 years;

(3) Each member district shall be entitled to elect at least one member of the interstate school board. Each member district shall either vote separately at the interstate school district meeting by the use of a distinctive ballot, or shall chose its member or members at any other election at which school officials may be chosen;

(4) The method of election shall provide for the filing of candidacies in advance of election and for the use of a printed nonpartisan ballot;

(5) Subject to the foregoing, provision may be made for the election of one or more members at large.

d. The grades for which the interstate school district shall be responsible.

e. The specific properties of member districts to be acquired initially by the interstate school district and the general location of any proposed new schools to be initially established or constructed by the interstate school district.

f. The method of apportioning the operating expenses of the interstate school district among the several member districts, and the time and manner of payments of such shares.

g. The indebtedness of any member district which the interstate district is to assume.

h. The method of apportioning the capital expenses of the interstate school district among the several member districts, which need not be the same as the method of apportioning operating expenses, and the time and manner of payment of such shares. Capital expenses shall include the cost of acquiring land and buildings for school purposes; the construction, furnishing and equipping of school buildings and facilities; and the payment of the principal and interest of any indebtedness which is incurred to pay for the same.

i. The manner in which state aid, available under the laws of either New Hampshire or Maine, shall be allocated, unless otherwise expressly provided in this compact or by the laws making such aid available.

j. The method by which the articles of agreement may be amended, which amendments may include the annexation of territory, or an increase or decrease in the number of grades for which the interstate district shall be responsible, provided that no amendment shall be effective until approved by both state boards in the same manner as required for approval of the original articles of agreement.

k. The date of operating responsibility of the proposed interstate school district and a proposed program for the assumption of operating responsibility for education by the proposed interstate school district, and any school construction; which the interstate school district shall have the power to vary by vote as circumstances may require.

l. Any other matters, not incompatible with law, which the interstate school district planning committee may consider appropriate to include in the articles of agreement, including, without limitation:

(1) The method of allocating the cost of transportation between the interstate district and member districts;

(2) The nomination of individual school directors to serve until the first annual meeting of the interstate school district.

E. HEARINGS. If the planning committee recommends the formation of an interstate school district, it shall hold at least one public hearing on its report and the proposed articles of agreement within the proposed interstate school district in Maine, and at least one public hearing thereon within the proposed interstate school district in New Hampshire. The planning committee shall give such notice thereof as it may determine to be reasonable, provided that such notice shall include at least one publication in a newspaper of general circulation within the proposed interstate school district not less than 15 days, not counting the date of publication and not counting the date of the hearing, before the date of the first hearing. Such hearings may be adjourned from time to time and from place to place. The planning committee may revise the proposed articles of agreement after the date of the hearings. It shall not be required to hold further hearings on the revised articles of agreement but may hold one or more further hearings after notice similar to that required for the first hearings if the planning committee in its sole discretion determines that the revisions are so substantial in nature as to require further presentation to the public before submission to the state boards of education.

F. APPROVAL BY STATE BOARDS. After the hearings a copy of the proposed articles of agreement, as revised, signed by a majority of the planning committee, shall be submitted by it to each state board. The state boards may if they find that the articles of agreement are in accord with the standards set forth in this compact and in accordance with sound educational policy, approve the same as submitted, or refer them back to the planning committee for further study. The planning committee may make additional revisions to the proposed articles of agreement to conform to the recommendations of the state boards. Further hearings on the proposed articles of agreement shall not be required unless ordered by the state boards in their discretion. In exercising such discretion, the state boards shall take into account whether or not the additional revisions are so substantial in nature as to require further presentation to the public. If both state boards find that the articles of agreement as further revised are in accord with the standards set forth in this compact and in accordance with sound educational policy, they shall approve the same. After approval by both state boards, each state board shall cause the articles of agreement to be submitted to the school boards of the several member districts in each state for acceptance by the member districts as provided in paragraph G. At the same time, each state board shall designate the form of warrant, date, time, place, and period of voting for the special meeting of the member district to be held in accordance with paragraph G.

G. ADOPTION BY MEMBER DISTRICTS. Upon receipt of written notice from the state board in its state of the approval of the articles of agreement by both state boards, the school board of each member district shall cause the articles of agreement to be filed with the member district clerk. Within 10 days after

receipt of such notice, the school board shall issue its warrant for a special meeting of the member district, the warrant to be in the form, and the meeting to be held at the time and place and in the manner prescribed by the state board. No approval of the superior court shall be required for such special school district meeting in New Hampshire. Voting shall be with the use of a checklist by a ballot substantially in the following form:

> "Shall the school district accept the provisions of the New Hampshire-Maine Interstate School Compact providing for the establishment of an interstate school district, together with the school districts of _____ and _____, etc., in accordance with the proposed articles of agreement filed with the school district (town, city or incorporated school district) clerk?"

Yes ( ) No ( )

If the articles of agreement included the nomination of individual school directors, those nominated from each member district shall be included in the ballot and voted upon, such election to become effective upon the formation of an interstate school district.

If a majority of the voters present and voting in a member district vote in the affirmative, the clerk for such member district shall forthwith send to the state board in its state a certified copy of the warrant, certificate of posting, and minutes of the meeting of the district. If the state boards of both states find that a majority of the voters present and voting in each member district have voted in favor of the establishment of the interstate school district, they shall issue a joint certificate to that effect; and such certificate shall be conclusive evidence of the lawful organization and formation of the interstate school district as of its date of issuance.

H. RESUBMISSION. If the proposed articles of agreement are adopted by one or more of the member districts but rejected by one or more of the member districts, the state boards may resubmit them, in the same form as previously submitted, to the rejecting member districts, in which case the school boards thereof shall resubmit them to the voters in accordance with paragraph G. An affirmative vote in accordance therewith shall have the same effect as though the articles of agreement had been adopted in the first instance. In the alternative, the state boards may either discharge the planning committee, or refer the articles of agreement back for further consideration to the same or a reconstituted planning committee, which shall have all the powers and duties as the planning committee as originally constituted.

B. ELIGIBILITY OF VOTERS. Any resident who would be eligible to vote at a meeting of a member district being held at the same time shall be eligible to vote at a meeting of the interstate district. The town clerks in each Maine member district and the

supervisors of the checklist of each New Hampshire district shall respectively prepare a checklist of eligible voters for each meeting of the interstate district in the same manner, and they shall have all the same powers and duties with respect to eligibility of voters in their districts as for a meeting of a member district.

C. Warning of Meetings. A meeting shall be warned by a warrant addressed to the residents of the interstate school district qualified to vote in district affairs, stating the time and place of the meeting and the subject matter of the business to be acted upon. The warrant shall be signed by the clerk and by a majority of the directors. Upon written application of 10 or more voters in the district, presented to the directors or to one of them, at least 25 days before the day prescribed for an annual meeting, the directors shall insert in their warrant for such meeting any subject matter specified in such application.

D. Posting and Publication of Warrant. In addition, the directors shall cause the warrant to be advertised in a newspaper of general circulation on at least one occasion, such publication to occur at least 10 days, not counting the date of publication and not counting the date of the meeting, before the date of the meeting. Although no further notice shall be required, the directors may give such further notice of the meeting as they in their discretion deem appropriate under the circumstances.

E. Return of Warrant. The warrant with a certificate thereon, verified by oath, stating the time and place when and where copies of the warrant were posted and published, shall be given to the clerk of the interstate school district at or before the time of the meeting, and shall be recorded by him in the records of the interstate school district.

F. Organization Meeting. The commissioners, acting jointly, shall fix a time and place for a special meeting of the qualified voters within the interstate school district for the purpose of organization, and shall prepare and issue the warrant for the meeting after consultation with the interstate school district planning board and the members-elect, if any, of the interstate school board of directors. Such meeting shall be held within 60 days after the date of issuance of the certificate of formation, unless the time is further extended by the joint action of the state boards. At the organization meeting the commissioner of education of the state where the meeting is held, or his designate, shall preside in the first instance, and the following business shall be transacted:

a. A temporary moderator and a temporary clerk shall be elected from among the qualified voters who shall serve until a moderator and clerk respectively have been elected and qualified.

Once determined, the date of the annual meeting shall remain fixed until changed by vote of the interstate district at a subsequent annual or special meeting. At each annual meeting the following business shall be transacted:

b. Money shall be appropriated for the support of the interstate district schools for the fiscal year beginning the following July 1.

c. Such other business as may properly come before the meeting.

H. Special Meetings. A special meeting of the district shall be held whenever, in the opinion of the directors, there is occasion therefor, or whenever written application shall have been made by 5 percent or more of the voters based on the checklists as prepared for the last preceding meeting, setting forth the subject matter upon which such action is desired. A special meeting may appropriate money without compliance with RSA 33:8 or RSA 197:3 which would otherwise require the approval of the New Hampshire superior court.

I. CERTIFICATION OF RECORDS. The clerk of an interstate school district shall have the power to certify the record of the votes adopted at an interstate school district meeting to the respective commissioners and state boards and, where required, for filing with a secretary of state.

Except as otherwise specifically provided, they shall be eligible to take office immediately following their election; they shall serve until the next annual meeting of the interstate district and until their successors are elected and qualified. Each shall take oath for the faithful performance of his duties before the moderator, or a notary public or a justice of the peace of the state in which the oath is administered. Their compensation shall be fixed by vote of the district. No person shall be eligible to any district office unless he is a voter in the district. A custodian, school teacher, principal, superintendent or other employee of an interstate district acting as such shall not be eligible to hold office as a school director.

B. BOARD OF DIRECTORS.

a. HOW CHOSEN. Each member district shall be represented by at least one resident on the board of school directors of an interstate school district. A member district shall be entitled to such further representation on the interstate board of school directors as provided in the articles of agreement as amended from time to time. The articles of agreement as amended from time to time may provide for school directors at large, as set forth. No person shall be disqualified to serve as a member of an interstate board because he is at the same time a member of the school board of a member district.

b. TERM. Interstate school directors shall be elected for terms in accordance with the articles of agreement.

c. DUTIES OF BOARD OF DIRECTORS. The board of school directors of an interstate school district shall have and exercise all of the powers of the district not reserved herein to the voters of the district.

He shall preside in the absence of the chairman and shall perform such other duties as may be assigned to him by the interstate board.

E. SECRETARY OF THE BOARD. The secretary of the interstate board shall be elected in the same manner as the chairman. Instead of electing one of its members, the interstate board may appoint the interstate district clerk to serve as secretary of the board in addition to his other duties. The secretary of the interstate board, or the interstate district clerk, if so appointed, shall keep the minutes of its

meetings, shall certify its records, and perform such other duties as may be assigned to him by the board.

F. MODERATOR. The moderator shall preside at the district meetings, regulate the business thereof, decide questions of order, and make a public declaration of every vote passed. He may prescribe rules of procedure; but such rules may be altered by the district. He may administer oaths to district officers in either state.

G. CLERK. The clerk shall keep a true record of all proceedings at each district meeting, shall certify its records, shall make an attested copy of any records of the district for any person upon request and tender of reasonable fees therefor, if so appointed, shall serve as secretary of the board of school directors, and shall perform such other duties as may be required by custom or law.

H. TREASURER. The treasurer shall have custody of all of the monies belonging to the district and shall pay out the same only upon the order of the interstate board. He shall keep a fair and accurate account of all sums received into and paid from the interstate district treasury, and at the close of each fiscal year he shall make a report to the interstate district, giving a particular account of all receipts and payments during the year. He shall furnish to the interstate directors, statements from his books and submit his books and vouchers to them and to the district auditors for examination whenever so requested. He shall make all returns called for by laws relating to school districts. Before entering on his duties, the treasurer shall give a bond with sufficient sureties and in such sum as the directors may require. The treasurer's term of office is from July 1 to the following June 30.

I. AUDITORS. At the organization meeting of the district, 3 auditors shall be chosen, one to serve for a term of one year, one to serve for a term of 2 years and one to serve for a term of 3 years. After the expiration of each original term, the successor shall be chosen for a 3 year term. At least one auditor shall be a resident of Maine, and one auditor shall be a resident of New Hampshire. An interstate district may vote to employ a certified public accountant to assist the auditors in the performance of their duties. The auditors shall carefully examine the accounts of the treasurer and the directors at the close of each fiscal year, and at such other times whenever necessary, and report to the district whether the same are correctly cast and properly vouched.

J. SUPERINTENDENT. The superintendent of schools shall be selected by a majority vote of the board of school directors of the interstate district with the approval of both commissioners.

K. VACANCIES. Any vacancy among the elected officers of the district shall be filled by the interstate board until the next annual meeting of the district or other election, when a successor shall be elected to serve out the remainder of the unexpired term, if any. Until all vacancies on the interstate board are filled, the remaining members shall have full power to act.

Article VI

Appropriation and Apportionment of Funds

A. BUDGET. Before each annual meeting, the interstate board shall prepare a report of expenditures for the preceding fiscal year, an estimate of expenditures for the current fiscal year, and a budget for the succeeding fiscal year.

B. APPROPRIATION. The interstate board of directors shall present the budget report at the annual meeting. The interstate district shall appropriate a sum of money for the support of its schools and for the discharge of its obligations for the ensuing fiscal year.

C. APPORTIONMENT OF APPROPRIATION. Subject to the provisions of article VII, the interstate board shall first apply against such appropriation any income to which the interstate district is entitled, and shall then apportion the balance among the member districts in accordance with one of the following formulas as determined by the articles of agreement as amended from time to time.

a. All of such balance to be apportioned on the basis of the ratio that the fair market value of the taxable property in each member district bears to that of the entire interstate district; or

b. All of such balance to be apportioned on the basis that the average daily resident membership for the preceding fiscal year of each member district bears to that of the average daily resident membership of the entire interstate school district; or

c. A formula based on any combination of the foregoing factors. The term "fair market value of taxable property" shall mean the last locally assessed valuation of a member district in New Hampshire, as last equalized by the New Hampshire commissioner of revenue administration.

The term "fair market value of taxable property" shall mean the equalized grand list of a Maine

member district, as determined by the Maine Bureau of Taxation.

Such assessed valuation and grand list may be further adjusted by elimination of certain types of taxable property from one or the other or otherwise, in accordance with the articles of agreement, in order that the fair market value of taxable property in each state shall be comparable.

"Average daily resident membership" of the interstate district in the first instance shall be the sum of the average daily resident membership of the member districts in the grades involved for the preceding fiscal year where no students were enrolled in the interstate district schools for such preceding fiscal year.

D. Share of New Hampshire Member District. The interstate board shall certify the share of a New Hampshire member district of the total appropriation to the school board of each member district which shall add such sum to the amount appropriated by the member district itself for the ensuing year and raise such sum in the same manner as though the appropriation had been voted at a school district meeting of the member district. The interstate district shall not set up its own capital reserve funds; but a New Hampshire member district may set up a capital reserve fund in accordance with RSA 35, to be turned over to the interstate district in payment of the New Hampshire member district's share of any anticipated obligations.

E. Share of Maine Member District. The interstate board shall certify the share of a Maine member district of the total appropriation to the school board of each member district which shall add such sum to the amount appropriated by the member district itself for the ensuing year and raise such sum in the same manner as though the appropriation had been voted at a school district meeting of the member district.

Article VII
Borrowing

A. Interstate District Indebtedness. Indebtedness of an interstate district shall be a general obligation of the district and shall be a joint and several general obligation of each member district, except that such obligations of the district and its member districts shall not be deemed indebtedness of any member district for the purposes of determining its borrowing capacity under Maine or New Hampshire law. A member district which withdraws from an interstate district shall remain liable for indebtedness of the interstate district which is outstanding at the time of withdrawal and shall be responsible for paying its share of such indebtedness to the same extent as though it had not withdrawn.

B. Temporary Borrowing. The interstate board may authorize the borrowing of money by the interstate district (1) in anticipation of payments of operating and capital expenses by the member districts to the interstate district and (2) in anticipation of the issue of bonds or notes of interstate district which have been authorized for the purpose of financing capital projects. Such temporary borrowing shall be evidenced by interest bearing or discounted notes of the interstate district. The amount of notes issued in any fiscal year in anticipation of expense payments shall not exceed the amount of such payments received by the interstate district in the preceding fiscal year. Notes issued under this paragraph shall be payable within one year in the case of notes under clause (1) and 3 years in the case of notes under clause (2) from their respective dates, but the principal of and interest on notes issued for a shorter period may be renewed or paid from time to time by the issue of other notes, provided that the period from the date of an original note to the maturity of any note issued to renew or pay the same debt shall not exceed the maximum period permitted for the original loan.

C. Borrowing for Capital Projects. An interstate district may incur debt and issue its bonds or notes to finance capital projects. Such projects may consist of the acquisition or improvement of land and buildings for school purposes, the construction, reconstruction, alteration or enlargement of school buildings and related school facilities, the acquisition of equipment of a lasting character and the payment of judgments. No interstate district may authorize indebtedness in excess of 10 percent of the total fair market value of taxable property in its member districts as defined in article VI. The primary obligation of the interstate district to pay indebtedness of member districts shall not be considered indebtedness of the interstate district for the purpose of determining its borrowing capacity under this paragraph. Bonds or notes issued under this paragraph shall mature in equal or diminishing installments of principal payable at least annually commencing no later than 2 years and ending not later than 30 years after their dates.

D. Authorization. An interstate district shall authorize the incurring of debts to finance capital projects by a majority vote of the district passed at an annual or special district meeting. Such vote shall

be taken by secret ballot after full opportunity for debate, and any such vote shall be subject to reconsideration and further action by the district at the same meeting or at an adjourned session thereof.

E. Sale of Bonds and Notes. Bonds and notes which have been authorized under this article may be issued from time to time and shall be sold at not less than par and accrued interest at public or private sale by the chairman of the school board and by the treasurer. Interstate district bonds and notes shall be signed by the said officers, except that either one of the 2 required signatures may be a facsimile. Subject to this compact and the authorizing vote, they shall be in such form, bear such rates of interest and mature at such times as the said officers may determine. Bonds shall, but notes need not, bear the seal of the interstate district, or a facsimile of such seal. Any bonds or notes of the interstate district which are properly executed by the said officers shall be valid and binding according to their terms notwithstanding that before the delivery thereof such officers may have ceased to be officers of the interstate district.

F. Proceeds of Bonds. Any accrued interest received upon delivery of bonds or notes of an interstate district shall be applied to the payment of the first interest which becomes due thereon. The other proceeds of the sale of such bonds or notes, other than temporary notes, including any premiums, may be temporarily invested by the interstate district pending their expenditure; and such proceeds, including any income derived from the temporary investment of such proceeds, shall be used to pay the costs of issuing and marketing the bonds or notes and to meet the operating expenses or capital expenses in accordance with the purposes for which the bonds or notes were issued or, by proceedings taken in the manner required for the authorization of such debt, for other purposes for which such debt could be incurred. No purchaser of any bonds or notes of an interstate district shall be responsible in any way to see to the application of the proceeds thereof.

G. State Aid Programs. As used in this paragraph the term "initial aid" shall include New Hampshire and Maine financial assistance with respect to a capital project, or the means of financing a capital project, which is available in connection with construction costs of a capital project or which is available at the time indebtedness is incurred to finance the project. Without limiting the generality of the foregoing definition, initial aid shall specifically include a New Hampshire state guarantee under RSA 195–C with respect to bonds or notes and Maine construction aid under section 3457. As used in this paragraph the term "long-term aid" shall include New Hampshire and Maine financial assistance which is payable periodically in relation to capital costs incurred by an interstate district. Without limiting the generality of the foregoing definition, long-term aid shall specifically include New Hampshire school building aid under RSA 198 and Maine school building aid under section 3457. For the purpose of applying for, receiving and expending initial aid and long-term aid an interstate district shall be deemed a native school district by each state, subject to the following provisions. When an interstate district has appropriated money for a capital project, the amount appropriated shall be divided into a Maine share and a New Hampshire share in accordance with the capital expense apportionment formula in the articles of agreement as though the total amount appropriated for the project was a capital expense requiring apportionment in the year the appropriation is made. New Hampshire initial aid shall be available with respect to the amount of the New Hampshire share as though it were authorized indebtedness of a New Hampshire cooperative school district. In the case of a state guarantee of interstate district bonds or notes under RSA 195–C, the interstate district shall be eligible to apply for and receive an unconditional state guarantee with respect to an amount of its bonds or notes which does not exceed 50 percent of the amount of the New Hampshire share as determined above. Maine aid shall be available with respect to the amount of the Maine share as though it were funds voted by a Maine school district. Payments of Maine aid shall be made to the interstate district, and the amount of any borrowing authorized to meet the appropriation for the capital project shall be reduced accordingly. New Hampshire and Maine long-term aid shall be payable to the interstate district. The amounts of long-term aid in each year shall be based on the New Hampshire and Maine shares of the amount of indebtedness of the interstate district which is payable in that year and which has been apportioned in accordance with the capital expense apportionment formula in the articles of agreement. The New Hampshire aid shall be payable at the rate of 45 percent if there are 3 or less New Hampshire members in the interstate district, and otherwise it shall be payable as though the New Hampshire members were a New Hampshire cooperative school district. New Hampshire and Maine long-term aid shall be deducted from the total capital expenses for the fiscal year in which the long-term aid is payable, and the balance of such expenses shall be apportioned among the member districts. Not-

withstanding the foregoing provisions, New Hampshire and Maine may at any time change their state school aid programs that are in existence when this compact takes effect and may establish new programs, and any legislation for these purposes may specify how such programs shall be applied with respect to interstate districts.

H. TAX EXEMPTION. Bonds and notes of an interstate school district shall be exempt from local property taxes in both states, and the interest or discount thereon and any profit derived from the disposition thereof shall be exempt from personal income taxes in both states.

Article VIII

Taking Over of Existing Property

A. POWER TO ACQUIRE PROPERTY OF MEMBER DISTRICT. The articles of agreement, or an amendment thereof, may provide for the acquisition by an interstate district from a member district of all or a part of its existing plant and equipment.

B. VALUATION. The articles of agreement, or the amendment, shall provide for the determination of the value of the property to be acquired in one or more of the following ways:

a. A valuation set forth in the articles of agreement or the amendment.

b. By appraisal, in which case, one appraiser shall be appointed by each commissioner, and a third appraiser appointed by the first 2 appraisers.

C. REIMBURSEMENT TO MEMBER DISTRICT. The articles of agreement shall specify the method by which the member district shall be reimbursed by the interstate district for the property taken over, in one or more of the following ways:

a. By one lump sum, appropriated, allocated and raised by the interstate district in the same manner as an appropriation for operating expenses.

b. In installments over a period of not more than 20 years, each of which is appropriated, allocated and raised by the interstate district in the same manner as an appropriation for operating expenses.

c. By an agreement to assume or reimburse the member district for all principal and interest on any outstanding indebtedness originally incurred by the member district to finance the acquisition and improvement of the property, each such installment to be appropriated, allocated and raised by the interstate district in the same manner as an appropriation for operating expenses.

The member district transferring the property shall have the same obligation to pay to the interstate district its share of the cost of such acquisition, but may offset its right to reimbursement.

Article IX

Amendments to Articles of Agreement

A. Amendments to the articles of agreement may be adopted in the same manner provided for the adoption of the original articles of agreement, except that:

a. Unless the amendment calls for the addition of a new member district, the functions of the planning committee shall be carried out by the interstate district board of directors.

b. If the amendment proposes the addition of a new member district, the planning committee shall consist of all the members of the interstate board and all of the members of the school board of the proposed new member district or districts. In such case the amendment shall be submitted to the voters at an interstate district meeting, at which an affirmative vote of ⅔ of those present and voting shall be required. The articles of agreement together with the proposed amendment shall be submitted to the voters of the proposed new member district at a meeting thereof, at which a simple majority of those present and voting shall be required.

c. In all cases an amendment may be adopted on the part of an interstate district upon the affirmative vote of voters thereof at a meeting voting as one body. Except where the amendment proposes the admission of a new member district, a simple majority of those present and voting shall be required for adoption.

d. No amendment to the articles of agreement may impair the rights of bond or note holders or the power of the interstate district to procure the means for their payment.

Article X

Applicability of New Hampshire Laws

A. GENERAL SCHOOL LAWS. With respect to the operation and maintenance of any school of the district located in New Hampshire, New Hampshire law shall apply except as otherwise provided in this compact and except that the powers and duties of the school board shall be exercised and discharged by the interstate board and the powers and duties of the school administrative unit superintendent shall be

exercised and discharged by the interstate district superintendent.

B. NEW HAMPSHIRE STATE AID. A New Hampshire school district shall be entitled to receive an amount of state aid for operating expenditures as though its share of the interstate district's expenses were the expenses of the New Hampshire member district, and as though the New Hampshire member district pupils attending the interstate school were attending a New Hampshire cooperative school district's school. The state aid shall be paid to the New Hampshire member school district to reduce the sums which would otherwise be required to be raised by taxation within the member district.

C. CONTINUED EXISTENCE OF NEW HAMPSHIRE MEMBER SCHOOL DISTRICT. A New Hampshire member school district shall continue in existence, and shall have all of the powers and be subject to all of the obligations imposed by law and not herein delegated to the interstate district. If the interstate district incorporates only a part of the schools in the member school district, then the school board of the member school district shall continue in existence and it shall have all of the powers and be subject to all of the obligations imposed by law on it and not herein delegated to the district. However, if all of the schools in the member school district are incorporated into the interstate school district, then the member or members of the interstate board representing the member district shall have all of the powers and be subject to all of the obligations imposed by law on the members of a school board for the member district and not herein delegated to the interstate district. The New Hampshire member school district shall remain liable on its existing indebtedness; and the interstate school district shall not become liable therefor, unless the indebtedness is specifically assumed in accordance with the articles of agreement. Any trust funds or capital reserve funds and any property not taken over by the interstate district shall be retained by the New Hampshire member district and held or disposed of according to law. If all of the schools in a member district are incorporated into an interstate district, then no annual meeting of the member district shall be required unless the members of the interstate board from the member district shall determine that there is occasion for such an annual meeting.

D. SUIT AND SERVICE OF PROCESS IN NEW HAMPSHIRE. The courts of New Hampshire shall have the same jurisdiction over the district as though a New Hampshire member district were a party instead of the interstate district. The service necessary to institute suit in New Hampshire shall be made on the district by leaving a copy of the writ or other proceedings in hand or at the last and usual place of abode of one of the directors who resides in New Hampshire, and by mailing a like copy to the clerk and to one other director by certified mail with return receipt requested.

E. EMPLOYMENT. Each employee of an interstate district assigned to a school located in New Hampshire shall be considered an employee of a New Hampshire school district for the purpose of the New Hampshire teachers retirement system, the New Hampshire state employees retirement system, the New Hampshire workers' compensation law and any other law relating to the regulation of employment or the provision of benefits for employees of New Hampshire school districts except as follows:

a. A teacher in a New Hampshire member district may elect to remain a member of the New Hampshire retirement system, even though assigned to teach in an interstate school in Maine.

b. Employees of interstate districts designated as professional or instructional staff members, as defined in article I, may elect to participate in the teachers retirement system of either the State of New Hampshire or the State of Maine but in no case will they participate in both retirement systems simultaneously.

c. It shall be the duty of the superintendent in an interstate district to:

(1) advise teachers and other professional staff employees contracted for the district about the terms of the contract and the policies and procedures of the retirement systems;

(2) see that each teacher or professional staff employee selects the retirement system of his choice at the time his contract is signed;

(3) provide the commissioners of education in New Hampshire and in Maine with the names and other pertinent information regarding each staff member under his jurisdiction so that each may be enrolled in the retirement system of his preference.

Article XI
Applicability of Maine Laws

A. GENERAL SCHOOL LAWS. With respect to the operation and maintenance of any school of the district located in Maine, the provisions of Maine law shall apply except as otherwise provided in this compact and except that the powers and duties of the school board shall be exercised and discharged by the

interstate board and the powers and duties of the superintendent shall be exercised and discharged by the interstate district superintendent.

B. MAINE STATE AID. A Maine school district shall be entitled to receive such amount of state aid for operating expenditures as though its share of the interstate district's expenses were the expenses of the Maine member district, and as though the Maine member district pupils attending the interstate schools were attending a Maine unit. Such state aid shall be paid to the Maine member school district to reduce the sums which would otherwise be required to be raised by taxation within the member district.

C. CONTINUED EXISTENCE OF MAINE SCHOOL DISTRICTS. A Maine school district shall continue in existence, and shall have all of the powers and be subject to all of the obligations imposed by law and not herein delegated to the interstate district. If the interstate district incorporates only a part of the schools in the member school district, then the school board of the member school districts shall continue in existence and it shall have all of the powers and be subject to all of the obligations imposed by law on it and not herein delegated to the district. However, if all of the schools in the member school district are incorporated into the interstate school district, then the member or members of the interstate board representing the member district shall have all of the powers and be subject to all of the obligations imposed by law on the members of a school board for the member district and not herein delegated to the interstate district. The Maine member school district shall remain liable on its existing indebtedness; and the interstate school district shall not become liable therefor. Any trust funds and any property not taken over shall be retained by the Maine member school district and held or disposed of according to law.

D. SUIT AND SERVICE OF PROCESS IN MAINE. The courts of Maine shall have the same jurisdiction over the districts as though a Maine member district were a party instead of the interstate district. The service necessary to institute suit in Maine shall be made on the district by leaving a copy of the writ or other proceedings in hand or at the last and usual place of abode of one of the directors who resides in Maine, and by mailing a like copy to the clerk and to one other director by certified mail with return receipt requested.

E. EMPLOYMENT. Each employee of an interstate district assigned to a school located in Maine shall be considered an employee of a Maine school district for the purpose of the state retirement system, the Maine workers' compensation law, and any other laws relating to the regulation of employment or the provision of benefits for employees of Maine school districts except as follows:

a. A teacher in a Maine member district may elect to remain a member of the state retirement system of Maine, even though assigned to teach in an interstate school in New Hampshire.

b. Employees of interstate districts designated as professional or instructional staff members, as defined in article I, may elect to participate in the state retirement system of the State of Maine or the teachers retirement system of the State of New Hampshire but in no case will they participate in both retirement systems simultaneously.

c. It shall be the duty of the superintendent in an interstate district to:

(1) advise teachers and other professional staff employees contracted for the district about the terms of the contract and the policies and procedures of the retirement system;

(2) see that each teacher or professional staff employee selects the retirement system of his choice at the time his contract is signed;

(3) provide the commissioners of education in New Hampshire and in Maine with the names and other pertinent information regarding each staff member under his jurisdiction so that each may be enrolled in the retirement system of his preference.

Article XII

A. STUDIES. Insofar as practicable, the studies required by the laws of both states shall be offered in an interstate school district.

B. TEXTBOOKS. Textbooks and scholar's supplies shall be provided at the expense of the interstate district for pupils attending its schools.

C. TRANSPORTATION. The allocation of the cost of transportation in an interstate school district, as between the interstate district and the member districts, shall be determined by the articles of agreement.

D. LOCATION OF SCHOOLHOUSES. In any case where a new schoolhouse or other school facility is to be constructed or acquired, the interstate board shall first determine whether it shall be located in New Hampshire or in Maine. If it is to be located in New Hampshire, RSA 199, relating to schoolhouses, shall

apply. If it is to be located in Maine, the Maine law relating to schoolhouses shall apply.

E. FISCAL YEAR. The fiscal year of each interstate district shall begin on July 1 of each year and end on June 30 of the following year.

