LEARN EVERYWHERE APPLICATION REVIEWS

Teachers and ELON Members May Earn Professional Development Hours

Approved New Hampshire Department of Education (NHED) Learn Everywhere programs allow students to earn credits which can be used to fulfill high school graduation requirements at their home School Districts. You can find more information about the Learn Everywhere program here - [Learn Everywhere | Department of Education \(nh.gov\)](#).

Once a Learn Everywhere application is received by the Office of Learn Everywhere (OLE), NHED's Learn Everywhere rules ([Ed 1400](#)) require OLE to solicit certified teachers certified in the content area of course proposed in the application and Extended Learning Opportunity Network (ELON) members for inclusion on an ad hoc Learn Everywhere approval committee. The role of the committee members is to rely on their expertise and experience to review the Learn Everywhere application in accordance with the Ed 1400 rules. The review process includes a guidance document developed by OLE that is completed by each reviewer.

Based on feedback from past reviewers, and depending on the number of courses being proposed, the time commitment for a review can typically range from 1 to 3 hours. There is generally no need for in-person meetings at this time. Additionally, NHED has the ability to award a certificate for Professional Development Hours (PDHs) for time spent on the review process.

If you are interested in participating in future Learn Everywhere application reviews, please send an email to LearnEverywhere@doe.nh.gov along with a list of the content areas you would be certified to review.

If you have any questions or would like additional information please contact Tim Carney, Administrator of Educational Pathways at Timothy.C.Carney@doe.nh.gov or at 603-491-8060.
