

Foundations of Work and Family

Personal Environments-Students will demonstrate the knowledge and skills needed to effectively manage personal living environments.

OMPE 1: Explain the need for personal privacy and respect for the property of others in order to promote harmony in a family, school, and/or work environment.

Competencies

- OMPE 1.1 Identify ways to gain personal privacy within a family or group.
- OMPE 1.2 Specify how belongings can be shared with others while respecting the property of others.
- OMPE 1.3 Recognize that family, school, work and/or community setting are all part of the individual's broader living space.
- OMPE 1.4 Recognize the difference between use and abuse of public property.

OMPE 2: Plan ways of maintaining a living space to achieve personal expression, ensure safety and conserve natural resources.

Competencies

- OMPE 2.1 Identify ways of maintaining efficient living space to accommodate one's own personal lifestyle, creativity, interests, values, needs, wants and standards.
- OMPE 2.2 Identify household tasks needed for efficient care of living space.
- OMPE 2.3 Identify safety hazards common to living space and means of avoiding accidents and injuries.
- OMPE 2.4 Explain ways of conserving natural resources in family, school, work and/or community settings.
- OMPE 2.5 Identify specific consideration and/or adaptations which would improve a living space for individuals with disabling conditions.
- OMPE 2.6 Apply the process skills to implement the effective use of living space.

OMPE 3: Identify career paths in the housing, interiors and furnishings fields.

Competencies

- OMPE 3.1 Investigate a career in housing, interior, or furnishing design and identify the pathways used to reach that career.

Program/Classroom Activity Suggestions

Develop a safety checklist for each room in a home that students could use to evaluate their home. Then have each student complete the checklist for their home.

Research state/city laws concerning smoke detectors.