F. IMMUNITY FROM TORT LIABILITY. Notwithstanding the fact that an interstate district may derive income from operating profit, fees, rentals, and other services, it shall be immune from suit and from liability for injury to persons or property and for other torts caused by it or its agents, servants or independent contractors, except insofar as it may have liability under RSA 281–A, relating to workers' compensation or may have undertaken such liability under RSA 507–B relating to the procurement of liability insurance by a governmental agency and except insofar as it may have undertaken such liability under Maine laws relating to workers' compensation or Maine laws relating to the procurement of liability insurance by a governmental agency.

G. ADMINISTRATIVE AGREEMENT BETWEEN COMMISSIONERS OF EDUCATION. The commissioners of education of New Hampshire and Maine may enter into one or more administrative agreements prescribing the relationship between the interstate districts, member districts, and each of the 2 state departments of education, in which any conflicts between the 2 states in procedure, regulations, and administrative practices may be resolved.

H. AMENDMENTS. Neither state shall amend its legislation or any agreement authorized thereby without the consent of the other in such manner as to substantially adversely affect the rights of the other state or its people hereunder, or as to substantially impair the rights of the holders of any bonds or notes or other evidences of indebtedness then outstanding or the rights of an interstate school district to procure the means for payment thereof. Subject to the foregoing, any reference herein to other statutes of either state shall refer to such statute as it may be amended or revised from time to time.

I. SEPARABILITY. If any of the provisions of this compact, or legislation enabling the same, shall be held invalid or unconstitutional in relation to any of the applications thereof, such invalidity or unconstitutionality shall not affect other applications thereof or other provisions thereof; and to this end the provisions of this compact are declared to be severable.

J. INCONSISTENCY OF LANGUAGE. The validity of this compact shall not be affected by any insubstantial differences in its form or language as adopted by the 2 states.

CHAPTER 200–G
COMPACT FOR EDUCATION

200–G:1 Compact Ratified. The general court of this state hereby ratifies the following compact to become effective at such time as the legislative bodies of at least 10 eligible party jurisdictions also ratify it.

Compact for Education Preamble

WHEREAS, the proper education of all citizens is one of the most important responsibilities of the states to preserve a free and open society in the United States; and,

WHEREAS, the increasing demands of our whole national life for improving and expanding educational services require a broad exchange of research data and information concerning the problems and practices of education; and,

WHEREAS, there is a vital need for strengthening the voices of the states in the formulation of alternative nationwide educational policies,

The states affirm the need for close and continuing consultation among our several states on all matters of education, and do hereby establish this compact for education.

Article I. Purpose and Policy

A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

3. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout

the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

4. Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

B. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

C. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

Article II. State Defined

As used in this compact, "state" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III. The Commission

A. The Educational Commission of the States, hereinafter called "the commission", is hereby established. The commission shall consist of 7 members representing each party state. One of such members shall be the governor; 2 shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and 4 shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, 6 members shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed 10 nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

B. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III, J.

C. The commission shall have a seal.

D. The commission shall elect annually, from among its members, a chairman, who shall be a governor, a vice chairman and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

E. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the

performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

F. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of 2 or more of the party jurisdictions or their subdivisions.

G. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph F of this Article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

H. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

I. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

J. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

Article IV. Powers

In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this Article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

Article V. Cooperation With Federal Government

A. If the laws of the United States specifically so provide, or if administrative provisions made therefor within the federal government, the United States may be represented on the commission by not to exceed 10 representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

B. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

Article VI. Committees

A. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of 30 members which, subject to the provisions of this compact and consistent with the policies of the com-

mission, shall be constituted and function as provided in the bylaws of the commission. One-third of the voting membership of the steering committee shall consist of governors, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of 2 years, except that members elected to the first steering committee of the commission shall be elected as follows: 15 for one year and 15 for 2 years. The chairman, vice chairman, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than 2 terms as a member of the steering committee: provided that service for a partial term of one year or less shall not be counted toward the 2 term limitation.

B. The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to 2 or more of the party states.

C. The commission may establish such additional committees as its bylaws may provide.

Article VII. Finance

A. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

B. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

C. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III, G of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to Article III, G thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

D. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

E. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

F. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VIII. Eligible Parties Entry Into and Withdrawal

A. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term "governor", as used in this compact, shall mean the closest equivalent official of such jurisdiction.

B. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same; provided that in order to enter into initial effect, adoption by at least 10 eligible party jurisdictions shall be required.

C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the governor; provided that in the absence of enactment, adherence by the governor shall be sufficient to make his state a party only until December 31, 1967. During any period when a state is participating in this compact through gubernatorial action, the governor shall appoint those persons who, in addition to himself, shall serve as the members of the commission from his state, and shall provide to the commission an

equitable share of the financial support of the commission from any source available to him.

D. Except for a withdrawal effective on December 31, 1967 in accordance with paragraph C of this Article, any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article IX. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matter.

200–L:2 Agreement. This contract is entered into and shall be in force in accordance with its terms and is between and among the following states party to the "Interstate Agreement on Qualification of Educational Personnel" which have subscribed hereto as evidenced by an attached signature page properly executed by the appropriate officials of the states involved: Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont. In each instance, such a signature page shall specifically identify this contract in such manner as to make clear that the signatures thereon represent and constitute execution of this contract. The states entering into this contract hereby covenant and agree as follows:

Article 1. Consideration and Authority. The consideration for this contract is the mutual implementation of the policy and purpose set forth in the interstate agreement on qualification of educational personnel and the benefits flowing therefrom as declared in the said interstate agreement. The authority for the making of this contract is the interstate agreement on qualification of educational personnel, as enacted by each of the contracting states, and the applicable statutes of each such state in implementation of the agreement.

Article 2. Incorporation of Interstate Agreement and Definitions.

(a) This contract is pursuant to and in implementation of the interstate agreement on qualification of educational personnel. All provisions of that agreement shall govern, to the extent that they apply to the subject matter of this contract, whether or not such provisions are specifically set forth or referred to herein.

(b) As used in this contract:

1. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his/her state, contracts pursuant to the interstate agreement.

2. "State" means the states of Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont.

3. "School support professional" means any person other than a teacher or school administrator, as defined below, on either the state or local level who is required by law to hold a certificate/license based on the minimum of a baccalaureate degree in order to be employed in a professional capacity in a school system.

4. "School administrator" means a school professional required by law to hold a certificate/license whose primary duties involve the development, supervision, or internal management of a school, school system or school program rather than the furnishing of direct instructional or other services to pupils.

5. "Teacher" means a school professional required by law to hold a certificate/license whose primary function is to provide instruction to students at the preschool or kindergarten level, or in any one or more grades from grade 1 to grade 12, inclusive.

Article 3. Interstate Acceptance; Northeast Regional Credential. Any teacher, school administrator, or school support professional who holds an initial or advanced certificate/license issued by a state party to this contract, which certificate/license is still in force and which has been classified as comparable pursuant to Article 4 of this contract, shall be eligible for a northeast regional credential. The northeast regional credential shall be issued upon request by the state which has issued the state certificate/license and in accordance with the administrative procedures and payment of fee established by unanimous agreement of the designated state officials. Such credential will allow the individual to perform those professional duties allowed by the comparable state certificate/license in any school system within any state which is a party to this contract. The northeast regional credential shall be valid for 24 months from the date of issuance and shall be non-renewable. Each state may designate a period of time, not to exceed 24 months, during which an individual may be employed in that state while possessing a northeast regional credential. No northeast regional credential issued pursuant to the terms of this contract shall be re-

voked or otherwise impaired because the contract has expired or been terminated.

Article 4. Comparability of Certificates/Licenses. The designated state officials shall determine by unanimous agreement which certificates/licenses are comparable for the purposes of this contract. Such determination of comparability is set forth in an appendix which is attached to and made a part of this contract. The designated state officials or their representatives shall meet at least annually to consider whether the list of comparable certificates/licenses should be revised. Any revisions shall be made by amendment to this contract as set forth in Article 7.

Article 5. Suspension and Revocation. Revocation or suspension of an individual's certificate/license imposed by the issuing state shall automatically result in the imposition of the same penalty with respect to the northeast regional credential held by that individual. The state in which the individual is employed under the northeast regional credential may revoke or suspend the northeast regional credential on any ground which would be sufficient for revocation or suspension of a certificate/license initially granted by that state and in accordance with its procedural due process.

Article 6. Construction and Severability. This contract shall be liberally construed so as to effectuate the purposes thereof. The provisions of this contract shall be severable and if any phrase, clause, sentence, or provision of this contract is declared to be contrary to the constitution of any of the party states or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this contract shall be held contrary to the constitution of any state participating therein, the contract shall remain in full force and effect as to the state affected as to all severable matters.

Article 7. Amendment of Contract. In addition to those responsibilities in Article 4, the designated state officials or their representatives may evaluate the effectiveness of the northeast regional credential and may recommend amendments to this contract. Any provisions of this contract may be amended upon unanimous agreement of the designated state officials.

Article 8. Term. This contract shall be for a term to commence on April 1, 1990, and shall terminate on March 31, 1995. It may be renewed for successive periods of 5 years. (f) On a portion of a highway where officers or employees of the agency having jurisdiction of the same, or any contractor of the agency or their employees, are at work on the roadway or so close thereto as to be endangered by passing traffic, at a speed of 10 miles per hour below the usual posted limit, but in no case greater than 45 miles per hour. The speed shall be displayed on signs as required by RSA 265:6–a.

(g) For a vehicle equipped with a transponder, 25 miles per hour through a toll booth or gate that is equipped with a transponder reader for automated toll collection except for an open road tolling lane and except that at toll booths staffed by toll collectors drivers whose vehicles are not equipped for automated tolling shall come to a full stop at the toll booth so that the attendant may collect the toll.

(h) In the toll collection area of an open road tolling lane, at a speed greater than is reasonable and prudent for the conditions and actual and potential hazards existing at the time or greater than a per se maximum speed of 65 miles per hour, whichever is less.

III. The limits specified in subparagraphs II(e) and II(g) shall be the maximum lawful speed and no person shall drive a vehicle on said ways at a speed in excess of such maximum limit. The prima facie speed limits set forth in this section may be altered as authorized in RSA 265:62.

CHAPTER 266

EQUIPMENT OF VEHICLES

Inspections

266:1 Inspection Authorized.

I. The director may require the inspection of any vehicle, except an OHRV, snowmobile, moped, or any other vehicle exempted under this chapter, to determine whether it is fit to be driven. Such inspection shall be made at such times and in such manner as the director may specify, subject to the requirements set forth in this section.

II. Any vehicle registered under this title, except an OHRV, snowmobile, moped, or other exempt vehicle, shall be inspected once a year, during the month in which the birth date of the owner is observed, if the owner is a natural person. An inspection sticker shall be valid for the same duration as the vehicle's

registration, which shall not exceed 16 months. If the month in which the anniversary of the owner's birth occurs will be one of the next 4 months, an inspection sticker may be issued, with an expiration date of the birth month in the following year, of the first person named on the title application. Nothing in this paragraph shall require any person who has registered and had inspected a vehicle with temporary plates to have the vehicle reinspected upon receipt of permanent motor vehicle plates. An inspection sticker shall not expire when a vehicle is transferred to a licensed dealer.

II–a. Notwithstanding RSA 266:1, II, if the month in which the anniversary of the owner's birth occurs will be one of the next 4 months, and the vehicle owner provides written verification of absence from New Hampshire during the entire anniversary month, an inspection sticker may be issued, with an expiration date of the birth month in the following year, of the first person named on the title application.

III. If the owner of the vehicle is a company or corporation or other than a natural person, the annual inspection shall be made during the month designated by the director as the registration month for such legal entity. Vehicles registered as antique motor vehicles and antique motorcycles and which are 40 years old and over shall be inspected biennially. Antique motor vehicles and custom vehicles shall be inspected in the month of April. Without regard to the owner's birth date or registration month, motorcycles, autocycles, and recreational vehicles shall be inspected annually by July 1.

IV. Notwithstanding paragraphs II and III, newly registered vehicles, other than vehicles transferred to a licensed dealer, OHRVs, snowmobiles, and mopeds, and vehicles, other than vehicles transferred to a licensed dealer, OHRVs, snowmobiles, and mopeds, the ownership of which has been transferred, shall be inspected not later than 10 days after the registration or transfer of ownership of said vehicle. However, if a new vehicle is purchased at retail from a licensed dealer, as defined in RSA 259:18, the vehicle shall be inspected not later than 20 days after the date of transfer. A used vehicle for which a dealer has issued a 20-day plate pursuant to RSA 261:109 shall be inspected by the dealer or an authorized inspection station on behalf of the dealer at the time of the attachment of the plate unless a valid inspection sticker issued by the dealer is in place, in which case the vehicle shall be inspected within 20 days or before the sticker expires, whichever occurs first. All other expired motor vehicle inspections shall be subject to the 10-day grace period in RSA 266:5.

V. The director may authorize properly qualified persons to make inspections without expense to the state at stations designated by the director, and may at any time revoke such authorization or designation; provided, however, that inspections conducted at such stations at the request and under the direction of a police officer or a state trooper or authorized employee of the department of safety shall be paid for as follows:

(a) In the event violations of this section are uncovered, by the owner of the vehicle.

(b) In the event no such violations are uncovered, by the agency represented by the police officer or state trooper or authorized employee of the department of safety.

The biennial fee to be paid by the inspection station upon authorization to make inspections shall be $50 and shall not be refundable nor prorated, however, applications submitted during the second year of the license cycle shall be subject to a fee of only $25.

V–a. An inspection station may, upon request, be designated a "motorcycle only" inspection station. A "motorcycle only" inspection station may inspect only motorcycles and shall not be required to conduct OBD II emission testing under RSA 266:59–b or to purchase or lease any equipment relating to the OBD II emission testing program.

VI. Each inspection station shall conspicuously post on its premises a notice, in a form and size approved by the director, indicating that the station is an authorized inspection station.

VII. Each inspection station shall conspicuously post on the outside of the building a sign showing the inspection fee charged and the additional fee charged for OBD II testing under RSA 266:59–b. No inspection station shall include of the cost of OBD II testing or reporting in the inspection fee charged for a vehicle not subject to the OBD II requirements under RSA 266:59–b.

VII–a. (a) The director is authorized to require inspection stations to submit inspection data to the department electronically, provided that if electronic submission is required the following inspection stations shall be allowed to submit inspection data electronically or on a designated schedule and form prescribed by the department:

(1) Inspection stations that are authorized to inspect only motorcycles.

(2) [Repealed.]

(3) Fleet motor vehicle inspection stations for non-OBD II vehicles.

(4) Municipal and county government inspection stations.

(b) The department shall not require an inspection station to transfer inspection information electronically for any vehicle of model year 1995 or older.

VIII. A new vehicle which has been delivered in this state with a certificate of origin in the form prescribed by the director is exempt from the inspection requirements contained in this section until it is sold at retail. Upon retail sale of such a vehicle, the owner shall be required to have the vehicle inspected pursuant to paragraph IV and as provided in this section and the rules adopted under this chapter.

IX. Notwithstanding any other provisions of this section to the contrary, all school buses exceeding 10,000 pounds gross vehicle weight shall be inspected semiannually. The month for the first inspection shall be the month in which the birth date of the owner is observed, if the owner is a natural person; if the owner is other than a natural person, the first inspection shall be conducted during the month designated by the director as the registration month for such legal entity. In either case, the second inspection shall be 6 months later.

X. The director may authorize properly qualified persons to inspect any motor vehicle, except an OHRV, snowmobile, moped, or any other vehicle exempted under this chapter, which has been involved in a fatal accident or an accident involving serious bodily injury as defined in RSA 625:11, VI, to determine whether the vehicle was in compliance with state inspection requirements.

XI. (a) The department may impose an administrative fine upon any inspection station for any violation of an inspection law or rule adopted under the provisions of this chapter. The authority to impose such a fine shall be in addition to any other remedy or penalty that may be imposed, but in no event shall the department impose both a fine and a suspension of inspection privileges in the same proceeding. The maximum amounts of the fines which may be assessed shall be as follows:

(1) For the first violation, $250.

(2) For the second violation, $500.

(3) For the third violation, $750.

(4) For the fourth violation, $1,000.

(5) For 5 or more violations, $2,000.

(b) No fine shall take effect unless approved by the commissioner. The commissioner shall have the authority to modify the amount of the fine assessed.

Safety Devices Required for Transporting

266:72 Spillage of Material.

I. No vehicle shall be driven or moved on any way unless such vehicle is so constructed or loaded as to prevent any of its load from dropping, sifting, leaking or otherwise escaping therefrom, except that sand may be dropped for the purpose of securing traction, or water or other substance may be sprinkled on a way in cleaning or maintaining such way.

II. No person shall operate on any way any vehicle with any load unless said load and any covering thereon is securely fastened so as to prevent said covering or load from becoming loose, detached, or in any manner a hazard to other users of the way. Without limiting the foregoing provision, no person shall drive on any way any open vehicle loaded with earth, sand, asphalt, stone, gravel, or other particulate substance unless said vehicle is equipped with and said load is entirely covered and secured by a tarpaulin or similar covering which prevents the escape of any substance from said load onto the way.

II–a. No person shall operate on any way any open vehicle loaded with light scrap metal, unless the load is covered with and secured by a close-fitting tarpaulin which prevents the escape of any light scrap metal from the load onto the way. For the purposes of this paragraph "light scrap metal" means any fragments less than 8 inches wide and no more than ⅛ inch thick of manufactured metal articles or shredded metal parts rejected or discarded and useful only as material for reprocessing. The provisions of this paragraph shall not apply to truck operators transporting crushed vehicles to shredding facilities or to transporters of heavy scrap metals to or from metal scrap dealers or remelting facilities.

III. Any person who violates the provisions of this section shall be guilty of a violation if a natural person, or guilty of a misdemeanor if any other person. Any person shall be liable to the state or town for any damage done to the way by spillage.

IV. The provisions of paragraphs I, II, II–a, and III of this section shall not apply to a local farmer transporting his or her own farm products or materials incidental to a local farming operation where such transporting requires incidental use of a way, provided that such farmer shall not thereby be relieved of his or her duty to exercise reasonable care to prevent hazardous spillage.

V. The provisions of paragraphs II and II–a shall not apply to:

(a) The operation of construction equipment as defined in RSA 259:42 and motor vehicles used in the construction of highways provided that such equipment or motor vehicle is used within a highway construction zone as prescribed by the commissioner of transportation, provided that the driver of any such vehicle shall not thereby be relieved of the duty to exercise reasonable care;

266:72–a Motor Carriers; Equipment; Roadside Inspections.

I. The commissioner may adopt as rules, under RSA 541–A, the current version of the federal motor carrier safety regulations promulgated by the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration and Federal Motor Carrier Safety Administration, contained in 49 C.F.R. parts 107, 382, and 385–397. Notwithstanding the provisions of RSA 541–A, any amendments or additions by the respective federal agencies or their

successor agencies shall also amend or supplement the rules adopted by the commissioner of safety without further action on the part of the commissioner. The commissioner shall be authorized to exempt vehicles and drivers operating exclusively in intrastate commerce from such rules which the commissioner determines impose an unnecessary regulatory burden without providing a corresponding safety benefit.

II. Whenever the commissioner finds that a motor carrier safety regulation in 49 C.F.R. sections 390-397, provides an equal or greater degree of safety the commissioner may, pursuant to RSA 260:5, adopt the federal regulation as a rule, and the rule shall take precedence over the conflicting provisions of this title. No person who is in compliance with the corresponding rule adopted by the commissioner shall be convicted of violating a conflicting provision of this title. The commissioner shall request the introduction, at the next annual session of the legislature following adoption of such a rule, of legislation amending or repealing the conflicting provision of this title and, if the legislation is not enacted, any rule so adopted shall be automatically repealed 60 days after the last day of the legislative session.

III. The drivers of all vehicles subject to the motor carrier rules who operate exclusively in intrastate commerce shall be subject to the medical examination, written tests, and road tests required by 49 C.F.R. sections 391.31–391.49, as amended, provided, however, that the commissioner may waive specific requirements or standards of the medical examination for any such driver who has a valid commercial driver's license issued by this state on or after January 1, 1990, if it would not jeopardize public safety to grant such a waiver. The commissioner may adopt rules pursuant to RSA 541–A relative to standards for the granting of such waivers. The department shall make interested parties aware of the provisions of this paragraph. Once a waiver is granted under this paragraph, the waiver shall be placed on the medical examination card required by federal regulation.

III–a. Paragraph III shall not apply to intrastate transportation performed by the state, or any political subdivision of the state. However, nothing in this section shall prevent or inhibit any public employer from establishing internal policies making the motor carrier safety rules applicable to its vehicles and drivers.

IV. Utility service vehicle drivers providing intrastate service shall be exempt from the provisions of 49 C.F.R. 395 as adopted pursuant to this section.

V. (a) A driver of a motor carrier shall stop the vehicle on the request of any enforcement officer of the department of safety or other law enforcement agent certified to conduct truck inspections or by command of roadside signs so that the officer may:

(1) Examine:

(A) Vehicle components.

(B) Driver's physical condition.

(C) Cargo condition.

(D) Documents.

(2) Enter the cab or cargo area as necessary to determine that:

(A) The vehicle is in safe operating condition.

(B) The cargo is properly secured.

(b) Every owner/operator of a motor carrier, or his or her authorized agent, shall submit accounts, books, records, memoranda, correspondence, and other documents for inspection, upon demand by any enforcement officer of the department of safety or other law enforcement agent certified to conduct truck inspections who in the course of enforcing the motor carrier rules is acting within the scope of his or her duties and authority, at the motor carrier's principal place of business during regular business hours.

(c) Any operator who fails to stop or allow inspection as described in subparagraph (a) shall be guilty of a misdemeanor. A second violation of subparagraph (a) shall result in suspension of the person's license or privilege to drive in New Hampshire and notification of such suspension to national motor vehicle license databases.

VI. The driver of any vehicle operating intrastate and registered with New Hampshire farm or agricultural plates and with a gross vehicle weight, gross vehicle weight rating, or gross combination weight rating of 26,000 pounds or less; designed or used to transport fewer than 16 passengers, including the driver; and which does not transport materials required to be placarded pursuant to 49 C.F.R. part 172, subpart F, shall be exempt from the provisions of 49 C.F.R. parts 391, 392, 393, 395, and 396, as adopted as rules pursuant to this section, except that such exemption shall not apply to the requirements of 49 C.F.R. section 392.3, operating while fatigued or ill, 49 C.F.R. section 392.4, use of illegal drugs or

substances, 49 C.F.R. section 392.5, driver use of alcohol, 49 C.F.R. part 393, subpart C, brakes, and 49 C.F.R. section 396.7, unsafe operations forbidden.

V. The board shall maintain a list of neutral third parties but the parties to an impasse may agree upon other persons not on the list.

VI. The board may make, amend and rescind in the manner prescribed by RSA 541–A such rules, establish such procedures and conduct such studies as may be necessary to carry out the provisions of this chapter.

VII. The members of the public employee labor relations board shall be paid $50 a day and their necessary expenses while actually engaged in the performance of their duties.

VIII. All board decisions shall be indexed in a timely fashion.

IX. The board shall develop, post, and maintain on its website training to educate negotiating parties as to applicable laws and rules and the skills that contribute to effective collective bargaining.

273–A:2–a Conflict of Interest.

I. No board member shall participate in any case or issue before the board in which he has a potential conflict of interest. A conflict of interest shall include any case or action in which a member has a personal or professional interest and any case or action in which a member is personally or professionally associated with any of the parties involved.

II. The board shall adopt rules, under RSA 541–A, to establish procedures for identifying and

addressing potential conflicts of interest by board members.

273–A:3 Obligation to Bargain.

I. It is the obligation of the public employer and the employee organization certified by the board as the exclusive representative of the bargaining unit to negotiate in good faith. "Good faith" negotiation involves meeting at reasonable times and places in an effort to reach agreement on the terms of employment, and to cooperate in mediation and fact-finding required by this chapter, but the obligation to negotiate in good faith shall not compel either party to agree to a proposal or to make a concession.

II. (a) Any party desiring to bargain shall serve written notice of its intention on the other party at least 120 days before the budget submission date; provided, however, that bargaining with state employees shall commence not later than 120 days before the deadline for submission of the governor's proposed operating budget.

(b) Only cost items shall be submitted to the legislative body of the public employer for approval at the next annual meeting of the legislative body, unless there is an emergency as defined in RSA 31:5 or RSA 197:3. If the legislative body rejects the submission, or while accepting the submission takes any action which would result in a modification of the terms of the cost item submitted to it, either party may reopen negotiations on the entire agreement. No cost item agreed to by the public employer and the employee organization shall be modified by the legislative body of such public employer.

(c) If the public employer is a local political subdivision with a city or town council form of government cost items shall be submitted within 30 days to the city council or aldermen or to the town council for approval. Within 30 days of the receipt of the submission, the city council, aldermen, or the town council shall vote to accept or reject the cost items. If the city council or aldermen or the town council rejects any part of the submission, or while accepting the submission takes any action which would result in a modification of the terms of the cost item submitted to it, either party may reopen negotiations on all or part of the entire agreement.

III. Matters regarding the policies and practice of any merit system established by statute, charter or ordinance relating to recruitment, examination, appointment and advancement under conditions of political neutrality and based upon principles of merit and competence shall not be subjects of bargaining under the provisions of this chapter. Nothing herein shall be construed to diminish the authority of the state personnel commission or any board or agency established by statute, charter or ordinance to conduct and grade merit examinations from which appointments or promotions may be made.

IV. Each public employer shall record its budget submission date with the board.

273–A:4 Grievance Procedures. Every agreement negotiated under the terms of this chapter shall be reduced to writing and shall contain workable grievance procedures. No grievance resulting from the failure of a teacher to be renewed pursuant to RSA 189:14–a shall be subject to arbitration or any other binding resolution, except as provided by RSA 189:14–a and RSA 189:14–b. Any such provision in force as of the effective date of this section shall be null and void upon the expiration date of that collective bargaining agreement. However, after the expiration date of that collective bargaining agreement, nothing in this section shall be deemed to prohibit the school district public employer and the exclusive bargaining representative from entering into a subsequent agreement that may include arbitration or any other binding resolution for teacher nonrenewals pursuant to RSA 189:14–a and RSA 189:14–b. If such grievance procedures become incorporated into a subsequent collective bargaining agreement, those procedures shall become null and void at the expiration of that agreement. "Grievance resulting from failure of a teacher to be renewed" means a grievance that challenges nonrenewal, or that seeks reversal or reinstatement from nonrenewal as a remedy.

273–A:5 Unfair Labor Practices Prohibited.

I. It shall be a prohibited practice for any public employer:

(a) To restrain, coerce or otherwise interfere with its employees in the exercise of the rights conferred by this chapter;

(b) To dominate or to interfere in the formation or administration of any employee organization;

(c) To discriminate in the hiring or tenure, or the terms and conditions of employment of its employees for the purpose of encouraging or discouraging membership in any employee organization;

(d) To discharge or otherwise discriminate against any employee because he has filed a complaint, affidavit or petition, or given information or testimony under this chapter;

(e) To refuse to negotiate in good faith with the exclusive representative of a bargaining unit, including the failure to submit to the legislative body any cost item agreed upon in negotiations;

(f) To invoke a lockout;

(g) To fail to comply with this chapter or any rule adopted under this chapter;

(h) To breach a collective bargaining agreement;

(i) To make any law or regulation, or to adopt any rule relative to the terms and conditions of employment that would invalidate any portion of an agreement entered into by the public employer making or adopting such law, regulation or rule.

II. It shall be a prohibited practice for the exclusive representative of any public employee:

(a) To restrain, coerce or otherwise interfere with public employees in the exercise of their rights under this chapter;

(b) To restrain, coerce or otherwise interfere with public employers in their selection of agents to represent them in collective bargaining negotiations or the settlement of grievances;

(c) To cause or attempt to cause a public employer to discriminate against an employee in violation of RSA 273–A:5, I(c), or to discriminate against any public employee whose membership in an employee organization has been denied or terminated for reasons other than failure to pay membership dues;

(d) To refuse to negotiate in good faith with the public employer;

(e) To engage in a strike or other form of job action;

(f) To breach a collective bargaining agreement.

(g) To fail to comply with this chapter or any rule adopted hereunder.

273–A:6 Violations.

I. The board shall have primary jurisdiction of all violations of RSA 273–A:5, but no complaint may be filed with the board for violation of RSA 273–A:5, I(c) or (d) until the complainant has exhausted the administrative remedies provided by statutes other than this chapter. The board may refer any prohibited practice charges, as defined in RSA 273–A:5, to a hearing officer who shall conduct a hearing, make findings of fact, and report to the board within the time limits set forth in this section.

II. Complaints shall be filed by affidavit and shall be accompanied by a $60 filing fee. Such fees shall be continually appropriated to the board. A copy of the complaint shall be given to the party complained against at the time the complaint is filed. The board or its designee shall hold a hearing within 45 days under rules adopted by the board pursuant to RSA 541–A and shall give 5 working days' notice of the hearing by certified mail to all persons required to appear and to the representative of any party against whom a complaint has been filed.

III. The board may issue a cease and desist order if it deems one necessary in the public interest, pending the hearing.

IV. The board or its designee shall have the power to compel the attendance of witnesses and the production of documents by the issuance of subpoenas, and to take testimony under oath, as provided in RSA 516, and may delegate such powers to any persons it may appoint.

V. Both parties shall have the right to be represented by counsel.

VI. The board or its designee shall render its decision within 45 days after the hearing, in accordance with rules adopted by the board pursuant to RSA 541–A. Upon finding that a party has violated RSA 273–A:5, the board may (a) issue a cease and desist order; (b) order reinstatement of an employee with back pay; (c) require periodic reporting of compliance; (d) order payment of the costs incurred by a party negotiating in good faith in negotiations found by the board to have been carried on not in good faith by the other party, if the board finds such penalty appropriate to the circumstances; or (e) order such other relief as the board may deem necessary.

VII. The board shall summarily dismiss any complaint of an alleged violation of RSA 273–A:5 which occurred more than 6 months prior to the filing of the complaint with the body having original jurisdiction of that complaint.

VIII. Any proceeding referred to a hearing officer under this section or RSA 273–A:8, I shall be reviewable by the board on motion of any party thereto or on motion of the board if the motion is made within 30 days of the rendering of such decision; otherwise the decision shall become final. The review by the board may result in approval, denial, or modification of the decision of the hearing officer and

may be made administratively by the board without a hearing de novo unless ordered by the board.

IX. Any order issued by the board shall contain findings of fact and rulings of law on which the order is based. Any other decision made by the board shall contain, in a written record of oral proceedings or other written document, findings of fact and rulings of law on which the decision is based.

273–A:7 Injunctions. The board shall petition the superior court for the county in which the party sought to be enjoined is principally located for such order of the court as may be necessary to compel obedience to an order of the board and the superior court shall issue its order upon satisfying itself that:

I. The order of the board was within its jurisdiction to issue; and

II. There is substantial evidence on the record considered as a whole to support the finding of the board.

273–A:8 Determining Bargaining Unit.

I. The board or its designee shall determine the appropriate bargaining unit and shall certify the exclusive representative thereof when petitioned to do so under RSA 273–A:10. In making its determination the board should take into consideration the principle of community of interest. The community of interest may be exhibited by one or more of the following criteria, although it is not limited to such:

(a) Employees with the same conditions of employment;

(b) Employees with a history of workable and acceptable collective negotiations;

(c) Employees in the same historic craft or profession;

(d) Employees functioning within the same organizational unit.

In no case shall the board certify a bargaining unit of fewer than 10 employees with the same community of interest. For purposes of this section, probationary employees shall be counted to satisfy the employee minimum number requirement. In no case shall such probationary employees vote in any election conducted under the provisions of this chapter to certify an employee organization as the exclusive representative of a bargaining unit.

II. The board may certify a bargaining unit composed of professional and non-professional employees only if both the professional and non-professional employees, voting separately, vote to join the proposed bargaining unit. Persons exercising supervisory authority involving the significant exercise of discretion may not belong to the same bargaining unit as the employees they supervise.

III. In the event the bargaining unit is determined by the board's designee, the decision may be appealed to the board for final determination.

273–A:9 Bargaining by State Employees.

I. All cost items and terms and conditions of employment affecting state employees in the classified system generally shall be negotiated by the state, represented by the governor as chief executive, with a single employee bargaining committee comprised of exclusive representatives of all interested bargaining units. Negotiations regarding terms and conditions of employment unique to individual bargaining units shall be negotiated individually with the representatives of those units by the governor.

II. To assist in the conduct of such negotiations the governor may designate an official state negotiator who shall serve at the pleasure of the governor.

III. The governor shall also appoint an advisory committee to assist in the negotiating process. The manager of employee relations appointed under RSA 21–I:44, II shall be a member of this committee.

III–a. No person who is appointed to serve as a state negotiator or as a member of the state negotiating team or any person who serves as a member of the employee bargaining committee shall use his or her position to obtain anything of value for the private benefit of such person or the person's immediate family. Nothing in this section shall prevent an employee or taxpayer from serving on a negotiating team or bargaining committee.

IV. The division of personnel, through the manager of employee relations and the manager's staff, shall provide administrative and professional support to the governor in the conduct of negotiations.

273–A:9–b Legislative Oversight Committee on Employee Relations.

I. There shall be a permanent joint legislative committee known as the legislative oversight committee on employee relations.

II. (a) The committee shall include the following members:

(1) Five members of the senate, appointed by the senate president.

(2) Five members of the house of representatives, appointed by the speaker of the house of representatives.

(b) Members of the committee shall receive mileage at the legislative rate.

III. The chair of the committee shall rotate biennially between the senate president or designee and the speaker of the house of representatives or designee, provided that the senate president shall serve as the first chairperson under the provisions of this subparagraph, beginning with the 2015–16 biennium. In the event that the presiding officer or designee serving as chairperson resigns or for any reason is unable to serve, the other presiding officer or designee shall serve as chairperson for the remainder of the biennium, provided that such substitution shall not change the rotation provided for in this subparagraph.

IV. The committee shall meet with the state negotiating committee after the first Wednesday in December in even-numbered years, as necessary, to discuss the state's objectives in the bargaining process. Meetings shall be at the call of the chairperson.

V. The committee shall hold public hearings on all collective bargaining agreements with state employees and on all fact finder's reports relative to the collective bargaining process with state employees, and shall submit any recommendations on such agreements or reports to the members of the senate and the house of representatives.

VI. The senate president may appoint one or more alternates to serve on the committee in the event that a senate member is unable to attend. The speaker of the house of representatives may appoint one or more alternates to serve on the committee in the event that a house member is unable to attend.

273–A:10 Elections.

I. If a petition is filed by:

(a) At least 30 percent of the employees in the bargaining unit seeking recognition, alleging that they wish to be represented in collective bargaining by an employee organization as their exclusive representative or asserting that the employee organization which has been certified by the board is no longer the representative of the majority of employees in the bargaining unit; or

(b) A public employer alleging that one or more employee organizations has petitioned to be recognized as the exclusive representative of a majority of employees in a bargaining unit; the board shall investigate such petition and may hold hearings for the purpose of determining whether or not grounds exist for conducting an election. Upon so finding, the board shall order an election to be held under its supervision and in accordance with rules prescribed by the board. Otherwise, it shall dismiss the petition.

II. The petition shall consist of separate forms for each employee, whose names shall not be disclosed.

III. The ballot shall contain a space permitting a vote against representation by any employee organization whatever; and no election shall be held within 12 months after an election in which a majority of those voting cast ballots against representation by any employee organization.

IV. An employee organization receiving a simple majority of the votes cast shall be certified by the board as the exclusive representative of the bargaining unit. In the absence of a simple majority, a runoff election shall be conducted between the 2 options receiving the most votes.

V. The board shall not certify any employee organization as the exclusive representative of a bargaining unit without an election being held pursuant to this section.

VI. (a) Certification as exclusive representative shall remain valid until the employee organization is dissolved, voluntarily surrenders certification, loses a valid election or is decertified.

(b) The board shall decertify any employee organization which is found in a judicial proceeding to discriminate with regard to membership, or with regard to the conditions thereof, because of age, sex, race, color, creed, marital status or national origin; or has systematically failed to allow its membership equal participation in the affairs of the employee organization.

(c) Any challenge to a certified exclusive bargaining representative, whether in a decertification election or a challenge by another labor organization, shall result in decertification or change in bargaining representation if decertification or the challenging organization is approved by a majority vote of members of the bargaining unit voting.

VII. Two or more bargaining units may with the approval of the public employer affected combine for the purpose of engaging in collective bargaining negotiations with a single public employer and the bargaining unit thus created shall enjoy the same rights and be subject to the same duties as if a single exclusive representative for the combined bargaining unit had been certified by the board.

273–A:11 Rights Accompanying Certification.

I. Public employers shall extend the following rights to the exclusive representative of a bargaining unit certified under RSA 273–A:8:

(a) The right to represent employees in collective bargaining negotiations and in the settlement of grievances. An individual employee may present an oral grievance to his employer without the intervention of the exclusive representative. Until the grievance is reduced to writing, the exclusive representative shall be excluded from a hearing if the employee so requests; but any resolution of the grievance shall not be inconsistent with the terms of an existing agreement between the parties.

(b) The right to represent the bargaining unit exclusively and without challenge during the term of the collective bargaining agreement. Notwithstanding the foregoing, an election may be held not more than 180 nor less than 120 days prior to the budget submission date in the year such collective bargaining agreement shall expire.

Source. 1975, 490:2, eff. Aug. 23, 1975.

273–A:12 Resolution of Disputes.

I. (a) Whenever the parties request the board's assistance or have bargained to impasse, or if the parties have not reached agreement on a contract within 60 days, or in the case of state employees 90 days, prior to the budget submission date, and if not otherwise governed by ground rules:

(1) The chief negotiator for the bargaining unit may request to make a presentation directly to the board of the public employer. If this request is approved by the board of the public employer, the chief negotiator for the board of the public employer shall in turn have the right to make a presentation directly to the bargaining unit. The cost of the respective presentations shall be borne by the party making the presentation.

(2) The chief negotiator for the board of the public employer may request to make a presentation directly to the bargaining unit. If this request is approved by the bargaining unit, the chief negotiator for the bargaining unit shall in turn have the right to make a presentation directly to the board of the public employer. The cost of the respective presentations shall be borne by the party making the presentation.

(b) If the impasse is not resolved, a neutral party chosen by the parties, or failing agreement, appointed by the board, shall undertake to mediate the issues remaining in dispute. If the parties so choose, or if mediation does not result in agreement within 45 days, or in the case of state employees 75 days, prior to the budget submission date, a neutral party chosen by the parties, or failing agreement, appointed by the board, shall make and report findings of fact together with recommendations for resolving each of the issues remaining in dispute, which findings and recommendations shall not be made public until the negotiating teams shall have considered them for 10 days.

II. If either negotiating team rejects the neutral party's recommendations, his findings and recommendations shall be submitted to the full membership of the employee organization and to the board of the public employer, which shall vote to accept or reject so much of his recommendations as is otherwise permitted by law.

III. (a) If either the full membership of the employee organization or the board of the public employer rejects the neutral party's recommendations, the findings and recommendations shall be submitted to the legislative body of the public employer at the next annual meeting of the legislative body, unless there is an emergency as defined in RSA 31:5 or RSA 197:3, which shall vote to accept or reject so much of the recommendations as otherwise is permitted by law.

(b) If the public employer is a local political subdivision with a city or town council form of government and if either the full membership of the employee organization or the board of the public employer rejects the neutral party's recommendations, the findings and recommendations shall be submitted within 30 days to the city council or aldermen or town council for approval. Within 30 days of the receipt of the submission, the city council or aldermen or town council shall vote to accept or reject the recommendations as otherwise is permitted by law.

IV. If the impasse is not resolved following the action of the legislative body, negotiations shall be reopened. Mediation may be requested by either party and may, at the mediator's option, involve the board of the public employer. In cases where the board of the public employer also serves as the legislative body of a municipality, the mediator may request no more than one less than a quorum of the legislative body to participate in the mediation.

V. Nothing in this chapter shall be construed to prohibit the parties from providing for such lawful procedures for resolving impasses as the parties may agree upon; providing that no such procedures shall bind the legislative body on matters regarding cost items. The parties shall share equally all fees and costs of such procedures.

VI. The parties shall share equally all fees and costs of mediation and fact-finding required by this chapter.

273–A:16 Records and Reports.

II. Except as provided in paragraph IV, all documents and records of the board shall be public records and shall be kept for a minimum of 10 years.

III. The board shall biennially submit a report of its activities to the governor and council.

IV. In adjudicatory hearings conducted by the board, the board's deliberative processes shall be privileged and exempt from the public disclosure provisions of RSA 91–A. CHAPTER 275

PROTECTIVE LEGISLATION

Procuring Employment; Imposition of Conditions

275:3 Payment for Medical Examination or Records Furnished. It shall be unlawful for any employer, as defined in RSA 275:4, to require any employee or applicant for employment to pay the cost of a medical examination or the cost of furnishing any records required by the employer as a condition of employment.

Source. 1951, 125:1, eff. May 29, 1951.

275:4 Definition of Terms.

I. The term "employer" as used in the preceding section shall mean and include an individual, a partnership, an association, a corporation, a legal representative, trustee, receiver, trustee in bankruptcy, and any common carrier by rail, motor, water, air or express company doing business in or operating within the state. A franchisor is only an employer if the franchisor agrees in writing to assume the role of employer or co-employer of the franchisee or the employee of the franchisee.

I–a. For the purposes of this section, "franchisee" and "franchisor" have the same meanings as in section 436.1 of title 16 of the Code of Federal Regulations.

II. In this subdivision, "employee" means and includes every person who may be permitted, required, or directed by any employer, in consideration of direct or indirect gain or profit, to engage in any employment, but shall not include any person exempted from the definition of employee as stated in RSA 281–A:2, VI(b)(2), (3), or (4), or RSA 281–A:2, VII(b), or a person providing services as part of a residential placement for individuals with developmental, acquired, or emotional disabilities, or any person who meets all of the following criteria:

(a) The person possesses or has applied for a federal employer identification number or social security number, or in the alternative, has agreed in writing to carry out the responsibilities imposed on employers under this chapter.

(b) The person has control and discretion over the means and manner of performance of the work, in that the result of the work, rather than the means or manner by which the work is performed, is the primary element bargained for by the employer.

(c) The person has control over the time when the work is performed, and the time of performance is not dictated by the employer. However, this shall not prohibit the employer from reaching an agreement with the person as to completion schedule, range of work hours, and maximum number of work hours to be provided by the person, and in the case of entertainment, the time such entertainment is to be presented.

(d) The person hires and pays the person's assistants, if any, and to the extent such assistants are employees, supervises the details of the assistants' work.

(e) The person holds himself or herself out to be in business for himself or herself or is registered with the state as a business and the person has continuing or recurring business liabilities or obligations.

(f) The person is responsible for satisfactory completion of work and may be held contractually responsible for failure to complete the work.

(g) The person is not required to work exclusively for the employer.

CHAPTER 277–A

TOXIC SUBSTANCES IN THE WORKPLACE

277–A:1 Name. This chapter shall be known and may be cited as the "Worker's Right to Know Act."

Source. 1983, 466:1, eff. Oct. 26, 1983.

277–A:2 Purpose. The general court hereby finds and declares that the proliferation of toxic substances in the workplace poses a growing threat to the health of employees exposed to these substances; that the number and variety of these substances makes effective monitoring of these potential health hazards by governmental agencies difficult and expensive; that employees themselves are often in

the best position to detect symptoms of toxicity, provided they are aware of the nature of the substances to which they are exposed; that employees have an inherent right to know the dangers to which they are potentially exposed in their workplace so that they may make knowledgeable and reasoned decisions with respect to their continued employment under the circumstances and the need for corrective action; and that the workplace often serves as an early warning mechanism for the outside environment. The general court therefore determines that it is appropriate for employers to provide their employees with all available information concerning the nature of the toxic substances to which such employees may be exposed during the course of their employment and the suspected hazards these substances pose and to take all other practicable and feasible measures to protect their employees from the risks of toxic substances.

Source. 1983, 466:1, eff. Oct. 26, 1983.

277–A:3 Definitions. As used in this chapter:

I. "Employee" means any person who currently works or formerly worked, with or without compensation, in a workplace. The term "employee" does not include domestic workers or casual laborers employed at the place of residence of the employer.

human, animal or other biological testing which could be applicable to human beings;

(c) Any other substance which the department determines should be so defined consistent with the purposes of this chapter and consistent to the extent possible with the methods and criteria used in compiling the lists of toxic or hazardous substances referred to in subparagraph (a). For the purposes of this chapter, the term "toxic substance" shall not include any liquor or beverage, as those terms are defined in RSA 175:1, VIII and XLII, or any other substance which has been packaged for retail sale or which is contained in a product which has been packaged for retail sale; and

(d) Any substance which is combustible, a compressed gas, explosive, flammable, a health hazard, an organic peroxide, an oxidizer, pyrophoric, unstable (reactive) or water reactive as established by the latest edition of the Fire Protection Guide on Hazardous Materials published by the National Fire Protective Association.

(c) Is known only to the employer and to those employees to whom it is necessary to confide.

VII. "Workplace" means any location, permanent or temporary, where an employee performs any work-related duty in the course of his employment.

VIII. "Commissioner" means the commissioner of labor.

277–A:4 Safety Data Sheets.

I. Except as provided in paragraph III, no person shall obtain, purchase, manufacture, formulate, transport or distribute any toxic substance within this state unless the substance is accompanied by a complete safety data sheet prepared by the manufacturer, producer, or formulator of such substance no more than one year prior to the obtainment, purchase, manufacture, formulation, transportation or distribution.

II. A manufacturer, producer or formulator may provide a single safety data sheet for a product mixture containing 2 or more toxic substances instead of providing a safety data sheet for each toxic substance component of such mixture if all of the following are applicable:

(a) The product mixture itself has been submitted to sufficient analysis and testing to justify a valid judgment on its hazardous properties.

(b) Each component toxic substance is identified on the product label individually, within the limits of practicability and feasibility.

(c) A safety data sheet on each component toxic substance identified pursuant to subparagraph (b) is available upon request.

III. (a) When a manufacturer, producer, formulator or employer considers the identity of or other information concerning a toxic substance to be a protectable trade secret whose disclosure would compromise his or her competitive advantage, he or she shall register this information as secret with the commissioner of labor provided that such information is already registered as a trade secret pursuant to any provision of federal law or such information is not registered as a trade secret but is related to a proprietary process the disclosure of which would compromise his or her competitive position.

(b) The commissioner of labor shall not release any data which discloses any trade secret or proprietary process unless he or she shall notify, in writing and by certified mail, the submitter of such information of the intent to release the data. The commissioner may not release the information, without the submitter's consent, until the thirtieth day after the submitter has been furnished such notice. Any subsequent release shall be pursuant to applicable provisions relating to trade secrets or the Freedom of Information Act.

(c) In the event that a toxic substance or product mixture containing 2 or more toxic substances is registered by a manufacturer, producer or formulator as a component of a trade secret or otherwise protected as a proprietary process, such manufacturer, producer or formulator shall not be required to divulge the specific identity of the substance, but shall be required to provide a safety data sheet containing the information specified in RSA 277–A:3, IV(b)–(*l*).

(d) In the event that a toxic substance or product mixture containing 2 or more toxic substances is registered as a component of a trade secret or otherwise protected as a proprietary process, the employer shall not be required to divulge the specific identity of the substance but shall otherwise

be subject to all of the duties imposed by RSA 277–A:5.

IV. Notwithstanding the provisions of paragraph III, full and complete information regarding any toxic substance or substances to which an employee has been exposed shall be made available to a licensed physician if the information is needed for the purpose of medical diagnosis or treatment of such person.

Source. 1983, 466:1, eff. Oct. 26, 1983. 2015, 141:2, eff. Jan. 1, 2016.

277–A:5 Employer's Duty to Provide Information. Subject to the limitations of RSA 277–A:4, III, every employer whose employees handle, use, or are otherwise exposed to any toxic substance during the course and scope of their employment shall:

I. Keep on file in a convenient office location and make available for examination and reproduction upon request a safety data sheet for each toxic substance or product mixture containing 2 or more toxic substances to which an employee may be exposed in carrying out his or her duties.

II. Post a notice, written in clearly understandable nontechnical language, in a conspicuous location accessible to the employees and as close to the work area as possible containing the word "Warning" in large letters and all the following information on each toxic substance to which employees may be exposed:

(a) The name or names of the substance.

(b) The acute and chronic hazards of exposure to the substance.

(c) Symptoms of exposure and overexposure, including known behavioral effects.

(d) Appropriate emergency treatment for exposure and overexposure.

(e) Proper conditions for safe use of and exposure to the substance.

(f) Procedures for cleanup of leaks and spills of the substance.

(g) Procedures in case of fire or other environmental changes which would result in increasing the substance's hazardous or toxic properties.

III. Post a notice of the availability of a safety data sheet for each of the toxic substances to which the employee may be exposed and, upon request by an employee for a safety data sheet, supply such data sheet within 72 hours.

IV. Conduct an education and training program within 180 days of October 26, 1983, for all employees routinely exposed to toxic substances, and thereafter during the first month of employment of any such new employee, informing such employees of the nature of the toxic substances to which they will be exposed, prescribing proper and safe procedures for handling under all circumstances, and advising them of the potential risks involved.

V. Make every reasonable effort to obtain from manufacturers, producers, formulators, the Federal Environmental Protection Agency, or any other authoritative source, any new or updated information concerning the toxic substances in his or her workplace and to make such information available to all affected employees immediately.

VI. Notify all employees of their rights under this chapter.

VII. Send a copy of each safety data sheet with details of the specific locations of each toxic substance and available extinguishing agents to the local fire department. Such safety data sheets shall be available for public inspection at such fire departments.

VIII. Maintain on file at the workplace safety data sheets for a period of at least 30 years after discontinuation of the use of each toxic substance. In the event that the employer ceases operations or relocates, all safety data sheets shall be submitted to the department of labor to be maintained on file for the statutorily required 30 year period. All rights of access to safety data sheets provided in this chapter shall apply to the full 30 year period.

277–A:6 Employees' Rights if Information Not Provided. Any employee who requests information about a toxic substance required pursuant to RSA 277–A:5, III may, if he does not receive such information within 5 working days, refuse to work with such substance until such time as the employer provides him with such information.

Source. 1983, 466:1, eff. Oct. 26, 1983.

277–A:7 Discharge or Discrimination for Exercise of Rights Forbidden.

I. No employer shall discharge or cause to be discharged or otherwise discipline or in any manner discriminate against any employee, prospective employee or employee representative because that person has filed any complaint or has instituted or caused to be instituted any proceeding related to the provisions of this chapter, or has exercised any right provided in this chapter.

II. Any employee, prospective employee or employee representative who believes that he has been discharged, disciplined, or otherwise discriminated against by an employer pursuant to paragraph I

shall, within 30 days of such violation, or 30 days after he first obtains knowledge of such violation, file a complaint with the commissioner of labor alleging such discrimination. Upon receipt of such a complaint, the commissioner shall conduct an investigation as he deems appropriate. If, upon investigation, the commissioner determines the allegation to have substance, he may refer the matter to the attorney general for appropriate action.

277–A:8 Inspection by Department of Labor Permitted.

If the commissioner or his designee finds, or has cause to believe, that any provision of this chapter is being violated, he may enter and inspect the premises of any employer's place of business and take samples of any unknown substance in order to ascertain compliance with this chapter. The laboratory services of the department of health and human services shall be made available to the department of labor for purposes related to enforcement of this chapter, subject to the availability of adequate laboratory support.

II. The following persons may, if they so desire, accompany such agent or employee of the department of labor:

(a) The affected employer.

(b) An employee of the affected employer or an employee representative.

III. It shall be a violation of this chapter for any person to interfere with the agent or employee of the department of labor in the discharge of his duties as prescribed by this chapter.

277–A:9 Penalty. Any person who violates any provisions of this chapter shall be liable for a penalty of not more than $2,500 for each such violation, to be collected in a civil action by the commissioner of labor. If the violation is of a continuing nature, each day during which it continues shall constitute an additional and separate offense.

277–A:10 Construction of Chapter. The provisions of this chapter shall be construed as being complementary to and not in lieu of any other law or of any rule adopted under authority of law relative to toxic substances or toxic waste including but not limited to RSA 147–A and RSA 147–B. However, any conflict between this chapter and an existing statute or rule shall be resolved at all times by following the stricter requirement.

I. Any corporation whose charter has been repealed, revoked, and annulled pursuant to this subdivision may at any time apply for revival of its certificate of incorporation, together with all the rights, franchises, privileges, and immunities and subject to all of its duties, debts, and liabilities which have been secured or imposed by its original charter and all amendments thereto; provided, that if the corporation name is no longer available under the terms of RSA 292:3, the corporation shall file with its application for revival an amendment changing its name or a consent to use its original name.

II. The application for revival of the charter may be procured by filing an application for revival in the office of the secretary of state, which application is signed under oath and under penalties of perjury by an officer of the corporation and which certificate states:

When the revival is effective, the corporation shall be revived with the same force and effect as if its charter had not been forfeited pursuant to this subdivision. Such reinstatement shall validate all contracts, acts, matters and things made, done and performed within the scope of its charter by the corporation, its officers and agents during the time when its charter was forfeited pursuant to this subdivision, with the same force and effect and to all intents and purposes as if the charter had at all times remained in full force and effect, except as provided in paragraph IX. All real and personal property, rights and credits, which belonged to the corporation at the time its charter

became forfeited pursuant to this subdivision and which were not disposed of prior to the time of its revival shall be vested in the corporation after its revival as fully and amply as they were held by the corporation at and before the time its charter became forfeited pursuant to this subdivision; and the corporation after its revival shall be as exclusively liable for all contracts, acts, matters and things made, done or performed in its name and on its behalf by its officers and agents prior to its reinstatement, as if its charter had at all times remained in full force and effect.

IX. Revival of a charter under this section shall not be construed to influence any pending actions or otherwise affect any liabilities or interfere with any course of action against such corporation for the period during which the charter was repealed or revoked.

VIII. Not more than 120 days before filing the report required by this section, the holder in possession of property abandoned and subject to custody as unclaimed property under this section shall send written notice to the apparent owner at his last known address informing him that the corporation is in possession of property subject to this section if:

318–B:1–a Scheduling by the Commissioner.

I. The commissioner may add, delete, or reschedule all substances, by rule, pursuant to RSA 541–A, after hearing and after consulting with the pharmacy board. In making a determination regarding a substance, the commissioner shall consider the following:

(a) Actual or relative potential for abuse;

(b) Scientific evidence of its pharmacological effect, if known;

(c) State of current scientific knowledge regarding the substance;

(d) History and current pattern of abuse;

(e) Scope, duration, and significance of abuse;

(f) Risk to the public health;

(g) Potential of the substance to produce psychic or physical dependence liability; and

(h) Whether the substance is an immediate precursor of a substance already controlled under this chapter.

II. After considering the factors in paragraph I, the commissioner shall make findings relative to the substance and adopt a rule controlling the substance if he finds the substance has a potential for abuse.

III. In addition to the provisions of RSA 541–A, the commissioner shall give due notice of the time, place and purpose of all hearings required under this chapter to podiatrists, osteopaths, hospitals, pharmacists, physicians, dentists, veterinarians, advanced registered nurse practitioners, optometrists, laboratories, registered manufacturers, suppliers and to the general public by such means as he shall deem adequate. From and after the hearing date, the sale or dispensation (except by prescription) of a drug or chemical containing any quantity of such substance as is the subject matter of the hearing shall be suspended pending a determination as to whether such substance is to be designated as a controlled drug. Designation as a controlled drug shall result in the continued suspension of the sale or dispensation (except by prescription) of any drug or chemical containing any quantity of such substance until the effective date of the designation. The substance shall thereafter be a controlled drug subject to this chapter. If any substance is so designated, the commissioner shall publish the designation in a newspaper of general circulation in the state once each week for 3 successive weeks.

IV. Substances which are precursors of the controlled precursor shall not be subject to control solely because they are precursors of the controlled precursor.

V. If any substance is designated, rescheduled, or deleted as a controlled substance under federal law and notice thereof is given to the commissioner, the commissioner shall similarly control the substance under this chapter after the expiration of 30 days from publication in the Federal Register of a final order designating a substance as a controlled substance or rescheduling or deleting a substance, unless, within that 30 day period, the commissioner objects to inclusion, rescheduling, or deletion. In that case, the commissioner shall publish the reasons for objection and afford all interested persons an opportunity to be heard. At the conclusion of the hearing, the commissioner shall publish his decision, which shall be final unless altered by law. Upon publication of objection to inclusion, rescheduling, or deletion under this chapter by the commissioner, control under this chapter shall be stayed until the commissioner publishes his decision.

VI. Authority to control under this section shall not extend to distilled spirits, wine, malt beverages, or tobacco.

VII. Controlled drugs shall be scheduled by whatever official, common, usual, chemical or trade name designated.

VIII. The commissioner shall revise and republish the schedules in RSA 318–B:1–b semi-annually for 2 years from the effective date of this section, and thereafter annually.

318–B:1–b Schedule Tests.

I. SCHEDULE I TESTS. The commissioner shall place a substance in schedule I if he finds that the substance:

(a) Has high potential for abuse; and

(b) Has no accepted medical use in treatment in the United States or lacks accepted safety for use in treatment under medical supervision.

II. SCHEDULE II TESTS. The commissioner shall place a substance in schedule II if he finds that:

(a) The substance has high potential for abuse;

(b) The substance has currently accepted medical use in treatment in the United States, or currently accepted medical use with severe restrictions; and

(c) The abuse of the substance may lead to severe psychic or physical dependence.

III. SCHEDULE III TESTS. The commissioner shall place a substance in schedule III if he finds that:

(a) The substance has a potential for abuse less than the substances listed in schedules I and II of the current chapter 21, Code of Federal Regulations;

(b) The substance has currently accepted medical use in treatment in the United States; and

(c) Abuse of the substance may lead to moderate or low physical dependence or high psychological dependence.

IV. SCHEDULE IV TESTS. The commissioner shall place a substance in schedule IV if he finds that:

(a) The substance has a low potential for abuse relative to substances listed in schedule III of the current chapter 21, Code of Federal Regulations;

(b) The substance has currently accepted medical use in treatment in the United States; and

(c) Abuse of the substance may lead to limited physical dependence or psychological dependence relative to the substances in schedule III of the current chapter 21, Code of Federal Regulations.

V. SCHEDULE V TESTS. The commissioner shall place a substance in schedule V if he finds that:

(a) The substance has a low potential for abuse relative to substances listed in schedule IV of the current chapter 21, Code of Federal Regulations;

(b) The substance has currently accepted medical use in treatment in the United States; and

(c) The substance has limited physical dependence liability or psychological dependence liability relative to the substances in schedule IV of the current chapter 21, Code of Federal Regulations.

318–B:1–c Flunitrazepam.

[RSA 318–B:1–c contingently repealed by 1998, 359:2.]

I. The legislature intends that the provisions of paragraph III of this section shall remain in effect until such time as flunitrazepam is scheduled by the commissioner of the department of human services in accordance with and pursuant to RSA 318–B.

II. The legislature finds that flunitrazepam, marketed under the trade name rohypnol, which has a sedative, hypnotic, and amnesiac effect, has no acceptable medical uses in the United States and carries a high potential for abuse. Therefore, flunitrazepam meets the criteria for placement on schedule I of controlled drugs.

III. Notwithstanding the provisions of RSA 318–B:1–a, relative to scheduling by rulemaking of the commissioner of the department of health and human services, flunitrazepam shall be scheduled as a schedule I controlled drug.

318–B:2 Acts Prohibited.

I. It shall be unlawful for any person to manufacture, possess, have under his control, sell, purchase, prescribe, administer, or transport or possess with intent to sell, dispense, or compound any controlled drug, or controlled drug analog, or any preparation containing a controlled drug, except as authorized in this chapter.

I–a. It shall be unlawful for any person to manufacture, sell, purchase, transport or possess with intent to sell, dispense, compound, package or repackage (1) any substance which he represents to be a controlled drug or controlled drug analog, or (2) any preparation containing a substance which he represents to be a controlled drug or controlled drug analog, except as authorized in this chapter.

I–b. It shall be unlawful for a qualifying patient or designated caregiver as defined under RSA 126–X:1 to sell cannabis to another person who is not a qualifying patient or designated caregiver. A conviction for the sale of cannabis to a person who is not a qualifying patient or designated caregiver shall not preclude or limit a prosecution or conviction of any person for sale of cannabis or any other offense defined in this chapter.

II. It shall be unlawful for any person to deliver, possess with intent to deliver, or manufacture with intent to deliver, drug paraphernalia, knowing that it will be used or is customarily intended to be used to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, conceal, ingest, inhale, or otherwise introduce into the human body a controlled substance.

III. It shall be unlawful for any person to place in any newspaper, magazine, handbill,or other publication any advertisement, knowing that the purpose of the advertisement, when viewed as a whole, is to promote the sale of objects intended for use or customarily intended for use as drug paraphernalia.

IV. In determining whether an object is drug paraphernalia under this chapter, a court or other authority should consider, in addition to all other logically relevant factors, the following:

(a) Statements by an owner or by anyone in control of the object concerning its use;

(b) Prior convictions, if any, of an owner, or of anyone in control of the object, under any state or federal law relating to any controlled substance;

(c) The proximity of the object, in time and space, to a direct violation of this chapter;

(d) The proximity of any residue of controlled substances;

(e) The existence of any residue of controlled substances on the object;

(f) Direct or circumstantial evidence of the intent of an owner, or of anyone in control of the object, to deliver it to persons whom he knows intend to use the object to facilitate a violation of this chapter; the innocence of an owner, or of anyone in control of the object, as to a direct violation of this chapter shall not prevent a finding that the object is intended for use as drug paraphernalia;

(h) Descriptive materials accompanying the object which explain or depict its use;

(i) National and local advertising concerning its use;

(j) The manner in which the object is displayed for sale;

(*l*) Whether the object is customarily intended for use as drug paraphernalia and the existence and scope of other legitimate uses for the object in the community; and

(m) Expert testimony concerning its use.

V. No person shall obtain or attempt to obtain a controlled drug:

IX. No person shall affix any false or forged label to a package or receptacle containing controlled drugs.

X. Possession of a false or forged prescription for a controlled drug by any person, other than a pharmacist in the pursuance of his profession, shall be prima facie evidence of his intent to use the same for the purpose of illegally obtaining a controlled drug.

XI. It shall be unlawful for any person 18 years of age or older to knowingly use, solicit, direct, hire or employ a person 17 years of age or younger to manufacture, sell, prescribe, administer, transport or

possess with intent to sell, dispense or compound any controlled drug or any preparation containing a controlled drug, except as authorized in this chapter, or to manufacture, sell, transport or possess with intent to sell, transport or possess with intent to sell, dispense, compound, package or repackage (1) any substance which he represents to be a controlled drug or controlled drug analog, or (2) any preparation containing a substance which he represents to be a controlled drug or controlled drug analog, except as authorized in this chapter. It shall be no defense to a prosecution under this section that the actor mistakenly believed that the person who the actor used, solicited, directed, hired or employed was 18 years of age or older, even if such mistaken belief was reasonable. Nothing in this section shall be construed to preclude or limit a prosecution or conviction for a violation of any other offense defined in this chapter or any other provision of law governing an actor's liability for the conduct of another.

XII. A person is a drug enterprise leader if he conspires with one or more persons as an organizer, supervisor, financier, or manager to engage for profit in a scheme or course of conduct to unlawfully manufacture, sell, prescribe, administer, dispense, bring with or transport in this state methamphetamine, lysergic acid diethylamide, phencyclidine (PCP) or any controlled drug classified in schedule I or II, or any controlled drug analog thereof. XII–a. It shall be unlawful for any person to knowingly acquire, obtain possession of or attempt to acquire or obtain possession of a controlled drug by misrepresentation, fraud, forgery, deception or subterfuge. XII–b. It shall be unlawful for any person to knowingly obtain, or attempt to obtain, or to assist a person in obtaining or attempting to obtain a prescription for a controlled substance without having formed a valid practitioner-patient relationship.

XII–c. It shall be unlawful for any person to, by written or electronic means, solicit, facilitate or enter into any agreement or contract to solicit or facilitate the dispensing of controlled substances pursuant to prescription orders that do not meet the federal and state requirements for a controlled drug prescription, and without an established valid practitioner-patient relationship.

XII–d. It shall be unlawful for any pharmacy to ship finished prescription products, containing controlled substances, to patients residing in the state of New Hampshire, pursuant to any oral, written or online prescription order that was generated based upon the patient's submission of an electronic or online medical history form. Such electronic or online medical questionnaires, even if followed by telephonic communication between practitioner and patient, shall not be deemed to form the basis of a valid practitioner-patient relationship.

XII–e. It shall be unlawful for any pharmacist to knowingly dispense a controlled substance pursuant to any oral, written, or electronic prescription order, which he or she knows or should have known, was generated based upon the patient's submission of an electronic or online medical history form. Such electronic or online medical questionnaires, even if followed by telephonic communication between practitioner and patient, shall not be deemed to form the basis of a valid practitioner-patient relationship.

XII–f. It shall be unlawful for any person to prescribe by means of telemedicine a controlled drug classified in schedule II through IV, except as provided in RSA 318–B:2, XVI, (a) and (b).

XIII. Nothing in this section shall be deemed to preclude or limit a prosecution for theft as defined in RSA 637.

XIV. It shall be an affirmative defense to prosecution for a possession offense under this chapter that the person charged had a lawful prescription for the controlled drug in question or was, at the time charged, acting as an authorized agent for a person holding a lawful prescription. An authorized agent shall mean any person, including but not limited to a family member or caregiver, who has the intent to deliver the controlled drug to the person for whom the drug was lawfully prescribed.

XV. Persons who have lawfully obtained a controlled substance in accordance with this chapter or a person acting as an authorized agent for a person holding a lawful prescription for a controlled substance may deliver any unwanted or unused controlled substances to law enforcement officers acting within the scope of their employment and official duties for the purpose of collection, storage, and disposal of such controlled drugs in conjunction with

a pharmaceutical drug take-back program established pursuant to RSA 318–E.

IX. If, in the judgment of a physician licensed under RSA 329, appropriate pain management warrants a high dosage of controlled drugs and the benefit of the relief expected outweighs the risk of the high dosage, the licensed physician may administer or cause to be administered such a dosage, even if its use may increase the risk of death, so long as it is not furnished for the purpose of causing, or the purpose of assisting in causing, death for any reason and so long as it falls within rules of the board of medicine.

I. NOT DEPENDENCE FORMING OR OF SUSTAINING CHARACTER. The department of health and human services may by rule exempt from the application of this chapter, to such extent as it determines to be consistent with the public welfare, pharmaceutical preparations found by the department of health and human services after due notice and hearing:

(a) Either to possess no physiological or psychological dependence forming or sustaining character, or to possess physiological or psychological dependence forming or sustaining character not sufficient to warrant imposition of all the requirements of this chapter, and,

(b) Not to permit recovery of the minute quantity of a controlled drug from the pharmaceutical preparation having such a physiological or psychological dependence forming or sustaining character, with such relative technical chemical separation simplicity and degree of quantitative yield as to create a risk of improper use.

II. EXEMPT UNDER FEDERAL LAW. In exercising the authority granted in paragraph I, the commissioner of the department of health and human services by rule and without special findings, may grant exempt status to such pharmaceutical preparations as are or may be determined to be exempt under the Comprehensive Drug Abuse Prevention and Control Act of 1970 and regulations and permit the administering, dispensing, or selling of such preparations under the same conditions as permitted by the Comprehensive Drug Abuse Prevention and Control Act of 1970 and regulations and the federal food and drug laws and regulations.

The findings shall be effective, and the exempt status shall cease to apply to such pharmaceutical preparation, 7 days after the date of the publication of the findings. The suspension procedure specified in RSA 318–B:1, VI, shall also apply to such exempt preparation after the hearing date.

318–B:12 Records to be Kept; Confidentiality.

I. Practitioners, including physicians, podiatrists, dentists, veterinarians, optometrists, advanced practice registered nurses, manufacturers, wholesalers, pharmacists, clinics, hospitals, and laboratories, shall keep separate records, so as not to breach the confidentiality of patient records, to show the receipt and disposition of all controlled drugs. Such records shall meet the requirements of the department of health and human services and federal laws and regulations relative to the receipt, manufacture, inventory, distributions, sale, dispensing, loss, theft, and any other disposition of controlled drugs. The records shall indicate at least the name, dosage form, strength, and quantity of the controlled drug; the name and address of any person to whom the drug was administered, dispensed, sold or transferred and the date of any and all transactions involved with the controlled drug.

II. Prescription orders and records required by this chapter and stocks of controlled drugs shall be open for inspection only to federal, state, county and municipal law enforcement officers; all officers, agents, inspectors, and representatives of the board

of pharmacy who are charged with the responsibility to enforce this chapter; all peace officers within the state; the attorney general; and all county attorneys whose duty it is to enforce the laws of this state or of the United States relating to controlled drugs. No officer having knowledge by virtue of his office of any such prescription, order, or record shall divulge such knowledge, except in connection with a prosecution or proceeding in court or before a licensing or registration board or officer, to which prosecution or proceeding the person to whom such prescriptions, orders or records relate is a party.

III. Practitioners including physicians, podiatrists, dentists, veterinarians, optometrists, advanced practice registered nurses, manufacturers, wholesalers, pharmacies, clinics, hospitals, laboratories, and any other person required by federal law to conduct biennial controlled substance inventories, shall do so beginning May 1, 1991, and thereafter on May 1 of every odd-numbered year.

IV. Records relative to prescription information containing patient-identifiable and prescriber-identifiable data shall not be licensed, transferred, used, or sold by any pharmacy benefits manager, insurance company, electronic transmission intermediary, retail, mail order, or Internet pharmacy or other similar entity, for any commercial purpose, except for the limited purposes of pharmacy reimbursement; formulary compliance; care management; utilization review by a health care provider, the patient's insurance provider or the agent of either; health care research; or as otherwise required by law. Commercial purpose includes, but is not limited to, advertising, marketing, promotion, or any activity that could be used to influence sales or market share of a pharmaceutical product, influence or evaluate the prescribing behavior of an individual health care professional, or evaluate the effectiveness of a professional pharmaceutical detailing sales force. Nothing in this paragraph shall prohibit the dispensing of prescription medications to a patient or to the patient's authorized representative; the transmission of prescription information between an authorized prescriber and a licensed pharmacy; the transfer of prescription information between licensed pharmacies; the transfer of prescription records that may occur in the event a pharmacy ownership is changed or transferred; care management educational communications provided to a patient about the patient's health condition, adherence to a prescribed course of therapy or other information about the drug being dispensed, treatment options, or clinical trials. Nothing in this section shall prohibit the collection, use, transfer, or sale of patient and prescriber de-identified data by zip code, geographic region, or medical specialty for commercial purposes. In addition to other appropriate remedies under this chapter, a violation of this paragraph is an unfair or deceptive act or practice within the meaning of RSA 358–A:2. Any right or remedy set forth in RSA 358–A may be used to enforce the provisions of this paragraph.

Any minor 12 years of age or older may voluntarily submit himself to treatment for drug dependency as defined in RSA 318–B:1, IX, or any problem related to the use of drugs at any municipal health department, state institution or facility, public or private hospital or clinic, any licensed physician or advanced practice registered nurse practicing within such nurse practitioner's specialty, or other accredited state or local social welfare agency, without the consent of a parent, guardian, or any other person charged with the care or custody of said minor. Such parent or legal guardian shall not be liable for the payment for any treatment rendered pursuant to this section. The treating facility, agency or individual shall keep records on the treatment given to minors as provided under this section in the usual and customary manner, but no reports or records or information contained therein shall be discoverable by the state in any criminal prosecution. No such reports or records shall be used for other than rehabilitation, research, or statistical and medical purposes, except upon the written consent of the person examined or treated. If any controlled drug is determined by rule of the department of health and human services to be habit forming, the container label shall show clearly the statement "Warning—May be Habit Forming".

No person, except a pharmacist for the purpose of filling a prescription under this chapter, shall alter, deface, or remove any label so affixed.

II. Whenever a pharmacist dispenses any controlled drug on prescription issued by a practitioner, he or she shall affix to the container in which such drug is dispensed a label showing the name, address, and registry number of the pharmacy and name or the initials of the pharmacist; the name of the prescribing practitioner; the prescription identification number; the name of the patient; the date dispensed; any directions as may be stated on the prescription; and the name and strength and quantity of the drug dispensed. All drugs dispensed to a patient that have been filled using a centralized prescription processing system shall bear a label containing an identifiable code that provides a complete audit trail of the dispensing of the drug and pharmaceutical care activities. No person shall alter, deface, or remove any label so affixed.

III. Whenever a practitioner other than a pharmacist, but including a physician, dentist, podiatrist, optometrist, veterinarian, or advanced practice registered nurse dispenses a controlled drug, he shall indicate on the container in which such drug is dispensed at least the name of the practitioner; the name and address of the patient, or, in the case of an animal, the name and address of the owner and the species of animal; the date dispensed; the name, strength, and quantity of drug dispensed; and the directions for administering the medication.

(b) Property interest in any conveyance, including but not limited to aircraft, vehicles, or vessels, which is used or intended for use in the procurement, manufacture, compounding, processing, concealing, trafficking, delivery or distribution of a

controlled drug in felonious violation of this chapter.

(c) Any moneys, coin, currency, negotiable instruments, securities or other investments knowingly used or intended for use in the procurement, manufacture, compounding, processing, concealing, trafficking, delivery or distribution of a controlled drug in felonious violation of this chapter and all proceeds, including moneys, coin, currency, negotiable instruments, securities or other investments, and any real or personal property, traceable thereto. All moneys, coin, currency, negotiable instruments, securities and other investments found in proximity to controlled substances are presumed to be forfeitable under this paragraph. The claimant of the property shall bear the burden of rebutting this presumption.

(d) Any books, records, ledgers and research material, including formulae, microfilm, tapes and any other data which are used or intended for use in felonious violation of this chapter.

(e) Any real property, including any right, title, leasehold interest, and other interest in the whole of any lot or tract of land and any appurtenances or improvements, which real property is knowingly used or intended for use, in any manner or part, in the procurement, manufacture, compounding, processing, concealing, trafficking, delivery or distribution of a controlled drug in felonious violation of this chapter.

I–a. The state shall have a lien on any property subject to forfeiture under this section upon seizure thereof. Upon forfeiture, the state's title to the property relates back to the date of seizure.

I–b. Property may be seized for forfeiture by any law enforcement agency designated by the department of justice, as follows:

(a) Upon process issued by any justice, associate justice or special justice of the municipal, district or superior court. The court may issue a seizure warrant on an affidavit under oath demonstrating that probable cause exists for its forfeiture or that the property has been the subject of a previous final judgment of forfeiture in the courts of any state or of the United States. The application for process and the issuance, execution and return of process shall be subject to applicable state law. The court may order that the property be seized and secured on such terms and conditions as are reasonable in the discretion of the court. Such order may include an order to a financial institution or to any fiduciary or bailee to require the entity to impound any property in its possession or control and not to release it except upon further order of the court. The order may be made on or in connection with a search warrant;

(b) Physically, without process on probable cause to believe that the property is subject to forfeiture under this chapter; or

(c) Constructively, without process on probable cause to believe that the property is subject to forfeiture under this chapter, by recording a notice of pending forfeiture in the registry of deeds in the county where the real property is located or at the town clerk's office where the personal property is located stating that the state intends to seek forfeiture of the identified property pursuant to this chapter.

(d) A seizure for forfeiture without process under subparagraph (b) or (c) is reasonable if made under circumstances in which a warrantless seizure or arrest would be valid in accordance with state law.

I–c. Upon seizure of any items or property interests the property shall not be subject to alienation, sequestration or attachment but is deemed to be in the custody of the department of justice subject only to the order of the court.

II. (a) Upon the seizure of any personal property under paragraph I, the person making or directing such seizure shall inventory the items or property interests and issue a copy of the resulting report to any person or persons having a recorded interest, or claiming an equitable interest in the item within 7 days of said seizure.

(b) Upon seizure of any real property under paragraph I, the person making or directing such seizure shall notify any person having a recorded interest or claiming an equitable interest in the property within 7 days of said seizure.

(c) The seizing agency shall cause an appraisal to be made of the property as soon as possible and shall promptly send to the department of justice a written request for forfeiture. This request shall include a statement of all facts and circumstances supporting forfeiture of the property, including the names of all witnesses then known, and the appraised value of the property.

(d) The department of justice shall examine the facts and applicable law of the cases referred pursuant to subparagraph (c), and if it is probable that the property is subject to forfeiture, shall cause the initiation of administrative or judicial proceedings against the property. If upon inquiry and exami-

nation, the department of justice determines that such proceedings probably cannot be sustained or that the ends of justice do not require the institution of such proceedings, the department shall make a written report of such findings and send a copy to the seizing agency, and, if appropriate, shall also authorize and direct the release of the property.

(e) The department of justice shall, within 60 days of the seizure, file a petition in the superior court having jurisdiction under this section. If no such petition is filed within 60 days, the items or property interest seized shall be released or returned to the owners.

II–a. Pending forfeiture and final disposition, the law enforcement agency making the seizure shall:

(a) Place the property under seal; or

(b) Remove the property to a storage area for safekeeping; or

(c) Remove the property to a place designated by the court; or

(d) Request another agency to take custody of the property and remove it to an appropriate location within the state; or

(e) In the case of moneys, file a motion for transfer of evidence under RSA 595–A:6. Upon the court's granting of the motion the moneys shall be immediately forwarded to an interest-bearing seized asset escrow account to be administered by the attorney general. Upon resolution of the forfeiture proceeding the moneys deposited shall be transferred to the drug forfeiture fund or returned to the owners thereof as directed by the court. Unless otherwise ordered by a court in a specific case, interest on all moneys deposited in the seized asset escrow account shall be deposited annually into the drug forfeiture fund established under RSA 318–B:17–c.

III. The court may order forfeiture of all items or property interests subject to the provisions of paragraph I, except as follows:

(a) No item or property interest shall be subject to forfeiture unless the owner or owners thereof were consenting parties to a felonious violation of this chapter and had knowledge thereof.

(b) No items or property interests shall be subject to forfeiture unless involved in an offense which may be charged as a felony.

IV. (a) The department of justice may petition the superior court in the name of the state in the nature of a proceeding in rem to order forfeiture of items or property interests subject to forfeiture under the provisions of this section. Such petition shall be filed in the court having jurisdiction over any related criminal proceedings which could be brought under this chapter.

(b) Such proceeding shall be deemed a civil suit in equity in which the state shall have the burden of proving all material facts by a preponderance of the evidence and in which the owners or other persons claiming an exception pursuant to paragraph III shall have the burden of proving such exception.

(c) The court shall issue summonses to all persons who have a recorded interest or claim an equitable interest in said items or property interests seized under this chapter and shall schedule a hearing on the petition to be held within 90 days of the date specified by the court on the summonses.

(d) At the request of any party to the forfeiture proceeding, the court may grant a continuance until the final resolution of any criminal proceedings which were brought against a party under this chapter and which arose from the transaction which gave rise to the forfeiture proceeding. No asset forfeiture may be maintained against a person's interest in property if that person has been found not guilty of the underlying felonious charge.

(e) At the hearing, the court shall hear evidence and make findings of fact and rulings of law as to whether the property is subject to forfeiture under this chapter. Except in the case of proceeds, upon a finding that the property is subject to forfeiture the court shall determine whether the forfeiture of the property is not excessive in relation to the underlying criminal offense. In making this determination the court shall consider whether in addition to any other pertinent considerations:

(1) There is a substantial connection between the property to be forfeited and the underlying drug offense;

(2) Criminal activities conducted by or through the use of the property were extensive; and

(3) The value of the property to be forfeited greatly outweighs the value of the drugs that were or would have been likely to be distributed, the costs of the investigation and prosecution, and the harm caused by the criminal conduct.

The court shall, thereupon, make a final order, from which all parties shall have a right of appeal.

V. Final orders for forfeiture of property under this section shall be implemented by the department

of justice and shall provide for disposition of the items or property interests by the state in any manner not prohibited by law, including retention for official use by law enforcement or other public agencies or sale at public auction. The department of justice shall pay the reasonable expenses of the forfeiture proceeding, seizure, storage, maintenance of custody, advertising, court costs, and notice of sale from any money forfeited and from the proceeds of any sale or public auction of forfeited items. All outstanding recorded liens on said items or property interests seized shall be paid in full upon conclusion of the court proceedings from the proceeds of any sale or public auction of forfeited items. The balance remaining shall be distributed by the department of justice as follows:

(a) Of the first $500,000:

(1) Forty-five percent shall be returned to the fiscal officer or officers of the municipal, county, state, or federal government which provided the law enforcement agency or agencies responsible for the seizure. Moneys returned to each fiscal officer shall be deposited in a special account and shall be used primarily for meeting expenses incurred by law enforcement agencies in connection with drug-related investigations. Except as provided in RSA 31:95–b, such funds shall be available for expenditure without further appropriation by the legislative body of the municipal, county, state or federal government, and shall not be transferred or expended for any other purpose. Moneys returned to a state law enforcement agency shall be deposited in a special nonlapsing account established within the office of the state treasurer and shall be in addition to all other state appropriations to such agency;

(2) Ten percent shall be deposited into a special nonlapsing account established within the office of the state treasurer for the department of health and human services; and

(3) Forty-five percent shall be deposited in a revolving drug forfeiture fund, administered by the department of justice pursuant to RSA 318–B:17–c; and

(b) Of any balance remaining:

(1) Ten percent shall be deposited in the manner prescribed in subparagraph V(a)(2) of this section; and

(2) Ninety percent shall be deposited in the manner prescribed in subparagraph V(a)(3) of this section.

The total amount of payments made to the special account for the department of health and human services pursuant to subparagraphs V(a)(2) and V(b)(1) of this section shall not exceed $400,000 in any fiscal year and any excess over $400,000 which would otherwise be paid to such special account under this section shall be deposited in the general fund. The revolving drug forfeiture fund shall at no time exceed $1,000,000. All sums in the revolving drug forfeiture fund in excess of $1,000,000 shall be credited to the general fund.

(b) The death was not:

(1) Too remote in its occurrence as to have just bearing on the person's liability; or

It shall not be a defense to a prosecution under this section that the decedent contributed to his own death by his purposeful, knowing, reckless or negligent injection, inhalation or ingestion of the substance or by his consenting to the administration of the substance by another. Nothing in this section shall be construed to preclude or limit any prosecution for homicide. This certificate shall contain a statement establishing the following: the type of analysis performed; the result achieved; any conclusions reached based upon that result; that the subscriber is the person who performed the analysis and made the conclusions; the subscriber's training or experience to perform the analysis; and the nature and condition of the equipment used. When properly executed, the certificate shall, subject to paragraph II of this section and notwithstanding any other provision of law, be admissible evidence of the composition, quality, and quantity of the substance submitted to the laboratory for analysis, and the court shall take judicial notice of the signature of the person performing the analysis and of the fact that he or she is that person. A person shall be guilty of a class B felony if he or she knowingly makes any false entry in any certificate required under this paragraph.

II. Whenever a party intends to proffer in a criminal proceeding a certificate executed pursuant to this section, notice of an intent to proffer that certificate and all reports relating to the analysis in question, including a copy of the certificate, shall be conveyed to the opposing party or parties at least 25 days before the proceeding begins. An opposing party who intends to object to the admission into evidence of a certificate shall give notice of objection and the specific grounds for the objection within 10 days upon receiving the adversary's notice of intent to proffer the certificate. Whenever a notice of objection is filed, admissibility of the certificate shall be determined not later than 10 days before the beginning of the trial. A proffered certificate shall be admitted in evidence unless it appears from the notice of objection and specific grounds for that objection that the composition, quality, or quantity of the substance submitted to the laboratory for analysis will be contested at trial. A failure to comply with the time limitations regarding the notice of objection required by this section shall constitute a waiver of any objection to the admission of the certificate. The time limitations set forth in this section shall not be relaxed except upon a showing of good cause.

CHAPTER 326–I

INTERPRETERS FOR THE DEAF AND HARD OF HEARING

326–I:1 Findings and Statement of Purpose.

I. The general court finds that while there is no census count, as many as 10,000 New Hampshire citizens live with hearing loss; that of this number perhaps 3,000 men, women, and children are unable to readily understand speech due to the extent of their hearing loss, but instead rely on a visual mode of communication.

II. The general court finds that a significant number of New Hampshire's deaf and hard of hearing, its broad array of public agencies and institutions, and its medical and legal professions share a unique challenge: the necessity to hire professional interpreters licensed to provide ready and reliable communications to and for those who use a visual mode of communication.

III. The general court further finds the mandates of federal and state statutes which require funding of interpreter's services, by the same public agencies and institutions, medical and legal professions, and others of those interpreters requested by the deaf and hard of hearing, is a mandate in itself to the legislature to ensure the availability of a skilled cadre of professional, licensed interpreters.

IV. The purpose of this legislation is:

(a) To provide standards for the licensing and regulation of interpreters for the deaf and hard of hearing.

(b) To ensure interpreters for the deaf and hard of hearing meet rigorous standards, and that by power of revoking their licenses are held accountable for the quality and timeliness of their work.

420–O:4 Minimum Loss Ratio; Reporting.

I. A plan under this chapter shall have an expected loss ratio of not less than 85 percent. In reviewing a rate filing or application by a plan, the commissioner may modify the expected minimum loss ratio requirement if the commissioner determines the modification to be in the interests of the people of this state or if the commissioner determines that a modification is necessary to maintain plan solvency.

II. No later than 120 days after the close of a plan's fiscal year, a plan shall annually report the actual loss ratio for the previous plan fiscal year in a format acceptable to the commissioner. If the expected loss ratio is not met, the commissioner may direct the plan to take corrective action. (b) Funds for unearned premium equivalents, computed pro-rata on the basis of the unexpired portion of the policy period.

(c) Contingency funds, established and maintained for the sole purpose of satisfying unexpected obligations of the plan in the event of termination of the plan.

II. The reserve statement shall be prepared by a qualified actuary. If at any time the reserve funds required to be established pursuant to this section fall below the required minimum amounts, then the institution shall immediately notify the commissioner of such impairment. The institution shall cure the impairment within 5 business days.

III. The plan's assets, liabilities, income, and expenses shall be accounted for separate and apart from all other assets, liabilities, income, and expenses of the institution.

IV. The requirements for funding of the plan's reserves shall be calculated using generally accepted accounting principles. (f) A detailed report of the operations and condition of the plan's reserve funds.

(g) Such other information as the commissioner may require.

In addition, the annual financial statement shall detail the assets comprising the reserve fund to demonstrate compliance with RSA 420–O:5, I.

III. An institution that fails to file any report or statement required by this chapter, or fails to reply within 30 days to a written inquiry by the commissioner in connection therewith shall, in addition to other penalties provided by this title, be subject, upon due notice and opportunity to be heard, to a penalty of up to $1,000 per day of delay, not to exceed $25,000 in the aggregate, for each such failure.

420–O:9 Suspension or Revocation of Certificate of Authority.

I. The commissioner may suspend or revoke a certificate of authority issued to an institution under this chapter upon a finding, after notice and hearing, that the institution has failed to comply with any requirement imposed on it under this chapter or necessary to maintain minimum essential coverage status and that in the commissioner's judgment such suspension or revocation is reasonably necessary to protect the interests of the people of this state, including:

(a) For any cause that would be a basis for denial of an initial application for such a certificate;

(b) Failure to maintain the reserves required by RSA 420–O:5; or

(c) The commissioner finds that the institution has refused to produce its accounts, records, and files for examination or has refused to cooperate or give information with respect to the affairs of the student health plan or to perform any other legal obligation relating to such an examination or investigation when required by the commissioner.

The institution also shall submit a plan for the superintendent's approval for winding up the plan's affairs in an orderly manner designed to result in timely payment of all benefits, in such form and manner as the commissioner may prescribe.

II. Any funds of the institution, as they pertain to the student health plan, shall be accounted for separate and apart from all other assets, liabilities, income, and expenses of the institution until all plan benefits and other plan obligations have been satisfied. Until such time, the institution shall continue to maintain and fund the reserve funds required to be established under RSA 420–O:5. If at any time the commissioner determines that additional funds shall be deposited in the reserve funds, then the institution shall make the deposit within 5 days of the commissioner's determination.

III. If, after 24 months, or such longer period as deemed necessary by the commissioner, all plan benefits and other plan obligations have been satisfied, the institution, upon approval by the commissioner, shall no longer be required to maintain assets within the plan's reserve funds.

by the order suspended shall keep such accounts as shall suffice to show the amount being collected by such public utility, pending the appeal, in excess of the amounts which it would have collected if the order or decree of the commission had not been suspended, and shall provide such means as the court shall determine to secure the prompt repayment of all excess rates, fares and charges over and above the rates, fares and charges which shall finally be determined to be reasonable and just.

541–A:3–a Specificity of Rules; Identification of State or Federal Law.

I. If an agency proposes a rule pursuant to RSA 541–A:3 or 541–A:19, the agency shall identify the specific section or sections of state or federal statutes or regulations which the rule is intended to implement in the notice required pursuant to RSA 541–A:6 and 541–A:19, II, and either in the rule, or in a separate cross-reference table pursuant to paragraph II. The notice shall be in such form as the director of legislative services shall prescribe until otherwise provided by the drafting and procedure manual adopted pursuant to RSA 541–A:8. The identification in the rule shall be made in the manner specified in the drafting and procedure manual.

II. If the specific section or sections of state statute or federal statute or regulation required by paragraph I are not identified in the rule itself, the agency shall file the information in a separate cross-reference table with each filing of the proposed or adopted rule other than an emergency rule. The agency shall make the table available to the public with a proposed or adopted rule whenever the rule is made available to or requested by the public. Unless otherwise specified by the drafting and procedure manual, the table shall be filed as an appendix to the rule and, when the rule is published pursuant to RSA 541–A:15, shall be published as an appendix to the rule chapter containing the rule. The fiscal impact of a proposed rule which was previously effective but has expired, or of a proposed rule which adopts a current agency policy, procedure, or practice as a rule for the first time, shall not be assessed as an existing rule but as a proposed rule which is not yet effective.

III. The legislative budget assistant shall establish a schedule of deadlines for submission of the fiscal impact form, and the agency shall file the completed form with the legislative budget assistant in accordance with such deadlines.

IV. The fiscal impact statement issued by the legislative budget assistant shall not be limited to dollar amounts, but shall include a discussion of the methodology used to reach any stated amounts. In addition, the fiscal impact statement shall consist of:

V. All agencies are directed to cooperate with the legislative budget assistant in the preparation of fiscal impact statements.

VI. Agencies shall also obtain an amended fiscal impact statement from the legislative budget assistant only if as a result of notice and hearing a change has been made which affects the original fiscal impact statement. Agencies shall file the amended fiscal impact statement as part of the final proposal pursuant to RSA 541–A:12, II.

In this paragraph, "significant noncompliance" means one or more errors of such magnitude that a reasonable person would not be able to discern what rules are the subject of the rulemaking proceeding and/or what the agency is proposing to do. The office of legislative services shall provide oral or written comments on potential bases for committee objection under RSA 541–A:13, IV in a form and manner determined by the director of the office of legislative services. Copies of the proposed rule shall be available to the public under RSA 91–A and at least 5 days prior to the date of the hearing.

(b) For rules proposed by a board or commission, a period of at least 5 business days after the hearing shall be provided for the submission of materials in writing or in electronic format, unless a shorter period is specified in the notice. If a shorter period is specified in the notice, the deadline for the submission of such materials shall not be earlier than the scheduled conclusion of the public hearing. For rules proposed by an agency official, a period of at least 5 business days after the hearing shall be provided in all instances. If a hearing is continued or postponed as provided in paragraph III or IV of this section, the period for the submission of materials in writing or in electronic format shall be extended unless the previously-established deadline meets the applicable requirement specified above.

(c) An agency may hold a public hearing or otherwise solicit public comment on a draft final proposed rule prior to filing the final proposed rule pursuant to RSA 541–A:3, V. Notice of such hearing or comment period shall be provided by such means as are deemed appropriate to reach interested persons, which may include publishing a notice in the rulemaking register.

If the agency continues the hearing or extends the deadline, it shall notify the public by any means it deems appropriate, including notice in the rulemaking register whenever practicable.

IV. A public comment hearing may be postponed in the event of any of the following:

(a) Inclement weather.

(b) Illness or unavoidable absence of the official with rulemaking authority.

(c) Lack of a quorum due to illness or unavoidable absence.

(d) Determination by the agency that postponement of the public comment hearing shall facilitate

greater participation by the public. If a public comment hearing is postponed, the agency shall provide notice in the rulemaking register at least 5 days before such postponed public comment hearing, and may also provide notice by any other means it deems appropriate.

V. A public comment hearing may be moved to another location if the agency determines for any reason that the original location is not able to accommodate the public. If changing the location does not also necessitate a change in the date of the public comment hearing, the agency shall post notice of the new location at the originally scheduled facility. If changing the location necessitates a change in the date of the public comment hearing, the agency shall provide notice as required by paragraph IV.

VI. On request, the agency shall promptly provide a copy of any rule as filed with the director at any stage in the rulemaking process. If the copy is mailed, it shall be sent not later than the end of the third working day after the request is received. VIII. In addition to seeking information by other methods, an agency, before publication of a notice of proposed rulemaking under RSA 541–A:6, may solicit comments from the public on a subject matter of possible rulemaking under active consideration within the agency by causing notice to be published in the rulemaking register of the subject matter and indicating where, when, and how persons may provide comment on the rules under consideration.

After the text of the final proposed rule has been established, the agency shall file the final proposal no earlier than 21 days and no later than 150 days after the date of publication of the notice in the rulemaking register. If an agency is required to rewrite a rule in accordance with RSA 541–A:8, the agency shall have up to 180 days after the date of publication of the notice in the rulemaking register to file the final proposal. The agency shall file the final proposal with the director of legislative services. Final proposals filed no later than 14 days before a regularly scheduled committee meeting shall be placed on the agenda for that meeting. Final proposals filed fewer than 14 days before a regularly scheduled committee meeting shall be placed on the agenda of the following regularly scheduled committee meeting.

The final proposal and request shall be filed at least 14 days prior to the first regularly scheduled committee meeting at which the request may be considered. The committee shall notify the agency in writing of its approval or denial of the request.

II. The final proposal shall include:

(a) A cover sheet listing:

(2) The name and address of the agency;

(3) The title and number of the rule; and

(b) One copy of the established text of the final proposed rule.

(c) If required pursuant to RSA 541–A:5, VI, an amended fiscal impact statement from the legislative budget assistant stating that as a result of notice and hearing the rule did change and explaining how this change affects the original fiscal impact statement.

(d) A copy of the fixed text of the final proposed rule annotated clearly to show how the final proposed rule differs from the rule as initially proposed, if the text has changed.

III. An agency may establish requirements in its rules by citing to a document or to Internet content prepared by an unrelated third party. If state-enforceable requirements are so established, the agency shall file an incorporation by reference statement as specified in paragraph IV with the final proposal. No agency shall incorporate by reference any document or Internet content prepared by or on behalf of the agency, provided that documents prepared by a group or association of which the agency is a member may be incorporated by reference.

IV. Any incorporation by reference statement required by paragraph III shall include a statement signed by the adopting authority:

(a) Certifying that the text of the incorporated document or Internet content has been reviewed by the agency, with the name of the reviewing official;

(b) Explaining how the text of the incorporated document or Internet content can be obtained by the public, and at what cost;

(c) Explaining any modifications to the incorporated document or Internet content;

(d) Discussing the comparative desirability of reproducing the incorporated document or Internet content in full in the text of the rule; and

(e) Certifying that the agency has the capability and the intent to enforce the requirements being incorporated.

V. If an agency establishes requirements by incorporating undated Internet content by reference, the agency shall make a read-only copy of the incorporated Internet content no later than the date of filing the incorporation by reference statement, and make the dated copy available to the public.

VI. Each agency shall, upon request for a copy of any document or Internet content incorporated by reference in the agency's rules, make available for inspection any such document or downloaded Internet content.

VII. Each agency shall include the information required in subparagraph IV(b) as an appendix with each filing of the proposed or adopted rule. The agency shall make the information available to the public with a proposed or adopted rule whenever the rule is made available to or requested by the public. When the rule is published pursuant to RSA 541–A:15, the information shall be published as an appendix to the rule chapter containing the rule with a reference in the rule to the appendix. The information shall not be required to be filed on a separate page.

541–A:13 Review by the Joint Legislative Committee on Administrative Rules.

I. The committee shall either approve the rule or enter a conditional approval or objection under paragraph V within 45 days of the filing of a final proposal under RSA 541–A:12, I, unless the deadline is waived for good cause pursuant to RSA 541–A:40. The committee shall either approve the rule or enter a conditional approval or objection under paragraph V within 60 days of the filing of a final proposal under RSA 541–A:12, I–a, unless the deadline is waived for good cause pursuant to RSA 541–A:40. Objections to a rule may be made only once.

II. (a) If an agency has filed a final proposal and the committee has granted the agency's request, pursuant to RSA 541–A:12, I–a, the director of legislative services shall notify the agency of any potential bases for committee objection identified by the office of legislative services by forwarding a copy of the final proposal with the counsel's comments noted thereon at least 14 days prior to the committee meeting at which the proposal will be considered.

(b) In response to the comments, an agency may then file a proposed amended final proposal with the director for review by the committee and request that the committee approve the rule as amended. Both the request and the amendment shall be in writing and shall be filed at least 7 days prior to the regularly scheduled meeting or special meeting for which the final proposal has been placed on the agenda.

(c) The committee may:

(1) Approve the rule as originally filed;

(2) Approve the rule with amendment; or

(3) Act under paragraph V.

(d) If the committee approves the rule as filed pursuant to RSA 541–A:12, or with amendment, it shall notify the agency in writing of its approval.

(e) Failure to give notice of either approval, conditional approval, or objection at the end of the 45-day or 60-day period under paragraph I shall be deemed approval.

III. If the rule is approved under subparagraph II(c) or (e), the agency may adopt the rule.

IV. The committee may object to a proposed rule if the rule is:

(a) Beyond the authority of the agency;

(b) Contrary to the intent of the legislature;

(c) Determined not to be in the public interest; or

(d) Deemed by the committee to have a substantial economic impact not recognized in the fiscal impact statement.

V. The following procedures shall govern committee objections:

(a) If the committee objects to the final proposal as filed or as amended pursuant to paragraph II, it shall so inform the agency. In lieu of a preliminary objection, the committee may vote to conditionally approve the rule with an amendment, provided that the committee specifies in its conditional approval the language of the amendment to address the basis for a preliminary objection. The committee shall notify the agency in writing of its conditional approval. Within 30 days of the meeting, or in the case of a board or commission, 7 days following its next regularly scheduled meeting, the agency shall submit a written explanation to the committee in the form of a letter and an annotated text of the final proposed rule detailing how the rule has been amended in accordance with the conditional approval. The written explanation shall be signed by the individual holding rulemaking authority, or, if a body of individuals holds rulemaking authority, by a voting member of that body, provided that a quorum of the body has approved. Failure to submit a written explanation in accordance with the conditional approval and this paragraph shall cause the conditional approval to be deemed a committee vote to make a preliminary objection on the date of the conditional approval. If the office of legislative services determines that the agency has amended the rule in accordance with the conditional approval and this paragraph, the office of legislative services shall promptly send written confirmation of compliance to the agency. The agency may then adopt the rule as amended.

(b) If the committee objects to the final proposal as filed or as amended pursuant to paragraph II, the committee shall send the agency a preliminary written objection stating the basis for the objection. A preliminary objection or conditional approval shall require the assent of a majority of the votes cast, a quorum being present. If a preliminary objection is made, the committee may send a copy of the preliminary objection to the appropriate house and senate standing policy committees and, if so, shall give notice to the agency. Within 30 days of the date the preliminary objection was entered, the standing policy committees at properly convened executive sessions shall review the proposed rules and the preliminary objection and shall adopt recommendations or comments relative to the basis for the preliminary objection and shall communicate the same to the committee.

(c) The agency shall respond to the preliminary objection by withdrawing the rule, by amending the rule to remove the basis for objection, or by making no change. The agency shall respond to a committee objection only once, and shall report its response in writing to the committee within 45 days of the committee's vote to make a preliminary objection. Failure to respond to the committee in accordance with this subparagraph shall mean the rulemaking procedure for that proposed rule is invalid; however, the agency is not precluded from initiating the process over again for a similar rule. After receipt of the agency response, the committee may modify its objections made under paragraph IV or approve the rule.

(d) After submitting its preliminary objection response and prior to the final committee vote on the final proposal, and in all cases, prior to the adoption of the rule by the agency, the agency may request that the committee approve the rule with further amendment or issue a revised objection. The committee may approve the rule with further amendment only if the agency submits the request and proposed amendment, in writing to the committee at least 7 days prior to the committee meeting at which the agency presents the rule. Submission of such a request shall not preclude the agency from requesting a revised objection if the committee does not approve the rule as requested.

(e) A revised objection may be made only once by the committee and may be made only at the request of the agency. The agency shall respond and the committee may review the response in the same manner as a preliminary objection. No further amendment may be made by the agency after it responds to the committee except as provided in RSA 541–A:14, II.

(f) If the agency responds but the basis for the committee's preliminary or revised objection has not been removed or the response creates a new basis for objection, the committee may, by majority vote of the entire committee, file a final objection. The final objection shall be filed in certified form with the director of legislative services for publication in the next issue of the rulemaking register.

VI. After a final objection by the committee to a provision in the rule is filed with the director under subparagraph V(f), the burden of proof shall be on the agency in any action for judicial review or for enforcement of the provision to establish that the part objected to is within the authority delegated to the agency, is consistent with the intent of the legislature, is in the public interest, or does not have a substantial economic impact not recognized in the fiscal impact statement. If the agency fails to meet its burden of proof, the court shall declare the whole or a portion of the rule objected to invalid. The failure of the committee to object to a rule shall not be an implied legislative authorization of its substantive or procedural lawfulness.

VII. (a) The provisions of this paragraph may be used by the committee as an alternative to or in addition to the final objection procedure employed by the committee in paragraph V.

(b) If an agency responds to a preliminary or revised objection but the basis for objection has not been removed or the response creates a new basis for objection, the committee may, within 50 days from the date on which the objection response was due and by majority vote of the entire committee, recommend legislative action through sponsorship of a joint resolution to implement its recommendation. Such vote shall prevent the rule from being adopted and filed by the agency for the period of time specified in subparagraph VII(c).

(c) If the committee votes to sponsor a joint resolution pursuant to subparagraph VII(b), the joint resolution shall be introduced in the house of representatives or senate within 20 business days of such vote when the general court is in session and 20 business days of the start of the following legislative session if such vote occurs when the general court is not in session. If a joint resolution is not introduced within this time frame, the agency may adopt the rule. If a joint resolution is introduced within this time frame, the agency shall be prevented from adopting and filing such rule until final legislative action is taken on the resolution or the passage of 90 consecutive calendar days during which the general court shall have been in session, whichever occurs first. The 90 calendar day period shall commence on the date such joint resolution has been introduced. If the session of the general court adjourns prior to the sixtieth calendar day after such joint resolution has been introduced, then the agency shall be prevented from adopting and filing such rule until 90 calendar days, beginning with the next session of the general court, have passed.

(d) The provisions of this paragraph shall apply to only the specific portion of the agency's rule identified in the joint resolution. The provisions of this paragraph shall not prevent an agency from adopting and filing the remainder of the rules in the final proposal under RSA 541–A while the committee pursues legislative action under this paragraph, nor shall it prevent the committee from also voting to enter a final objection pursuant to paragraph V.

(e) Nothing in this section shall prevent the general court from introducing legislation which addresses any matter included in a joint resolution introduced under the provisions of this section.

(f) Notwithstanding any house or senate rules to the contrary, a joint resolution which the committee votes to sponsor under subparagraph VII(b) may be introduced at any time during the legislative session. It shall be subject to the same rules as any other bill introduced at the beginning of the legislative session.

541–A:14 Final Adoption.

I. An agency may adopt a properly filed final proposed rule after:

(a) The passage of 45 days from filing of a final proposal under RSA 541–A:12, I, or 60 days from filing under RSA 541–A:12, I–a, without receiving notice of objection from the committee;

(b) Receiving approval from the committee;

(c) Written confirmation is sent to the agency by committee legal counsel relative to agency compliance with the committee's conditional approval pursuant to RSA 541–A:13, V(a);

(d) Passage of the 50-day period for committee review of the preliminary objection response, or revised objection response, if applicable, provided that the committee has not voted to sponsor a joint resolution pursuant to RSA 541–A:13, VII; or

(e) Final legislative action, as defined in RSA 541–A:1, VI-a, is taken on the joint resolution sponsored pursuant to RSA 541–A:13, VII(b) or the passage of the 90 consecutive calendar days specified by RSA 541–A:13, VII(c), whichever occurs first.

II. The text of the adopted rule shall be the same as the text of the final proposed rule submitted under

RSA 541–A:12, unless revised by the agency in direct response to the committee's written objection or as otherwise provided in RSA 541–A:13. The director of legislative services may refuse to accept for filing any final rule which contains changes, other than minor editorial changes, that are not specifically made in accordance with the procedures provided in RSA 541–A:13, II(b) or RSA 541–A:13, V. The agency shall identify each minor editorial change in writing to the director of legislative services.

III. The agency shall file all adopted rules with the director of legislative services.

IV. Adopted rules shall become effective under RSA 541–A:16, III on the day after filing by the agency, or at a later date, provided that the agency so specifies in a letter to the director of legislative services, and further provided that the agency does not establish different effective dates for different provisions within the same rule. If the agency has specified a later effective date, the agency may modify the date by providing a statement to the director of legislative services which shall indicate the new effective date and all reasons for modifying the date. The statement shall be published by the director of legislative services in the rulemaking register. No modified effective date shall occur earlier than the date of publication in the rulemaking register. The director shall maintain a file of all currently effective rules, and each agency shall maintain a file of its own currently effective rules, both of which shall be open to the public.

541–A:14–a Extension of Currently Effective Rules Pending Readoption.

I. If an agency files a notice pursuant to RSA 541–A:6 to readopt existing rules, with or without amendments, the currently effective rules in the filing which would otherwise expire prior to the completion of the readoption of the rules by the agency shall continue in effect until the proposed rules are adopted and effective.

II. If, after filing a notice pursuant to paragraph I, an agency fails to file a final proposal by the deadline specified in RSA 541–A:12, fails to file a response to objection as specified in RSA 541–A:13, or fails to adopt and file the proposed rule as specified in paragraph III, the existing rules which would otherwise expire prior to the completion of the readoption of the rules by the agency shall expire 30 days after such deadline unless the agency has obtained a waiver of the deadline pursuant to RSA 541–A:40, IV(a). If the agency has obtained a waiver to a deadline, such existing rules shall expire 30 days after the deadline established pursuant to RSA 541–A:40, IV(b) if the required action is not taken.

III. If rules are extended pursuant to this section, the agency shall:

(a) Adopt and file the proposed rules as required by RSA 541–A:14, III no later than 30 days after the date on which the agency is allowed to adopt the rules under RSA 541–A:14, I; and

(b) File the rules as required by RSA 541–A:14, III with an effective date that is not more than 60 days from the date of filing, except that an agency may specify an effective date that is more than 60 days from the date of filing if a waiver is obtained pursuant to RSA 541–A:40.

541–A:15 Publication of Rules.

I. The director of legislative services shall compile, index, and publish, or require agencies to publish, all effective rules adopted by each agency. The text of an adopted rule as filed with the director and which is effective shall be the official version of the rule, unless or until a version prepared for publication, which may have editorial changes not affecting the substance of the rule, is certified by the agency as the same in substance as originally filed. The certified version shall be the official version. The official version of the rule shall be available to the public by the agency and the director pursuant to RSA 541–A:14, IV.

I–a. The director shall send the text of a rule to be certified to the agency adopting the rule. The agency shall certify the rule under paragraph I within 120 days of receiving the first edited text. The 120-day deadline shall not apply to interim rules or emergency rules. A copy of each rule as filed and each as certified shall be sent by the director to the state library and the New Hampshire law library at the supreme court.

I–b. Compilations shall be supplemented, revised, or published as often as necessary. The compilation, indexing, or publishing of fiscal impact statements shall not be required. The director of legislative services, in consultation with state agencies, may enter into a contract for the preparation and publishing of the compilation of agency rules or any portion of it, or may certify a commercially prepared version of the compilation. Any version or portion of the code published under this section shall conform to all requirements of this chapter.

II. The director of legislative services shall assist the agencies in developing a publicly accessible electronic rules database.

III. The director of legislative services may omit from the compilation any rule the publication of which would be unduly cumbersome, expensive, or otherwise inexpedient, if the rule in printed or processed form is made available on application to the adopting agency, and if the compilation contains a notice stating the general subject matter of the omitted rule and stating how a copy thereof may be obtained.

541–A:16 Rules; Filing Required.

I. In addition to other rulemaking requirements imposed by law, each agency shall:

(a) Adopt as a rule a description of its organization, stating the general course and method of its operations and the methods by which the public may obtain information or make submissions or requests.

(b) Adopt rules of practice setting forth the nature and requirement of all formal and informal procedures available, including:

(1) [Repealed.]

(2) Rules governing adjudicative proceedings pursuant to RSA 541–A:30–a; and

(3) Rules governing public comment hearings for rulemaking.

(c) Adopt rules setting the format and procedures for submitting, considering, and disposing of rulemaking petitions under RSA 541–A:4.

(d) Adopt rules relating to filing petitions for declaratory rulings and their prompt disposition.

II. Each agency shall also:

(a) Make available to the public all written statements of policy or interpretations, other than rules, formulated or used by the agency in the discharge of its functions.

(b) File with the director of legislative services all declaratory rulings issued.

III. A rule shall become effective as of 12:01 a.m. on the day after the filing of the adopted rule or as of 12:01 a.m. on the date specified by the agency pursuant to RSA 541–A:14, IV, RSA 541–A:14–a, III, or RSA 541–A:19, X, or such other date and time as specified, provided that filing occurs before such effective date and time. Except as provided in RSA 541–A:14–a, a rule adopted under RSA 541–A:14, IV shall expire after the last day of the tenth year following its becoming effective, unless sooner amended, readopted, or repealed.

IV. If any deadline for action by an agency, the public, or the committee imposed by this chapter falls on a Saturday, Sunday, or state legal holiday, the deadline for such action shall be extended to the next day that is not a Saturday, Sunday, or state legal holiday.

541–A:17 Time Limit.

I. No rule shall be effective for a period of longer than 10 years except as extended pursuant to RSA 541–A:14–a, but the agency may adopt an identical rule under RSA 541–A:5 through RSA 541–A:14–a, in conformance with the drafting and procedure manual adopted under RSA 541–A:8.

II. Notwithstanding the provisions of paragraph I, any organizational and procedural rules proposed and adopted pursuant to RSA 541–A:16, I and as identified in the drafting and procedure manual shall not expire, provided that they have been approved by the committee. No changes to such organizational and procedural rules may be made by the agency, other than editorial changes not affecting the substance of the procedural rules, without following the rulemaking procedures in this chapter. However, if the adoption or amendment of a statute governing the agency renders the agency's organizational and procedural rules no longer accurate, such rules shall expire one year after the effective date of the statute that makes such change, unless such organizational and procedural rules are amended, superseded, or repealed before such expiration. The agency shall commence rulemaking to amend its rules no later than 90 days after the effective date of such statute. If the agency reorganizes its organization and responsibilities in such a way that the agency's rules under RSA 541–A:16, I(a) describing its organization are no longer accurate, the agency shall amend its rules as soon as is practicable, but shall commence rulemaking not later than 90 days after such changes occur.

541–A:18 Emergency Rules.

I. An agency may proceed to adopt an emergency rule if it finds either that an imminent peril to the public health or safety requires adoption of a rule with less notice than is required under RSA 541–A:6 or that substantial fiscal harm to the state or its

citizens could occur if rules are not adopted with less notice than is required under RSA 541–A:6. The rule may be adopted without having been filed in proposed or final proposed form and may be adopted after whatever notice and hearing the agency finds to be practicable under the circumstances. The agency shall make reasonable efforts to ensure that emergency rules are made known to persons who may be affected by them.

II. Notwithstanding RSA 541–A:16, III, emergency rules adopted under this section shall not remain in effect for more than 180 days from the date and time of filing with the director of legislative services. An agency may propose a permanent rule on the same subject at the same time that it adopts an emergency rule, but it shall not adopt the same emergency rule when the emergency rule expires.

III. Emergency rules adopted under this section shall include:

(a) The name and address of the agency.

(b) The statutory authority for the rule.

(c) Whether the intended action is an adoption, amendment, or repeal.

(d) The rule number and title.

(e) A signed and dated statement by the adopting authority explaining the nature of the basis for the emergency rule, including an explanation of the effect upon the state if the emergency rule were not adopted.

(f) A listing of people, enterprises, and government agencies affected by the rule.

(g) The name, address, and telephone number of an individual in the agency able to answer questions on the emergency rule.

IV. Emergency rules adopted under this section shall not be adopted solely to avoid the time requirements of this chapter. The committee may petition the adopting agency to repeal the rule if it determines that the statement of emergency required by RSA 541–A:18, III(e) is inadequate and does not demonstrate that the rule is necessary to prevent an imminent peril to the public health or safety.

V. Effective rules which are amended or repealed by adoption of an emergency rule shall again be effective in their original form upon expiration of the emergency rule.

VI. An agency may repeal an emergency rule by filing a statement with the director of legislative services which includes:

(a) The name and address of the agency.

(b) The rule number and title.

(c) The effective date of the repeal.

(d) The name, address, and telephone number of an individual within the agency able to answer questions about the repeal.

(e) An explanation of why the rule is being repealed.

541–A:19 Interim Rules.

I. An agency may adopt as an interim rule any rule which amends an existing rule, repeals an existing rule, or creates a new rule, and which is designed solely to allow the agency to:

(a) Conform with a new or amended codified state statute or chaptered session law, provided, however, that an agency shall not publish notice of a proposed interim rule more than 120 days after the effective date of the new or amended codified state statute or chaptered session law;

(b) Conform with a controlling judicial decision;

(c) Conform with a federal requirement which must be met sooner than the time periods allowed under RSA 541–A for a rule adopted under the procedures listed in RSA 541–A:3;

(d) Continue its rules which would otherwise expire prior to the completion of the readoption of the rules by the agency; or

(e) Minimize the time between the expiration of rules and their subsequent readoption by the agency.

II. An agency may adopt an interim rule under subparagraphs I(a), (b), or (c) without meeting the requirements of RSA 541–A:6 and RSA 541–A:9 through RSA 541–A:14 and an agency may adopt an interim rule under subparagraph I(d) or (e) without meeting the requirements of RSA 541–A:5 through RSA 541–A:14 provided the agency:

(a) Publishes notice of a proposed interim rule in a newspaper of daily statewide circulation and files the proposed interim rule, with the cover sheet as provided in paragraph IV, with the director of legislative services no later than the date of publication of the notice; or

(b) Files the proposed interim rule with the cover sheet as provided in paragraph IV, and the notice of the proposed interim rule with the director of legislative services, and has published notice in the rulemaking register.

III. Notice of an agency's intent to propose an interim rule shall include:

(a) The name and address of the agency.

(b) Citation to the statutory or other rulemaking authority for the proposed interim rule.

(c) Whether the proposed interim rule is an adoption, readoption, amendment, readoption with amendment, or repeal.

(d) The rule number and title.

(e) A concise summary explaining the effect of the proposed interim rule.

(f) A listing of people, enterprises, and government agencies affected by the proposed interim rule.

(g) A summary of the effect upon the state if the proposed interim rule were not adopted.

(h) The name, address, and telephone number of an individual in the agency able to answer questions on the proposed interim rule.

(i) The date the proposed interim rule will be filed with the director of legislative services.

(j) The expected date of review by the committee.

IV. Proposed interim rules filed under paragraph II shall include a cover sheet stating:

(a) The name and address of the agency.

(b) Citation to the statutory rulemaking authority for the proposed interim rule.

(c) Whether the intended action is an adoption, readoption, amendment, readoption with amendment, or repeal.

(d) The rule number and title.

(e) A signed and dated statement by the adopting authority explaining why an interim rule is necessary, including documentary evidence to prove the agency is acting in accordance with the terms of this section and is not adopting an interim rule solely to avoid the time periods imposed by RSA 541–A, except as provided in paragraph I of this section.

(f) A listing of people, enterprises, and government agencies affected by the proposed interim rule.

(g) The name, address, and telephone number of an individual in the agency able to answer questions on the proposed interim rule.

V. A proposed interim rule filed under paragraph II no less than 14 days before a regularly scheduled committee meeting shall be placed on the committee's agenda for review for that meeting. Publication of notice shall occur no less than 7 days before a regularly scheduled meeting. If the agency has published notice in a newspaper, pursuant to subparagraph II(a), the agency shall file a copy of the notice as it was published no later than 3 days after the date of publication. Proposed interim rules filed less than 14 days before a regularly scheduled committee meeting shall be placed on the agenda for review at the following regularly scheduled committee meeting or at a special meeting, as determined by the committee.

VI. The committee shall vote to approve the rule or object under paragraph VII. Objections to a proposed interim rule may be made only once.

VII. The committee may object to a proposed interim rule if the rule is:

(a) Beyond the authority of the agency;

(b) Contrary to the intent of the legislature;

(c) Determined not to be in the public interest; or

(d) Deemed by the committee not to meet the requirements of paragraph I.

VIII. The following procedures shall govern committee review of interim rules:

(a) The director of legislative services shall notify the agency of any potential bases for committee objection by forwarding a copy of the proposed interim rule with comments noted thereon to the agency at least 7 days prior to the committee meeting at which the rule will be considered. Following receipt of the comments an agency may amend its interim rule to address the noted potential bases for objection. The agency may present the amended proposal to the committee for approval at the committee meeting. The committee may approve the rule as originally proposed or as amended.

(b) If the committee objects to the proposed interim rule as filed or as amended, it shall so inform the agency. In lieu of an objection, the committee may vote to conditionally approve the rule with an amendment, provided that the committee specified in its conditional approval the language of the amendment to address the basis for a preliminary objection. The committee shall notify the agency in writing of its conditional approval. Within 14 days of the meeting, the agency shall submit a written explanation to the committee in the form of a letter and an annotated text of the final proposed rule detailing how the rule has been amended in accordance with the conditional approval. The written explanation shall be signed by

the individual holding rulemaking authority, or, if a body of individuals holds rulemaking authority, by a voting member of that body, provided that a quorum of the body has approved. Failure to submit a written explanation in accordance with the conditional approval and this paragraph shall cause the conditional approval to be deemed a committee vote to make a preliminary objection on the date of the conditional approval. If the committee legal counsel determines that the agency has amended the rule in accordance with the conditional approval and this paragraph, the committee legal counsel shall promptly send written confirmation of compliance to the agency. The agency may then adopt the rule as amended.

(c) If the committee objects to the proposed interim rule as filed or as amended pursuant to subparagraph VIII(a), the committee shall send the agency a written objection stating the basis for the objection. An objection or a conditional approval shall require the assent of a majority of the votes cast, a quorum being present.

(d) If the committee makes an objection to the proposed interim rule pursuant to subparagraph VIII(c), the agency may cure the defect or withdraw the interim rule. The agency shall respond to a committee objection only once, and shall report its response in writing to the committee prior to its next regularly scheduled meeting. Failure to respond to the committee in accordance with this subparagraph shall mean the rulemaking procedure for that proposed interim rule is invalid; however, the agency is not precluded from initiating the process over again for a similar rule, provided the conditions in paragraph I are met.

(e) The committee shall review the response and vote to approve the response or continue the objection.

(f) The committee's objection shall not preclude the agency from adopting the substance of an interim rule by meeting the requirements of RSA 541–A:3.

IX. No proposed interim rule shall be adopted unless within 90 days of publication of the notice the committee votes to approve or conditionally approve the proposed interim rule.

X. No proposed interim rule shall be adopted unless the committee has voted to approve the proposed interim rule or conditionally approve the proposed interim rule, provided that the committee legal counsel has sent written confirmation to the agency pursuant to RSA 541–A:19, VIII(b). An adopted interim rule shall be filed with the director of legislative services no later than 30 days following committee approval or conditional approval. An interim rule shall be effective under RSA 541–A:16, III on the day after filing with the director of legislative services, or at a later date, provided the agency so specifies in a letter to the director of legislative services and the effective date is within 30 days following committee approval or conditional approval. Interim rules shall be effective for a period not to exceed 180 days. During the time an interim rule shall be in effect, the agency may propose a permanent rule to replace the interim rule once it expires, but it shall not adopt another interim rule to replace the expiring interim rule.

The agency shall be made a party to the action. The plaintiff shall give notice of the action to the office of legislative services, division of administrative rules, at the time of filing. 541–A:29 Agency Action on Applications, Petitions and Requests. In processing an application, petition or request, in any matter other than rulemaking or a declaratory ruling, in which a response is specifically addressed to the applicant, petitioner or requester, the agency shall:

I. Within 60 days of receipt, examine the application, petition or request, notify the applicant of any apparent errors or omissions, request any additional information that the agency is permitted by law to require, and notify the applicant of the name, official title, address, and telephone number of an agency official or employee who may be contacted regarding the application.

II. Within a reasonable time, not to exceed 120 days, after receipt of the application, petition or request, or of the response to a timely request made by the agency pursuant to paragraph I, the agency shall:

(a) Approve or deny the application, in whole or in part, on the basis of nonadjudicative processes, if disposition of the application by the use of these processes is not precluded by any provision of law; or

(b) Commence an adjudicative proceeding in accordance with this chapter.

III. If the time limits prescribed by this section conflict with specific time limits provided for by other provisions of law, the specific time limits provided for by such other provisions shall control.

541–A:30 Agency Action Against Licensees.

I. If a timely and sufficient application has been made in accordance with agency rules for renewal of a license for any activity of a continuing nature that does not automatically expire by law, the existing license shall not expire until the agency has taken final action upon the application for renewal. If the

agency's final action is unfavorable, the license shall not expire until the last day for seeking judicial review of the agency's action, or a later date fixed by the reviewing court.

II. An agency shall not revoke, suspend, modify, annul, withdraw, or amend a license unless the agency first gives notice to the licensee of the facts or conduct upon which the agency intends to base its action, and gives the licensee an opportunity, through an adjudicative proceeding, to show compliance with all lawful requirements for the retention of the license.

III. If the agency finds that public health, safety or welfare requires emergency action and incorporates a finding to that effect in its order, immediate suspension of a license may be ordered pending an adjudicative proceeding. The agency shall commence this adjudicative proceeding not later than 10 working days after the date of the agency order suspending the license. A record of the proceeding shall be made by a certified shorthand court reporter provided by the agency. Unless expressly waived by the licensee, agency failure to commence an adjudicative proceeding within 10 working days shall mean that the suspension order is automatically vacated. The agency shall not again suspend the license for the same conduct which formed the basis of the vacated suspension without granting the licensee prior notice and an opportunity for an adjudicative proceeding.

541–A:30–a Rules for Adjudicative Proceedings.

I. Subject to paragraph V, each agency shall adopt rules pursuant to RSA 541–A governing the nature and requirement of all formal and informal procedures available in an adjudicative proceeding.

II. The attorney general, in consultation with agencies that conduct adjudicative proceedings, and with the approval of the director of the office of legislative services, shall draft proposed rules on model procedures relative to adjudicative proceedings and request a fiscal impact statement pursuant to RSA 541–A:5 within 90 days of the effective date of this section. The attorney general shall adopt the model rules pursuant to RSA 541–A on behalf of agencies, for purposes described in paragraph V, that do not have adopted effective rules on adjudicative proceedings. The attorney general shall amend the model rules pursuant to RSA 541–A as necessary after consultation and approval as required for the original proposed model rules. Neither the original proposed model rules nor any amendments shall be adopted by the attorney general unless the committee has voted to approve them. Notwithstanding RSA 541–A:17, I, the original model rules and any amendments shall not expire.

III. The model rules adopted pursuant to paragraph II, and all rules on adjudicative proceedings, unless authorized otherwise by statutes governing an agency, shall address at least the following areas:

(*l*) Retention schedule for written decisions or orders pursuant to RSA 541–A:35, subject to any longer periods for retention set by the director of the division of archives and records management of the department of state pursuant to rules adopted under RSA 5:40.

IV. Each agency may adopt, pursuant to RSA 541–A, the text of the model rules. In order to adopt any supplements or modifications to the model rules, each agency shall adopt, pursuant to RSA 541–A, the text of the model rules as amended by the supplements or modifications.

V. Notwithstanding the provisions of RSA 541–A:22, I, an agency shall apply the model rules as necessary in a particular adjudicative proceeding to the extent that the agency's rules or governing statutes do not address the procedures in the model rules, and provided that:

(a) Such use shall not conflict with a statute, judicial decision, or other rules of the agency;

(b) Notice shall be given to all parties with the notice pursuant to RSA 541–A:31, III of the extent to which the model rules will apply to the proceeding; and

(c) The agency shall provide copies of the notice to the attorney general, the director of the office of

legislative services, and the joint legislative committee on administrative rules.

VI. A copy of the written decision or order pursuant to RSA 541–A:35 shall be readily available to the public pursuant to the provisions of RSA 91–A unless:

(a) Otherwise provided by statute; or

(b) The written decision or order has been disposed after a retention period adopted pursuant to paragraph III.

VII. Each agency shall retain a copy of the verbatim recording of all oral proceedings pursuant to RSA 541–A:31, VII at least 30 days after the opportunity for all administrative and judicial appeals has been exhausted.

VIII. The attorney general shall prepare and distribute to all agencies authorized to conduct contested cases copies of the model rules and any amendments thereto, along with recommended guidelines for presiding officers in an adjudicative proceeding. These guidelines shall be available to the public pursuant to RSA 91–A. The guidelines shall be updated annually to address relevant changes in statutes, rules, or judicial decisions. Each agency that receives the guidelines shall provide a copy to all presiding officers in a contested case and to all members of the agency who may render the final decision in a contested case.

541–A:31 Availability of Adjudicative Proceeding; Contested Cases; Notice, Hearing and Record.

I. An agency shall commence an adjudicative proceeding if a matter has reached a stage at which it is considered a contested case or, if the matter is one for which a provision of law requires a hearing only upon the request of a party, upon the request of a party.

II. (a) An agency may commence an adjudicative proceeding at any time with respect to a matter within the agency's jurisdiction, except that no disciplinary proceeding against an occupational licensee shall be initiated unless such action is commenced within 5 years of the date upon which the alleged violation of an applicable rule or statute occurred, or within 5 years of the date upon which the violation could reasonably have been discovered.

(b) The time limitation provided in subparagraph (a) shall be tolled (1) during the period of time during which a criminal action on the matter is pending in a trial court of this state, or of another state, or of the United States, (2) during the time in which a complainant is a minor or incapacitated, and (3) during any time which the accused prevents discovery of the subject matter of the alleged violation.

(c) The time limitations established in this paragraph shall not apply to the commencement of actions initiated by the real estate appraiser board under RSA 310–B.

III. In a contested case, all parties shall be afforded an opportunity for an adjudicative proceeding after reasonable notice. The notice shall include:

(a) A statement of the time, place, and nature of the hearing.

(b) A statement of the legal authority under which the hearing is to be held.

(c) A reference to the particular sections of the statutes and rules involved.

(d) A short and plain statement of the issues involved. Upon request an agency shall, when possible, furnish a more detailed statement of the issues within a reasonable time.

(e) A statement that each party has the right to have an attorney present to represent the party at the party's expense.

(f) For proceedings before an agency responsible for occupational licensing as provided in paragraph VII–a, a statement that each party has the right to have the agency provide a certified shorthand court reporter at the party's expense and that any such request be submitted in writing at least 10 days prior to the proceeding.

IV. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

V. (a) Unless precluded by law, informal disposition may be made of any contested case, at any time prior to the entry of a final decision or order, by stipulation, agreed settlement, consent order or default.

(b) In order to facilitate proceedings and encourage informal disposition, the presiding officer may, upon motion of any party, or upon the presiding officer's own motion, schedule one or more informal prehearing conferences prior to beginning formal proceedings. The presiding officer shall provide notice to all parties prior to holding any prehearing conference.

(c) Prehearing conferences may include, but are not limited to, consideration of any one or more of the following:

(1) Offers of settlement.

(2) Simplification of the issues.

(3) Stipulations or admissions as to issues of fact or proof, by consent of the parties.

(4) Limitations on the number of witnesses.

(5) Changes to standard procedures desired during the hearing, by consent of the parties.

VI. The record in a contested case shall include all of the following that are applicable in that case:

(a) Any prehearing order.

(b) All pleadings, motions, objections, and rulings.

(c) Evidence received or considered.

(d) A statement of matters officially noticed.

(i) Matters placed on the record after an ex parte communication.

VII. The entirety of all oral proceedings shall be recorded verbatim by the agency. Upon the request of any party or upon the agency's own initiative, such record shall be transcribed by the agency if the requesting party or agency shall pay all reasonable costs for such transcription. If a transcript is not provided within 60 days of a request by a person who is a respondent party in a disciplinary hearing before an agency responsible for occupational licensing, the proceeding shall be dismissed with prejudice. Any party may record an oral proceeding, have a transcription made at the party's expense, or both, but only the transcription made by the agency from its verbatim record shall be the official transcript of the proceeding.

VII–a. At the request of a party in any oral proceeding involving disciplinary action before an agency responsible for occupational licensing except for an emergency action under RSA 541–A:30, III, the record of the proceeding shall be made by a certified shorthand court reporter provided by the agency at the requesting party's expense. 541–A:32 Intervention.

I. The presiding officer shall grant one or more petitions for intervention if:

(a) The petition is submitted in writing to the presiding officer, with copies mailed to all parties named in the presiding officer's notice of the hearing, at least 3 days before the hearing;

(b) The petition states facts demonstrating that the petitioner's rights, duties, privileges, immunities or other substantial interests may be affected by the proceeding or that the petitioner qualifies as an intervenor under any provision of law; and

(c) The presiding officer determines that the interests of justice and the orderly and prompt conduct of the proceedings would not be impaired by allowing the intervention.

II. The presiding officer may grant one or more petitions for intervention at any time, upon determining that such intervention would be in the interests of justice and would not impair the orderly and prompt conduct of the proceedings.

III. If a petitioner qualifies for intervention, the presiding officer may impose conditions upon the intervenor's participation in the proceedings, either at the time that intervention is granted or at any subsequent time. Such conditions may include, but are not limited to:

(a) Limitation of the intervenor's participation to designated issues in which the intervenor has a particular interest demonstrated by the petition.

(b) Limitation of the intervenor's use of cross-examination and other procedures so as to promote the orderly and prompt conduct of the proceedings.

(c) Requiring 2 or more intervenors to combine their presentations of evidence and argument, cross-examination, and other participation in the proceedings.

IV. Limitations imposed in accordance with paragraph III shall not be so extensive as to prevent the intervenor from protecting the interest which formed the basis of the intervention.

V. The presiding officer shall render an order granting or denying each petition for intervention, specifying any conditions and briefly stating the reasons for the order. The presiding officer may modify the order at any time, stating the reasons for the modification.

541–A:33 Evidence; Official Notice in Contested Cases.

I. All testimony of parties and witnesses shall be made under oath or affirmation administered by the presiding officer.

II. The rules of evidence shall not apply in adjudicative proceedings. Any oral or documentary evidence may be received; but the presiding officer may exclude irrelevant, immaterial or unduly repetitious evidence. Agencies shall give effect to the rules of privilege recognized by law. Objections to evidence offered may be made and shall be noted in the record. Subject to the foregoing requirements, any part of the evidence may be received in written form if the interests of the parties will not thereby be prejudiced substantially.

III. Documentary evidence may be received in the form of copies or excerpts if the original is not readily available. Upon request, parties shall be given an opportunity to compare the copy with the original.

IV. A party may conduct cross-examinations required for a full and true disclosure of the facts.

V. Official notice may be taken of any one or more of the following:

(a) Any fact which could be judicially noticed in the courts of this state.

(b) The record of other proceedings before the agency.

(c) Generally recognized technical or scientific facts within the agency's specialized knowledge.

541–A:34 Examination of Evidence by Agency. If a majority of the officials of the agency who are to render the final decision in a contested case have not heard the case or read the record, the decision, if adverse to a party to the proceeding other than the agency itself, shall not be made until a proposal for decision is served upon the parties and an opportunity is afforded to each party adversely affected to file exceptions and present briefs and oral argument to the officials who are to render the final decision. The proposal for decision shall contain a statement of the reasons for the decision and shall set forth each issue of fact or law necessary to the proposed decision, prepared by the person who conducted the hearing or one who has read the record. The parties by written stipulation may waive compliance with this section.

541–A:35 Decisions and Orders. A final decision or order adverse to a party in a contested case shall be in writing or stated in the record. A final decision shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. If, in accordance with agency rules, a party submitted proposed findings of fact, the decision shall include a ruling upon each proposed finding. Parties shall be notified either personally or by mail of any decision or order. Upon request, a copy of the decision or order shall be delivered or mailed promptly to each party and to a party's recognized representative.

541–A:38 Informal Settlements. Except to the extent precluded by law, informal settlement of matters by nonadjudicative processes is encouraged. This section does not require any party or other person to utilize informal procedures or to settle a matter pursuant to informal procedures.

541–A:39 Notice to Municipalities.

I. In addition to any other requirements imposed by this chapter, each agency shall give notice to and afford all affected municipalities reasonable opportunity to submit data, views, or comments with respect to the issuance of a permit, license, or any action within its boundaries that directly affects the municipality. Such actions shall include those which may have an effect on land use, land development, or transportation; those which would result in the operation of a business; or those which would have an immediate fiscal impact on the municipality or require the provision of additional municipal services.

II. Each agency shall give notice by first class mail to the town or city clerk.

III. In the event of emergency circumstances which require prompt attention, prior notice or opportunity to comment shall not be required. However, notice contemporaneous with the action shall be required.

IV. This section shall not apply to the issuance of professional or occupational licenses unless such issuance also results in actions meeting the criteria set forth in paragraph I. This section shall not apply to reissuance or renewal of licenses or permits issued prior to August 23, 1985.

541–A:40 Suspension of Provisions.

I. To the extent necessary to avoid a denial of funds or services from the United States which would otherwise be available to the state, the governor may suspend, in whole or in part, one or more provisions of this chapter. When the governor determines that a suspension is no longer necessary to prevent the loss of funds or services from the United States, the governor shall issue an order specifying the dates of termination of a suspension.

II. The original copy of any suspension order or order recognizing the termination of a suspension issued by the governor shall be dated, certified and filed in the office of legislative services.

III. If any provision of this chapter is suspended pursuant to this section, the governor shall promptly report the suspension to the general court. The report shall include recommendations with respect to any desirable legislation that may be necessary to conform this chapter with federal law.

IV. (a) Notwithstanding any other provision of this chapter, the director of legislative services may, after consultation with the chair and vice-chair of the joint legislative committee on administrative rules, and for good cause shown, waive any deadline or otherwise extend any time period contained in any provision of this chapter which relates to the rulemaking process.

(b) If a deadline is waived or a time period is extended, the director shall, after consultation with the chair and the vice-chair of the committee and the agency whose rules are affected, establish a new deadline by which the required action shall be taken.

547–B:3 Appointment of Guardian.

I. Notwithstanding any other provision of law to the contrary, when nomination of a guardian is required under RSA 135–C:60 or RSA 171–A:10, and there is no relative, friend, or other interested person available, willing, and able to serve in such a capacity, the probate court may appoint the public guardianship and protection program as guardian of the person, estate, or both person and estate, as may be deemed appropriate.

II. In other instances when guardianship services are required and there is no relative, friend, or other interested person available, willing, and able to serve in such a capacity, the probate court may appoint the public guardianship and protection program as guardian of the person, estate, or both person and estate, as may be deemed appropriate, provided that there are funds available to pay for such services.

547–B:4 Powers and Duties. Except as limited by law or court order, the public guardianship and protection program shall have the same powers and duties as those granted to private guardians or conservators, pursuant to RSA 464–A. The public guardianship and protection program shall file annual reports with the probate court for each person for whom it is appointed guardian or co-guardian as provided in RSA 547–B:5. The reports shall be reviewed by the court to insure that the public guardianship and protection program is complying with all requirements of state and federal law, that the ward is receiving appropriate care and services, and that the highest ethical standards are being maintained.

547–B:5 Appointment of Co-Guardian. Both co-guardians shall make themselves readily available to each other to consult with each other, to gather and share all relevant information, and to plan and decide procedures which execute the powers and duties assigned by the appointing court. Disagreements shall be resolved upon petition by decision of the court, prior to which emergency decisions by the public guardianship and protection program shall prevail. Absence or unavailability of either co-guardian empowers the other to act in the capacity of guardian.

547–B:6 Contract for Program Services.

I. The department of health and human services, with the approval of the governor and council, shall contract with one or more organizations approved by the New Hampshire supreme court which shall be designated the public guardianship and protection program and which shall provide guardianship services pursuant to RSA 464–A, as required by RSA 135–C:60 and RSA 171–A:10. The contract shall fix the cost per guardianship and shall permit the contracting organization to subcontract for such consulting services as may be necessary to carry out the program's guardianship responsibilities. The compensation for operation of the public guardianship and protection program shall be such sums as may be fixed by the contract, subject to the appropriations made therefor.

II. The contract may provide for protection services other than guardianship services when such services are consistent with the intent of RSA 464–A. The contract shall set forth an appropriate rate for such services, if provided. Such protective services may include, but not be limited to, power of attorney,

547–B:7 Services to Other Clients. Nothing in this chapter shall prevent an organization designated as a public guardianship and protection program from providing guardianship or other services to any individual when such services are not mandated by RSA 135–C:60 or RSA 171–A:10, except that no funds furnished under a contract entered into pursuant to RSA 547–B:6 shall be expended for services provided to such other individuals.

TITLE LVIII

PUBLIC JUSTICE

CHAPTER 570–A

WIRETAPPING AND EAVESDROPPING

570–A:2 Interception and Disclosure of Telecommunication or Oral Communications Prohibited.

I. A person is guilty of a class B felony if, except as otherwise specifically provided in this chapter or without the consent of all parties to the communication, the person:

(a) Wilfully intercepts, endeavors to intercept, or procures any other person to intercept or endeavor to intercept, any telecommunication or oral communication;

(b) Wilfully uses, endeavors to use, or procures any other person to use or endeavor to use any electronic, mechanical, or other device to intercept any oral communication when:

(1) Such device is affixed to, or otherwise transmits a signal through, a wire, cable, or other like connection used in telecommunication, or

(2) Such device transmits communications by radio, or interferes with the transmission of such communication, or

(3) Such use or endeavor to use (A) takes place on premises of any business or other commercial establishment, or (B) obtains or is for the purpose of obtaining information relating to the operations of any business or other commercial establishment; or

(c) Wilfully discloses, or endeavors to disclose, to any other person the contents of any telecommunication or oral communication, knowing or having reason to know that the information was obtained through the interception of a telecommunication or oral communication in violation of this paragraph; or

(d) Willfully uses, or endeavors to use, the contents of any telecommunication or oral communication, knowing or having reason to know that the information was obtained through the interception of a telecommunication or oral communication in violation of this paragraph.

I–a. A person is guilty of a misdemeanor if, except as otherwise specifically provided in this chapter or without consent of all parties to the communication, the person knowingly intercepts a telecommunication or oral communication when the person is a party to the communication or with the prior consent of one of the parties to the communication, but without the approval required by RSA 570–A:2, II(d).

II. It shall not be unlawful under this chapter for:

(a) Any operator of a switchboard, or an officer, employee, or agent of any communication common carrier whose facilities are used in the transmission of a telecommunication, to intercept, disclose, or use that communication in the normal course of employment while engaged in any activity which is a necessary incident to the rendition of service or to the protection of the rights or property of the carrier of such communication; provided, however, that said communication common carriers shall not utilize service observing or random monitoring except for mechanical or service quality control checks.

(b) An officer, employee, or agent of any communication common carrier to provide information, facilities, or technical assistance to an investigative or law enforcement officer who, pursuant to this chapter, is authorized to intercept a telecommunication or oral communication.

Oral authorization for the interception may be given and a written memorandum of said determina-

tion and its basis shall be made within 72 hours thereafter. The memorandum shall be kept on file in the office of the attorney general.

(e) Where the offense under investigation is defined in RSA 318–B, the attorney general to delegate authority under RSA 570–A:2, II(d) to a county attorney. The county attorney may exercise this authority only in the county where the county attorney serves. The attorney general shall, prior to the effective date of this subparagraph, adopt specific guidelines under which the county attorney may give authorization for such interceptions. Any county attorney may further delegate authority under this section to any assistant county attorney in the county attorney's office.

(f) An officer, employee, or agent of the Federal Communications Commission, in the normal course of employment and in discharge of the monitoring responsibilities exercised by the commission in the enforcement of chapter 5 of title 47 of the United States Code, to intercept a telecommunication, or oral communication transmitted by radio, or to disclose or use the information thereby obtained.

(g) Any law enforcement officer, when conducting investigations of or making arrests for offenses enumerated in this chapter, to carry on the person an electronic, mechanical or other device which intercepts oral communications and transmits such communications by radio.

(h) Any municipal, county, or state fire or police department, the division of emergency services and communications as created by RSA 21–P:48–a, including the bureau of emergency communications as defined by RSA 106–H, or any independently owned emergency service, and their employees in the course of their employment, when receiving or responding to emergency calls, to intercept, record, disclose or use a telecommunication, while engaged in any activity which is a necessary incident to the rendition of service or the protection of life or property.

(i) Any public utility regulated by the public utilities commission, and its employees in the course of employment, when receiving central dispatch calls or calls for emergency service, or when responding to central dispatch calls or calls for emergency service, to intercept, record, disclose or use a telecommunication, while engaged in any activity which is a necessary incident to the rendition of service, or the protection of life and property. Any public utility recording calls pursuant to this subparagraph shall provide an automatic tone warning device which automatically produces a distinct signal that is repeated at regular intervals during the conversation. The public utilities commission may adopt rules relative to the recording of emergency calls under RSA 541–A.

(j) A uniformed law enforcement officer to make an audio recording in conjunction with a video recording of a routine stop performed in the ordinary course of patrol duties on any way as defined by RSA 259:125, provided that the officer shall first give notification of such recording to the party to the communication unless it is not reasonable or practicable under the circumstances.

(k)(1) The owner or operator of a school bus, as defined in RSA 259:96, to make an audio recording in conjunction with a video recording of the interior of the school bus while students are being transported to and from school or school activities, provided that the school board authorizes audio recording, the school district provides notification of such recording to the parents and students as part of the district's pupil safety and violence prevention policy required under RSA 193–F, and there is a sign informing the occupants of such recording prominently displayed on the school bus.

(2) Prior to any audio recording, the school board shall hold a public hearing to determine whether audio recording should be authorized in school buses, and if authorized, the school board shall establish an administrative procedure to address the length of time which the recording is retained, ownership of the recording, limitations on who may listen to the recording, and provisions for erasing or destroying the recording. Such administrative procedure shall permit the parents or legal guardian of any student against whom a recording is being used as part of a disciplinary proceeding to listen to the recording. In no event, however, shall the recording be retained for longer than 10 school days unless the school district determines that the recording is relevant to a disciplinary proceeding, or a court orders that it be retained for a longer period of time. An audio recording shall only be reviewed if there has been a report of an incident or a complaint relative to conduct on the school bus, and only that portion of the audio recording which is relevant to the incident or complaint shall be reviewed.

EXPOSING MINORS TO HARMFUL MATERIALS

General Provisions

Preliminary Hearing

General Provisions

571–B:1 Definitions. As used in this chapter:

I. "Harmful to minors" means that quality of any description or representation, in whatever form of sexual conduct, when it:

(a) Predominantly appeals to the prurient interest of minors in sex, that is, an interest in lewdness or lascivious thoughts;

(b) Depicts or describes sexual conduct in a manner so explicit as to be patently offensive to contemporary adult standards, in the county within which any offense set forth in this chapter was committed, with respect to what is suitable material for minors; and

(c) Lacks serious literary, artistic, political or scientific value.

II. "Knowingly" means having general knowledge of, or reason to know, or a belief or ground for belief which warrants further inspection or inquiry, or both, as to:

(a) The character and content of any material described herein which is reasonably susceptible of examination by the defendant, and

(b) The age of the minor; provided, however, that an honest mistake shall constitute an excuse from liability hereunder if the defendant made a reasonably bona fide attempt to ascertain the true age of such minor.

III. "Minor" means any person under the age of 18 years.

IV. "Sexual conduct" means human masturbation, sexual intercourse, actual or simulated, normal or perverted, or any touching of the genitals, pubic areas or buttocks of the human male or female, or the breasts of the female, whether alone or between members of same or opposite sex or between humans and animals, any depiction or representation of excretory functions, any lewd exhibitions of the genitals, flagellation or torture in the context of a sexual relationship. Sexual intercourse is simulated when it depicts sexual intercourse which give the appearance of the consummation of sexual intercourse, normal or perverted.

571–B:2 Offenses.

I. It shall be unlawful for any person knowingly to give, sell, loan or otherwise provide, with or without monetary consideration, to a minor:

(a) Any picture, photograph, drawing, sculpture, motion picture film or similar visual representation or image of a person or portion of the human body which depicts sexual conduct and which is harmful to minors, or

It shall be unlawful for any person knowingly to exhibit, for or without monetary consideration, to a minor or knowingly to sell to a minor an admission ticket or pass or knowingly to admit a minor, for or without monetary consideration, to premises whereon there is exhibited a motion picture, show or other presentation which, in whole or in part, depicts or describes sexual conduct and which is harmful to minors.

Preliminary Hearing

571–B:4 Preliminary Hearing.

I. No recognized or established school, museum, public library or governmental agency, nor any person acting as an employee or agent of such institu-

tion, shall be arrested, charged or indicted for any violation of a provision of this chapter until such time as the material involved has first been the subject of an adversary hearing wherein such institution or person is made a defendant, and, after such material is declared by the court to be harmful to minors, such institution or person continues to engage in the conduct prohibited by this chapter. The sole issue at the hearing shall be whether the material is harmful to minors.

II. The adversary hearing prescribed in paragraph I of this section may be initiated only by complaint of the county attorney or the attorney general. Hearing on the complaint shall be held in the superior court of the county in which the alleged violation occurs. Notice of the complaint and of the hearing shall be given by registered mail or personal service. The notice shall state the nature of the violation, the date, place and time of the hearing, and the right to present and cross examine witnesses. In addition to the defendant, any other interested party may appear at the hearing in opposition to the complaint and may present and cross examine witnesses. For the purposes of this paragraph, the term "interested party" includes but is not limited to the manufacturer of the material alleged to be harmful to minors.

III. The state or any defendant may appeal from a judgment. Such appeal shall not stay the judgment. Any defendant engaging in conduct prohibited by this chapter subsequent to notice of the judgment finding the material to be harmful to minors shall be subject to criminal prosecution notwithstanding the appeal from the judgment.

630:1–b Second Degree Murder.

I. A person is guilty of murder in the second degree if:

(a) He knowingly causes the death of another; or

(b) He causes such death recklessly under circumstances manifesting an extreme indifference to the value of human life. Such recklessness and indifference are presumed if the actor causes the death by the use of a deadly weapon in the commission of, or in an attempt to commit, or in immediate flight after committing or attempting to commit any class A felony.

Source. 1971, 518:1, eff. Nov. 1, 1973.

630:5 Procedure in Capital Murder.

I. Whenever the state intends to seek the sentence of death for the offense of capital murder, the attorney for the state, before trial or acceptance by the court of a plea of guilty, shall file with the court and serve upon the defendant, a notice:

(a) That the state in the event of conviction will seek the sentence of death; and

(b) Setting forth the aggravating factors enumerated in paragraph VII of this section and any other aggravating factors which the state will seek to prove as the basis for the death penalty.

The court may permit the attorney for the state to amend this notice for good cause shown. Any such amended notice shall be served upon the defendant as provided in this section.

II. When the attorney for the state has filed a notice as required under paragraph I and the defendant is found guilty of or pleads guilty to the offense of capital murder, the judge who presided at the trial or before whom the guilty plea was entered, or any other judge if the judge who presided at the trial or before whom the guilty plea was entered is unavailable, shall conduct a separate sentencing hearing to determine the punishment to be imposed. The hearing shall be conducted:

(a) Before the jury which determined the defendant's guilt;

(b) Before a jury impaneled for the purpose of the hearing if:

(1) the defendant was convicted upon a plea of guilty; or

(2) the jury which determined the defendant's guilt has been discharged for good cause; or

(3) after initial imposition of a sentence under this section, redetermination of the sentence under this section is necessary.

A jury impaneled under subparagraph (b) shall consist of 12 members, unless at any time before the conclusion of the hearing, the parties stipulate with the approval of the court that it shall consist of any number less than 12.

III. When a defendant is found guilty of or pleads guilty to the offense of capital murder, no presentence report shall be prepared. In the sentencing hearing, information may be presented as to matters relating to any of the aggravating or mitigating factors set forth in paragraphs VI and VII, or any other mitigating factor or any other aggravating factor for which notice has been provided under subparagraph I(b). Where information is presented relating to any of the aggravating factors set forth in paragraph VII, information may be presented relating to any other aggravating factor for which notice has been provided under subparagraph I(b). Information presented may include the trial transcript and exhibits if the hearing is held before a jury or judge not present during the trial, or at the trial judge's discretion. Any other information relevant to such mitigating or aggravating factors may be presented by either the state or the defendant, regardless of its admissibility under the rules governing admission of evidence at criminal trials, except that information may be excluded if its probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or misleading the jury. The state and the defendant shall be permitted to rebut any information received at the hearing and shall be given fair opportunity to present argument as to the adequacy of the information to establish the existence of any of the aggravating or mitigating factors and as to appropriateness in that case of imposing a sentence of death. The state shall open and the defendant shall conclude the argument to the jury. The burden of establishing the existence of any aggravating factor is on the state, and is not satisfied unless established beyond a reasonable doubt. The burden of establishing the existence of any mitigating factor is on the defendant, and is not satisfied unless established by a preponderance of the evidence.

IV. The jury shall consider all the information received during the hearing. It shall return special findings identifying any aggravating factors set forth in paragraph VII, which are found to exist. If one of the aggravating factors set forth in subparagraph VII(a) and another of the aggravating factors set forth in subparagraphs VII(b)–(j) is found to exist, a special finding identifying any other aggravating factor for which notice has been provided under subparagraph I(b) may be returned. A finding with respect to a mitigating factor may be made by one or more of the members of the jury, and any member of the jury who finds the existence of a mitigating factor may consider such a factor established for purposes of this section, regardless of the number of jurors who con-

cur that the factor has been established. A finding with respect to any aggravating factor must be unanimous. If an aggravating factor set forth in subparagraph VII(a) is not found to exist or an aggravating factor set forth in subparagraph VII(a) is found to exist but no other aggravating factor set forth in paragraph VII is found to exist, the court shall impose a sentence of life imprisonment without possibility of parole. If an aggravating factor set forth in subparagraph VII(a) and one or more of the aggravating factors set forth in subparagraph VII (b)–(j) are found to exist, the jury shall then consider whether the aggravating factors found to exist sufficiently outweigh any mitigating factor or factors found to exist, or in the absence of mitigating factors, whether the aggravating factors are themselves sufficient to justify a sentence of death. Based upon this consideration, if the jury concludes that the aggravating factors outweigh the mitigating factors or that the aggravating factors, in the absence of any mitigating factors, are themselves sufficient to justify a death sentence, the jury, by unanimous vote only, may recommend that a sentence of death be imposed rather than a sentence of life imprisonment without possibility of parole. The jury, regardless of its findings with respect to aggravating and mitigating factors, is never required to impose a death sentence and the jury shall be so instructed.

V. Upon the recommendation that the sentence of death be imposed, the court shall sentence the defendant to death. Otherwise the court shall impose a sentence of life imprisonment without possibility of parole.

VI. In determining whether a sentence of death is to be imposed upon a defendant, the jury shall consider mitigating factors, including the following:

(a) The defendant's capacity to appreciate the wrongfulness of his conduct or to conform his conduct to the requirements of law was significantly impaired, regardless of whether the capacity was so impaired as to constitute a defense to the charge.

(b) The defendant was under unusual and substantial duress, regardless of whether the duress was of such a degree as to constitute a defense to the charge.

(c) The defendant is punishable as an accomplice (as defined in RSA 626:8) in the offense, which was committed by another, but the defendant's participation was relatively minor, regardless of whether the participation was so minor as to constitute a defense to the charge.

(d) The defendant was youthful, although not under the age of 18.

(e) The defendant did not have a significant prior criminal record.

(f) The defendant committed the offense under severe mental or emotional disturbance.

(g) Another defendant or defendants, equally culpable in the crime, will not be punished by death.

(h) The victim consented to the criminal conduct that resulted in the victim's death.

(i) Other factors in the defendant's background or character mitigate against imposition of the death sentence.

VII. If the defendant is found guilty of or pleads guilty to the offense of capital murder, the following aggravating factors are the only aggravating factors that shall be considered, unless notice of additional aggravating factors is provided under subparagraph I(b):

(a) The defendant:

(1) purposely killed the victim;

(2) purposely inflicted serious bodily injury which resulted in the death of the victim;

(3) purposely engaged in conduct which:

(A) the defendant knew would create a grave risk of death to a person, other than one of the participants in the offense; and

(B) resulted in the death of the victim.

(b) The defendant has been convicted of another state or federal offense resulting in the death of a person, for which a sentence of life imprisonment or a sentence of death was authorized by law.

(c) The defendant has previously been convicted of 2 or more state or federal offenses punishable by a term of imprisonment of more than one year, committed on different occasions, involving the infliction of, or attempted infliction of, serious bodily injury upon another person.

(d) The defendant has previously been convicted of 2 or more state or federal offenses punishable by a term of imprisonment of more than one year, committed on different occasions, involving the distribution of a controlled substance.

(e) In the commission of the offense of capital murder, the defendant knowingly created a grave risk of death to one or more persons in addition to the victims of the offense.

(f) The defendant committed the offense after substantial planning and premeditation.

(g) The victim was particularly vulnerable due to old age, youth, or infirmity.

(h) The defendant committed the offense in an especially heinous, cruel or depraved manner in that it involved torture or serious physical abuse to the victim.

(i) The murder was committed for pecuniary gain.

(j) The murder was committed for the purpose of avoiding or preventing a lawful arrest or effecting an escape from lawful custody.

VIII. If a person is convicted of the offense of capital murder and the court does not impose the penalty of death, the court shall impose a sentence of life imprisonment without possibility of parole.

IX. If the jury cannot agree on the punishment within a reasonable time, the judge shall impose the sentence of life imprisonment without possibility of parole. If the case is reversed on appeal because of error only in the presentence hearing, the new trial which may be ordered shall apply only to the issue of punishment.

X. XV. An execution carried out by lethal injection shall be performed by a person selected by the commissioner of the department of corrections and trained to administer the injection. 637:3–a Willful Concealment.

I. A person is guilty of willful concealment if, without authority, he or she willfully conceals the goods or merchandise of any store while still upon the premises of such store. Goods or merchandise found concealed upon the person shall be prima facie evidence of willful concealment. Notwithstanding RSA 637:11, willful concealment shall be a misdemeanor.

II. A person commits theft if, with the purpose to deprive a merchant of goods or merchandise, he or she knowingly:

637:4 Theft by Deception.

I. A person commits theft if he obtains or exercises control over property of another by deception and with a purpose to deprive him thereof.

II. For the purposes of this section, deception occurs when a person purposely:

(a) Creates or reinforces an impression which is false and which that person does not believe to be true, including false impressions as to law, value, knowledge, opinion, intention or other state of mind. Provided, however, that an intention not to perform a promise, or knowledge that it will not be performed, shall not be inferred from the fact alone that the promise was not performed; or

(b) Fails to correct a false impression which he previously had created or reinforced and which he did not believe to be true, or which he knows to be influencing another to whom he stands in a fiduciary or confidential relationship; or

(c) Prevents another from acquiring information which is pertinent to the disposition of the property involved; or

(d) Fails to disclose a known lien, adverse claim or other legal impediment to the enjoyment of property which he transfers or encumbers in consideration for the property obtained, whether such impediment is or is not valid, or is or is not a matter of official record; or

III. Theft by deception does not occur, however, when there is only falsity as to matters having no pecuniary significance, or puffing by statements unlikely to deceive ordinary persons in the group addressed. "Puffing" means an exaggerated commendation of wares in communications addressed to the public or to a class or group.

IV. A person commits theft under this section notwithstanding that the victim has suffered no actual or net pecuniary loss.

(a) Cause physical harm in the future to the person threatened or to any other person or to property at any time; or

(b) Subject the person threatened or any other person to physical confinement or restraint; or

(c) Engage in other conduct constituting a crime; or

(d) Accuse any person of a crime or expose him to hatred, contempt or ridicule; or

(h) Bring about or continue a strike, boycott or other similar collective action to obtain property which is not demanded or received for the benefit of the group which the actor purports to represent; or

(i) Do any other act which would not in itself substantially benefit him but which would harm substantially any other person with respect to that person's health, safety, business, calling, career, financial condition, reputation, or personal relationships.

637:7 Receiving Stolen Property.

I. A person commits theft if he receives, retains, or disposes of the property of another knowing that it has been stolen, or believing that it has probably been stolen, with a purpose to deprive the owner thereof.

(a) Is found in possession or control of property stolen from 2 or more persons on separate occasions; or

(b) Has received other stolen property within the year preceding the receiving charged; or

(c) Being a dealer in property of the sort received, retained or disposed, acquires it for a consideration which he knows is far below its reasonable value, or

Anyone doing so with the intent thereby to conceal the identity of the item or to defraud a manufacturer, seller or purchaser, or to hinder competition in the areas of sales and servicing, or to prevent the detection of a crime shall be guilty of a misdemeanor.

II. Any person who buys, receives, possesses, sells or disposes of any machine, mechanical or electrical device or any other property knowing that the identification number or numbers or any other identifying mark on the item have been removed, defaced, altered, changed, destroyed, obliterated or mutilated shall be guilty of a misdemeanor. However, if a person discovering that the identification number or numbers or any other identifying mark have been removed, defaced, altered, changed, destroyed, obliterated or mutilated shall report the same to the nearest police station, he shall not be charged with violating this section. Further, said provisions do not apply to those persons who, on August 13, 1977, are lawfully in possession of that type of property described in paragraph I which does not have identifying numbers or marks or from which the identifying marks or numbers have been lost inadvertently.

III. The provisions of this section do not apply to those cases or instances where any of the changes or alterations enumerated in paragraph I have been customarily made or done in an established practice in the ordinary and regular conduct of business by the original manufacturer, or by his duly appointed direct representative, or under specific authorization from the original manufacturer.

IV. When property described in paragraph I comes into the custody of a law enforcement officer, it shall be considered stolen or embezzled property, and prior to being disposed of, shall have an identifying number engraved on it or embedded in it.

IV. This section shall not apply to the attachment of private equipment to residential telephone lines unless the telephone company can prove that the attached equipment will cause direct harm to the telephone system. Attached equipment which is registered with the public utilities commission shall not require a protective interconnecting device. If the telephone company cites this section in its directories or other customer informational material, said company shall duplicate the entire section verbatim therein.

(b) Having custody of a propelled vehicle pursuant to a rental or lease agreement with the owner thereof whereby such vehicle is to be returned to the owner at a specified time and place, he abandons the vehicle or willfully refuses or neglects to redeliver it to the owner in such manner as he may have agreed; or

CHAPTER 649–A

CHILD SEXUAL ABUSE IMAGES

649–A:1 Declaration of Findings and Purposes.

I. The legislature finds that there has been a proliferation of exploitation of children through their use as subjects in sexual performances. The care of children is a sacred trust and should not be abused by those who seek to profit through a commercial network based upon the exploitation of children. The public policy of the state demands the protection of children from exploitation through sexual performances.

II. It is the purpose of this chapter to facilitate the prosecution of those who exploit children in the manner specified in paragraph I. In accordance with the United States Supreme Court's decision in New York v. Ferber, this chapter makes the dissemination

of visual representations of children under the age of 16 engaged in sexual activity illegal irrespective of whether the visual representations are legally obscene; and the legislature urges law enforcement officers to aggressively seek out and prosecute those who violate the provisions of this chapter.

Source. 1983, 448:2, eff. Aug. 23, 1983.

649–A:2 Definitions. In this chapter:

I. "Child" means any person under the age of 18 years.

II. "Disseminate" means to import, publish, produce, print, manufacture, distribute, sell, lease, exhibit, or display.

III. "Sexually explicit conduct" means human masturbation, the touching of the actor's or other person's sexual organs in the context of a sexual relationship, sexual intercourse actual or simulated, normal or perverted, whether alone or between members of the same or opposite sex or between humans and animals, or any lewd exhibitions of the buttocks, genitals, flagellation, bondage, or torture. Sexual intercourse is simulated when it depicts explicit sexual intercourse that gives the appearance of the consummation of sexual intercourse, normal or perverted.

IV. "Visual representation" means any visual depiction, including any photograph, film, video, digital image, picture, or computer or computer-generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct, where:

(a) The production of such visual depiction involves the use of a child engaging in or being engaged in sexually explicit conduct; or

(b) Such visual depiction is a digital image, computer image, or computer-generated image of a child engaging in or being engaged in sexually explicit conduct; or

(c) Such visual depiction has been created, adapted, or modified to appear that an identifiable child is engaging in or being engaged in sexually explicit conduct.

V. (a) "Identifiable child" means a person:

(1) Who was a child at the time the visual depiction was created, adapted, or modified; or

(2) Whose image as a child was used in creating, adapting, or modifying the visual depiction; and

(3) Who is recognizable as an actual person by the person's face, likeness, or other distinguishing characteristic, such as a unique birthmark or other recognizable feature.

(b) The term "identifiable child" shall not be construed to require proof of the actual identity of the identifiable child.

VI. "Previous conviction" or "previously convicted" means having been convicted by a jury or a judge, or having plead guilty prior to the commission of the current offense. For purposes of this paragraph, a previous conviction need not have been affirmed on appeal.

VII. "Computer" means an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical, arithmetic, or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device, but such term does not include an automated typewriter or typesetter, a portable hand held calculator, or other similar device.

II. An offense under this section shall be a class A felony if such person has had no previous convictions in this state or another jurisdiction for the conduct prohibited by paragraph I. Upon conviction of an offense under this section based on an indictment alleging that the person has been previously convicted of an offense under this section or a reasonably equivalent offense in another jurisdiction, the defendant may be sentenced to a maximum sentence not to exceed 20 years and a minimum sentence not to exceed ½ of the maximum sentence.

III. It shall be an affirmative defense to a charge of violating paragraph I of this section that the defendant:

(a) Possessed less than 3 images of any visual depiction proscribed by that paragraph; and

(b) Promptly and in good faith, and without retaining or allowing any person, other than a law enforcement agency, to access any visual depiction or copy thereof:

(1) Took reasonable steps to destroy each such visual depiction; or

(b) Knowingly publish, exhibit, or otherwise make available any visual representation of a child engaging in or being engaged in sexually explicit conduct.

Upon conviction of an offense under this section based on an indictment alleging that the person has been previously convicted of an offense under this section or a reasonably equivalent offense in an out-of-state jurisdiction, the defendant may be sentenced to a maximum sentence not to exceed 30 years and a minimum sentence not to exceed ½ of the minimum.

(b) If such person has no previous convictions in this state or another state for the conduct prohibited in paragraph I, and is convicted under subparagraph I(b) with having less than 3 images or visual representations, the defendant will be guilty of a class B felony.

III. Nothing in this chapter shall be construed to limit any law enforcement agency from possessing or displaying or otherwise make available any images as may be necessary to the performance of a valid law enforcement function.

Source. 2008, 323:2, eff. Jan. 1, 2009.

649–A:3–b Manufacture of Child Sexual Abuse Images.

I. No person shall knowingly create, produce, manufacture, or direct a visual representation of a child engaging in or being engaged in sexually explicit conduct, or participate in that portion of such visual representation that consists of a child engaging in or being engaged in sexually explicit conduct.

II. If such person has had no previous convictions in this state or another state for the conduct prohibited in this section, the defendant may be sentenced to a maximum sentence not to exceed 30 years and a minimum sentence not to exceed ½ of the maximum. Upon conviction of an offense under this section based on an indictment alleging that the person has been previously convicted of an offense under this section or a reasonably equivalent offense in an out-of-state jurisdiction, a person may be sentenced to life imprisonment or for such term as the court may order.

Source. 1983, 448:2, eff. Aug. 23, 1983.

649–A:5 Justifiable Dissemination. It is an affirmative defense to prosecution under this chapter that dissemination was:

I. Restricted to institutions or persons having scientific, medical, educational, governmental or other similar justification for possessing a visual representation of a child engaging in sexual activity; or

II. Of the same material available in the same or another form in any public library in the state.

649–A:7 Discovery.

I. In any criminal proceeding, any material that constitutes a visual representation of a child engaging in or being engaged in sexually explicit conduct shall remain in the care, custody, and control of the state or the court.

II. The state shall provide ample opportunity for the defendant, his or her attorney, or any individual the defendant may seek to qualify to furnish expert testimony at trial, or any expert retained in anticipation of criminal litigation or for preparation for trial, to inspect, view, and examine the property or material at a state facility.

III. Upon a defense motion or by agreement of the parties establishing that it is necessary to copy, photograph, duplicate, or otherwise reproduce such material or property in order to prepare a defense, the court may authorize such action, provided that the court's order include a protective order prohibiting disclosure of the material or property to any one other than the defendant, his or her attorney, or any individual the defendant may seek to qualify to furnish expert testimony at trial, or any expert retained in anticipation of criminal litigation or for preparation for trial. The court protective order shall require that all such material or property provided to the defense be kept secure against theft and inadvertent disclosure to any other person and be maintained in a manner which deters copying or dissemination. Any person either handling or viewing such material or property shall sign a non-disclosure agreement agreeing to refrain from copying or publishing any visual representation of a child engaging in or being engaged in sexually explicit conduct. Any person who views any of the images shall certify in writing that he or she has not knowingly kept any material or property which would qualify as an image of child sexual abuse under state or federal law, and that all materials, property, and signed non-disclosure agreements shall be returned to the state at the end of the case.

VII. "Child" means a person under the age of 18.

650:2 Offenses.

II. A person who commits any of the acts specified in subparagraphs (a) through (e) of paragraph I with knowledge that such act involves a child in material deemed obscene pursuant to this chapter is guilty of:

(a) A class B felony if such person has had no prior convictions in this state or another state for the conduct described in this paragraph;

650:4 Justifiable and Non-Commercial Private Dissemination. It is an affirmative defense to prosecution under this chapter that dissemination was restricted to:

I. Institutions or persons having scientific, educational, governmental or other similar justification for possessing obscene material; or

II. Non-commercial dissemination to personal associates of the accused who are not under 18 years of age.

Source. 1971, 518:1, eff. Nov. 1, 1973.

650:5 Evidence; Adjudication of Obscenity. In any prosecution under this chapter, evidence shall be admissible to show:

Preliminary Hearing

650:6 Preliminary Hearing.

I. No recognized or established school, museum, public library or governmental agency, nor any person acting as an employee or agent of such institution, shall be arrested, charged or indicted for any violation of a provision of this chapter until such time as the material involved has first been the subject of an adversary hearing wherein such institution or person is made a defendant, and, after such material is declared by the court to be obscene matter, such institution or person continues to engage in the conduct prohibited by this chapter. The sole issue at the hearing shall be whether the material is obscene matter.

II. The adversary hearing prescribed in paragraph I of this section may be initiated only by complaint of the county attorney or the attorney general. Hearing on the complaint shall be held in the superior court of the county in which the alleged violation occurs. Notice of the complaint and of the hearing shall be given by registered mail or personal service. The notice shall state the nature of the violation, the date, place and time of the hearing, and the right to present and cross-examine witnesses. In addition to the defendant, any other interested party may appear at the hearing in opposition to the complaint and may present and cross-examine witnesses.

For the purposes of this paragraph, the term "interested party" includes, but is not limited to the manufacturer of the material alleged to be harmful to minors.

III. The state or any defendant may appeal from a judgment. Such appeal shall not stay the judgment. Any defendant engaging in conduct prohibited by this chapter subsequent to notice of the judgment finding the material to be obscene matter shall be subject to criminal prosecution notwithstanding the appeal from the judgment.

CHAPTER 651

SENTENCES

General Provisions

Sentence to County Correctional Facility

Restitution

General Provisions

651:1 Applicability.

I. The provisions of this chapter govern the sentencing for every offense, whether defined within or outside the code, except as provided by RSA 630.

II. This chapter does not deprive the court of any authority conferred by law to decree a forfeiture of property, suspend or cancel a license, remove a person from office, or impose any other civil penalty. Any appropriate order exercising that authority may be included as part of the judgment of conviction.

Source. 1971, 518:1. 1973, 370:1, eff. Nov. 1, 1973.

651:2 Sentences and Limitations.

I. A person convicted of a felony or a Class A misdemeanor may be sentenced to imprisonment, probation, conditional or unconditional discharge, or a fine.

II. If a sentence of imprisonment is imposed, the court shall fix the maximum thereof which is not to exceed:

(a) Fifteen years for a class A felony,

(b) Seven years for a class B felony,

(c) One year for a class A misdemeanor,

(d) Life imprisonment for murder in the second degree, and, in the case of a felony only, a minimum which is not to exceed ½ of the maximum, or if the maximum is life imprisonment, such minimum term as the court may order.

II–a. A person convicted of murder in the first degree shall be sentenced as provided in RSA 630:1–a.

II–b. A person convicted of a second or subsequent offense for the felonious use of a firearm, as provided in RSA 650–A:1, shall, in addition to any punishment provided for the underlying felony, be given a minimum mandatory sentence of 3 years imprisonment. Neither the whole nor any part of the additional sentence of imprisonment hereby provided shall be served concurrently with any other term nor shall the whole or any part of such additional term of imprisonment be suspended. No action brought to enforce sentencing under this section shall be continued for sentencing, nor shall the provisions of RSA 651–A relative to parole apply to any sentence of imprisonment imposed.

II–c. [Repealed.]

II–d. A person convicted of manslaughter shall be sentenced as provided in RSA 630:2, II.

II–e. To the minimum sentence of every person who is sentenced to imprisonment for a maximum of more than one year shall be added a disciplinary period equal to 150 days for each year of the minimum term of the sentence, to be prorated for any part of the year. The presiding justice shall certify, at the time of sentencing, the minimum term of the sentence and the additional disciplinary period required under this paragraph. This additional disciplinary period may be reduced for good conduct as provided in RSA 651–A:22 and for earned time as provided in RSA 651–A:22–a. There shall be no addition to the sentence under this section for the period of pre-trial confinement for which credit against the sentence is awarded pursuant to RSA 651–A:23.

II–f. A person convicted of violating RSA 159:3–a, I shall be sentenced as provided in RSA 159:3–a, II and III.

II–g. If a person is convicted of a felony, an element of which is the possession, use or attempted use of a deadly weapon, and the deadly weapon is a firearm, such person may be sentenced to a maximum term of 20 years' imprisonment in lieu of any other sentence prescribed for the crime.

III. A person convicted of a class B misdemeanor may be sentenced to conditional or unconditional discharge, a fine, or other sanctions, which shall not include incarceration or probation but may include monitoring by the department of corrections if deemed necessary and appropriate.

III–a. A person convicted of a violation may be sentenced to conditional or unconditional discharge, or a fine.

IV. A fine may be imposed in addition to any sentence of imprisonment, probation, or conditional discharge. The limitations on amounts of fines authorized in subparagraphs (a) and (b) shall not include the amount of any civil penalty, the imposition of which is authorized by statute or by a properly adopted local ordinance, code, or regulation. The amount of any fine imposed on:

(a) Any individual may not exceed $4,000 for a felony, $2,000 for a class A misdemeanor, $1,200 for a class B misdemeanor, and $1,000 for a violation.

(b) A corporation or unincorporated association may not exceed $100,000 for a felony, $20,000 for a misdemeanor and $1,000 for a violation. A writ of execution may be issued by the court against the corporation or unincorporated association to compel payment of the fine, together with costs and interest.

(c) If a defendant has gained property through the commission of any felony, then in lieu of the amounts authorized in paragraphs (a) and (b), the fine may be an amount not to exceed double the amount of that gain.

V. (a) A person may be placed on probation if the court finds that such person is in need of the supervision and guidance that the probation service can provide under such conditions as the court may impose. The period of probation shall be for a period to be fixed by the court not to exceed 5 years for a felony and 2 years for a class A misdemeanor, provided that the court may extend or modify the period of probation in accordance with subparagraph VII(a). Upon petition of the probation officer or the probationer, the period may be terminated sooner by the court if the conduct of the probationer warrants it.

(b) In cases of persons convicted of felonies or class A misdemeanors, or in cases of persons found to be habitual offenders within the meaning of RSA 259:39 and convicted of an offense under RSA 262:23, the sentence may include, as a condition of probation, confinement to a person's place of residence for not more than one year in case of a class A misdemeanor or more than 5 years in case of a felony. Such home confinement may be monitored by a probation officer and may be supplemented, as determined by the department of corrections or by the county department of corrections, by electronic monitoring to verify compliance.

(c) Upon recommendation by the department of corrections or by the county department of corrections, the court may, as a condition of probation, order an incarceration-bound offender placed in an intensive supervision program as an alternative to incarceration, under requirements and restrictions established by the department of corrections or by the county department of corrections.

(d) Upon recommendation by the department of corrections or by the county department of corrections, the court may sentence an incarceration-bound offender to a special alternative incarceration program involving short term confinement followed by intensive community supervision.

(e) The department of corrections and the various county departments of corrections shall adopt rules governing eligibility for home confinement, intensive supervision and special alternative incarceration programs.

(f) Any offender placed in a home confinement, intensive supervision or special alternative incarceration program who violates the conditions or restrictions of probation shall be subject to immediate arrest by a probation officer or any authorized law enforcement officer and brought before the court for an expeditious hearing pending further disposition.

(g) The court may include, as a condition of probation, restitution to the victim as provided in RSA 651:62–67 or performance of uncompensated public service as provided in RSA 651:68–70.

(h) In cases of a person convicted of a felony or class A misdemeanor, a court may require such person to be screened and/or evaluated for risk of substance use disorders at an impaired driver care management program (IDCMP) approved by the department of health and human services, and to comply with the treatment plan developed by the IDCMP as established under RSA 265–A:40, if the evidence demonstrates that substances were a contributing factor in the commission of the offense and if such person has the ability to pay the fees for the program in full.

(i) The court may include, as a condition of probation, a jail sentence of up to 30 days that a probation/parole officer may impose in segments of one to 7 days over the course of the probation period, in response to any violation of a condition of

probation, in lieu of a violation of probation hearing. Such jail sanction shall be served at the county jail facility closest to or in reasonable proximity to where the probationer is under supervision.

VI. (a) A person may be sentenced to a period of conditional discharge if such person is not imprisoned and the court is of the opinion that probationary supervision is unnecessary, but that the defendant's conduct should be according to conditions determined by the court. Such conditions may include:

(1) Restrictions on the defendant's travel, association, place of abode, such as will protect the victim of the crime or insure the public peace;

(2) An order requiring the defendant to attend counselling or any other mode of treatment the court deems appropriate;

(3) Restitution to the victim; and

(4) Performance of uncompensated public service as provided in RSA 651:68–70.

(b) The period of a conditional discharge shall be 3 years for a felony and one year for a misdemeanor or violation. However, if the court has required as a condition that the defendant make restitution or reparation to the victim of the defendant's offense or that the defendant perform uncompensated public service and that condition has not been satisfied, the court may, at any time prior to the termination of the above periods, extend the period for a felony by no more than 2 years and for a misdemeanor or violation by no more than one year in order to allow the defendant to satisfy the condition. During any period of conditional discharge the court may, upon its own motion or on petition of the defendant, discharge the defendant unconditionally if the conduct of the defendant warrants it. The court is not required to revoke a conditional discharge if the defendant commits an additional offense or violates a condition.

VI–a. [Repealed.]

VI–b. A person sentenced to conditional discharge under paragraph VI may apply for annulment of the criminal record under RSA 651:5.

VII. (a) If a probationer violates his or her probation, the court may order any of the following:

(1) Continue the sentence of probation.

(2) Modify the conditions of the probation.

(3) Extend the period of probation, provided the probationer agrees to the extension and the original period of probation plus any extension shall not exceed the probation periods authorized in paragraph V.

(4) Revoke the sentence of probation.

(b) When a sentence of probation or a conditional discharge is revoked, the probationer may be fined, as authorized by paragraph IV, if a fine was not imposed in addition to the probation or conditional discharge. Otherwise, the probationer shall be sentenced to imprisonment as authorized by paragraph II.

VIII. A person may be granted an unconditional discharge if the court is of the opinion that no proper purpose would be served by imposing any condition or supervision upon the defendant's release. A sentence of unconditional discharge is for all purposes a final judgment of conviction.

651:17–a Transfer of Youthful Offender. Any person under the age of 18 who has been certified as an adult pursuant to RSA 169–B:24 and sentenced to the state prison pursuant to RSA 651:15 or to a county correctional facility pursuant to RSA 651:17, may be transferred to the youth development center established under RSA 621 for service of his or her sentence until he or she reaches the age of 18. Restitution

651:62 Definitions. As used in this subdivision, unless the context otherwise indicates:

I. "Claimant" means a victim, dependent, or any person legally authorized to act on behalf of the victim.

II. "Dependent" means any person who was wholly or partially dependent upon the victim for care and support when the crime was committed.

III. "Economic loss" means out-of-pocket losses or other expenses incurred as a direct result of a criminal offense, including:

(a) Reasonable charges incurred for reasonably needed products, services and accommodations, including but not limited to charges for medical and dental care, rehabilitation, and other remedial treatment and care including mental health services for the victim or, in the case of the death of the victim, for the victim's spouse and immediate family;

(b) Loss of income by the victim or the victim's dependents;

(c) The value of damaged, destroyed, or lost property;

(d) Expenses reasonably incurred in obtaining ordinary and necessary services in lieu of those the injured or deceased victim would have performed, if the crime had not occurred, for the benefit of the victim or the victim's dependents;

(e) Reasonable expenses related to funeral and burial or crematory services for the decedent victim.

IV. "Offender" means any person convicted of a criminal or delinquent act.

V. "Restitution" means money or service provided by the offender to compensate a victim for economic loss, or to compensate any collateral source subrogated to the rights of the victim, which indemnifies a victim for economic loss under this subdivision.

VI. "Victim" means a person or claimant who suffers economic loss as a result of an offender's criminal conduct or the good faith effort of any person attempting to prevent or preventing the criminal conduct.

Source. 1981, 329:2. 1994, 190:1. 1996, 286:7, eff. July 1, 1997.

651:63 Restitution Authorized.

I. Any offender may be sentenced to make restitution in an amount determined by the court. In any case in which restitution is not ordered, the court shall state its reasons therefor on the record or in its sentencing order. Restitution may be ordered regardless of the offender's ability to pay and regardless of the availability of other compensation; however, restitution is not intended to compensate the victim more than once for the same injury. A restitution order is not a civil judgment.

II. Restitution ordered shall be in addition to any other penalty or fine and may be a condition of probation or parole. Restitution, if ordered, may also be a condition of any work release program administered under RSA 651:19 or RSA 651:25.

III. The making of a restitution order shall not affect the right of a victim to compensation under RSA 21–M:8–h, except to the extent that restitution is actually collected pursuant to the order. The offender shall reimburse the victims' assistance fund for any payments made by the fund to the victim pursuant to RSA 21–M:8–h after the restitution order is satisfied. Refused or unclaimed restitution payments shall be made to the victims' assistance fund.

IV. The court's determination of the amount of restitution shall not be admissible as evidence in a civil action. The court shall reduce any civil damage awards by restitution ordered and paid to the victim. Restitution orders shall survive bankruptcy.

V. The court shall add 17 percent to the total restitution payment as an administrative fee to be paid by the offender. Such administrative fee shall be divided into the following components, to be designated as follows: 15 percent shall be continually appropriated to a special fund for the division of field services, department of corrections, $22,500 of which shall lapse to the general fund at the end of each quarter should that amount be received, to maximize restitution collections, directly or through agents of contractors selected by the department; and 2 percent for the victims' assistance fund. Unexpended account balances in the special fund for the division of field services in excess of $50,000 at the end of the fiscal year shall lapse to the general fund. Administrative fees shall be paid by the offender in addition to and when each restitution payment is made.

VI. Restitution, administrative fines and fees, and other fees collected, except for supervision fees pursuant to RSA 504–A:13, shall be allocated on a prorata basis by the commissioner of corrections or his or her designee when payments are insufficient to cover the full amount due for each of these balances, except that restitution to victims shall have priority over all other allocations.

VII. On or before July 1, 1997, and each year thereafter until July 1, 2000, the division of field services, department of corrections, shall submit an annual budget plan to the joint legislative fiscal committee. The division of field services, department of corrections, shall have the authority to hire temporary personnel and to procure equipment and expend relevant operating expenses as may be necessary to implement this chapter.

651:64 Time and Method of Restitution.

I. The time and method of restitution payments or performance of restitution services shall be specified by the department of corrections. Monetary restitution may be by lump sum, or by periodic installments in any amounts. The court shall not be required to reduce the total obligation as a result of the offender's inability to pay. The offender shall bear the burden of demonstrating lack of ability to pay. Restitution shall be paid by the offender to the department of corrections unless otherwise ordered by the court. Monetary restitution shall not bear interest. Restitution shall be made to any collateral source or subrogee, if authorized by that source and after restitution to the victim, and to the victims' assistance fund, if applicable, has been satisfied. Restitution shall be a continuing obligation of the offender's estate and shall inure to the benefit of the victim's estate, provided that no indebtedness shall pass to any heir of the offender's estate.

II. The department of corrections shall have continuing authority over the offender for purposes of enforcing restitution until the restitution order is satisfied.

III. The department may garnish the offender's wages for the purpose of ensuring payment of victim restitution.

651:65 Civil Actions. This subdivision does not bar, suspend, or otherwise affect any right or liability for damages, penalty, forfeiture or other remedy authorized by law to be recovered or enforced in a civil action, regardless of whether the conduct involved in such civil action constitutes an economic loss. Any restitution ordered and paid shall be deducted from the amount of any judgment awarded in a civil action brought by the victim or other authorized claimant against the offender based on the same facts. If the restitution ordered and made was work restitution, the reasonable value of the services may be deducted from any such judgment.

651:66 Revocation of Restitution. The supervising agency, or the offender who has been sentenced to pay restitution and has not inexcusably defaulted in payment thereof, may at any time petition the court which sentenced him for a revocation of any unpaid portion of the restitution. If the court finds that the circumstances which warranted the imposition of the restitution have changed, or that it would otherwise be unjust to require payment, the court may revoke the unpaid portion of the restitution in whole or in part, or modify the time and method of payment.

651:67 Failure to Make Restitution.

I. Any offender who is sentenced to make restitution under RSA 651:63, and who purposely violates the court's order by either failing to make restitution or by defaulting in the payment or performance of the restitution authorized, may be prosecuted for contempt.

II. In the case of a juvenile offender, restitution must be paid before the juvenile's eighteenth birthday, or for any person sentenced pursuant to RSA 169–B:4, before his nineteenth birthday. Any offender who fails to make restitution as ordered before the termination of juvenile court jurisdiction may be prosecuted, as an adult, for contempt.

CHAPTER 654

VOTERS AND CHECKLISTS

Eligibility

Eligibility

654:1 Voter; Office Holder.

I. Every inhabitant of the state, having a single established domicile for voting purposes, being a citizen of the United States, of the age provided for in Article 11 of Part First of the Constitution of New Hampshire, shall have a right at any meeting or election, to vote in the town, ward, or unincorporated place in which he or she is domiciled. An inhabitant's domicile for voting purposes is that one place where a person, more than any other place, has established a physical presence and manifests an intent to maintain a single continuous presence for domestic, social, and civil purposes relevant to participating in democratic self-government. A person has the right to change domicile at any time, however a mere intention to change domicile in the future does not, of itself, terminate an established domicile before the person actually moves.

I–a. A student of any institution of learning may lawfully claim domicile for voting purposes in the New Hampshire town or city in which he or she lives while attending such institution of learning if such student's claim of domicile otherwise meets the requirements of RSA 654:1, I.

II. Any elected or appointed official for whom one of the qualifications for his or her position is eligibility to be a voter in the area represented or served shall be considered to have resigned if the official moves his or her domicile so that he or she can no longer qualify to be a voter in the area represented or served. Any vacancy so created shall be filled as prescribed by law.

Source. 1979, 396:1; 436:1. 2003, 289:23. 2007, 9:1. 2009, 288:1. 2012, 285:1, eff. Aug. 26, 2012.

654:2 Temporary Absence or Presence.

I. A domicile for voting purposes acquired by any person in any town shall not be interrupted or lost by a temporary absence therefrom with the intention of returning thereto as his or her domicile. Domicile for the purpose of voting as defined in RSA 654:1, once existing, continues to exist until another such domicile is gained. Domicile for purposes of voting is a question of fact and intention coupled with a verifiable act or acts carrying out that intent. A voter can have only one domicile for voting purposes. No person shall be deemed to have lost a domicile by reason of his or her presence or absence while the voter or his or her spouse is employed in the service of the United States; nor while engaged in the navigation of the waters of the United States or of the high seas; nor while a teacher in or student of any seminary of learning; nor while confined in any public prison or other penal institution; nor while a patient or confined for any reason in any nursing, convalescent home or hospital, old folks or old age home, or like institution or private facility.

II. (a) A person present in New Hampshire for temporary purposes shall not gain a domicile for voting purposes. A person who maintains a voting domicile where he or she came from, to which he or she intends to return to as his or her voting domicile after a temporary presence in New Hampshire, does not gain a domicile in New Hampshire regardless of the duration of his or her presence in New Hampshire.

(b) A person who has been present and residing in one town or ward in New Hampshire for 30 or fewer days is presumed to be present for temporary purposes unless that person has the intention of making the place in which the person resides his or her one place, more than any other, from which he or she engages in the domestic, social, and civil activities of participating in democratic self-government including voting, and has acted to carry out that intent.

(c) For the purposes of this chapter, temporary purposes shall include, but are not limited to, being present in New Hampshire for 30 or fewer days for the purposes of tourism, visiting family or friends, performing short-term work, or volunteering or working to influence voters in an upcoming election.

(d) For the purposes of voter registration under RSA 654:7, IV(c), an applicant shall demonstrate an intent to make a place his or her domicile by providing documentation showing that the applicant has a domicile at the address provided on the voter registration form. Such documentation may include, but is not limited to:

(1) Evidence of residency, as set forth in RSA 654:1, I–a, at an institution of learning in that place;

(2) Evidence of renting or leasing an abode at that place for a period of more than 30 days, to include time directly prior to an election day;

(3) Evidence of purchasing an abode at that place;

(4) A New Hampshire resident motor vehicle registration, driver's license, or identification card issued under RSA 260:21, RSA 260:21–a, or RSA 260:21–b listing that place as his or her residence;

(5) Evidence of enrolling the person's dependent minor child in a publicly funded elementary or secondary school which serves the town or ward of that place, using the address where the registrant resides;

(6) Identifying that place as the person's physical residence address on state or federal tax forms, other government-issued identification, or other government forms that show the domicile address;

(7) Evidence of providing the address of that place to the United States Post Office as the person's permanent address, provided it is not a postal service or commercial post office box;

(8) Evidence of obtaining public utility services for an indefinite period at that place; or

(9) Evidence of arranging for a homeless shelter or similar service provider located in the town or ward to receive United States mail on behalf of the individual using that facility's address as the individual's domicile address for voting purposes.

(e) An applicant whose domicile is at an abode rented, leased, or owned by another and whose name is not listed on the rental agreement, lease, or deed may provide a written statement from a person who is listed on the rental agreement, lease, or deed, or other reasonable proof of ownership or control of the property or his or her agent who manages the property that the applicant resides at that address, signed by the owner or manager of the property under penalty of voting fraud if false information is provided.

III. An individual applying for registration as a voter 30 or fewer days before an election shall use the election day registration form required by RSA 654:7, IV(c) which shall require the applicant to provide the date he or she established his or her voting domicile in New Hampshire. The registration form shall require the voter to identify and provide evidence of a verifiable action he or she has taken carrying out his or her intent to make the place claimed on the voter registration form his or her domicile.

IV. A person may register on election day through use of an acknowledgment of domicile evidence obligation on the registration form and vote if he or she does not have any document in his or her possession at the polls providing evidence of an action carrying out his or her intent to make the address claimed as his or her voting domicile. A person relying on an acknowledgment of domicile evidence obligation to register must mail or present evidence of an action taken before registering to vote to carry out his or her intent to make the address claimed his or her domicile to the town or city clerk within 10 days following the election, or within 30 days in towns where the clerk's office is open fewer than 20 hours weekly.

V. The supervisors of the checklist, as soon as practical following an election, shall determine which registrants of that election acknowledged there was no evidence of intent to be domiciled at their address or relied solely on an acknowledgment of domicile evidence obligation to register and vote, and, of those registrants, those who failed to mail or present evidence of having taken some action to carry out their intent to establish domicile at the address listed on their voter registration applications to the clerk by the deadline. The supervisors shall attempt to verify that each such person was domiciled at the address claimed on election day by means including, but not limited to:

(a) Examining public records held by the town or city clerk, municipal assessing and planning offices, tax collector, or other municipal office that may house public records containing domicile confirmation; or

(b) Requesting 2 or more municipal officers or their agents or state election officers or their agents to visit the address and verify that the individual was domiciled there on election day. In unincorporated places that have not organized for the purposes of conducting elections, county officers may be asked to perform this function; or

(c) Referring the registrant's information to the secretary of state, who shall cause such further investigation as is warranted.

VI. Any case where supervisors are unable to verify the applicant's domicile or where evidence exists of voting fraud shall be promptly reported to the secretary of state and to the attorney general, who shall cause such further investigation as is warranted. After receiving confirmation from the secretary of state that an individual is not domiciled at the address provided, the supervisors shall also initiate removal of the person from the checklist by sending the person the notice required by RSA 654:44.

TOWN ELECTIONS

General Provisions

669:1 Election Dates.

I. All towns shall hold an election annually for the election of town officers on the second Tuesday in March, except those towns which have adopted an alternative date under RSA 40:14 or those towns which have adopted the provisions of RSA 31:94–a and have, by majority vote at a previous town meeting, decided to elect officers on the second Tuesday in May.

II. Notwithstanding the provisions of paragraph I of this section, any town which has adopted a municipal charter under the provisions of RSA 49–B:1–6 may establish the second Tuesday in March, the second Tuesday in May, or the first Tuesday after the first Monday in November in odd-numbered years as the date for the election of town officers.

III. No town election shall be held in conjunction with the biennial election.

IV. Any local political subdivision which has not adopted RSA 40:13, the official ballot referendum form of meeting, but whose voting checklist comprises all or part of the checklist for a school district which has adopted an April or May election date under RSA 40:14, may, by vote of the legislative body, vote to coordinate its elections with the school district's elections and to hold its elections on the same April or May date as the school district. Such local political subdivision may, in addition, vote to hold the second session of its annual meeting, for transacting all business not required to be voted on by official ballot, within 2 weeks of the election date at a time and date determined by the governing body. The joint elections shall be held at a time and place determined by, and shall be supervised by, the election officials of the local political subdivision, coordinated as set forth in RSA 671:25 and RSA 671:26, with costs allocated in the same manner as in previous years or as may be mutually agreed upon by the governing bodies. A vote under this paragraph may be rescinded by the local political subdivision in like manner. No vote under this section shall take effect until the annual election next following such vote.

669:5 Voters and Checklists. The supervisors shall prepare, post, and revise the checklist for a town meeting or election in the same manner as for a state election as provided in RSA 654:25–654:31, provided, however, that the session for correction shall be held on Saturday 6 to 13 days prior to the election. The supervisors shall also hold one session for correction of the checklist on the day immediately prior to the first day of the filing period for candidates for town office, as provided in RSA 669:19 or 669:42, as applicable, from 7:00 p.m. to 7:30 p.m. and at the discretion of the supervisors for extended hours.

No person shall at the same time hold the offices of town treasurer and town clerk. No full-time town employee shall at the same time hold the office of selectman. No official handling funds of a town shall at the same time hold the office of auditor.

No selectman, town manager, school board member except a cooperative school board member, full-time town, village district, school district except a cooperative school district, or other associated agency employee or village district commissioner shall at the same time serve as a budget committee member-at-large under RSA 32.

I–a. No person shall at the same time file a declaration of candidacy for any 2 or more elected offices that are incompatible under paragraph I.

II. The provisions of paragraph I refer to the actual holding of office, and are not to be construed to prevent the transfer between offices of information obtained in the regular conduct of business nor to prevent the personnel in any office from furnishing clerical assistance to any other office.

Regular School Districts

671:4 Board. A school district which is not a cooperative school district as defined in RSA 195:1 may have a school board of 3, 5, 7, or 9 members, as it shall determine by vote at any annual meeting. They shall serve for a term of 3 years. Insofar as possible, an equal number of the members shall be elected at each school district election. Whenever such a district determines to change the number of board members, it shall also determine the number of members to be elected each year. Such change shall not take effect until the school district election in the year next following the one in which the change is voted. The board will increase or decrease in membership so that there will always be an uneven number of members until the desired number is reached. The school board of a district which does not otherwise vote shall have 3 members.

671:5 Auditors. At each district election, each district which is not a cooperative school district as defined in RSA 195:1 shall elect one or more auditors. In a district voting to elect 2 or more auditors, their terms shall be staggered so that one auditor shall be elected each year for a term of office of the same number of years as there are auditors; provided, however, that, in the first year, the auditors shall be chosen for varying terms so that the term of one auditor shall expire in the next succeeding year, the term of the second auditor, the next year, and so on for the number of years as there are number of auditors. When voters of the district direct the school board to request an audit by independent public accountants from outside the district, they shall not be required to choose auditors for the year covered by said audit.

The moderator shall take office upon the adjournment of the regular school district meeting held in the year of the moderator's election and upon the moderator's qualification for office, whichever is later. The treasurer shall take office upon the close of the fiscal year

In the case of a vacancy of the entire membership of the school board, or if the remaining members are unable, by majority vote, to agree upon an appointment, the selectmen of the town or towns involved shall appoint members by majority vote in convention.

(b) In a cooperative school district, the remaining school board members representing the same town or towns as the departed member shall fill a vacancy on the school board, provided that there are at least 2 such members. If there are less than 2 remaining members on the cooperative school

board representing the same town or towns as the departed member, or if the remaining members are unable, by majority vote, to agree upon an appointment, the selectmen of the town or towns involved shall fill the vacancy by majority vote in convention. If the selectmen are unable to fill the vacancy then the cooperative school district moderator shall make the appointment. A member appointed to fill a vacancy under this subparagraph shall serve until the next district election when the voters of the district shall elect a replacement for the unexpired term.

III. Vacancies in the office of moderator shall be filled by vote at a school meeting or election, provided that, until a replacement is chosen, the school district clerk shall serve as moderator or shall appoint a moderator pro tempore.

IV. In a cooperative school district, the remaining budget committee members representing the same town or towns as the departed member shall fill a vacancy on the budget committee, provided that there are at least 2 such members. If there are less than 2 remaining members on the budget committee representing the same town or towns as the departed member, or if the remaining members are unable, by majority vote, to agree upon an appointment, the selectmen of the town or towns involved shall fill the vacancy by majority vote in convention. If the selectmen are unable to fill the vacancy then the cooperative school district moderator shall make the appointment. If the vacancy is for the cooperative school board representative to the cooperative school district budget committee, such vacancy shall be filled by the cooperative school board. A member appointed to fill a vacancy under this subparagraph shall serve until the next district election when the voters of the district shall elect a replacement for the unexpired term.

TITLE LXIV

PLANNING AND ZONING

CHAPTER 674

LOCAL LAND USE PLANNING AND REGULATORY POWERS

Capital Improvements Program

674:5 Authorization. In a municipality where the planning board has adopted a master plan, the local legislative body may authorize the planning board to prepare and amend a recommended program of municipal capital improvement projects projected over a period of at least 6 years. As an alternative, the legislative body may authorize the governing body of a municipality to appoint a capital improvement program committee, which shall include at least one member of the planning board and may include but not be limited to other members of the planning board, the budget committee, or the town or city governing body, to prepare and amend a recommended program of municipal capital improvement projects projected over a period of at least 6 years. The capital improvements program may encompass major projects being currently undertaken or future projects to be undertaken with federal, state, county and other public funds. The sole purpose and effect of the capital improvements program shall be to aid the mayor or selectmen and the budget committee in their consideration of the annual budget.

674:6 Purpose and Description. The capital improvements program shall classify projects according to the urgency and need for realization and shall recommend a time sequence for their implementation. The program may also contain the estimated cost of each project and indicate probable operating and maintenance costs and probable revenues, if any, as well as existing sources of funds or the need for additional sources of funds for the implementation and operation of each project. The program shall be based on information submitted by the departments and agencies of the municipality and shall take into account public facility needs indicated by the prospective development shown in the master plan of the municipality or as permitted by other municipal land use controls.

674:7 Preparation.

I. In preparing the capital improvements program, the planning board or the capital improvement program committee shall confer, in a manner deemed appropriate by the board or the committee, with the mayor or the board of selectmen, or the chief fiscal officer, the budget committee, other municipal officials and agencies, the school board or boards, and shall review the recommendations of the master plan in relation to the proposed capital improvements program.

II. Whenever the planning board or the capital improvement program committee is authorized and directed to prepare a capital improvements program, every municipal department, authority or agency, and every affected school district board, department or agency, shall, upon request of the planning board or the capital improvement program committee, transmit to the board or committee a statement of all capital projects it proposes to undertake during the term of the program. The planning board or the capital improvement program committee shall study each proposed capital project, and shall advise and make recommendations to the department, authority, agency, or school district board, department or agency, concerning the relation of its project to the capital improvements program being prepared.

674:8 Consideration by Mayor and Budget Committee. Zoning

674:16 Grant of Power.

I. For the purpose of promoting the health, safety, or the general welfare of the community, the local

legislative body of any city, town, or county in which there are located unincorporated towns or unorganized places is authorized to adopt or amend a zoning ordinance under the ordinance enactment procedures of RSA 675:2–5. The zoning ordinance shall be designed to regulate and restrict:

(a) The height, number of stories and size of buildings and other structures;

(b) Lot sizes, the percentage of a lot that may be occupied, and the size of yards, courts and other open spaces;

(c) The density of population in the municipality; and

(d) The location and use of buildings, structures and land used for business, industrial, residential, or other purposes.

II. The power to adopt a zoning ordinance under this subdivision expressly includes the power to adopt innovative land use controls which may include, but which are not limited to, the methods contained in RSA 674:21.

III. In its exercise of the powers granted under this subdivision, the local legislative body of a city, town, or county in which there are located unincorporated towns or unorganized places may regulate and control the timing of development as provided in RSA 674:22.

IV. Except as provided in RSA 424:5 or RSA 422–B or in any other provision of Title XXXIX, no city, town, or county in which there are located unincorporated towns or unorganized places shall adopt or amend a zoning ordinance or regulation with respect to antennas used exclusively in the amateur radio services that fails to conform to the limited federal preemption entitled Amateur Radio Preemption, 101 FCC 2nd 952 (1985) issued by the Federal Communications Commission.

V. In its exercise of the powers granted under this subdivision, the local legislative body of a city, town, or county in which there are located unincorporated towns or unorganized places may regulate and control accessory uses on private land. Unless specifically proscribed by local land use regulation, aircraft take offs and landings on private land by the owner of such land or by a person who resides on such land shall be considered a valid and permitted accessory use.

674:17 Purposes of Zoning Ordinances.

I. Every zoning ordinance shall be adopted in accordance with the requirements of RSA 674:18. Zoning ordinances shall be designed:

(a) To lessen congestion in the streets;

(b) To secure safety from fires, panic and other dangers;

(c) To promote health and the general welfare;

(d) To provide adequate light and air;

(e) To prevent the overcrowding of land;

(f) To avoid undue concentration of population;

(g) To facilitate the adequate provision of transportation, solid waste facilities, water, sewerage, schools, parks, child day care;

(h) To assure proper use of natural resources and other public requirements;

(i) To encourage the preservation of agricultural lands and buildings and the agricultural operations described in RSA 21:34–a supporting the agricultural lands and buildings; and

(j) To encourage the installation and use of solar, wind, or other renewable energy systems and protect access to energy sources by the regulation of orientation of streets, lots, and buildings; establishment of maximum building height, minimum set back requirements, and limitations on type, height, and placement of vegetation; and encouragement of the use of solar skyspace easements under RSA 477. Zoning ordinances may establish buffer zones or additional districts which overlap existing districts and may further regulate the planting and trimming of vegetation on public and private property to protect access to renewable energy systems.

II. Every zoning ordinance shall be made with reasonable consideration to, among other things, the character of the area involved and its peculiar suitability for particular uses, as well as with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the municipality.

III. Except as provided in RSA 424:5 or RSA 422–B or in any other provision of Title XXXIX, no city, town, or county in which there are located unincorporated towns or unorganized places shall adopt a zoning ordinance or regulation with respect to antennas used exclusively in the amateur radio service that fails to conform to the limited federal preemption entitled Amateur Radio Preemption, 101 FCC 2nd 952 (1985) issued by the Federal Communications Commission.

Site Plans

674:43 Power to Review Site Plans.

I. A municipality, having adopted a zoning ordinance as provided in RSA 674:16, and where the planning board has adopted subdivision regulations as provided in RSA 674:36, may by ordinance or resolution further authorize the planning board to require preliminary review of site plans and to review and approve or disapprove site plans for the development or change or expansion of use of tracts for nonresidential uses or for multi-family dwelling units, which are defined as any structures containing more than 2 dwelling units, whether or not such development includes a subdivision or resubdivision of the site.

II. The ordinance or resolution which authorizes the planning board to review site plans shall make it the duty of the city clerk, town clerk, village district clerk or other appropriate recording official to file with the register of deeds of the county in which the municipality is situated a certificate of notice showing that the planning board has been so authorized, giving the date of such authorization.

III. The local legislative body of a municipality may by ordinance or resolution authorize the planning board to delegate its site review powers and duties in regard to minor site plans to a committee of technically qualified administrators chosen by the planning board from the departments of public works, engineering, community development, planning, or other similar departments in the municipality. The local legislative body may further stipulate that the committee members be residents of the municipality. This special site review committee may have final authority to approve or disapprove site plans reviewed by it, unless the local legislative body deems that final approval shall rest with the planning board, provided that the decision of the committee may be appealed to the full planning board so long as notice of appeal is filed within 20 days of the committee's decision. All provisions of RSA 676:4 shall apply to actions of the special site review committee, except that such a committee shall act to approve or disapprove within 60 days after submissions of applications, subject to extension or waiver as provided in RSA 676:4, I(f). If a municipality authorizes a site review committee in accordance with this paragraph, the planning board shall adopt or amend its regulations specifying application, acceptance and approval procedures and defining what size and kind of site plans may be reviewed by the site review committee prior to authorizing the committee.

IV. The local legislative body of a municipality may by ordinance or resolution establish thresholds based on the size of a project or a tract below which site plan review shall not be required. If a municipality establishes a size limit below which site plan review shall not be required, the planning board shall adopt or amend its regulations to clearly reflect that threshold. Nothing in this paragraph shall preclude the planning board from establishing such thresholds in the absence of action by the legislative body.

V. Site plan review shall not be required for a collocation or a modification of a personal wireless service facility, as defined in RSA 12–K:2.

Governmental Use of Property

674:54 Governmental Land Uses.

I. In this section, "governmental use" means a use, construction, or development of land owned or occupied, or proposed to be owned or occupied, by the state, university system, the community college system of New Hampshire, or by a county, town, city, school district, or village district, or any of their agents, for any public purpose which is statutorily or traditionally governmental in nature.

II. The state, university system, community college system of New Hampshire, county, town, city, school district, or village district shall give written notification to the governing body and planning board, if such exists, of a municipality of any proposed governmental use of property within its jurisdiction, which constitutes a substantial change in use or a substantial new use. Written notification shall contain plans, specifications, explanations of proposed changes available at the time, a statement of the governmental nature of the use as set forth in paragraph I, and a proposed construction schedule. Such notification shall be provided at least 60 days prior to the beginning of construction. Either the governing body or planning board of the municipality may conduct a public hearing relative to the proposed governmental use. Any such hearing shall be held within 30 days after receipt of notice by the governing body or planning board. A representative of the governmental entity which provided notice shall be available to present the plans, specifications, and construction schedule, and to provide explanations. The governing body or planning board may issue nonbinding written comments relative to conformity or noncon-

formity of the proposal with normally applicable land use regulations to the sponsor of the governmental use within 30 days after the hearing.

II–a. Any use, construction, or development of land occurring on governmentally owned or occupied land, but which is not a governmental use as defined in paragraph I, shall be fully subject to local land use regulations.

II–b. The construction and operation of any solid waste disposal facility on land owned or occupied by any city or town within another city or town shall be subject to local land use regulations to the same extent as if the land were owned and occupied by a private entity. Nothing in this paragraph shall affect the construction and operation of a solid waste facility on land owned by a solid waste management district formed under RSA 53–A or RSA 53–B or any combination of municipalities authorized by an act of the general court, if the land is located within a city or town that is part of the district.

III. This section shall not apply to:

(a) The layout or construction of public highways of any class, or to the distribution lines or transmission apparatus of governmental utilities, provided that the erection of a highway or utility easement across a parcel of land, shall not, in and of itself, be deemed to subdivide the remaining land into 2 or more lots or sites for conveyance for development purposes in the absence of subdivision approval under this title. For purposes of this subparagraph, "transmission apparatus" shall not include wireless communication facilities.

(b) The erection, installation, or maintenance of poles, structures, conduits and cables, or wires in, under, or across any public highways under RSA 231, or licenses or leases for telecommunication facilities in, under, or across railroad rights of way. For purposes of this subparagraph, "structures" shall not include wireless communications facilities.

IV. In the event of exigent circumstances where the delay entailed by compliance with this section would endanger public health or safety, the governor may declare a governmental use exempt from the requirements of this section.

Zoning Ordinance, Historic District Ordinance and Building Code Enactment Procedures

675:2 Method of Enactment in Cities and Towns Operating Under Town Council Form of Government.

I. In cities or in towns operating under the town council form of government, and in counties in which there are located unincorporated towns or unorganized places, the local legislative body shall determine the manner in which a zoning ordinance, historic district ordinance, or a building code is established and amended; provided, however, that any question concerning the establishment and amendment of a zoning ordinance, historic district ordinance, or a

building code may be placed on a ballot separate from the ballot used to elect city or town officers. The planning board shall forward to the town clerk all proposed amendments to a zoning ordinance, historic district ordinance, or building code not later than the fifth Tuesday prior to the date for electing city or town officers.

II. No zoning ordinance, historic district ordinance, or building code shall be established or amended until after a public hearing is held in accordance with the procedures required under RSA 675:7 on the proposed zoning ordinance, historic district ordinance, building code or amendment.

Source. 1983, 447:1. 1985, 103:24; 266:1. 1989, 266:25. 1990, 54:1, eff. June 5, 1990.

675:3 Method of Enactment in Certain Towns and Village Districts.

I. Any town not operating under the town council form of government, or any village district which is specifically authorized by law to enact a zoning ordinance, shall establish and amend a zoning ordinance, historic district ordinance, or building code upon the affirmative vote by ballot of a majority of the legal voters present and voting on the day of the meeting, as provided in paragraph VII. Any proposed zoning ordinance, as submitted by a planning board or any amendment to an existing zoning ordinance as proposed by a planning board, board of selectmen or village district commission shall be submitted to the voters of a town or village district in the manner prescribed in this section.

II. No zoning ordinance, historic district ordinance, or building code shall be established or amended at a town or village district meeting until after the planning board holds at least one public hearing on the proposed ordinance, code or amendment. Notice for the time and place of each public hearing shall be the same as that provided in RSA 675:7.

III. After the public hearing the planning board shall, by vote, determine the final form of the ordinance, amendment, or amendments to be presented to the town or village district, which ordinance or amendment may include editorial revisions and textual modifications resulting from the proceedings of that hearing.

IV. An additional public hearing shall be held if the proposal is substantively altered by the planning board after public hearing. Subsequent public hearings shall be held at least 14 days after the prior public hearing and with the notice provided in RSA 675:7.

V. Official copies of the final proposal to adopt or amend the zoning ordinance, historic district ordinance, or building code shall be placed on file and made available to the public at the town or village clerk's office not later than the fifth Tuesday prior to the date when action is to be taken. An official copy of the proposal shall be on display for the voters at the meeting place on the date of the meeting.

VI. Each village district must be specifically authorized to zone by the legislature.

VII. If the town or village district has adopted an official ballot for the election of its respective officers, the issue as to the adoption of the proposed ordinance, building code, or amendment shall be presented to the voters of the town or village district by having the town or village district clerk prepare an official ballot separate from the official ballot used to elect town or village district officers which shall include the following question, or by including the following question on the official ballot as prepared by the town or village district clerk:

"Are you in favor of the adoption of the zoning ordinance, historic district ordinance, or building code (or amendment to the existing town (village district) zoning ordinance, historic district ordinance, or building code) as proposed by the planning board?" In the event that there shall be more than a single proposed amendment to be submitted to the voters at any given meeting, the issue as to the several amendments shall be put in the following manner: "Are you in favor of the adoption of Amendment No. ___ as proposed by the planning board for the town (village district) zoning ordinance (historic district ordinance or building code) as follows: (Here insert topical description of substance of amendment.)?" If such action is to be taken at a meeting other than the one at which officers are to be elected, the clerk shall prepare a special ballot containing the question or questions above stated, and the meeting shall open not later than noon and shall remain open at least 8 hours. If such action is to be taken at a meeting in a town or village district which has not adopted an official ballot, the clerk may prepare a special ballot likewise separate from the ballot used to elect town or village district officers for the use of voters in voting on the question. If a majority of the voters present and voting on any question as herein provided shall vote in the affirmative, the ordinance or amendment thereto shall be declared to have been adopted. When submitting any question to the vot-

ers under this section, there shall be 2 squares printed after the question, one with the word "yes" beside it and another with the word "no" beside it.

VIII. If an amendment is submitted by the selectmen or village district commissioners, the ballot shall so indicate. A notation on the ballot stating the planning board's approval or disapproval shall immediately follow the question's description.

IX. The method for amending a zoning ordinance, historic district ordinance or building code, as set forth in this section, may also be utilized to repeal such ordinance or code. The ballot question shall use the word "repeal" in place of the words "adoption" or "amendment."

675:4 Method of Enactment by Petition.

I. Twenty-five or more voters may petition for an amendment to a zoning ordinance, historic district ordinance, or a building code. Petitioned amendments shall be voted only at the annual town or village district meeting. A petition to amend a zoning ordinance, historic district ordinance, or a building code shall be submitted to the board of selectmen or the village district commissioners during the period between 120 and 90 days prior to the annual town or village district meeting. The petition shall be in correct warrant article form, as determined by the selectmen or village district commissioners, to amend the zoning ordinance, historic district ordinance, or building code. The selectmen or the village district commissioners shall submit the petitions to the planning board in a timely manner.

II. The planning board at its first regular meeting following the petition period shall set the date of the public hearing for each petitioned amendment which is received and shall hold a public hearing on each petitioned amendment. Notice for the time and place of the public hearing shall be the same as that provided in RSA 675:7.

III. Each petitioned amendment shall be placed on a ballot which may be separate from the ballot used to elect town or village district officers. A notation on the ballot stating the planning board's approval or disapproval shall immediately follow the question's description. Any petitioned question receiving an affirmative vote of a majority of the legal voters present and voting shall be adopted, except as provided in RSA 675:5. The planning board shall forward to the town or village district clerk all proposed amendments to a zoning ordinance, historic district ordinance, or building code under this section not later than the fifth Tuesday prior to the date for electing town or village district officers.

IV. The town or village district clerk shall include each question on a petitioned amendment on the appropriate official or special ballot, or separate official ballot, in the same manner as provided in paragraph III and in RSA 675:3, VII.

V. The method for amending a zoning ordinance, historic district ordinance or building code, as set forth in this section, may also be utilized to repeal such ordinance or code. The ballot question shall use the word "repeal" in place of the word "amendment."

675:4–a Adoption of Emergency Temporary Zoning and Planning Ordinance in Certain Towns.

I. In any town which does not have a planning board, as provided by RSA 674, or a zoning ordinance, as provided in this subdivision, or in any town which has a planning board, but which does not have in effect a zoning ordinance, the selectmen, upon recommendation of the planning board, or upon written application to them for this purpose signed by 5 percent of the voters of the town, shall call a special town meeting, warning the same as provided by law, to act upon the following question: "Shall the town adopt the provisions of RSA 674:24–29 entitled 'Emergency Temporary Zoning and Planning Ordinance'?"

II. The provisions of RSA 675 relating to method of enactment shall not apply; provided, however, that there shall be a public hearing, with notice as provided in RSA 675:7, not more than 7 calendar days before the proposed special town meeting. There shall be reasonable opportunity for debate of such question at such town meeting before balloting commences. Voting shall be by ballot, with the use of the checklist used at the most recent annual meeting plus any new registrations, and the polls shall remain open at least 2 hours after debate has ended for the casting of ballots. If the question in paragraph I receives affirmative votes amounting at least to a majority of those present and voting, the provisions of RSA 674:24–29 shall take effect forthwith in the town and shall remain in effect until 2 annual town meetings shall have been held or the voters of the town consider a zoning ordinance as provided for by this chapter, whichever period of time is the lesser.

III. If no zoning ordinance has been considered and no zoning ordinance under the applicable provi-

sions of this chapter has been proposed for action by the time of the second such annual town meeting, the selectmen shall include in the warrant for such meeting the following proposal to be put as a question to be voted upon by ballot after discussion: To see if the town will vote to continue for one additional year the temporary zoning ordinance enacted under the provisions of RSA 674:24–29. If a majority of those present and voting on said article vote in the affirmative, the provisions of RSA 674:24–29 shall remain in effect in the town for one year from the date of such meeting. If a majority of those present and voting on the article vote in the negative, the provisions of RSA 674:24–29 shall cease to be in effect.

675:5 Zoning Ordinance Protest Petition.

I. Zoning regulations, restrictions and boundaries may from time to time be amended or repealed.

I–a. A favorable vote of ⅔ of all the members of the legislative body present and voting shall be required to act upon any amendment or repeal in the case of a protest against such zoning change signed by either:

(a) The owners of 20 percent of the area of the lots included in such proposed change; or

(b) The owners of 20 percent of the area within 100 feet immediately adjacent to the area affected by the change or across a street from such area.

I–b. Paragraph I–a shall apply only to amendments which alter the boundary locations separating previously defined zoning districts, or to amendments which alter the regulations or restrictions of an area not larger than ⅓ of the land area within the municipality.

I–c. The area of streets, commons, or land owned by a governmental entity shall not be included in any calculation under this section.

II. In order to have any protest considered pursuant to paragraph I–a:

(a) The owners signing the petition shall identify themselves on the petition by name and address, and by address of the property involved, or by lot and map number, or by whatever other means is used within the town or village district to identify the land in question, so that the selectmen or commissioners may identify such owners as interested and affected parties; and

(b) The signed protest petition shall be submitted to the selectmen or village district commissioners at least 7 days prior to the town or village district meeting; provided, however, that each protest petition shall apply to only one article on the warrant. A notice of receipt of the protest petition shall be posted at the polling place, and the moderator shall announce at the opening of the town meeting that a protest petition has been received.

675:6 Method of Adoption. Every local master plan, subdivision regulation, site plan review regulation and historic district regulation referred to in this title shall be adopted or amended by the planning board or historic district commission, as appropriate, in the following manner:

I. The board or commission, as appropriate, shall hold a public hearing prior to adoption or amendment. Notice for the time and place of the hearing shall be as provided in RSA 675:7.

II. The board or commission, as appropriate, may adopt or amend the master plan or regulation upon completion of the public hearing by an affirmative vote of a majority of its members.

III. No master plan, regulation, amendment or exception adopted under this section shall be legal or have any force and effect until copies of it are certified by a majority of the board or commission and filed with the city clerk, town clerk, or clerk for the county commissioners.

IV. The historic district commission may adopt or amend regulations only after the commission has held a public hearing within the district. Notice for the time and place shall be as provided in RSA 675:7. The adopted regulations shall be certified by a majority of the historic district commission members and filed with the city clerk, town clerk, or clerk for the county commissioners.

675:7 Notice Requirements for Public Hearing.

I. Notice shall be given for the time and place of each public hearing held under RSA 675:2–4 and RSA 675:6 at least 10 calendar days before the hearing. The notice required under this section shall not include the day notice is posted or the day of the public hearing. Notice of each public hearing shall be published in a paper of general circulation in the municipality and shall be posted in at least 2 public places. Any person owning property in the municipality may request notice of all public hearings on proposed amendments to the zoning ordinance, and the municipality shall provide notice, at no cost to the person, electronically or by first class mail.

I–a. If a proposed amendment to a zoning ordinance would change a boundary of a zoning district and the change would affect 100 or fewer properties, notice of a public hearing on the amendment shall be sent by first class mail to the owners of each affected property. If a proposed amendment to a zoning ordinance would change the minimum lot sizes or the permitted uses in a zoning district that includes 100 or fewer properties, notice of a public hearing on the amendment shall be sent by first class mail to the owner of each property in the district. Notice by mail shall be sent to the address used for mailing local property tax bills, provided that a good faith effort and substantial compliance shall satisfy the notice by mail requirements of this paragraph.

I–b. In the case of a petitioned zoning amendment as authorized in RSA 675:4, the petitioners shall be responsible for the cost of notice by mail under paragraph I–a. If the full cost of notice is not paid at the time of submission, the municipality shall inform the voter whose name appears first on the petition of the cost of notice within 5 business days, and the balance shall be paid within another 5 business days. If full payment is not made and received within 5 business days, the selectmen or village district commissioners may, in their discretion, decide to accept or decline the petition for submission. Failure by the municipality to inform the responsible person of the cost of notice shall be deemed a waiver of the payment requirement.

II. The full text of the proposed master plan, zoning ordinance, building code, subdivision regulation, site plan review regulation and historic district regulation, ordinance, or amendment need not be included in the notice if an adequate statement describing the proposal and designating the place where the proposal is on file for public inspection is stated in the notice. The notice of a hearing on a proposed amendment to a zoning ordinance to be sent electronically or by first class mail shall include a statement describing, to the greatest extent practicable and in easily understood language, the proposed changes to the zoning ordinance, the areas affected, and any other information calculated to improve public understanding of the proposal.
